

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

THE PRUDENTIAL INSURANCE CO.

OF AMERICA

WAS the pioneer in industrial insurance on this side of the water. That it set in operation forces of no mean power, may be inferred from the fact that within thirteen years of its organization, industrial insurance has attained such proportions that the two leading companies follow immediately after the three largest ordinary life insurance companies, in the United States, in amount of business written. That the system introduced in 1876 met a need of the people is shown from the fact that there are, to-day, nearly 3,000,000 industrial policies in force in this country. Of these, the PRUDENTIAL issued, in 1889, 689,245.

The plan of the PRUDENTIAL is precisely similar to that of ordinary life insurance companies, based upon correct principles. It is founded upon a system which has been demonstrated by science and proved by the experience of nearly two centuries to be the only satisfactory method of furnishing indemnity for death. It differs from ordinary companies only in matters of detail, in its adaptation to the wants of its patrons. Its principal peculiarities are: That, while the ordinary companies do not issue a policy for less than a thousand dollars, except in rare cases, the PRUDENTIAL will issue one for ten dollars. Most companies require the premiums to be paid at infrequent intervals, and in comparatively large sums, while the PRUDENTIAL receives them weekly, each of small amount, thus relieving its policy from becoming a burden. The object of an ordinary policy is to provide an estate, that of the PRUDENTIAL is to provide a burial fund to the family of the laboring man at a time when a little ready money is most needed and most appreciated. Ordinary life insurance discriminates against women—either they do not receive them or charge a higher premium for such insurance. The PRUDENTIAL insures women in its industrial branch upon the same basis as it takes male risks. No ordinary company will insure children. The PRUDENTIAL has over a quarter of a million policies in force upon children's lives.

The extent to which the PRUDENTIAL has won the confidence of the people is shown from the fact that it has insurance in force aggregating over a hundred millions of dollars, its policies being found in all sections of fifteen different States. Its policyholders, if gathered together into a single community, would form a city larger, as regards population, than any city in the country, excepting New York and Philadelphia, while the male citizens of such a town would exceed in number the muster rolls of the majority of the standing armies of the world. The amount of money for which the PRUDENTIAL is liable, under its existing contracts, is nearly equal to the total value of the gold and silver produced in Idaho and Colorado since the first discovery of the precious metals in those districts. It exceeds the value of the annual export from the United States of gold and silver bullion, by about twenty-five million dollars, and would suffice to pay the funded debts of the States of Massachusetts, New York, Pennsylvania and Virginia. It would purchase the entire cotton manufacturing interests of Massachusetts and Rhode Island, and the lumber men of Michigan, Pennsylvania and Wisconsin would dispose of the entire product of their industry for that sum.

The death claims paid by the PRUDENTIAL to the present time have included in their benefits not less than 300,000 persons, a number exceeded by the population of but eight or nine of the principal cities of the country; while the sum of four million dollars, the amount of death claims paid, is equal to the sum expended in ten years by any one of those States for the relief of the indigent distributed within their borders.

PUBLISHERS' PREFACE.

The Eighteenth Annual Edition of **THE INSURANCE YEAR BOOK** scarcely needs Preface or Introduction. It is so well known to all persons identified with the business of insurance in all of its numerous forms, that it has become standard authority as a book of reference, necessary alike to the library of the student and for convenient access by the practical worker at the desk or in the field. Within its covers are gathered interesting and valuable data, indispensable to insurance men, that can be found in no other volume extant. Statistics are presented not only relative to the home and foreign companies doing business in this country, but they include also a record of insurance transactions in every civilized country on the globe. It has been the aim of the publishers to present year by year accumulated data upon every topic germane to the business of insurance. Necessarily **THE YEAR BOOK** has grown as new features have been added, and to guard against too great bulk, we have this year printed the Appendix—Fire Departments and Water Supply—and the List of Prominent Agents in smaller type, entirely new, purchased especially for the purpose.

In the edition for 1889, we gave the Statistics of American Fire Insurance Companies, Stock and Mutual, in comparative form for ten years. In the present edition we have reduced the comparison to five years. We believe this will satisfy those who use the work most frequently, while the student, who may desire to go further back, has but to refer to last year's **YEAR BOOK** also to obtain eleven year's comparisons.

The more prominent features of **THE YEAR BOOK** may be briefly summarized.

1. **STATUTORY REQUIREMENTS.**—A careful compilation of State laws showing upon what conditions companies are permitted to do business in the several States. The compilation for each State was submitted to the officer having charge of insurance matters, and by him returned to us with corrections and approval. It can safely be assumed, therefore, that our summary of Statutory Requirements covers the ground and is entirely trustworthy.

2. **DIGEST OF INSURANCE DECISIONS.**—In this department are presented a number of brief digests of important insurance cases, both life and fire, decided by the higher judicial tribunals. While courting conciseness in their compilation we have sought to give the chief points of each decision and to preserve the reference for further consultation if desired.

3. **STATISTICS OF FOREIGN COMPANIES.**—In a series of tables the transactions of life and fire companies in various countries are presented. These have been compiled expressly for **THE YEAR BOOK** from official sources, or from our foreign contemporaries.

4. **STATISTICS OF AMERICAN FIRE INSURANCE COMPANIES.**—This department presents a five years' record of the transactions of the Stock and Mutual fire insurance companies of the country. The list includes every stock company in the country of which official information can be obtained, and such mutual companies as have \$15,000 or more of assets. Mention is also made of companies just organized, whose standing is not yet clearly defined.

5. **FIRE INSURANCE BY STATES.**—In this series of tables are shown the premiums received and losses paid by the different companies in the several States

ories. These figures were generally made up from the reports of the companies to the Insurance Departments; in some instances, where the Departments do not require such statements, the figures were supplied by the companies themselves.

6. **LIFE INSURANCE STATISTICS.**—Under this heading will be found a record of the transactions of all the life insurance companies of the country given in comparative form for ten years. These figures were compiled from official reports, and the other information given was supplied by the companies themselves. From these principal tables certain others have been made up, which will be found to contain much desirable information. "Life Insurance by States," included in this Department, indicates where the bulk of the business is obtained, and where it is desirable to redouble efforts to increase the number of insureds.

7. **LIST OF PROMINENT AGENTS.**—By reducing the size of the type in this department, we have been enabled to greatly increase the number of names in the list of agents. Many places not heretofore named in this list have been included this year.

8. **DEFINITIVE ANALYSIS OF LIFE INSURANCE RETURNS.**—This very complete and valuable series of tables, by Benj. F. Brown, has been brought down to include the transactions of 1889. A well-known actuary says of them that "they constitute the most complete and valuable analysis of life insurance reports ever presented." All companies reporting to the Massachusetts department are herein dissected thoroughly and impartially, the same basis of analysis being applied to them all. Some new calculations have been added to them this year.

9. **LIFE INSURANCE RATIOS.**—This is another very important series of tables, showing the transactions, standing and rank of companies by means of a great variety of ratios. This is the only series of tables extant that includes the business of all the life insurance companies of the country. They have been compiled from official sources, one rule of computation applied to all alike, and they are, therefore, wholly impartial, each company showing at its true valuation according to its own sworn statement. That is to say, the statements of fact are from the sworn reports of the companies; the deductions therefrom are ours.

10. **APPENDIX—FIRE DEPARTMENTS AND WATER SUPPLY.**—Year by year this department has been extended, but never have so many additions been made to it as for the present edition. No trouble or expense has been spared in gathering this valuable information, and four hundred places reported as having fire departments have been added to the list. While the information has been briefed to the least possible dimensions consistent with the facts, and the matter set in smaller type than heretofore, the number of pages devoted to the department is still in excess of any previous year.

Numerous important tables relating to Life and Fire Insurance will be found in **THE YEAR BOOK**, to which we have not space here to refer, together with much other information of special interest to underwriters. Statistics and other information regarding Accident, Fidelity, Plate Glass, Cyclone, Live Stock and other classes of insurance, will also be found in the pages of this volume. In every department some improvement has been made, and all tables brought down to include the transactions of 1889. Promising that in the future as in the past, we shall spare no effort to improve **THE YEAR BOOK**, we commend the Eighteenth Annual Edition to the kind consideration of its many patrons.

THE SPECTATOR COMPANY.

NEW YORK, July 1, 1890.

ADDENDA.

STATUTORY REQUIREMENTS.

Washington.—The first session of the first legislature of the State of Washington was held in the spring of 1890. An act relating to insurance, of which the following is a synopsis, was passed in March, approved by the Governor on the 27th of that month, and went into effect June 26, 1890.

GENERAL REQUIREMENTS.

Companies must file with the Secretary of State, who is *ex-officio* Insurance Commissioner, a copy of its charter and articles of incorporation and a statement of its capital and assets. The certificate of a company organized in another country must contain also the name of its manager for the United States. Company must have paid-up capital of \$100,000; foreign company must have \$200,000 deposited for the benefit of policyholders in the United States. A resident of the State must be appointed attorney to accept service.

Companies must report to the Commissioner before the 15th day of January each year the amount of business done in the State during the previous year. They must file a complete statement of their entire business before the 1st day of March of each year.

Fees.—For filing articles of incorporation, \$10; for filing annual statements, \$5; for filing other papers, \$1; for furnishing copies of papers on file, twenty cents per folio; for certifying copies, \$1; for examination of company, \$5 per day.

Penalties.—Companies neglecting to obey a subpoena issued by the Commissioner for the examination of persons and papers shall be deemed guilty of a misdemeanor, and on conviction shall be fined not less than \$100 or more than \$500, or by imprisonment in the county jail for not less than thirty days or more than six months, or they may be punished by both fine and imprisonment.

UNDERWRITERS' ORGANIZATIONS.

NATIONAL ASSOCIATION OF LIFE UNDERWRITERS, organized at Boston, June 18, 1890. The following officers were elected: President—George N. Carpenter of Boston. Vice-Presidents—Tilden Blodgett of New York, H. C. Lippincott of Philadelphia, B. H. Lightfoot of Pittsburgh, J. K. Stearns of Chicago, M. Early of Michigan, W. H. Anderson of Maine, C. D. Tucker of Providence, H. P. Goddard of Baltimore, F. A. Kendall of Cleveland, J. J. Dillon of New Hampshire, A. B. Roeder of Nebraska, I. S. Borley of Vermont, J. T. Phelps of Boston. Secretary—E. H. Plummer of Philadelphia. Treasurer—William Radcliffe, Jr., of New York. Executive Committee—Benjamin S. Calef of Boston, Joseph Haskell of New York, Henry C. Ayers of Pittsburgh, C. E. Tillinghast of Cleveland, E. H. Kellogg of Chicago, L. A. Watkins of Michigan, J. F. Huntsman of Providence, L. H. Baldwin of Baltimore, C. E. Staniels of New Hampshire, E. B. Hall of Nebraska, George H. Smalley of Vermont, James Sinkinson of Maine, W. G. Justice of Western New York, and C. H. Ferguson of Chicago. Next meeting to be held at Detroit on the third Wednesday in June, 1891.

THE NEW HAMPSHIRE LIFE UNDERWRITERS' ASSOCIATION. President—C. L. Meloon of Manchester. First Vice-President—J. D. Chandler of Nashua. Second Vice-President, C. Parker of Concord. Secretary—W. M. Morgan of Manchester. Treasurer, A. P. Wilson of Manchester. Executive Committee—C. E. Staniels, Concord; M. A. Taylor, Nashua; A. H. Crowell, Concord, and J. J. Dillon, Manchester.

VERMONT ASSOCIATION OF LIFE UNDERWRITERS, organized June 3, 1890. President—A. P. Childs of Bennington. Vice-Presidents—W. H. S. Whitcomb of Burlington, Joseph G. Brown of Montpelier, L. P. Norton of Bennington, P. D. Blodgett of St. Johnsbury, T. P. W. Rogers of Burlington. Treasurer—Isaac S. Borley of St. Albans. Secretary—J. F. Wellman of Burlington. Executive Committee—G. H. Smalley, C. H. Sawyer, J. B. Fletcher, J. E. Curran, J. H. Drew.

NEW YORK STATE ASSOCIATION OF SUPERVISING AND ADJUSTING AGENTS met at Rochester, July 8, and elected the following officers: President—John Marr, Rochester.

Vice-President—John L. Kendig, Albany. Secretary and Treasurer—James T. Howes, Utica. Executive Committee—W. P. Lamb, Rochester, chairman; C. H. Hibbs, New York; F. C. Sturdevant, Utica; W. S. Dewey and H. F. Atwood, Rochester; Charles F. Hawkins, Goshen, N. Y., and W. J. Mackay, Niagara Falls.

SUN LIFE INSURANCE COMPANY OF AMERICA, organized at Louisville, Ky., July 1, with \$100,000 capital, for the transaction of industrial insurance. President—Albert S. Willis. Vice-President and Manager—M. W. Adams. Secretary—George H. Lake. Directors—Hon. Albert S. Willis, M. W. Adams, John B. McFerran, John Lyons, H. V. Sanders, W. H. Thomas, Charles Gheens, Thos. H. Sherley and A. G. Munn.

THE MUTUAL FIRE UNDERWRITERS ASSOCIATION of Ontario elected the following officers at its meeting in June: President—John Beatty Fergus, re-elected. Vice-President—R. J. Doyle. Secretary—Hugh Black. Executive Committee—D. C. McDonald, London; C. Packart, Stratford; C. Davidson, Guelph; W. Turnbull, Brantford; J. J. Hobson, Guelph township. Next meeting to be held at London, June, 1891.

UNDERWRITERS ASSOCIATION of New York State. President—Jno. L. Kendig. Vice-Presidents—T. E. Gallagher, C. L. Hedge. Treasurer—L. S. Morgan. Secretary—W. J. Frederick. Executive Committee—J. M. Carothers, chairman; I. H. Lindsley, C. H. Hollister, A. W. Selkirk, J. J. Babcock.

NOTES OF COMPANIES.

THE HOMESTEAD BUILDING AND LOAN LIFE INSURANCE COMPANY of Indianapolis, Ind., has gone out of business.

THE BANKERS LIFE INSURANCE COMPANY of Lincoln, Neb., reorganized 1890. N. S. Harwood, president, and W. A. Lindley, secretary.

MANCHESTER CITY INSURANCE COMPANY, Manchester, N. H., reinsured in *Ætna* of Hartford.

MINNESOTA ACCIDENT INSURANCE COMPANY, St. Paul, Minn., organized 1890. Charles Shandrew, president; George E. Schnabel, secretary and manager.

COMMERCIAL FIRE INSURANCE COMPANY, Washington, D. C., incorporated June, 1890. Capital, \$100,000.

PIONEER INSURANCE COMPANY, of Illinois, organized 1890. Capital, \$150,000; reserve guaranty fund, \$50,000. Benjamin F. McNeill, president; H. W. Huttig, vice-president; Isaac E. Adams, treasurer; E. T. Marshall, secretary.

LUMBERMENS AND MANUFACTURERS MUTUAL, Eau Claire, Wis., reinsured in Mutual Fire Association, same city, June, 1890.

FARMERS AND MERCHANTS, Denver, Col., retired from business May, 1890.

MERCHANTS MUTUAL, New Orleans, La. Jules Montreuil elected secretary.

The following changes were announced in the officers of the St. Paul Title Insurance Company: Maurice Auerbach succeeds Frederick Driscoll, Sr., as president, Mr. Driscoll becoming first vice-president; C. M. Taylor was appointed secretary and treasurer.

THE MUTUAL FIRE OF TACOMA, organized September, 1889, consolidated with the Cascade Fire and Marine Insurance Company of Seattle, June, 1890.

MISCELLANEOUS CORRECTIONS.

Rhode Island.—Elisha Bucklin reappointed State Auditor and Insurance Commissioner, vice William C. Townsend.

Kentucky.—License fee for industrial life agents reduced from \$10 to \$2 a year.

Henry B. Stokes was elected president of the Manhattan Life Insurance Company June 10 to fill the vacancy caused by the death of James M. McLean; J. L. Halsey, vice-president; H. Y. Wemple, second vice-president; assistant secretary, Frazee promoted to be secretary.

In the table "Tabulated Results of American Life Companies," pages 354-5, there is a typographical error in the premium receipts of the Equitable Life Society. The total premiums should be \$232,416,334. The total income is correctly printed in the table, as is also the aggregate of premiums of all companies.

The opinion of an eminent Committee of Counsel on all questions of law affecting titles to real property.

Reports all losses paid and claims pending.

Losses under policies in three years, \$800.

No claims pending July 1, 1890.

FOURTH EDITION, REVISED AND EXTENDED.

Prominent Patrons of Life Insurance.

We have just issued a new edition of **PROMINENT PATRONS OF LIFE INSURANCE**, giving the names of a large number of professional and business men who are insured in sums exceeding \$50,000, and the amounts of their insurance. A number of

REPRODUCTIONS OF AUTOGRAPH LETTERS,

addressed to us from prominent citizens are inserted in the work, thus giving increased value and importance to it. Previous editions of this work, giving lists of persons insured for sums not less than \$25,000, have been extensively used by agents, who have found this little publication very valuable to them in the prosecution of their work. This year the minimum amount of insurance thus recorded is \$50,000, while the maximum is upwards of a million and a half, showing in this practical form the estimation in which so many prominent professional and business men hold life insurance. The work is handsomely printed on excellent paper, and is in convenient form for carrying in the pocket. We commend it to all persons interested in life insurance.

Prices: Single copies, 25 cents; 100 copies, \$20; 500 copies, \$80; 1000 copies, \$125.

REASONS WHY

EMINENT PROFESSIONAL AND BUSINESS MEN

CARRY LARGE AMOUNTS OF

LIFE INSURANCE.

This little publication contains letters from nearly three hundred prominent citizens, stating their views regarding the value and importance of life insurance, and giving the "reasons why" they carry large amounts upon their lives. Many of these letters are

FAC-SIMILE REPRODUCTIONS OF ORIGINAL LETTERS

in our possession. Others are printed in plain type, with the fac-similes of the autographs of the writers. Others are printed in plain type, signature and all. The reasons given by the writers of these letters for insuring their lives are as diverse as can well be imagined, and constitute a series of convincing arguments for the use of agents and solicitors.

This is a new departure in insurance literature, entirely novel, and cannot fail to prove of great value as a canvassing document.

Prices: Single copies, 25 cents; 100 copies, \$20; 500 copies, \$80; 1000 copies, \$125.

THE A B C —OF— LIFE INSURANCE.

By CHARLES E. WILLARD.

The undersigned are the publishers of the above work, a copy of which should be secured by every life insurance agent, affording, as it does, a few hours' "easy lesson" on the Science of Life Insurance.

It is the aim of this little book to explain and illustrate some of the fundamental and elementary principles of life insurance so simply that they can be readily understood by men who have not been specially trained as mathematicians, or have not had their attention particularly directed to the theory and mathematics of Life Insurance.

This book is handsomely printed and contains sixty pages of text matter and tables; it is bound between flexible and durable leather covers, specially adapted to pocket use.

PRICE, PER COPY, \$1.25.

Net average cost of insurance, less dividends.....	15.93	38.30

STATUTORY REQUIREMENTS.

WHAT THE VARIOUS STATES REQUIRE OF COMPANIES DOING BUSINESS THEREIN.

REVISED AND CORRECTED ESPECIALLY FOR THE INSURANCE YEAR BOOK.

In the following chapter we present a summary of the laws of the different States imposing conditions upon foreign companies and companies of other States doing business within their borders. The insurance officials of these several States have very kindly revised these synopses and made such corrections as were necessary to make them conform to the latest enactments of their several legislatures. There were several legislatures in session during the past winter, and much legislation relative to insurance was considered. The conditions of entry into the various States, however, were changed in but few instances, and these are noted in the following pages. It is believed that this compilation covers all the material points of the legal requirements of the various States and Territories. We tender our acknowledgments to the Commissioners and Superintendents of Insurance who so kindly aided us in making this synopsis of the State laws.

ALABAMA.

SUPERVISING OFFICER—CYRUS D. HOGUE, AUDITOR OF STATE, MONTGOMERY.

GENERAL REQUIREMENTS.

Each company must, before admission, file a copy of its charter, duly certified, together with a statement sworn to by the president and secretary, showing the subscribed and paid-up capital of the company and its financial condition; also an instrument, under seal of the company, authorizing all agents to accept service of legal process, and admitting such service as if served upon the company. Companies must have known place of business in the State and authorized agents thereat. The reciprocal features of the State law have been declared unconstitutional by the Supreme Court of the State.

FIRE AND MARINE COMPANIES.

Each company must have a cash capital of at least \$100,000, invested in accordance with the laws of the State from which it derives the charter. Sworn statements of the condition of the company must be filed by the 10th of January of each year or within thirty days thereafter, showing all transactions to December 31 preceding. Fifty per cent of the premiums received must be retained as a reinsurance fund. The certificate issued by the Auditor to the company expire January 15 each year, and must be renewed during the month. When the Auditor discovers an impairment of capital equal to twenty-five per cent after providing for all liabilities.

he may revoke his certificate. Companies required to make annual report of business transacted in the State.

LIFE COMPANIES.

Each company must be possessed of at least \$100,000, and must file with the Auditor in July of each year a statement, certified by the president, secretary or actuary, showing the financial condition of the company on the first day of April preceding; such statement must show the gross amount of premiums received, in cash or otherwise, in the State during the year, the amount of funds invested in the State, and the amount paid for taxes and license in each county. If a life company invests in the State the net reserve upon policies on the lives of citizens, it will be entitled to all the privileges of a home company. The Treasurer may require additional deposits.

FOREIGN COMPANIES.

Every foreign company must file with the Auditor a certificate, signed by the proper State officer, setting forth that the company has on deposit in some State at least \$200,000 in lawfully invested securities, for the benefit of all the policyholders in the United States. Annual statements required the same as of other State companies. Taxes and fees the same.

AGENTS.

Before transacting any business each agent must obtain from the Auditor a certificate of authority, which certificate, together with a copy of the financial statement and of the instrument relating to the service of process and a copy of statement must be filed in the office of the Judge of the Probate for the county wherein such agent is located; certificates to be renewed annually in January, and to be filed with copy of the annual statement with the Judge of Probate. Each individual soliciting insurance must have license, and all persons taking applications are agents of company. Agents must make sworn return to assessor of county in which his agency is located, setting forth the gross receipts of such agency for the year for purposes of taxation.

Taxes.—A tax of one per cent is imposed on gross amount of premiums (expenditures and losses paid, and return premiums deducted). Agents of insurance companies must make a sworn statement in January of each year, and file with the assessor of the county in which they are located, showing the amount of premiums received, less expenditures and losses paid and returned premiums, for the year ending on the first day of that month. Agents in incorporated cities where there are fire departments must pay the sum of \$200 annually for the support of such fire departments.

Fees.—Each company must pay to the State Treasurer, in the month of January, an annual license fee of \$100. For filing statement with Auditor, \$5; with Judge of Probate, \$5.

Penalties.—Agents doing business in violation of the law are subject to a fine not exceeding \$500 for each offense. Company doing business without license shall forfeit \$1000.

ARIZONA.

SUPERVISING OFFICER—NATHAN O. MURPHY, TERRITORIAL SECRETARY, PRESCOTT.

GENERAL REQUIREMENTS.

Companies must obtain a certificate from the Territorial Treasurer, filing with him a statement giving name and location of company, amount of capital stock, amount of assets, liabilities and surplus, and enter into an agreement that service of legal process may be made upon any agent of the company. Statement to be renewed in March of each year.

AGENTS.

On filing renewal statements, agents must submit report of premium receipts collected within the territory during the year, for purposes of taxation. Any person transacting business for a company shall be deemed its agent.

Taxes.—One and one-half per cent upon premium receipts.

Fees.—For filing statement, \$5; issuing certificate of authority, \$5; subsequent certificates to agents, \$2.

Penalties.—For violation of the provisions of the act, a fine not exceeding \$1000.

ARKANSAS.

SUPERVISING OFFICER—W. S. DUNLOP, AUDITOR OF STATE, LITTLE ROCK.

GENERAL REQUIREMENTS.

Every company, before engaging in business, must file with the Auditor of State a certified copy of its charter, a certificate showing the date of organization, location and principal office of the company; also a written stipulation that legal process served on the Auditor, or the person designated by the company, will be accepted as served on the company. A duplicate of which to be filed with the Secretary of State. On complying with the law, the Auditor will issue a certificate of authority to the company. Every company must have a capital of not less than \$100,000, fifty per cent of which must be paid up.

EXAMINATIONS.

The Auditor is empowered to examine any company at its home office, and, if impairment in capital is ascertained, may revoke his certificate. Refusal to permit examinations warrants him in withdrawing his certificate.

Companies must furnish the Auditor with lists of agents, when he will issue a certificate to each, granting him authority to transact business for the company. Certificates renewable annually. One certificate suffices for a firm, provided the name of each member is inserted therein.

LIFE COMPANIES.

Each company must file an annual statement with the Auditor by the 1st of March of each year, showing the financial condition of the company on the 31st of December preceding. The statement must be accompanied by a certificate, signed by the proper officer of the State wherein the company was organized, showing the net value of all policies in force, and certifying that the company has assets equal thereto, and is authorized to do business in such State. In the absence of such certificate, the Auditor is authorized to value the policies of the company on the basis of the American Experience Table of Mortality and four and one-half per cent interest.

FIRE AND MARINE COMPANIES.

Must have a subscribed capital of not less than \$150,000, of which \$50,000 must be paid up. A sworn statement, signed by the president, vice-president or secretary of the company, must be filed with the Auditor before the 1st of March each year, showing the financial condition of the company and its transactions up to December 31st of the previous year. The reinsurance fund to be computed at fifty per cent of the premium on all risks having less than one year to run, *pro rata* on all risks having more than one year to run; when the reinsurance fund is reduced to less than forty per cent of the premiums received during the year, the whole amount of premiums received on unexpired risks shall be set aside as a reinsurance fund. Companies required to make annual reports of business transacted in the State.

FOREIGN COMPANIES.

In addition to making the annual statement, as required of other State companies, foreign companies must furnish, prior to July 1 of each year, a statement showing the business transactions outside of the United States and its financial condition outside of the United States branch.

Taxes.—A tax of two and one-half per cent is imposed on premiums (less losses and commissions). Every company must submit a sworn statement, signed by the president, secretary or agent, at the time of filing the annual statement, showing the premiums received in the State, upon which statement the tax is computed. No municipal taxes or licenses are permitted.

Fees.—For filing charter, \$15; filing statement, \$10; issuing certificate, \$2; copies of papers, twenty cents per folio; certifying such copies and affixing seal, \$1; valuing life policies, a charge not exceeding three cents per \$1000 of insurance may be exacted; examinations, actual expenses incurred.

Penalties.—Neglect to furnish statement as required, a penalty is imposed of \$100 for each day's delay; transacting business without complying with the law subjects the offender to a fine of \$500 for each month or fraction thereof during which the business is unlawfully conducted. Misdemeanor for agents to solicit business for companies that have not complied with the law.

CALIFORNIA.

SUPERVISING OFFICER—J. N. E. WILSON, INSURANCE COMMISSIONER, SAN FRANCISCO.

GENERAL REQUIREMENTS.

Any company, stock or mutual, of another State, desiring to do business in California must file with the Insurance Commissioner a certified copy of its charter, and a certificate signed by the proper officer of the State wherein such company was organized, setting forth that it has available assets in excess of all liabilities equal to not less than \$200,000; also a statement of its financial and business condition on the 31st of December preceding, sworn to by the principal officer of the company; the company must also designate some agent to accept legal service, and such agent shall be deemed the general agent of the company within the State, and service made upon him shall be deemed as having been made upon the company. In case the company shall at any time be without such agent, the Insurance Commissioner shall be empowered to accept service. Should a company transfer from a State to a United States Court any suit brought against it by a citizen of California, the Commissioner is required to revoke its license to do business in the State. The general agent must also file with the Commissioner a bond with two sureties in \$1000 each, conditioned that he will pay quarterly in advance all taxes, licenses or fees that are or may be imposed by law, and that the company will comply with the law in all respects. All payments must be in United States gold coin. On compliance with these requirements, a certificate of authority to do business will be issued to the company by the Commissioner. An anti-compact law was passed February, 1889.

EXAMINATIONS.

The Commissioner is empowered to examine any company doing business in the State whenever he shall deem it necessary, and if a company is found to be insolvent, he shall revoke its authority to do business. A company is regarded as insolvent when, after providing for all liabilities, its capital is reduced below \$200,000, or below seventy-five per cent of its paid-up capital; if it be a mutual company, when its cash assets over liabilities are less than \$200,000. Commissioner must publish notice of insolvency four weeks.

AGENTS.

Every company must file with the Commissioner a certified copy of the authority given by it to each agent in the State, and, in case of a change of agents, the Commissioner must be notified. Every general agent appointed by the company must obtain from the Commissioner a certificate of authority to do business, which continues in force without renewal until revoked. One certificate suffices for all members of a firm. Other agents do not require certificates. If a solicitor for a life assurance company has been employed by any other company within a year previous, he shall produce written evidence that all moneys received by him for such company have been paid to it. Solicitors for life companies must obtain a license annually.

Companies not doing business in the State may have a special agent for the purpose of collecting renewal premiums, who shall receive a certificate of authority from the Commissioner on filing notice of appointment. No other papers required of such companies.

LIFE COMPANIES.

Sworn statements, verified by the principal executive officer of the company residing in the State, must be filed with the Commissioner on or before March 10th of each year, showing the financial condition of the company and its business transactions up to December 31 of the preceding year. Such statement must also be printed one week in a daily paper published in the city where the principal office of the company in the State is located. A statement must be filed by representative in the State on or before January 15, showing the business effected and renewals of previous year. When requested by the Commissioner to do so, companies must furnish him with the requisite data for valuing its outstanding policies. If his valuation be not accepted by the assurance officer of any other State, then the companies of such State doing business in California shall submit their policies for valuation by the Insurance Commissioner of that State. Valuations made upon the basis of the American Experience Mortality Tables and four and one-half per cent interest. All policies issued within the State, unless otherwise specifically contracted between the assurer and the assured, for tontine or other term or paid-

up assurance, must contain a stipulation that when, after three full annual premiums shall have been paid on such policy, it shall not cease or become void solely by the non-payment of any premium when due; its entire net reserve, by the American Experience Mortality Table and interest at four and one-half per cent yearly, less any indebtedness to the company on such policy, shall be applied by such company as a single premium, at such company's published rates in force at date of original policy; but at the age of assured at the time of lapse, either to the purchase of non-participating term assurance for the full amount assured by such policy, or upon the written application by the owner of such policy, and the surrender thereof to such company within three months from such non-payment of premium, to the purchase of the non-participating paid-up policy, payable at the time the original policy would be payable if continued in force; both kinds of assurance to be subject to the same conditions, except as to payment of premiums, as those of the original policy. It may be provided, however, in such stipulation, that no part of such term assurance shall be due or payable unless satisfactory proofs of death be furnished to the assurance company within one year after death, and that, if death shall occur within three years after such non-payment of premium, and during such term of assurance, there shall be deducted from the amount payable the sum of all the premiums that would have become due on the original policy if it had continued in force. If the reserve on endowment policies be more than enough to purchase temporary assurance as aforesaid to the end of the endowment term, the excess shall be applied to the purchase of pure endowment assurance, payable at the end of the term, if the assured be living. If any company shall evade this provision of law, its certificate of authority shall be immediately revoked. Any acts in conflict with above were repealed by the passage of this "Specific Contract" bill in April, 1880.

The following law was enacted in March, 1889:

SECTION 1. Section 447 of the Civil Code of the State of California is hereby amended so as to read as follows:

Section 447. Every life assurance corporation organized under the laws of this State must, on or before the first day of February of each year, furnish the Insurance Commissioner the necessary data for determining the valuation of all its policies outstanding on the thirty-first day of December then next preceding. And every life assurance company organized under the laws of any other State or country, and doing business in this State, must, upon the written requisition of the Commissioner, furnish him, at such time as he may designate, the requisite data for determining the valuation of all its policies [then] outstanding. Such valuations must be based upon the rate of mortality established by the American Experience Life Table, and interest at four and one-half per cent per annum; *provided*, that from and after the thirty-first day of December, A. D. one thousand eight hundred and ninety-one, such valuations must be based upon the rate of mortality established by the Combined Experience or Actuaries' Table of Mortality, with interest at the rate of four per cent per annum. When the laws of any other State or territory require of a life assurance company, organized under the laws of this State, a valuation of its outstanding policies by any standard of valuation different from that named in this section, the Insurance Commissioner is hereby authorized to make such valuation for use in such other State or territory, and to issue his certificate in accordance therewith. For the purpose of making the valuations, the Insurance Commissioner is authorized to employ a competent actuary, whose compensation for such valuation shall be three cents for each thousand dollars of assurance, to be paid by the respective companies whose policies are thus valued.

SECTION 2. All acts and parts of acts in conflict with the provisions of this act are hereby repealed.

FIRE AND MARINE COMPANIES.

Sworn statements, verified by the principal executive officer residing in the State, must be filed with the Commissioner as follows: By the 15th day of January, showing business done in the State during the preceding year; companies of other States must file, by March 10th, statement showing transactions and financial standing December 31 preceding; companies of other countries have till May 1 to file such statement. Such statement must also be printed for one week in a daily newspaper published in the city where the principal office in the State of the company is located. The reinsurance fund must be computed at fifty per cent of the

premium on unexpired risks. Statements of State companies must be filed on or before February 1 of each year.

FOREIGN COMPANIES.

Every foreign company doing business in the State must file a sworn statement, on or before the 1st of May of each year, showing its financial and business condition on the thirty-first day of December preceding. Such statement must be printed for one week in a daily newspaper published in the city where the principal office of the company in the State is located.

Taxes.—Taxes are imposed in accordance with the reciprocal provisions of the laws. A law passed in 1885 levies a tax of one per cent on gross premiums collected by foreign companies, for the benefit of disabled firemen, but the courts declared it to be unconstitutional and it is now inoperative.

Fees.—For filing charter, \$30; for filing annual statement, \$20; for filing other papers required, \$5 each; annual license to solicitors for life insurance companies, \$1; for copies of papers on file, twenty cents per folio; for certifying such copies, \$1 each; for valuing life policies, three cents for each \$1000 of assurance. All fees to be paid in gold. Should the expenditure in the office of the Commissioner exceed the receipts, the Commissioner is empowered to assess the companies doing business in the State, on the basis of premiums received, sufficient to make up the deficiency. Other fees subject to reciprocal legislation.

Licenses.—The city of San Francisco is authorized to collect a license from each agent, and the city ordinance provides as follows: Every agent shall pay for each company represented by him, according to premiums received. Those doing a business of \$50,000 per quarter or over, \$100 per quarter; \$25,000 per quarter or less than \$50,000, \$75 per quarter; \$10,000 per quarter or less than \$25,000, \$50 per quarter; less than \$10,000 per quarter, \$25. Other license fees charged in accordance with reciprocal legislation.

Penalties.—For neglecting to file the statements required, or the stipulation relative to serving legal process, a fine of \$100 for the first month, and \$200 for each succeeding month, is imposed for the time the company does business in default. For failing to answer truthfully, in writing, the written inquiries of the Commissioner, a fine of \$500 is imposed. A fine of \$100 for issuing a life policy to a resident of the State that does not contain written evidence that it was issued in the State.

CANADA.

SUPERVISING OFFICER—W. FITZGERALD, SUPERINTENDENT OF INSURANCE, OTTAWA.

GENERAL REQUIREMENTS.

Each company must file with the Minister of Finance a certified copy of its charter and a properly authenticated statement of its condition on the 31st of December preceding; also a power of attorney, signed by the proper company officer under seal of the company, appointing an agent or head officer in Canada; such officer or agent must be empowered to accept legal service for the company; this power of attorney must be verified under oath by such officer or agent. Copies of the documents named must be filed with the Superior Court of Law or Equity, in the Province wherein the head office in Canada of the company is located; if the head office is in Quebec, the duplicate must be filed in the office of the Prothonotary of the Superior Court of the district wherein such head office is located. Each company must obtain from the Minister of Finance a license to do business, notice of the issue of which license must be published in The Canadian Gazette and in one paper in the city and county wherein the head office is located. License renewable on the 1st of April in each year. When the liabilities in Canada of a company exceeds its assets, deficiencies must be made good or its license will be revoked.

LIFE COMPANIES.

Every life assurance company must deposit in the hands of the Receiver-General \$50,000 for the protection of Canadian policyholders; this deposit in the case of foreign companies to be increased as required to make it equal to the reinsurance reserve upon all policies held in Canada, or such increase may be placed in the hands of trustees for such purpose. Annual statements to be filed on or before the 1st of March in each year, duly verified by the proper

officer of the company. If a company fails to pay its losses for thirty days after they are due, or after judgment has been entered, its license will be revoked.

FIRE AND MARINE COMPANIES.

Every foreign company doing a fire and inland marine business, either or both, must deposit with the Receiver-General \$100,000 for the protection of Canadian policyholders, and every native company \$50,000. The deposit in the case of foreign companies to be increased from time to time as the company's liabilities in Canada increase. United States companies must deposit United States securities, or others that may be approved by the Treasury Board. Annual statements showing the condition of the company must be filed before the 1st of March of each year with the Minister of Finance; also a statement of its general business. Fire policies cannot be written for a longer term than three years. If an undisputed claim or judgment on a disputed claim remains unpaid for sixty days after it is due, the license of the defaulting company will be revoked, but may be reissued if the claim is satisfied within sixty days thereafter. Failure to pay such claims shall be deemed an act of insolvency.

Taxes.—In accordance with a law passed by the Quebec legislature—but this law is being contested before the courts as unconstitutional—a direct tax is imposed upon all insurance companies doing business in that Province, to be paid into the public treasury. Every life company is required to pay \$500, and \$250 additional if doing an accident business. Fire and marine companies pay \$500. Agencies in Montreal and Quebec are taxed \$100 each, and all other agencies in the Province \$5 each.

Fees.—The Superintendent is empowered to assess companies toward the expenses of his office *pro rata* upon gross premiums received on Canadian business, during each year ending December 31; such assessment to be paid on or before March 31; not to exceed \$8000 upon fire and inland companies.

Penalties.—Neglect to comply with the requirements of the law as to the filing of annual statements subjects the company so neglecting to a penalty of \$500 for each violation, and an additional penalty of \$100 for each month during which any such company neglects to file such statements, and if such penalties are not paid the company's license may be withdrawn or suspended.

Any person who delivers any policy or interim receipt, or who collects any premium or carries on any business of insurance in Canada on behalf of an unlicensed company, is liable to a penalty of not less than \$20 nor more than \$50 for a first offense, and for a second offense imprisonment without the option of a fine.

COLORADO.

SUPERVISING OFFICER—LOUIS B. SCHWANBECK, STATE AUDITOR AND SUPERINTENDENT OF INSURANCE, DENVER.

GENERAL REQUIREMENTS.

Every company doing business in the State is required to file a copy of its charter with the Superintendent, and also a sworn statement of the chief officer of the company, showing the condition of its affairs on the 31st of December preceding. Also a written instrument constituting the Superintendent an attorney of the company to accept service of legal process. Annual statements to be filed on or before the first day of March of each year. A synopsis of the annual statement filed must be printed at least four times, together with a copy of the Superintendent's certificate, in a newspaper published at the State Capital. "No joint stock fire or life insurance company shall be permitted to do any business in this State unless it is possessed of an actual paid-up cash capital of not less than \$200,000. No joint stock insurance company organized for any purpose other than fire and life insurance shall be permitted to do any business in this State unless possessed of an actual paid-up cash capital of not less than \$100,000.

EXAMINATIONS.

"The Superintendent of Insurance shall have power to examine and inquire into all violations of the insurance law, and may at any time examine the financial condition, affairs and management of any insurance company incorporated by, or doing business in the State."

and inquire into and investigate the business of insurance transacted, and may require any company, its officers, agents, employees, or attorneys or other persons, to produce, and may examine all its assets, contracts, books and papers; may compel the attendance before him and may examine under oath its directors, officers, agents, employees, solicitors, attorneys, or any other persons, in reference to its condition, affairs, management or business, or any matter relating thereto; may administer oaths or affirmations, and shall have power to summon and compel attendance of witnesses, and to require and compel the production of records, books, papers, contracts or other documents, by attachments if necessary; and shall have the right to punish for contempt by fine or imprisonment, or both, any person failing or refusing to obey such summons or order of said Superintendent." The Superintendent is authorized to appoint competent persons to make the examinations in his name.

AGENTS.

All companies must obtain annually certificates from the Superintendent for each agent or solicitor, authorizing them to do business.

LIFE COMPANIES.

Annual statement to be filed on or before March 1. The Superintendent is authorized to value outstanding policies when he deems it necessary. Valuations to be made in accordance with the Actuaries' Experience Tables and four per cent interest. "After three or more annual premiums have been paid upon a policy of life insurance, and default is made in payment of any such subsequent premiums when due, then, notwithstanding such default, the company shall convert the same into a paid-up policy for as many dollars as the value of such policy will purchase, to be determined by the table of surrender values in use by such company the time of issue of policy, which shall not be less than the full net value of the policy per Actuaries' Experience Table of Mortality, four per cent interest, provided that application be made in writing for such paid-up policy by the assured within six months after default in the payment of premiums shall first have been made."

FIRE AND MARINE COMPANIES.

Each company must have a paid-up capital of not less than \$200,000. Annual statements to be filed on or before March 1 of each year, showing the condition of the company on the thirty-first day of December preceding. Such statement to be printed at least four times in a daily paper published at the Capital of the State. Any company other than fire or life, must be possessed of a paid-up capital of \$100,000.

Companies required to make annual statements of business transacted in this State.

FOREIGN COMPANIES.

Same requirements as for fire and marine companies.

Taxes.—All insurance companies, partnerships or associations engaged in the transaction of the business of insurance in this State, shall annually, on or before the 1st of March in each year, pay to the Superintendent of Insurance two per cent on the excess of premiums received over losses and ordinary expenses incurred within the State during the year ending the previous thirty-first day of December. In case the expenses of the department shall exceed the amount collected under the provisions of this act, the Superintendent shall assess upon the insurance companies doing business in this State, in proportion to the receipts in this State, a sum equal to each excess. In case of neglect or refusal of any company to pay such tax assessment, the Superintendent of Insurance shall revoke the authority or license granted to such insurance company. Insurance companies shall not be subject to any further taxation, except on real estate and the fees provided in this act.

Fees.—For filing the certified copy of articles of incorporation required by this act on the organization of each company, \$50; for filing power of attorney and statement preliminary to admission, \$50; for filing copy of its charter or deed of settlement and examination thereof, \$25, unless capital exceeds \$250,000; ten cents additional for each \$1000 above that amount; for filing annual statement, \$50; for certificate of authority to transact business in this State, \$5; for each copy of certificate of authority for use of agent, \$2; for each copy of any paper filed in his office, per folio, twenty cents; for affixing seal of his office and certifying any paper, \$1.

Penalties.—For business transacted by or for an unauthorized company, a penalty of \$500, or six months imprisonment or both, is imposed for each offense; for refusing to give truthful

information regarding a company or testifying falsely, the delinquent is liable for contempt or perjury, and a fine not exceeding \$500; for making a false certificate, entry or memorandum in papers offered for filing, a fine of not less than \$1000 and imprisonment not less than two months.

CONNECTICUT.

SUPERVISING OFFICER—O. R. FYLER, INSURANCE COMMISSIONER, HARTFORD.

GENERAL REQUIREMENTS.

Every company must, before receiving authority to do business in the State, file with the Commissioner a certified copy of its charter; also a statement, sworn to by the president, vice-president or secretary of the company, showing the financial and business condition of the company. It must also execute a written instrument appointing the Commissioner its attorney to accept service of legal process. All advertisements must correspond with last statement filed.

EXAMINATION.

The Commissioner is empowered to examine into the condition of any company doing business in the State, and if he finds it impaired, to revoke its authority to do business, and to publish the result of such examination if he thinks proper. Fire and marine companies are deemed unsound when their assets over liabilities are less than three-fourths of their paid-up capital. Life companies are unsound when their assets are not equal to their liabilities and legal reserve.

AGENTS.

All agents must obtain a certificate from the Commissioner authorizing them to transact business. Certificates expire March 31 in each year, and must be renewed. Certificates are issued in firm name except for companies of such States as require individual certificates from agents of Connecticut companies. No person permitted to act as agent, under penalty of not less than \$100, nor more than \$500, without obtaining from the Commissioner of Insurance a certificate of authority, which certificate must be renewed on the 1st of April each year. Any agent soliciting business for an unauthorized company, or in any way aiding in the transaction of business with such company, shall be fined not more than \$1000; but any person, on payment of a fee of \$20 to the Insurance Commissioner, may obtain a license to transact business with unauthorized companies, subject to the approval of the Commissioner. Such licenses must be renewed on the first of April each year.

LIFE COMPANIES.

Each company must furnish a certificate from the proper official of the State wherein such company was organized, setting forth the valuation of all outstanding policies of such company, calculated according to the Actuaries' Table of Mortality and four per cent interest. Such certificate will be accepted by the Commissioner, provided his certificate of a similar nature regarding Connecticut companies is accepted by the insurance officer of such State. Otherwise the Commissioner is empowered to value outstanding policies himself. Annual statements must be filed on or before March 1 of each year, showing the condition of the company on the thirty-first day of December preceding.

FIRE AND MARINE COMPANIES.

Each stock company is required to have a cash capital of at least \$150,000. Mutual companies must have available assets equal to \$150,000. The reinsurance fund is required to be fifty per cent of the gross premium (return premiums and reinsurance deducted) on all fire risks except those that are perpetual; on perpetual risks ninety-five per cent must be reserved for reinsurance; on ocean marine risks the full amount of premiums must be reserved. In fire insurance all the conditions of the insurance must be stated on the policy, and five days' notice of cancellation is required. The amount that may be written by a company upon a single risk is limited to ten per cent of its paid-up capital. No company is permitted to advertise or represent itself as having a capital greater than the amount actually paid up, or to represent

itself as possessed of assets not actually owned by it. Companies are required to make annual reports of insurance transacted in the State.

FOREIGN COMPANIES.

Every foreign company is required to have a cash capital of not less than \$200,000, and must have on deposit with the Treasurer of some one of the United States at least \$200,000 in United States bonds or the bonds of Connecticut, New York or Massachusetts, for the protection of all its policyholders in the United States. A certificate signed by the officer holding such deposit must be filed with the Commissioner. The aggregate deposits made by such company in the different States, together with the securities held by approved trustees for the benefit of all policyholders in the United States, after deducting all liabilities and the lawful reinsurance fund, shall be regarded as its capital. A copy of the trust deed and of the instrument appointing the trustees must be filed with the Commissioner. Annual statements, verified by the agent or attorney for the company in the United States, showing the condition of its affairs in this country, must be filed in January of each year, when the Commissioner will issue a certificate setting forth the amount of its capital as determined by such statement.

Taxes.—Taxes regulated by reciprocal legislation must be paid on or before the twentieth day of January of each year to the Insurance Commissioner. Every agent must make return under oath on or before the 10th of January of each year to the Insurance Commissioner of the gross amount of premiums received by him. Foreign companies must make returns, and pay thereon before the 20th of January a tax of two per cent to the Insurance Commissioner.

Fees.—To companies of other States, filing copy of statement, \$10; license of company, \$10; issuing certificates to agents, \$2 each; provided no greater fees are charged Connecticut companies in the State where the applying company was organized.

Penalties.—For making false statements, \$1000; any agent of a fire or marine company transacting business in violation of the law is liable to a fine of \$100 for each offense; agents of foreign companies violating the law may be fined \$500 for each offense; agents of life companies violating the law may be fined not less than \$100 nor more than \$500 for each offense; for violating the provision relative to advertising capital and assets, a fine of \$500 is provided for the first offense and \$1000 for each subsequent offense.

DELAWARE.

SUPERVISING OFFICER—ISAAC N. FOOKS, INSURANCE COMMISSIONER, GEORGETOWN.

GENERAL REQUIREMENTS.

Every company must possess assets over all liabilities and claims of not less than \$150,000. A certified copy of the charter must be filed with the Insurance Commissioner; also a sworn statement of the president, vice-president or secretary, showing the condition of the company. An instrument must be executed and filed designating some resident of the State upon whom legal process may be served. Each company must obtain from the Commissioner a certificate authorizing it to transact business in the State. With the annual statement each company must file a printed copy of the last annual report made in accordance with the laws of the State wherein such company was incorporated, certified to by the officers of the company; also a printed copy of the statement made of the condition of such company by the proper officer of such State.

EXAMINATIONS.

The Commissioner is authorized to examine any company doing business in this State, and if he finds it impaired to revoke its authority to do business.

AGENTS.

Every agent must file with the Commissioner a duplicate tax receipt from the Clerk of the Peace of the county in which the office of such agent is located, showing that all taxes due in such county have been paid; he must also file a license to do business issued by such Clerk

of the Peace ; thereupon the Commissioner will issue to him a certificate of authority. Certificates and licenses renewable annually.

LIFE COMPANIES.

Each company must file with the Commissioner, on or before the first day of February, a statement, attested by the proper officer of the company, showing its condition on the thirty-first day of December preceding. If a company fails to have on hand at any time a sum equal to the net value of all its policies, the Commissioner must revoke its authority to do business. A certificate of policy valuation, signed by the Insurance Commissioner of New York, Massachusetts or Pennsylvania, or of the State wherein the company was incorporated, must be filed with the Commissioner ; in the absence of such certificate, its policies will be valued according to the New York standard.

FIRE AND MARINE COMPANIES.

Annual statements, duly attested by the proper officer of the company, must be filed on or before February 1 of each year, together with the other statements above set forth. Companies are required to make annual reports of business transacted in the State.

FOREIGN COMPANIES.

In the absence of special requirements for foreign companies, it is presumed they will be expected to conform to the requirements of other State companies.

Taxes.—A tax of two and one-half per cent is imposed on gross premiums. Every agent is required to furnish to the Clerk of the Peace of the county where he does business a sworn statement each year at the time of taking out his license, showing the gross amount of premiums collected by him, and must receive a receipt for taxes on same before receiving his certificate from the Commissioner.

Licenses.—Every agent must pay to the Clerk of the Peace of the county in which he does business a yearly license fee of \$50.

Fees.—The Insurance Commissioner is entitled to fees as follows : For filing charter, \$10 ; for filing annual statement or printed reports, \$10 each ; for issuing certificates to agents, \$2 each ; for copies of papers on file, twenty cents per folio ; for certifying copies and affixing seal to same, \$1 each ; for examination of companies, actual expenses incurred. In addition, Clerks of the Peace are entitled to fifty cents for each license issued to agents.

Penalties.—Any person violating the law is liable to a fine not exceeding \$1000, or imprisonment not exceeding one year, or both fine and imprisonment. Any agent neglecting for thirty days to pay the taxes due shall forfeit \$200.

DISTRICT OF COLUMBIA.

Has no Insurance Department. Address Commissioners of the District of Columbia, ROGER WILLIAMS, assessor.

The following is the full text of the law of Congress relating to insurance companies doing business in the District :

AN ACT TO REGULATE INSURANCE IN THE DISTRICT OF COLUMBIA.

That no company hereafter organized or incorporated within the District of Columbia shall transact the business of insurance in any of its branches unless the whole capital of such company be not less than \$100,000, actually and in good faith paid up in full in cash, excepting life insurance companies which issue to their members policies or certificates agreeing to pay benefits or sums of money which are to be realized by assessments levied upon the members ; no other capital than such assessments shall be required of them. The commissioners of said District, or any two of them, shall ascertain and determine such facts, upon evidence satisfactory to them, to be filed in their office, and thereupon shall issue to such companies authority to transact business.

Every insurance company doing business in said District must transmit to the Commissioners of the District a statement of its condition and business of the year ending on the preceding thirty-first day of December, which statement shall be rendered on the first day of January following or within sixty days thereafter, except that foreign companies shall trans-

mit their statements of business, other than that done in the United States, prior to the following first day of July, which statement must be in form and state the particulars required by the blanks prescribed by the Commissioners; and the Commissioners, or any two of them, may require at any time statements from any company doing business within the District, or from any of its officers or agents, on such points as they may deem necessary and proper to elicit a full exhibit of its business and standing, all of which statements herein required must be verified by the signatures and oaths of the president or vice-president, or the secretary or actuary. No company having neglected to file a statement required of it within the time and manner prescribed, shall do any business, after notification by the Commissioners, or any two of them, while such neglect continues; and any company or association neglecting to make and transmit any statement required shall forfeit \$100 for each day's neglect.

Every fire insurance company, to entitle itself to the written authority by this act required to transact business in the District shall have assets equal to its liabilities, including a reinsurance reserve liability equal to fifty per centum of premiums received upon one-year risk, and an amount proportioned to the unexpired time upon all other fire risks. Every company doing an inland or marine business shall have assets equal to its liabilities, including a reinsurance reserve liability equal to the total premiums charged upon all unexpired inland or marine risks. Every life insurance company, excepting those organized upon the plan of assessments on their members, shall have assets equal to its liabilities, including a reserve liability computed upon the basis of the American Experience Table of Mortality, at four and one-half per centum interest. Before issuing any written authority to any company to transact business in the District, the Commissioners, or a majority of them, shall satisfy themselves that such company has complied with the law; and at any time thereafter they shall revoke such authority when satisfied that such company has fallen below such requirements.

No insurance company organized or incorporated under the laws of any of the United States of America, or of any foreign State or country, shall transact the business of insurance in any of its branches within the District of Columbia until such company shall have duly constituted some proper person domiciled in the District, their agent and attorney-in-fact for the purpose of receiving for them summonses, writs and processes issuing out of any court having any jurisdiction in said District, and until the evidence of such appointment of such agent and attorney-in-fact, authenticated in a manner satisfactory to the Commissioners of the District, or any two of them, shall be filed in the office of such Commissioners.

Any insurance company, or any officer or agent of any insurance company, effecting any contract of insurance in behalf of such company, when the written authority required by this act shall not have been given by said Commissioners, or after such authority has been revoked, shall be subject to a penalty of \$100 for every offense, to be recovered by due process in the courts of the District.

Each insurance company doing business in the District of Columbia shall attach to each policy issued by such company a copy of the application made by the insured, so that the whole contract may appear in said application and policy.

FLORIDA.

SUPERVISING OFFICER—F. J. PONS, STATE TREASURER, TALLAHASSEE.

GENERAL REQUIREMENTS.

Every company must, before admission, furnish to the State Treasurer a certified copy of its charter; also a statement, attested by the president or vice-president and secretary, showing the name, location and financial condition of the company, also a written agreement signed by the president and secretary, under seal of the company, agreeing that service of legal process upon any agent of the company shall be accepted as valid. Every company must obtain from the Treasurer a certificate of authority to do business, which certificate must be renewed annually in January. Any company neglecting to satisfy any execution obtained against it within the State shall have its certificate of authority revoked, and also all licenses to agents, and the Treasurer must print a notice of such revocation for at least one week in a newspaper published at the State Capital, or at Jacksonville, and such company shall be prohibited from

transacting business in the State until such execution is satisfied and all fees and expenses paid. Annual statements must be filed on or before the first day of February in each year, a synopsis of which must be published by the Treasurer within thirty days.

EXAMINATIONS.

It is made the duty of the Board of Insurance Commissioners to examine every company applying for admission or doing business in the State, and the Treasurer may publish the results of such examinations whenever he deems it in the interest of the public to do so. When a company is found to be in an unsound condition the Board of Commissioners must revoke its authority. The Board consists of the Treasurer, Comptroller and Attorney-General.

AGENTS.

Each agent must obtain from the State Treasurer a certificate authorizing him to do business. Certificates renewable annually, on the 1st of October.

LIFE COMPANIES.

Each company must possess at least \$100,000 invested in United States or State bonds, or in other interest-bearing United States stocks, or in mortgages on unincumbered real estate worth at least double the amount loaned thereon. Sworn statements must be filed in January of each year, showing the condition of the company on the 31st of December preceding.

FIRE AND MARINE COMPANIES.

Each company must possess at least \$150,000 invested in United States or State bonds, or other interest-bearing stocks of the United States. Sworn statements must be filed, in January of each year, showing the condition of the company on the 31st of December preceding. Companies are required to make annual reports of business transacted in the State.

Taxes.—A State tax of \$200 to be paid annually to the State Treasurer, expiring September 30, is imposed upon each company; *pro rata* of same when business is commenced after October, computing from the first day of any month to date of expiration, September 30.

Licenses.—Agents must pay \$10 a year in each county. Incorporated towns and cities may also impose a license not exceeding in each county fifty per cent of the State license.

Fees.—For filing statements with Treasurer, \$5 for each company.

Penalties.—For making false returns, a company becomes liable to a fine of not less than \$500 nor more than \$5000 for each violation of the law; a fine of not more than \$1000 may be imposed, or imprisonment not exceeding six months, or both fine and imprisonment.

GEORGIA.

SUPERVISING OFFICER—W. A. WRIGHT, COMPTROLLER-GENERAL OF STATE AND INSURANCE COMMISSIONER, ATLANTA.

GENERAL REQUIREMENTS.

Each company must file with the Comptroller-General a certified copy of its charter; also a statement, attested by the proper officers of the company, showing its name and location and its condition on the 31st of December preceding. Each company must possess not less than \$100,000, invested in stocks or bonds estimated at their market value, or in mortgages on unincumbered real estate worth at least double the amount loaned thereon. Statements must be filed with the Governor on or before the first days of July and January, or within sixty days thereafter, of each year, showing the condition of the company on the 30th of June and 31st of December preceding, which statements must be printed in a newspaper of general circulation published in the city or town where the agent making them resides. Annual statements must be made to the Insurance Commissioner on or before the first day of March of each year. Semi-annual statements must be made to the Governor, January 1 and July 1, or within sixty days thereafter, showing the condition of the company on December 31 and June 30, and the receipts and expenditures for the same time. Companies must obtain from the Insurance Commissioner certificates authorizing them to do business in the State. Companies and agents must file with the Insurance Commissioner, on or before the first day of May in each year,

sworn statements showing the gross amounts of premiums collected by them within the States.

AGENTS.

Agents must obtain certificates from the Insurance Commissioner, which certificates are renewable annually. One certificate authorizes each member of a firm to transact business individually. Must report to Insurance Commissioner, on or before the first day of March each year, the amount of premiums received during the year.

LIFE COMPANIES.

Each company must file a certificate, signed by the proper officer of some State, showing that they have on deposit with him not less than \$100,000 lawfully invested for the protection of policyholders in the United States. Life companies of other States must file annually certificate of Insurance Commissioner of home State of the net value of all outstanding policies according to Actuaries' Table and four per cent.

FIRE AND MARINE COMPANIES.

Each company must deposit with the State Treasurer \$25,000 in United States or State bonds for the protection of policyholders within the State before receiving a certificate of authority to do business. Companies are required to report annually losses paid and premium receipts to the 1st of May of each year.

FOREIGN COMPANIES.

The requirements are the same as for companies of other States.

Taxes.—A State tax of one per cent on gross premiums collected must be paid by every company on or before the first day of July in each year. Every agent or firm must pay a tax of \$10 for each county in which he does business. Special traveling or general agents of life companies pay \$50 tax for the whole State. Other taxes based on reciprocal legislation.

Fees.—The fees of the Insurance Commissioner are as follows: For filing certificate copy of charter, \$20; examination of annual statement, \$20; certificates to agents, \$3 each.

Penalties.—For any violation of law, a fine of not more than \$500 nor less than \$100 may be imposed; neglect to pay taxes, a fine of \$500 is imposed (and imprisonment not exceeding six months). Agents doing business for unauthorized company guilty of misdemeanor, and on conviction must pay all sums for which such unauthorized company would be liable; also liable to holder of policy for damages.

ILLINOIS.

SUPERVISING OFFICER—CHARLES W. PAVEY, AUDITOR OF PUBLIC ACCOUNTS, SPRINGFIELD.

GENERAL REQUIREMENTS.

Every company must obtain from the Auditor a license to do business in this State. As a condition precedent, each company must file an application, with signature of proper officer, under company seal, setting forth its desire to do business in the State, and stipulating that said "license shall cease and terminate in case and whenever it shall remove, or make application to remove, into any United States court any action or proceeding commenced in any of the State courts of this State, upon any claim or cause of action arising out of any business transaction, in fact, done in this State; any permission, consent, agreement, condition or provision incorporated in any contract, mortgage, note, bond, obligation or policy of insurance authorizing or consenting to such removal to the contrary notwithstanding." It must also file a copy of its charter, and a statement sworn to by the proper company officer showing its location, amount of capital, and its liabilities and assets in detail; also a copy of its last annual statement made in conformity with the laws of the State wherein such company was organized; also a written instrument, under seal of the company, designating some resident of the State to accept service of legal process. All companies permitted to insure against cyclones and wind storms.

EXAMINATIONS.

The Auditor is authorized to make examinations of companies, and to publish the result when he deems it necessary. Certificate to be revoked when an impairment is discovered.

AGENTS.

Agents must procure certificates from the auditor authorizing them to do business in the State. Agents of fire and marine companies must, in all advertisements, give the name and location of the company and the name of the State or government under which it is organized. Agents of life companies must have such information conspicuously displayed upon their business signs, and upon all policies issued must print in large letters the name of the State in which the company was organized, and also upon all circulars, pamphlets and placards issued by them in relation to the business of such company. Certificates to be renewed annually. One certificate embraces all members of a firm.

LIFE COMPANIES.

Every life company must possess available assets properly invested of not less than \$100,000. Annual statements to be filed with the auditor on or before the 1st of March each year, showing the condition of the company on the thirty-first day of December preceding, and the Auditor shall cause such statements to be published not less than one month in one daily paper in Springfield and one in Chicago. The Auditor is authorized to value policies when they have not been valued by the proper officer of some other State, such valuation to be upon the basis of the Actuaries' or Combined Experience Table of Mortality and four per cent interest.

FIRE AND MARINE COMPANIES.

Every company doing business in the State must have a paid-up capital of not less than \$100,000; they are prohibited from writing upon one risk an amount exceeding ten per cent of their paid-up capital. The reinsurance fund must be maintained to the full amount of the unearned premiums on unexpired risks. Annual statements must be filed on or before the first day of February of each year, showing the condition of the company on the thirty-first day of December preceding. Statement to be printed by the Auditor for not less than fifteen days in one paper published in Springfield and one in Chicago. No other advertisement required. Every announcement, publication of any kind, or business sign, purporting to state the financial condition of the company must conform to the statement immediately preceding filed with the Auditor, as allowed by him, and must not claim any assets not actually in possession of the company. Companies are required to report annually the business transacted in the State.

FOREIGN COMPANIES.

Each company must have on deposit with the insurance department of some State not less than \$200,000, which shall be known as the capital of such company for the United States. Each company must appoint an agent, on whom legal process can be served, and file with the Auditor of Public Accounts a certificate of such appointment. Such statements as to location of company, etc., and a copy of charter must be filed, as is required of companies of other States. Annual statements to be made by the resident manager in January of each year, showing the condition of the company, its investments and business transactions for the preceding year ending December 31. Every agent must, in all advertisements of such agency, publish its location, giving the name of the city, town or village where its principal or home office is located, and the government under the laws of which it is organized or does business. The term "agent" or "agents," used in this section, shall include any acknowledged agent, surveyor, broker or any other person or persons who shall in any manner aid in transacting the business of any insurance company not incorporated by the laws of one of the United States. The provisions of this section shall apply to all foreign companies, partnerships, associations and individuals, whether incorporated or not.

MISCELLANEOUS COMPANIES.

Plate-glass, accident and steamboiler companies must have on deposit with the proper officer of some State not less than \$100,000 for the protection of all their policyholders in the United States. Must have a paid-up capital of not less than \$100,000. In all other respects must comply with the conditions imposed upon fire and marine companies.

ACCIDENT LIFE INSURANCE COMPANIES.

An act passed July, 1889, requires all accident life companies to file with the Auditor, on or before March 1 of each year, a statement according to a form prescribed by the Auditor.

Agents must obtain certificate from Auditor. Preliminary to doing business must file copy of charter.

Taxes.—Agents of fire and marine companies in different localities must pay such taxes—State, county, town and municipal—as are imposed upon personal property in such localities. For the purpose of assessing such taxes, every agent is required to report, in the month of May of each year, the amount of his receipts for the preceding year to the proper officer in the locality where his agency is situated. This tax is in lieu of all licenses. Where there are regularly organized fire departments, the municipal authorities may levy a tax not exceeding two per cent upon gross receipts for the support of such fire departments. Other taxes may be imposed in accordance with reciprocal legislation.

Fees.—For filing copy of charter, \$30; filing annual statement, \$10; issuing certificates to agents, \$2 each; copies of papers on file, twenty cents per folio; certifying copies and affixing official seal, \$1; for examinations, actual expenses incurred; valuing life policies, three cents per \$1000 of insurance. Other fees based on reciprocal legislation.

Penalties.—Any fire or marine company neglecting to comply with the requirements of law, or failing to answer inquiries made by the Auditor, incurs a penalty of \$500, and \$500 for each month it continues in default. Any violation of the law subjects the offender to a penalty of \$500. Life companies neglecting to file statements incur a penalty of \$100 for each day they continue in default.

INDIANA.

SUPERVISING OFFICER—BRUCE CARR, AUDITOR OF STATE, INDIANAPOLIS.

GENERAL REQUIREMENTS.

Each company must possess an actual cash capital of not less than \$200,000 invested in United States or State securities, or in mortgages on unincumbered real estate worth twice the amount loaned thereon. Each company must file with the Auditor a certified copy of its charter and a statement verified by the proper officer of the company, showing the name, location, amount of capital and financial condition of the company; also a written instrument signed by the president and secretary, under seal of the company, designating an agent to accept service of legal process. "If any company shall sustain any loss upon policies issued in this State, it is the duty of the agent by whom the insurance was made to retain in his hands all moneys belonging to such company which may then be or hereafter come into his possession, until such loss is adjusted and paid. The insured who has suffered a loss may also notify any other agent of such company thereof, who shall in like manner retain all moneys belonging to such company which are then in or shall thereafter come into his hands. If suit be commenced by the party insured against the company, the agent may deposit in court double the amount mentioned in the policy, to abide the event of the suit; or if the party insured shall not commence suit within ninety days after the agent shall have given written notice to him that such loss will not be paid, the agent may thereafter pay over the moneys in his hands to the company." Semi-annual statements must be filed with the Auditor in January and July of each year, and the Auditor will cause such statements to be printed in the two papers of the State having the largest circulation.

AGENTS.

Each agent must obtain from the Auditor a certificate entitling him to do business, which certificate, together with a copy of the financial statement on which it was obtained, must be filed with the Clerk of the Circuit Court of the county in which such agent does business. A certificate must be obtained for and filed in each county in which the agent does business. One certificate suffices for all the members of a firm.

FOREIGN COMPANIES.

Each company must have on deposit in the United States, in the hands of some proper State officer, or with trustees, not less than \$200,000 for the protection of all policyholders in the United States. Plate glass companies are required to have \$100,000 capital.

Taxes.—A tax of \$3 upon every \$100 of premiums collected within the State, less losses actually paid within the State, is imposed. For the purpose of determining the amount of such

tax each company is required to report to the Auditor, under oath of the president and secretary, in January and July of each year, the gross amount of premiums collected in the State, for each of the six months ending December 31 and June 30 preceding. Other taxes dependent on reciprocal legislation.

Fees.—For examination of statement, \$5; for accepting services as attorney, \$3; for each certificate of authority, \$2; for filing certificate and statement, fifty cents. Reciprocal legislation.

Penalties.—A company neglecting to make its semi-annual report of premiums collected and to pay taxes thereon for thirty days, incurs a penalty of \$100 for each day's delay thereafter. Any person violating the insurance laws is liable to a fine not exceeding \$1000 or imprisonment for thirty days, or both fine and imprisonment.

IOWA.

SUPERVISING OFFICER—JOHN A. LYONS, AUDITOR, DES MOINES.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a certified copy of its charter and a sworn statement, signed by the proper officers of the company, showing its name, location and financial standing. It must also file a general power of attorney, empowering some agent to accept service of legal process, and receive certificate from Auditor. Annual statement of fire and casualty companies must be filed before February 1, those of life companies before April 1.

EXAMINATIONS.

The Auditor is empowered to make examinations of companies, and to publish the results if he deems proper, in one or more papers. If a fire and marine company is found to be in an unsound condition, the Auditor must revoke its license and publish such revocation. If a life company is impaired, the Auditor must certify the facts to the Attorney-General, who is directed to apply to the Supreme or District Court for an injunction to restrain it from doing business in the State. When the assets of a life company are not equal to all its liabilities, including the premium reserve, it shall be deemed insolvent. When the capital of a fire and marine company is impaired to the extent of twenty per cent, it will be prohibited from doing business in the State.

AGENTS.

Every agent must obtain a certificate to do business, annually, from the Auditor. Where a firm of agents represent a company, each member must obtain a certificate. Life agents are required to file a copy of such certificate in the office of the County Recorder of the county wherein his office is located. Every advertisement issued by an agent must set forth the name and location of the company he represents, and the State or Government under whose laws it was incorporated.

LIFE COMPANIES.

Each company must have at least \$100,000 invested in United States or State securities, or in mortgages on unincumbered real estate, situated in the State where the company was organized, worth at least double the amount loaned thereon; such securities must be deposited with the proper officer of some State for the benefit of its policyholders in the United States, and the fact that the company has such a sum on deposit must be certified to the Auditor by the officer holding such deposit in trust. Annual statements must be filed on or before the first day of April in each year, showing the condition of the company on the thirty-first day of December preceding. The Auditor is authorized to value policies upon the basis of the American Experience Table of Mortality and four per cent interest, but may accept the valuations as made by the proper officer of any other State.

FIRE AND MARINE COMPANIES.

Every stock company must possess an actual paid-up capital of \$200,000, exclusive of special deposit in other States for the special benefit of policyholders in such States. Mutual companies must possess assets equal to \$200,000 in excess of all liabilities, including the reinsurance fund. The reinsurance reserve is computed at forty per cent of the premium on all unexpired risks. No company may assume a risk on one hazard in excess of ten per cent of

its paid-up capital unless the excess is reinsured in some trustworthy company. False statements in advertisements, etc., are prohibited. Annual statements must be filed on or before the first day of February in each year, showing the condition of the company on the thirty-first day of December preceding. All policies issued by a company must contain, by indorsement or otherwise, a true copy of any condition in the application that is made a part of the contract, or which may in any way affect the validity of the policy. The amount named in the policy is to be accepted as *prima facie* evidence of the value of the property at the time the policy was written, but the company may show its actual value and any depreciation thereof up to the time of the loss; the company to be held liable for the actual value at the time of the loss; "in order to maintain his action on the policy, it shall only be necessary for the assured to prove the loss of the building insured, and that he has given the company or association notice in writing of such loss, accompanied by an affidavit stating the facts as to how the loss occurred, so far as they are within his knowledge, and the extent of his loss; which notice shall be given within sixty days from the time the loss occurred: Provided further, that no action shall be begun within ninety days after notice of such has been given. All of the provisions of this chapter shall apply to and govern all contracts and policies of insurance contemplated in the chapter, anything in the policy or contract to the contrary notwithstanding." There are special provisions of the law affecting companies doing business on the part-note plan. Companies are required to make annual reports of business done in the State.

Taxes.—A tax of two and one-half per cent upon gross premiums collected in the State is imposed, which tax must be paid at the time of filing the annual statement on the preceding year's business. This is in full of all State and local taxes.

Fees.—For filing certified copy of charter, \$25; filing annual statement, \$20; for certificates and copies thereof, \$2 each; copies of papers, twenty cents a folio; affixing seal to same, \$1; for examinations of companies, actual expenses incurred; for valuing life policies, \$10 per \$1,000,000 of insurance and each fraction thereof. Other fees dependent upon reciprocal legislation.

Penalties.—Any life company neglecting to file its annual statement shall forfeit \$100 for each day's delay; any agent soliciting for such company while it is in default shall forfeit \$300; any person acting for a company without having procured a certificate from the Auditor shall forfeit \$25 a day; any person acting for a fire or marine company, without having complied with the law, is liable to a fine not exceeding \$1000, and imprisonment not less than thirty days nor more than six months.

KANSAS.

SUPERVISING OFFICER—D. W. WILDER, SUPERINTENDENT OF INSURANCE, TOPEKA.

GENERAL REQUIREMENTS.

Each company must file with the Superintendent a certified copy of its charter, a statement, under oath by the president or vice-president and secretary, showing the name, location and financial condition of the company. Life companies must show their condition on the preceding 1st of January. A copy of the last annual report, made to the State or government from which the company obtained its charter must also be filed. "Every company doing business in this State, whether life or fire, shall, by itself or authorized agent, publish a synopsis of its last preceding annual statement made to the Insurance Superintendent of this State, in some newspaper of general circulation in the county where the said agent is doing business. A written instrument, sworn to by the president and secretary of the company, and under its seal made irrevocable, constituting the Superintendent an attorney to accept service of legal process in behalf of the company, must also be filed. A certificate of authority to do business in the State must be obtained from the Superintendent."

EXAMINATIONS.

The Superintendent is empowered to make examinations of companies and to publish the same when he deems it advisable. If any company is found to be in an unsound condition,

its certificate to do business must be revoked. A life company is considered to be impaired when its assets are not equal to its liabilities, including the premium reserve. A fire and marine company is regarded as unsound when its capital is impaired twenty per cent.

AGENTS.

Each company must furnish the Superintendent a list of its agents, who must obtain licenses from him. A general agent may be appointed for a company with power to appoint other agents. All certificates and licenses expire on the last day of February of each year. One license includes all members of firm. All fire insurance business must be transacted by agents living in the State.

LIFE COMPANIES.

Each company must possess at least \$100,000 invested in United States bonds, in Kansas State bonds, or the bonds of the State in which it was organized, or in mortgages on unincumbered real estate worth at least double the amount loaned thereon. It must have on deposit with the proper officer of the State from which it obtained its charter at least \$100,000 in available securities for the protection of its policyholders. A certificate signed by such officer, setting forth the character of the securities held by him, must be filed with the Superintendent. Annual statements must be filed on or before the 1st of March in each year, showing the condition of the company on the 31st of December preceding, and a synopsis of such statement must be published by each agent in the county wherein he does business, within sixty days after it shall have been filed. The Superintendent is required to value the policies of each company once in three years, unless such valuation is made and certified to him by the proper officer of some other State. Valuations based upon the American Experience Table of Mortality, and with interest computed at four and one-half per cent.

FIRE AND MARINE COMPANIES.

Each company must have a paid-up capital of not less than \$100,000. Annual statements must be filed on or before the first day of March of each year, showing the condition of the company on the thirty-first day of March preceding. The unearned premium fund must be maintained at forty per cent of the premium on expired risks. Companies are required to report annually the business done in the State.

FOREIGN COMPANIES.

Each fire and marine company must have at least \$100,000 in available securities, deposited in trust with citizens of the United States, for the protection of policyholders in the United States. Life companies must have at least \$100,000 similarly deposited. Annual statements must be filed on or before the first day of March, showing the condition of the United States branch of the company on the thirty-first day of December preceding. A synopsis of such annual statements must be published in each county of the State where the company has an agent, within sixty days after filing with the Superintendent.

Taxes.—Other State companies are taxed in accordance with reciprocal legislation. Foreign companies must pay on or before the 1st of March in each year, two per cent on gross premiums collected in the State during the year ending on the thirty-first day of December immediately preceding. In addition, each company must pay \$50 a year for the benefit of the school fund.

Fees.—For filing charter, \$55; for filing annual statement, \$50; for licenses to agents, \$2 each; for copies of papers, twenty cents per folio; for certifying copies of papers and affixing seal, \$1; for examinations, actual expenses incurred. If there is a deficiency in the expenses of the office of the Superintendent, he may assess the companies *pro rata* to make good the deficiency. Other fees regulated by reciprocal legislation.

Penalties.—Any company or agent doing business without a license incurs a penalty of \$500; for each violation of law the offender is liable to a fine of not less than \$100 nor more than \$500.

KENTUCKY.

SUPERVISING OFFICER—H. F. DUNCAN, INSURANCE COMMISSIONER, FRANKFORT.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter, a statement, signed and sworn to by the president or vice-president and secretary, showing the financial condition of the company, and a copy of the last annual report made in compliance of the law of the State whence it derives its charter. A written instrument must also be executed, duly signed and sealed, authorizing any agent of the company to accept service of legal process on behalf of the company. Any company removing a suit from a State to a Federal Court, or beginning suit in a Federal Court against a citizen of the State, shall have its authority to do business revoked. The Commissioner certifies to the Auditor when a company has complied with the law, and the Auditor then issues licenses to agents. Advertisements issued by agents must give name and location of the company and the State or government under which it was organized.

EXAMINATION.

The Commissioner is empowered to examine all companies doing business in the State, and if any be found in an unsound condition, to revoke their authority to do business, and to publish such revocation. A fire and marine company is regarded as unsound when, after providing for all liabilities, including the reinsurance fund, its capital is impaired twenty per cent. A life company is regarded as impaired when its cash assets do not equal its liabilities and the premium reserve required by law.

LIFE COMPANIES.

Each company must possess available assets valued at not less than \$100,000, and must have \$100,000 on deposit with the proper officer of some State for the benefit of all its policyholders, which fact must be certified by such officer to the Commissioner. Annual statements must be filed on or before the tenth day of March of each year, showing the financial condition of the company on the thirty-first day of December preceding. The Commissioner is empowered to value the policies of any company, but may accept the valuation made by the proper officer of any other State. The basis of valuation is the American Experience Table of Mortality and four and one-half per cent interest. A descriptive list of all policies in force and a list of those terminated, showing why terminated and the amount paid in each case, must be filed annually. The State agent or manager, or a special agent designated for that purpose, must report on the 1st of July and January of each year, or within thirty days thereafter, the amount of premiums collected in the State during the preceding six months, and shall pay a tax of two and one-half per cent on the net cash premiums shown by said report.

FIRE AND MARINE COMPANIES.

Each company must have a capital paid up in cash of not less than \$150,000. Annual statements must be filed on or before the tenth day of February in each year, showing the condition of the company on the thirty-first day of December preceding. The time for filing this statement may be extended by the Commissioner for cause. The reinsurance fund is computed at fifty per cent of the gross premiums on fire risks running one year or less, *pro rata* on risks running more than one year, 100 per cent on marine risks, fifty per cent on inland navigation risks, on all unexpired risks. Each company must report to the Auditor, on the first days of July and January of each year, the gross amount of premiums received in the State during the six months preceding. Companies are required to make annual reports of business done in the State.

FOREIGN COMPANIES.

Each company must have on deposit with the proper officer of this or some other State of the United States not less than \$200,000 for the benefit of all its policyholders in the United States, and the certificate of the officer, if other State than Kentucky, holding such deposit must be filed with the Commissioner. Statements, charters, powers of attorney, etc., to be filed as by other State fire and marine companies.

Taxes.—A tax of \$2.50 per \$100 premiums received in the State must be paid by fire and marine and all other companies into the State treasury on the thirtieth day of June and the

thirty-first day of December of each year, deducting only return premiums and reinsurance in companies authorized to do business in Kentucky.

Fees.—To Commissioner, for use of Insurance Bureau, for deposit of securities, \$10; for filing copy of charter, \$40; for filing annual statement, \$40; for filing supplemental statement, \$25; for copies of papers, twenty cents per folio; for certificate with seal, \$1; for examinations, actual expenses incurred; for valuing policies, not to exceed three cents per \$1000 of insurance. For licenses to agents of fire and marine and all other except life companies, \$5 each; for licenses to agents of life companies, \$10 each. Other fees in accordance with reciprocal legislation. All fees are paid into State Treasury to the credit of Insurance Bureau, and any surplus at end of year, after expenses of Bureau are paid, is transferred to General Reserve Fund of State.

Penalties.—For doing business without a license, agents of fire and marine companies are guilty of a misdemeanor, and are liable to a fine with imprisonment until paid or replevied of not exceeding \$100; life agents for a similar offense may be fined \$100 with same penalty unless paid or replevied. Any agent doing business for a company after its certificate has been revoked is liable to a fine not exceeding \$100, with same penalty. Life companies failing or refusing for thirty days to report and pay tax shall forfeit \$100 for each offense, and it shall be duty of Auditor to revoke all authority to such company or its agents, and publish revocation in some newspaper. Every agent of life companies neglecting to make returns required by law, shall forfeit \$25 for each offense, and if he continues such neglect after notice from Commissioner for ten days, shall forfeit \$500 for such neglect. Fire companies neglecting or failing to report and pay tax for space of thirty days, shall in addition to tax forfeit and pay \$1000, and party so neglecting and failing for sixty days shall thereafter be debarred from doing business in State, until taxes and penalties are paid, and Auditor shall revoke certificate of authority and license granted such party so neglecting and failing for sixty day to report such tax.

LOUISIANA.

SUPERVISING OFFICER—SIMEON TOBY, ASSISTANT SECRETARY OF STATE,
NEW ORLEANS.

GENERAL REQUIREMENTS.

An assurance company, of whatsoever kind, must file with the Secretary of State, as a prerequisite of doing business, a copy of its last annual statement, duly sworn to, under oath of the president and secretary of the company or authorized manager, if a foreign company, showing the condition of its business at the close of the preceding year. It must also execute a power of attorney authorizing some resident of the State to accept service of legal process on behalf of the company.

LIFE COMPANIES.

The statutes regarding life companies refer specially to companies incorporated under the laws of the State, but provide that any company not so incorporated may avail itself of the provisions of the act if it shall see fit to do so by complying with its requirements. "Provided that nothing herein shall be construed to prevent any foreign corporation from doing business in this State by reason of not availing itself of this privilege. But, if any company not incorporated under the laws of this State shall accept the provisions of this act, they shall thereafter be subject to all fines and penalties imposed by the same." Companies are required to make annual statements on or before the first day of March of each year. Reports are to be made to the Secretary of State, in lieu of Auditor, as formerly.

FOREIGN COMPANIES.

In addition to the requirements for other State companies, a foreign company is required to deposit with the State treasurer \$25,000 for the benefit of the policyholders of such company, citizens or residents of the State of Louisiana. Bonds or scrip of the United States, or of the State of Louisiana, must constitute the deposit. If, however, the company has made a deposit in any other State "to secure equally all policyholders of such company, who are citizens or residents of the State of Louisiana," then no special deposit will be required. A foreign company is also required to file a copy of its charter and a certified copy of the resolutions by which

its agents were appointed in the United States and in Louisiana, together with a certified copy of the trust deed defining its powers and under which it is to act on entering the State.

PUBLICATIONS.

Interstate and foreign companies are required to publish their annual statements of the business done in Louisiana only, such statements to be published by agents within the parish where they are domiciled within sixty days after the 31st day of December of each preceding year, statements of foreign companies to show only the assets held by or for them in the United States. It is unlawful for any company to make any other publication of assets and business than as prescribed. Agents of foreign companies must also publish within sixty days after the 31st day of December a certificate from the Secretary of State that such company has in all respects complied with the laws in relation to assurance.

AGENTS.

Any person, firm or company having more than one place of business of any kind shall pay a separate license for each. Under this general provision the Attorney-General holds that separate assurance agencies reporting independently to the same foreign company or its general agent outside of the State are liable for separate municipal licenses, each according to the business done by it.

REBATES TO THE ASSURED.

It is unlawful for any assurance company to allow any rebate on any policy effected, but it is required to make the net premium, and such net premium must appear in the body and be embraced in said policy. No rebate can be allowed by endorsement on the policy or otherwise, nor in money scrip or anything else. Any company violating this section will have its charter or license revoked, and is liable to a penalty equal to double the amount of the rebate and all damages and costs caused in prosecution of the suit.

Licenses and Taxes.—The license for interstate and foreign companies is based on the gross premiums received for business done in Louisiana. Foreign companies are required to pay a State tax of six mills on their determined capital, if the same has not been paid in any other State of the United States; if it has been so paid, then taxation is levied upon the gross receipts in Louisiana. But one State license is required. The basis of license for companies entering the State between January and July is computed upon the premiums received during the first two months multiplied by six; all companies entering after the first day of July pay half yearly license. Every municipal corporation in the State where an agent is domiciled has the right to demand the same amount of license as the State. New Orleans is the only city that demands it. The license fees are as follows: For first class where premiums exceed \$300,000, the fee is \$1750; second class, premiums exceeding \$250,000, the fee is \$1250; third class, where premiums exceed \$200,000, the fee is \$1250; fourth class, where the premiums exceed \$150,000, the fee is \$1000; fifth class, where the premiums exceed \$100,000, the fee is \$750; sixth class, where the premiums exceed \$80,000, the fee is \$700; seventh class, where the premiums exceed \$70,000, the fee is \$650; eighth class, where the premiums exceed \$60,000, the fee is \$600; ninth class, where the premiums exceed \$50,000, the fee is \$550; tenth class, where the premiums exceed \$40,000, the fee is \$500; eleventh class, where the premiums exceed \$30,000, the fee is \$450; twelfth class, where the premiums exceed \$20,000, the fee is \$400; thirteenth class, where the premiums exceed \$10,000, \$350; where the premiums are \$10,000 or less, \$300. These fees are paid to the Tax Collectors, who begin collecting on the 2d of January of each year.

MAINE.

SUPERVISING OFFICER—JOSEPH O. SMITH, INSURANCE COMMISSIONER, AUGUSTA.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and by-laws, also the sworn statement of its president or secretary showing its financial condition; must have \$300,000 capital, and life companies assets equal to \$100,000. Legal process against the company may be served upon anyone of its agents, and shall be deemed service upon the company. If no agent is found, the Commissioner may accept service. The courts of the State

have jurisdiction of all actions brought against any company notwithstanding stipulations to the contrary. If a judgment against a company is not paid within thirty days, the Commissioner may revoke its authority to do business in the State. Each company must obtain a certificate from the Commissioner entitling it to do business until the 1st of July following; certificates must be renewed annually thereafter. An agent's knowledge of a risk, or of errors or omissions in its description, is held to be the knowledge of the company, and is waived if not mentioned in the policy.

EXAMINATIONS.

The Commissioner is empowered to make examinations of companies and to revoke his certificate to do business when impairment is discovered. Fire and marine companies are deemed to be impaired when the assets, after providing for all liabilities and the reinsurance reserve, are not equal to three-fourths of its capital stock; when the cash assets of a life company fall below its liabilities and legal premium reserve, the Commissioner must notify the company and its agents to cease doing business in the State. The Commissioner is empowered to value policies, but may accept the certificate of valuation made by the proper officer of any other State.

AGENTS.

Each agent must file with the Commissioner a certificate of his appointment as agent by the company, or general agent, president or secretary, and must obtain a license from the Commissioner, which empowers him to act as agent within the State to the 1st of July following. Licenses renewable annually thereafter. Brokers may be licensed to do business with authorized companies on payment of \$10.

LIFE AND ACCIDENT COMPANIES.

Each company must possess available assets amounting to not less than \$100,000. Annual statements must be filed, on or before the thirty-first day of January of each year, showing the condition of the company on the thirty-first day of December preceding. An act, passed at the session of 1887, provides that life companies of that State shall not forfeit policies while there is anything to their credit. An anti-rebate law is in force.

FIRE AND MARINE COMPANIES.

Each stock company must possess a paid-up capital of not less than \$200,000, and each mutual company must have assets to an equal amount. Annual statements must be filed on or before the thirty-first day of January in each year, showing the condition of the company on the thirty-first day of December preceding. A condensed form of this statement must be published in some newspaper three weeks in succession in each county where the company has an agent. The reinsurance fund is computed at fifty per cent of the premium on all outstanding fire and inland risks, and, at the full amount of the premium on marine risks.

Taxes.—A tax of two per cent is imposed upon premiums collected in the State after deducting losses and claims paid in the State, balances on notes unpaid on open policies and returned premiums. The tax is based on the annual statement, and must be paid on or before the first day of May following. It applies to all classes of insurance, excepting assessment life, health and accident. Reciprocal legislation also.

Fees.—For license to company, \$20; to agents, \$1 each; license to brokers, \$5; examinations of companies, actual expenses.

Penalties.—A company transacting business after notice from the Commissioner to suspend, shall forfeit a sum not exceeding \$200; an agent doing business without a license is subject to a penalty not to exceed \$50 for each offense.

MARYLAND.

SUPERVISING OFFICER—J. FRED'K C. TALBOTT, INSURANCE COMMISSIONER, ANNAPOLIS.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a copy of its charter; a certificate from the proper officer of the State or Nation under whose laws the company was chartered, to the effect that it is qualified to assume risks and issue policies; a statement verified by the president or vice-president and secretary or actuary, setting forth its financial condition; also a

duly authenticated written instrument designating an agent to accept service of legal process and stipulating that service of process upon the Commissioner shall be binding upon the company, such instrument to be irrevocable. A copy of the appointment of a general agent for State and a list of all agents appointed in this State must also be filed with the Commissioner. Companies will receive certificates to do business, which expire December 31st of each year.

EXAMINATIONS.

The Commissioner is authorized to examine companies after communicating with the proper officer of the State wherein the company is located. A fire and marine company is regarded as unsound when its capital is impaired to the extent of twenty-five per cent after providing for all its liabilities and the reinsurance fund. A life company is regarded as impaired when its assets fall below its liabilities, exclusive of capital, and the net value of all its policies in force. When a company is impaired, the Commissioner is required to revoke his certificate of authority and to publish the fact of such revocation.

AGENTS.

Each agent must obtain a certificate from the Commissioner, entitling him to do business. All certificates expire on the thirty-first day of December in each year. One certificate suffices for all members of a firm.

LIFE COMPANIES.

Each company must possess assets to the value of \$100,000 properly invested. Annual statements must be filed on or before the first day of March in each year, showing its financial condition on the thirty-first day of December preceding. An abstract of this report will be printed by the Commissioner in a daily newspaper published in Baltimore, once a week, for three successive weeks, and the company must publish a similar statement, in some other paper, three times before the 1st of April. A certificate signed by the proper officer of the State wherein the company was originated, setting forth that the company has on deposit with such office at least \$100,000 for the benefit of all its policyholders, must be filed annually. The Commissioner is authorized to make valuations of the policies on the basis of the American Experience Table of Mortality and four and one-half per cent interest, but is required to accept the valuation made by the proper officer of the State wherein the company was organized if made on a basis equal to that required in this State. Companies are required to report the amount of dividends used in payment of premiums, and this amount is deducted from gross receipts in estimating the amount of taxes to be paid by each company. A law prohibiting rebates or discrimination between individuals was passed in 1889.

FIRE AND MARINE COMPANIES.

Each company must possess a capital of not less than \$100,000. Annual statements must be filed on or before the first day of March of each year, showing the condition of the company on the thirty-first day of December preceding. Abstracts of such statements must be published, as required of life companies, once before the 1st of March of each year. The reinsurance fund is computed at fifty per cent of all premiums received on all fire risks having one year to run and *pro rata* on those having a longer period to run; on marine risks 60 per cent of premiums upon yearly, or risks covering more than one passage, and on all other the full premium on unexpired marine risks must be maintained. Companies are required to report annually the business done in the State.

FOREIGN COMPANIES.

Annual statements, showing the United States business of the company for the preceding year, must be filed on or before March 1st of each year. A supplementary statement, showing the business of the company other than that done in the United States, must be filed on or before July 1st of each year. The reinsurance fund is calculated on the United States business, for which its entire assets in this country are held liable.

Taxes.—A tax of one and one-half per cent is imposed upon gross premiums after deducting losses. Life companies cannot consider endowments paid as losses. For the purpose of computing this tax the company must report the amount of premiums received and losses incurred during each license year. Each company must pay into the State treasury the sum of \$300 annually. [This license fee raised from \$200 at last session of the legislature.]

Fees.—For filing copy of charter, \$25 ; for filing annual statement, \$25 ; certificates to agents, \$10 each ; sub-agents or solicitors appointed by general agent, for life companies, \$2 ; for fire companies, \$10 ; for abstract of annual statement for publication, \$2 and cost of publication ; copies of papers, twenty cents per folio ; certifying and affixing seal to same, \$1 ; for examinations, actual expenses incurred ; valuing life policies, \$30 for each \$1,000,000 of insurance or fraction thereof.

Penalties.—For any infraction of the insurance laws a fine may be imposed of not less than \$100 or more than \$500.

MASSACHUSETTS.

SUPERVISING OFFICER—GEORGE S. MERRILL, COMMISSIONER OF INSURANCE, BOSTON.

LIFE INSURANCE COMPANIES.

A company organized under the laws of any other of the United States for the transaction of life insurance, may be admitted to do business, provided it has the requisite fund of a life insurance company and in the opinion of the Commissioner is in sound financial condition, and has policies in force upon not less than 1000 lives for an aggregate amount of not less than \$1,000,000. Any such company organized under the laws of a State or government other than one of the United States, in addition to the above requirements, must have and keep on deposit, or in the hands of trustees, in exclusive trust for the security of its contracts with policyholders in the United States, funds of an amount equal to the net value of all its policies in the United States, and not less than \$200,000.

No life insurance company shall make or permit any distinction or discrimination in favor of individuals between insurance of the same class and equal expectation of life in the amount or payment of premiums or rates charged for policies of life or endowment insurance, or in the dividends or other benefits payable thereon, or in any other of the terms and conditions of the contracts it makes ; nor shall any such company or any agent thereof make any contract of insurance, or agreement as to such contract, other than as plainly expressed in the policy issued thereon ; nor shall any such company or agent pay or allow, or offer to pay or allow, as inducement to insurance, any rebate of premium payable on the policy, or any special favor or advantage in the dividends or other benefit to accrue thereon, or any valuable consideration or inducement whatever not specified in the policy contract of insurance.

No life insurance company shall make any distinction or discrimination between white persons and colored persons, wholly or partially of African descent, as to the premiums or rates charged for policies upon the lives of such persons.

RECIPROCAL OBLIGATIONS.

When by the laws of any other State any taxes, fines, penalties, licenses, fees, deposits or other obligations or prohibitions, additional to, or in excess of, those imposed by the laws of this Commonwealth upon foreign insurance companies and their agents, are imposed on insurance companies of this Commonwealth and their agents doing business in such States, the same taxes, fines, etc., shall be imposed upon all insurance companies of such State and their agents doing business in this Commonwealth, so long as such laws remains in force.

AGENTS AND BROKERS.

Any person not a duly licensed insurance broker, who solicits insurance on behalf of any insurance company, or transmits for a person other than himself an application for or a policy of insurance to or from such company, or offers or assumes to act in the negotiation of such insurance, shall be deemed an insurance agent within the intent of these statutes, and shall thereby become liable to all the duties, requisitions, liabilities and penalties to which an agent of such company is subject. An insurance agent shall be personally liable on all contracts of insurance unlawfully made by or through him, directly or indirectly, for or in behalf of any company not authorized to do business in this Commonwealth. An insurance agent or broker who acts for a person other than himself in negotiating a contract of insurance by an insurance company shall, for the purpose of receiving the premium therefor, be held to be the company's agent, whatever conditions or stipulations may be contained in the policy or contract ; and such agent or broker, knowingly procuring by fraudulent representations payment or an obligation for the payment of a premium of insurance, shall be punished by fine of not less than

\$100 nor more than \$1000, or by imprisonment for not more than one year. No officer or agent of a foreign insurance company shall make or procure to be made, or act or aid in any manner in the negotiation of any insurance with such company until he shall procure from the Insurance Commissioner a certificate of authority so to do, and the payment of a fee of \$2. Such certificate shall continue in force until the first day of April next after its issue, and by renewal thereof, on the annual payment for such renewal of a fee of \$2 before the first day of April of each year until revoked by the Commissioner, or until the appointment of the agent is revoked by written notice from the company to that effect. While such certificate remains in force, the company shall be bound by the acts of the person named therein within his apparent authority as its acknowledged agent. Every person acting for a foreign insurance company shall exhibit in conspicuous letters, on the sign designating his place of business, the name of the State or country under whose authority the company he represents has been incorporated or formed. And said company and agent shall also have printed in large type the name of such State or country and the kind of office, whether chartered or formed as a mutual or stock company, upon all policies issued to citizens of this Commonwealth, on all cards, placards and pamphlets, and in all advertisements published, issued or circulated in this Commonwealth by them or him, relating to the business of such company.

INSURANCE BROKERS.

Whoever for compensation acts or aids in any manner in negotiating contracts of insurance or reinsurance, or placing risks or effecting insurance or reinsurance for a person other than himself, and not being the appointed agent or officer of the company in which such insurance or reinsurance is effected, shall be deemed an insurance broker, and no person shall act as such broker save as provided in this section. The Insurance Commissioner may, upon the payment of a fee of \$10, issue to any person a certificate of authority to act as an insurance broker to negotiate contracts of insurance or reinsurance, or place risks or effect insurance or reinsurance with any qualified domestic insurance company or its agents, and with the authorized agents in the Commonwealth of any foreign insurance company duly admitted to do business in the Commonwealth. Such certificate shall remain in force for one year unless revoked by the Commissioner for cause.

Every life insurance company doing business in this Commonwealth shall annually pay, by the way of compensation for the valuation of its policies, five mills on every \$1000 insured by it on lives.

VALUATION OF ASSETS OF LIFE COMPANIES.

In valuing the assets which compose the legal reserve of a life insurance company, the real estate, bonds and stocks shall be taken at such a value that the average annual income thereof shall be not less than four per cent of the valuation; and if any asset or investment is conditioned upon a rate of interest of less than four per cent annually, such asset or investment shall be rated at its value, considering the actual income and time it has to run, as the equivalent of a four per cent investment; loans and credits shall not be allowed for more than their face value, nor shall any asset or investment be applied for more than its market value.

CONDITIONS OF ADMISSION OF FOREIGN COMPANIES.

No foreign insurance company shall be so admitted and authorized to do business until it shall deposit with the Insurance Commissioner a certified copy of its charter or deed of settlement and a statement of its financial condition and business, in such form and detail as he may require, signed and sworn to by its president and secretary or other proper officer, and shall pay for the filing of such copy the sum of \$30, and for the filing of such statement the sum of \$20. It shall constitute and appoint the Insurance Commissioner or his successor its true and lawful attorney upon whom all lawful processes in any action or legal proceeding against it may be served. It shall obtain from the Insurance Commissioner a certificate that it has complied with the laws of the Commonwealth and is authorized to make contracts of insurance.

Such foreign company, if incorporated or associated under the laws of any government or State other than the United States, or one of the United States, shall not be admitted until, besides complying with the above conditions, it has made a deposit with the Treasurer of the Commonwealth or with the financial officer of some other State of the United States of a sum not less than the capital required of like companies under this act. Such deposit must be in

exclusive trust for the benefit and security of all the company's policyholders and creditors in the United States, and may be made in the securities, but subject to the limitations specified in this act, and such deposit shall be deemed for all purposes of the insurance laws the capital of the company making it.

ANNUAL STATEMENTS.

Every insurance company shall annually, on or before the fifteenth day of January, file in the office of the Insurance Commissioner a statement which shall exhibit its financial condition on the thirty-first day of December of the previous year and its business of that year. For good cause shown the Commissioner may extend the time within which any such statement may be filed, but not to a date later than the fifteenth day of February. Every such annual statement shall be in the form, and of the specifications the Insurance Commissioner may require. Such statement shall be subscribed and sworn to by the president and secretary, or, in their absence, by two of its principal officers. The annual statement of a company of a foreign country shall embrace only its business and condition in the United States, and shall be subscribed and sworn to by its resident manager or principal representative in charge of its American business. For filing each annual statement, each foreign company shall pay to the Commonwealth the sum of \$20. The transaction of any new business by any company or its agents after neglect to file a statement in the manner herein provided shall be unlawful,

Taxes.—Every company must, between the first and fifteenth days of November in each year, make a return to the Tax Commissioner, signed and sworn to, of the amounts insured, premiums received, and assessments collected from the year ending the preceding thirty-first day of October. The Tax Commissioner will thereupon notify each company of the amount of taxes, such tax to be paid to the treasurer on the tenth day of December, or the next succeeding. Every life insurance company doing business in the State is required to pay annually a tax of one-quarter of one per cent per annum upon the value of all policies in force on the thirty-first day of December, next preceding. Each company must, on or before the tenth day of May annually, make a return to the Tax Commissioner under oath of its president, secretary or general agent, showing the number, date and class of policies so held, the age of the insured lives, and the combined aggregate net value. The Tax Commissioner shall upon such returns and upon any other evidence, assess and determine the amount to be paid by such corporation.

Fees.—For filing certified copy of charter, \$30; for filing statement, \$20; issuing agents certificate, \$2; certificate of valuation, \$2; for license to procure fire insurance from unauthorized companies, \$20; broker's license, \$10; commissioner, \$2; valuation of life policies, five mills for each thousand dollars of insurance; for copies of any paper on file in the office of commissioner, 12 cents per page; for certifying the same, \$1; reciprocal provisions in reference to other fees.

Penalties.—Agent issuing policy in a company not authorized to do business, liable to a fine. Agent doing business without procuring his certificate of authority, or failing to make the annual returns, is subject to a penalty of \$500 for each offense. Agent or broker procuring payment of premiums by fraudulent representation is subject to a fine not exceeding \$1000, or imprisonment. A company failing to file a statement within the prescribed time, is subject to a penalty of \$100 for each day's neglect, but upon application will be able to extend the time for filing an annual statement. For willful neglect, or false statement, the penalty is not less than \$500, or more than \$5000. Life insurance companies neglecting to make a return for taxation forfeit \$50 for each day of such neglect. Companies that make a false statement of such returns, are liable to a fine of not less than \$500, or more than \$5000.

MICHIGAN.

SUPERVISING OFFICER—HENRY S. RAYMOND, COMMISSIONER OF INSURANCE, LANSING.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter, a statement, under oath, signed by the principal officer of the company and the secretary, setting forth the name, location, capital and condition of the company, and a copy of the last annual report made in compliance with the laws of the State under which the company was organized. A written

instrument, duly authenticated, must be filed designating a resident of the State to accept service of legal process, and also stipulating that such service upon the Commissioner or his deputy shall be binding upon the company. Every company must obtain a certificate of authority from the Commissioner. All advertisements issued by the company, or any of its agents, must set forth the location of the company and give the name of the State or government from which it derives its charter. An act passed June, 1887, prohibits companies entering "into any contract, agreement, arrangement or undertaking of any nature or kind whatever with any other company, companies, association or associations, the object or effect of which is to prevent open and free competition between it and said company, companies, association or associations, or the agents of their respective companies or associations in the business transacted in this State, or in any part thereof."

EXAMINATIONS.

The Commissioner is empowered to examine all companies doing business in the State, and if any one be found in an unsound condition, he is required to revoke all certificates or licenses issued on its account, and to publish notice of such revocation. Fire and marine companies will be prohibited from doing business when their capital is impaired fifteen per cent after providing for all liabilities and the legal reinsurance reserve. Life companies will be prohibited if in the opinion of the Commissioner the condition of the company is such as to render it improper that it should continue to issue policies in the State. Other companies will be prohibited when their capital is impaired fifteen per cent.

AGENTS.

Each agent of a fire or marine company must obtain from the Commissioner a certificate of the authority of his company, and a copy of the same must be filed with the Clerk of each county in which the company does business, together with a copy of the statement of the company, which must also publish the same in a paper of general circulation in the State, and furnish the Commissioner proofs of such publication. Certificates renewable annually, but publication required only of first issue. One certificate suffices for all members of a firm. Life agents do not require certificate. It is unlawful for any person to act as agent or otherwise in receiving or procuring applications, or in any manner, directly or indirectly, to aid in transacting the business of insurance, without procuring from the Commissioner a certificate of authority. Such authority shall designate the name of the person authorized and the name of the company or association for which he is to act as agent, and the special kind of insurance to be solicited.

LIFE COMPANIES.

Each company must possess at least \$100,000 of available assets, and have on deposit with the proper officer of some State at least \$100,000 for the benefit of all its policyholders, and a certificate signed by such officer to this effect must be filed with the Commissioner. Not less than \$50,000 of such assets must be invested in United States bonds. Annual statements must be filed in January of each year showing the condition of the company on the 31st of December preceding. The Commissioner is authorized to value life policies on the basis of the American Experience Table of Mortality and four and one-half per cent interest, but may accept a certificate of valuation from the proper officer of any other State.

FIRE AND MARINE COMPANIES.

Every stock company is required to have a paid-up capital of at least \$100,000. Annual statements must be filed, on or before the first day of February, showing the condition of the company on the 31st of December preceding. The reinsurance fund is computed as follows; Fifty per cent of the premium on all fire risks having less than one year to run; *pro rata* on all fire risks having more than one year to run; the entire premium upon perpetual fire risks; and the entire premium on unexpired marine and inland risks. If reinsurance reserve so computed be less than forty per cent of all premiums received during the year, then the reinsurance reserve shall be the whole of the premiums received on all unexpired risks. Companies are required to make annual reports of business transacted in the State.

FOREIGN COMPANIES.

Each company must have on deposit with the proper officer of some State at least \$200,000 for the benefit of all its policyholders in the United States, and must file with the Commissioner statement of the character of the securities so deposited, which certificate must be attested by

the trustees, who must be residents of the United States. It must also stipulate that the resident manager, directors, secretary or general agents shall be deemed lawful officers of the company. Annual statements must be filed, on or before the first day of June in each year, or within sixty days after the annual meeting as provided for in the charter, showing the condition of the company. Supplement statements of United States branches must be filed, on or before the first day of February in each year, showing the condition of the business of the company in the United States for the year ending December 31 preceding.

MISCELLANEOUS COMPANIES.

Accident, plate-glass, steamboiler and live stock insurance companies must have a paid-up capital of not less than \$100,000, and must have \$100,000 on deposit with the proper officer of some State for the benefit of all its policyholders, and a certificate signed by such officer that he has such sum deposited with him must be filed with the Commissioner. Companies must comply with the conditions exacted of life companies as far as practicable. The reinsurance fund must be maintained at fifty per cent of all premiums on unexpired risks. Annual statements required in January of each year.

Taxes.—Fire and marine companies and foreign companies must pay a tax of three per cent on gross premiums collected within the State. Life and miscellaneous companies must pay a tax of two per cent on gross premiums collected in cash or otherwise. For the purpose of computing this tax a statement showing the premiums received must be filed with the annual statement. This is in lieu of all other taxes.

Fees.—For examining company, actual expenses incurred and per diem of \$5; for valuing policies, one cent for each \$1000 of insurance. No other fees or charges are made. Reciprocal legislation recognized.

Penalties.—Fire and marine companies doing business without complying with the law incur a penalty of \$250 and specific tax on premiums received. Agents doing business without the required certificate are liable to a fine of not less than \$50, nor more than \$500. Life companies or agents doing business in violation of law are liable to a penalty of \$100 for each policy issued. A fine not exceeding \$100 is provided for violation of the compact law, and a similar fine for agents soliciting for unauthorized companies or for those whose licenses have been revoked.

MINNESOTA.

SUPERVISING OFFICER—C. P. BAILEY, INSURANCE COMMISSIONER, ST. PAUL.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a sworn statement, signed by the president or vice-president and secretary or actuary, showing its financial condition. A written agreement, designating certain persons to accept service of legal process, must be filed by all companies, and must stipulate that service of legal process served upon the Commissioner will be accepted as service upon the company. A certificate of authority must be obtained from the Commissioner, certificates renewable annually on or before the 1st of March. All advertisements issued by the company or its agents must give the location of the company, and where the capital is named in such advertisements, the amount at risk on the preceding 31st day of December must also be stated. Removal of suits from State to United States courts prohibited under penalty not less than \$100 nor more than \$10,000; also to forfeit its right to do business in the State under penalty of forfeiture not less than \$1000 nor more than \$10,000 for each day it does business after such forfeiture. Reciprocal legislation recognized.

JUDGMENT AGAINST COMPANIES.

Whenever a judgment for the recovery of money against any company doing business in this State has been obtained, and an execution is duly returned unsatisfied in whole or in part, and proper proof of same has been filed with the Commissioner, he shall forthwith revoke all authority or license conferred upon such company until such judgment is wholly paid and

satisfied of record and all expenses and fees are paid. Revocation to be published in daily newspaper for at least one week.

EXAMINATIONS.

The Commissioner is empowered to examine any company doing business in the State, and to publish the results. In case an impairment is discovered he is required to notify the insurance officials of other States, to suspend or revoke his certificate, and to publish such revocation. A fire and marine company whose capital stock is impaired ten per cent, after providing for all liabilities and the reinsurance reserve, will be prohibited from continuing business in the State. Life companies will be prohibited if their assets are not equal to all liabilities, all claims against it and the premium reserve required by law. A company of any other class will be deprived of its authority to do business in the State when its capital is impaired.

AGENTS.

Each agent or firm of agents must procure a certificate of authority from the Commissioner, which is renewable on or before the 1st of March of each year. All advertisements by agents must give the exact location of the company.

LIFE COMPANIES.

Each company must possess assets available in cash of not less than \$100,000. Must also have on deposit with the proper officer of some State not less than \$100,000 for the benefit of all policyholders, and the fact that it has such sum must be certified to by such officer. Annual statements must be filed on or before the tenth day of February in each year, showing the condition of the company on the thirty-first day of December preceding, and such statement must be printed in some newspaper published at St. Paul or Minneapolis at least three times. The Commissioner is authorized to value policies on the basis of the American Experience Table of Mortality and four and one-half per cent interest, but may accept the certificate of valuation made by the proper officer of some other State.

FIRE AND MARINE COMPANIES.

Each company must have a paid-up capital of at least \$200,000. Annual statements must be filed on or before the first day of February of each year, showing the condition of the company on the thirty-first day of December preceding, and such statement must be printed three times in some paper of general circulation of 2000 copies published at St. Paul or Minneapolis. No company can assume a greater risk on a single hazard than will equal five per cent of its paid-up capital. The reinsurance fund is computed at fifty per cent on all unexpired fire risks that have less than one year to run, and *pro rata* on all fire risks having a longer time to run; on marine and inland risks the full premiums must be reserved; when the fire reserve is less than forty per cent of all premiums received on fire risks, the entire premiums must be reserved. Companies are required to make annual reports of business done in the State.

FOREIGN COMPANIES.

Each company must furnish to the Commissioner a certificate, signed by the proper officer of some State, showing that the company has on deposit with such officer for the benefit of all policyholders not less than \$200,000 in approved certificates. The aggregate value of all assets held by citizens of the United States for the benefit of all policyholders, together with the sums deposited in the several States, less unpaid losses and claims, shall be regarded as the capital of the company. Foreign companies not permitted to assume any one risk in excess of five per cent of its capital, as computed on the basis above given.

MISCELLANEOUS COMPANIES.

Every company other than life, fire and marine must have a capital of not less than \$100,000, and must furnish a certificate from the proper officer of some State to the effect that such officer holds on deposit, for the benefit of all its policyholders, not less than \$100,000 of the assets of such company. Annual statements must be filed on or before February 1 of each year. Companies must comply with the conditions imposed on life companies, as far as practicable. The reinsurance reserve is computed at fifty per cent of the premium on all unexpired risks. Co-operative, assessment and mutual aid societies must file annual statements, on or before February 1 of each year, showing their condition on December 31 previous; must

pay \$10 for filing certified copy of charter, \$10 for filing annual statement, and stipulate for appointment of attorney to accept service, etc.

Taxes.—A tax of two per cent on gross premiums collected in the State is imposed on all companies except co-operatives and township mutuals. This must be paid to the Treasurer at the time of renewing certificate of authority on the business of the year ending December 31 preceding.

Fees.—For filing certified copy of charter, \$25; for filing annual statements, \$20 each; for each certificate of authority, \$1; for copies of same, \$1 each; for copies of papers on file, twenty cents per folio; for certifying same and affixing seal, \$1; for examination of companies, actual expenses incurred; for valuing life policies, \$10 per \$1,000,000 of insurance. If the expenses of the office of the Commissioner exceed the receipts, he may assess the companies *pro rata* to make up the deficiency. Reciprocal laws.

Penalties.—Agents acting without license—fine \$25 to \$100, or imprisonment not exceeding three months in case of non-payment of fine. Companies transacting business without license can be fined to the extent of \$1000. Officers of authorized companies making false statements subject to fine not exceeding \$1000 or three months imprisonment, or both.

MISSISSIPPI.

SUPERVISING OFFICER—W. W. STONE, AUDITOR OF PUBLIC ACCOUNTS, JACKSON.

GENERAL REQUIREMENTS.

Each company must have an actual capital or assets of not less than \$150,000. Accident companies are not required to make the deposit, but are required to comply with the laws in all other respects. A copy of charter must be filed with the Auditor, and also a statement, under oath of the president or secretary, giving the name, location, capital, assets and liabilities of the company. A written instrument must also be executed designating an agent to accept service of legal process, and stipulating that if for any cause such agent cannot be found, such service may be made on the State Treasurer. Annual statements must be filed on or before the first day of March of each year, showing the condition of the company on the 31st December preceding. [The statute requiring \$25,000 deposit was repealed March, 1890.]

AGENTS.

Each agent must procure from the Auditor a certificate of authority, and shall file a copy of the same in the office of the Chancery Court in the county wherein he desires to establish his agency, together with a copy of the company's statement. Any agent or firm representing one or more authorized companies may, on payment of a special privilege tax of \$25 and \$2 fee to the Auditor, obtain a license permitting him to place insurance in unauthorized companies. Agents thus licensed must file bonds in \$500, conditioned that they will, "on the first days of January, April, July and October of each year, report to the Auditor of Public Accounts, giving a full statement of the insurance procured under the provisions of this act, and pay to the Auditor at the time of making such report a tax of one-tenth of one per cent on the insurance thus procured, less the amount of special privilege tax paid under this act, for which the Auditor shall allow credit only on the business of the year for which such license was issued. The agent or agents shall make oath to the correctness of such statement, and also to the fact that the insurance could not be procured in companies that have made the deposit and complied with the laws of the State. Losses occurring under policies obtained under the provisions of this act, and upon which the tax was paid at the time required, may be adjusted as other losses."

Taxes.—Each fire and marine company must pay a specific tax of \$1000; each life company, \$750; each accident company, \$250; each agent, from \$15 to \$40. The city of Vicksburg is authorized to collect an additional annual specific tax from each fire insurance company doing business in that city of \$125; but any company may secure exemption from such tax by paying \$100 to the Firemen's Charitable Association; after one such payment to the association the company will not be required to pay again in any year wherein its losses in the city exceed its premium receipts. Other cities having organized fire departments may levy a

specific tax proportioned to the premium receipts of the company as compared with those collected in Vicksburg.

Fees.—For receiving statement and issuing license, \$5; for filing statement in Chancery Court, \$5.

Penalties.—For any violation of law the offender incurs a penalty of \$500 or imprisonment not to exceed one year.

MISSOURI.

SUPERVISING OFFICER—C. P. ELLERBE, SUPERINTENDENT OF INSURANCE, ST. LOUIS.

GENERAL REQUIREMENTS.

Each company must file with the Superintendent a certified copy of its charter, and a sworn statement of its president and secretary, showing the condition of the company on the 1st of January preceding, and a copy of the last annual report made in compliance with the laws of the State under which it was organized. Also a written instrument under seal of the company authorizing the Superintendent of the Insurance Department to accept service of legal process. No advertisements of statements required, but advertisements when made must state liabilities as well as assets.

EXAMINATIONS.

The Superintendent is empowered to examine companies, and in case one is found to be unsound, to revoke its authority to do business, and to publish the fact of such revocation.

AGENTS.

Each agent or firm of agents must obtain from the Superintendent a copy of the certificate issued to the company, which copy must also show his or their appointment as agents. Certificates renewable annually.

LIFE COMPANIES.

Each stock company must have a capital of not less than \$100,000, actually paid up, and mutual companies must possess available assets of an equal amount. Each company must also have on deposit with the proper officer of the State wherein it was incorporated, or with the insurance department of Missouri, in lawful securities, not less than \$100,000, and must furnish the Superintendent the certificate of such officer that he holds such deposit for the benefit of all policyholders of the company. Annual statements must be filed, on or before the first day of February of each year, showing the condition of the company on the 31st of December preceding. The Superintendent is required to value policies on the basis of the American Experience Table of Mortality and four and one-half per cent interest. All policies are made non-forfeitable for non-payment of premiums after two payments have been made. In case of failure to pay subsequent premiums, the policyholder becomes entitled to paid-up insurance of the whole policy as long as three-fourths of the net value of the policy, computed at four and one-half per cent, will pay for as a single net premium. It is no defense to a claim under a policy that the insured committed suicide, unless it can be shown that he contemplated doing so at the time of taking out the policy. Misrepresentations in an application shall not render the policy void unless it can be shown that they were material to the contingency that made the policy payable. In suits defended on the basis of misrepresentation, the company must deposit in court, for the benefit of the plaintiff, the full amount of premiums paid on such policy.

FIRE AND MARINE COMPANIES.

Each stock company must possess a paid-up capital of not less than \$200,000. Annual statements must be filed, on or before the first day of February in each year, showing the condition of the company on the 31st of December preceding. Companies are required to make annual reports of business done in the State.

FOREIGN COMPANIES.

Each life company must have on deposit with the proper officer of some State, in approved securities, not less than \$100,000, and each fire company must have such deposit of not less than \$200,000, and must furnish the certificate of such officer that he holds such deposit for the benefit of all the policyholders of such companies in the United States. The deposit made by a foreign company in accordance with the requirements of the Missouri law is deemed the

capital of such branch company, and treated as is the capital of a company organized in Missouri. Foreign companies must furnish annually during January statements of condition and affairs in the United States for the year ending December 31 preceding. These are regarded as annual statements. Home office statements are not required, unless specially demanded by the Superintendent.

MISCELLANEOUS COMPANIES.

Accident and plate-glass companies must have a paid-up capital of not less than \$100,000. Surety companies may be formed in the State with paid-up capital of \$50,000; surety companies of other States must have a paid-up capital of at least \$200,000.

Taxes.—State tax of two per cent on all premiums received in the State during the year, less the amount of county, township, city, town and school taxes, the receipts for which have been forwarded to the Superintendent before the 15th of September. Premiums received, after deducting losses incurred, are subject in the several counties and cities to the same taxes as other property. Companies must make their returns to local assessors on or before the 30th of April in each year. Returns for State tax to be furnished the Superintendent on or before April 30th, and the amount certified by him to the State treasurer must be paid that officer at Jefferson city on or before the 1st of October following.

Fees.—For filing statement and copy of charter, \$50; for filing annual statement, \$30; for filing supplementary annual statement, \$10; for certificate of authority to company, \$1; for each agent's certificate, \$2 (a firm counted as one agent); for copies of papers and records, 20 cents per folio; for affixing seal, \$1; for valuing policies, \$10 per million of insurance. If expenses of the department exceed amount of fees collected, the Superintendent shall assess the companies *pro rata* to make up deficiency.

Penalties.—A company neglecting to pay the fees or taxes sanctioned by law for ten days after demand shall be liable in double the amount of the same. An agent neglecting to pay the fees or taxes due from his company incurs a penalty of \$200; an agent doing business without authority is liable to a fine of not less than \$10 nor more than \$100, and to imprisonment not less than ten days nor more than six months, or to both fine and imprisonment. Any violation of law subjects the offender to a fine of not less than \$50 nor more than \$500.

MONTANA.

SUPERVISING OFFICER—E. A. KENNEY, STATE AUDITOR, HELENA.

GENERAL REQUIREMENTS.

Each company must possess not less than \$200,000 capital, and must file with the Auditor a certified copy of its charter, a statement verified by the principal officers of the company, showing its condition, and a copy of its last annual report. Also a written instrument designating some person in each county where it does business to accept service of legal process. Annual statements must be filed before April 1 of each year, showing the condition of the company on the 31st of December preceding.

AGENTS.

Each agent must obtain from the Auditor a certificate entitling him to do business. Every agent must in all advertisements publish the location of the company, giving the name of city, town or village in which the company is located, and the State or government under the laws of which it is organized, and shall in no case advertise any merely authorized capital, but shall in all advertisements be limited to actual, paid-up capital and cash assets liable for fire losses only.

FIRE AND MARINE COMPANIES.

Each company must possess a paid-up capital of not less than \$200,000, exclusive of any deposits in any other States or Territories for the exclusive benefit of the policyholders therein. Auditor to make examination when he deems necessary.

FOREIGN COMPANIES.

Foreign companies must furnish the Auditor a certificate from the proper officer of some State or Territory that it has not less than \$100,000 deposited with such officer for the benefit

of its policyholders in the United States. In other respects must comply with the laws relating to companies of other States.

Taxes.—Each and every insurance company transacting business in the Territory shall be taxed upon the excess of premiums received over losses and ordinary expenses incurred within the Territory during the year previous to the year of listing in the county where the agent conducts the business, properly proportioned by the company at the same rate that all other personal property is taxed, and the agent shall render the list and be personally liable for the tax; and if he refuses to render the list or make affidavit that the same is correct to the best of his knowledge and belief, the amount may be assessed according to the best knowledge and discretion of the Assessor, and the county board of equalization may, at their discretion, add fifty per cent to the amount returned by the Assessor. Insurance companies shall be subject to no other taxation, except taxes upon real estate and fees imposed by law. All money derived from taxation of insurance companies to be applied to the maintenance of fire departments in the town or city where it is collected, if there be a fire department; if not, the money is paid into the general county fund.

Fees.—There shall be paid to the Auditor for filing and examination of the first application of any company and issuing the certificate of license thereon, \$50; for filing each annual statement, \$25; for each certificate of authority, \$2; for every copy of paper filed, ten cents per folio, and fifty cents for certifying the same and affixing the seal of office thereto.

NEBRASKA.

SUPERVISING OFFICER—T. H. BENTON, AUDITOR OF PUBLIC ACCOUNTS, LINCOLN.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a certified copy of its charter, a certified statement, signed by the president, vice-president, or other responsible officer, and the secretary, showing the name, location, capital, assets and liabilities of the company. Every company, except life companies, must procure from the Auditor a certificate setting forth that it has complied with all the legal requirements and is entitled to do business in the State, which certificate must be published at least once in two newspapers, one of which shall be published at Lincoln.

EXAMINATIONS.

The Auditor is authorized to examine companies, and to publish the result. If any company is found to be in an unsound condition its certificate of authority shall be revoked. A fire and marine company will be prohibited from doing business when its capital is impaired twenty per cent after providing for all liabilities, including the reinsurance reserve.

AGENTS.

Each agent must obtain a certificate entitling him to do business from the Auditor, a copy of which, together with a copy of the company's statement furnished the Auditor, must be filed in the office of the clerk of the county in which he desires to do business. The certificate and statement must be printed one week in one daily paper and four times in one weekly paper published in the county wherein such agent is located; and if there be no daily paper, the weekly publication will be accepted; and if there be no weekly paper, then the publication must be made in some State paper of general circulation. Certificates to be renewed and published as above annually. All advertisements issued by a company or any of its agents must give the location of the company and the name of the State under whose laws it was organized. Each agent must report to the assessor of the county in which he does business the amount of business done by him, for purposes of taxation. Agent is personally liable for the tax in case of failure to report.

LIFE COMPANIES.

Each company must possess assets, lawfully invested, of the value of at least \$100,000. If a company maintains a deposit in any other State for the exclusive benefit of the policyholders of such State, then such company shall deposit with the Auditor of this State five per cent of all premiums collected in the State for the benefit of resident policyholders until the sum of \$40,000 is reached. A sworn return of premiums so collected must be made on the

first day of January of each year. Annual statements must be filed on or before the first day of February of each year, showing the condition of the company on the thirty-first day of December preceding. Each company must execute and file with the Auditor a written instrument authorizing an agent to accept service of legal process on behalf of the company. The following was passed by the legislature at the session of 1885, and is now the law: "Any company or corporation transacting the business of fire, or fire, wind, storm and tornado, insurance in this State, shall cancel any policy of insurance hereafter issued or renewed, at any time, by request of the party insured, or his legal representative, and shall return to the said party, or his representative, as aforesaid, the net amount of premiums received by the company, deducting the actual compensation of the agent or solicitor for securing the issue of said policy, and also deducting the customary short-rate premium for the expired term of the full term for which said policy was issued or renewed, anything in the policy to the contrary notwithstanding."

FIRE AND MARINE COMPANIES.

Each company must possess a paid-up capital of not less than \$100,000, exclusive of any deposits it may have in other States or Territories for the benefit of policyholders therein. In addition, each company must have not less than \$25,000 deposited for the protection of policyholders within the State. Annual statements must be filed, on or before the 1st of February of each year, showing the condition of the company on the 31st of December preceding. The reinsurance fund is computed at forty per cent of the premiums on all unexpired risks. Each company must file with the Auditor a written instrument, duly executed, designating some person resident at the county seat of each county wherein it has an agent to accept service of legal process in behalf of the company. Companies are required to make annual reports of business done in the State. Valued policy law enacted March, 1889.

FOREIGN COMPANIES.

Each life company must furnish satisfactory evidence that it has at least \$100,000, in lawful securities, on deposit with citizens of the United States for the benefit of policyholders in the United States.

MISCELLANEOUS COMPANIES.

Surety companies must have \$250,000 capital, plate glass companies \$100,000, and appoint agent to accept legal service. Agents represent the companies and not the assured. Agents must make annual report in January of business and condition of company, same to be published by Auditor.

Taxes.—Companies are required to pay the same as for personal property on the excess of premiums over losses and expenses, such tax to be regularly assessed by county assessors, from reports furnished them by company agents.

Fees.—For examination and filing of the first application of any company, and issuing of the certificate of license thereon, \$50, which shall go to the Auditor; for filing each annual statement therein required, \$20; for each certificate of authority, \$2; for every copy of paper filed as herein provided, the sum of ten cents per folio, and fifty cents for certifying the same and affixing the seal of office thereto; all of which fees shall be paid to officer required to perform the duties.

Penalties.—For non-compliance with requirements of the law, a penalty of \$1000 may be imposed, and imprisonment not less than thirty days nor more than six months.

NEVADA.

SUPERVISING OFFICER—J. F. HALLOCK, STATE CONTROLLER, CARSON CITY.

GENERAL REQUIREMENTS.

Each company must have a capital of not less than \$200,000 fully paid up, and it may at any time be required to file with the Controller a certified copy of its charter and a certificate showing it to be possessed of the amount of capital required. A power of attorney must also be filed, which shall set forth that the company is lawfully incorporated, giving its location, and also the location of its principal office on the Pacific Coast, and designating some resident

of the State to accept service of legal process. Must obtain certificate of Controller, renewable annually in January.

EXAMINATIONS.

Upon the statement of three citizens in writing that a company is impaired the Controller may, if he thinks proper, make an examination or require the company to produce satisfactory evidence that its capital is unimpaired. A certificate from the proper officer of any State wherein the company does business, to the effect that its capital is unimpaired, shall be accepted as satisfactory evidence of that fact.

LIFE COMPANIES.

Each mutual life insurance company is required to have assets of the value of at least \$1,000,000 in lieu of paid-up capital. Companies not entering the State, but having outstanding policies therein, may appoint agents to collect premiums, provided it shall appoint someone as its attorney to accept service of legal process and file the same with the Controller.

FIRE AND MARINE COMPANIES.

Where a total loss by fire occurs, and the loss is less than the amount named in the policy, the company must return to the insured the unearned premium on the amount of insurance in excess of the loss. Annual statement to be filed during January of each year.

FOREIGN COMPANIES.

Each company must have on deposit within the United States at least \$200,000 for the benefit of all its policyholders therein in excess of its liabilities in the United States.

Taxes.—Each company must pay for license \$100 per annum.

Fees.—For filing power of attorney and issuing certificate, \$5.

Penalties.—Neglecting to file annual statement, forfeits \$100 for each day's neglect and license

NEW HAMPSHIRE.

SUPERVISING OFFICER—HENRY H. HUSE, INSURANCE COMMISSIONER, CONCORD.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and by-laws, and a sworn statement of the president and secretary, showing the condition of the company. Also a written instrument stipulating the legal process served on the Commissioner shall be accepted as service upon the company. If a final judgment shall be obtained against a company, and it is not paid within thirty days, the Commissioner shall revoke its authority to do business. Certificates expire on the first day of April of each year, and must be renewed on that day.

EXAMINATIONS.

The Commissioner is authorized to examine any company doing business in the State, and if he finds one in an impaired condition he shall revoke its authority to do business, and publish the fact of such revocation in one paper published at Concord and another at Manchester. A stock company whose capital is impaired twenty per cent after providing for all liabilities, including the reinsurance fund, shall be prohibited from doing business. Mutual companies must have assets equal to liabilities and reinsurance reserve.

AGENTS.

Agents are required to hold license from the Commissioner for each company for which they solicit business. These licenses are issued upon written request of some officer of the company, or general agent or manager, authorized by the company to appoint agents. License for a firm is good for each member, but will be duplicated, when desired, for convenience. All licenses expire April 1, and are renewable only on request, as above stated. Agents must be residents of the State. Solicitors of life assurance held to be agents of the company.

LIFE COMPANIES.

Each company must possess available assets valued at not less than \$200,000. The commissioner is authorized to value policies on the basis of the Actuaries' Table of Mortality and

four per cent interest. Annual statements must be filed on or before the first day of March in each year, showing the condition of the company on the thirty-first day of December preceding.

FIRE AND MARINE COMPANIES.

Each stock company must have a paid-up cash capital of not less than \$200,000, and a mutual company must have available assets to an equal amount. Annual statements must be filed on or before the first day of March, showing the condition of the company on the 31st of December preceding. The reinsurance fund is computed at fifty per cent of the premiums on unexpired risks, and the full amount of the premiums on unexpired marine risks. Fire losses must be adjusted within fifteen days after notice thereof. If a company elects to reconstruct premises destroyed or injured by fire, it shall commence the work within twenty days of the adjustment of the loss, and prosecute it with reasonable diligence until it is completed. If the company neglects to do so, the person sustaining the loss may rebuild at the expense of the company, but at a cost not exceeding the amount insured.

Taxes.—A tax of one per cent is imposed on gross premiums collected in the State, to be paid to the State Treasurer within one month after notice to the company of the amount thereof. For the purpose of computing the tax each company is required to make to the Commissioner, on or before the 1st of February each year, a return of the gross amount of premiums collected the preceding year ending on the 31st of December on property located in the State.

Fees.—For filing copy of charter, \$25; for filing statement, \$15; for license to company, \$5; for license to agents, \$2 each.

Penalties.—For any violation of the laws, the offender is subject to a penalty not exceeding \$2000 for each offense. Company doing business without license incurs a penalty of \$100 for each offense. Agents acting for unlicensed company may be fined not more than \$500 for each offense.

NEW JERSEY.

SUPERVISING OFFICER—HENRY C. KELSEY, SECRETARY OF STATE, TRENTON.

GENERAL REQUIREMENTS.

Each company must have a paid-up capital of not less than \$150,000 in excess of all liabilities and claims, and must file with the Secretary of State a statement, sworn to by the president and secretary of the company, showing the condition of the company and giving the name and residence of each agent. Annual statements must be filed in January, showing the amount of premiums collected by each agent. Each company must obtain a certificate of authority from the Secretary of State, which certificate is renewable in January of each year. Companies required to report business transacted in the State. When a company advertises its assets it must also state its liabilities, and statements of capital only to include paid-up capital.

EXAMINATIONS.

The Secretary of State is authorized to make examinations of companies, and, if any be found impaired, to revoke their authority to do business, and publish such revocation in one newspaper published at Trenton and one published at Newark, at least six times in each paper. If the capital of a fire and marine company is impaired twenty-five per cent after providing for all liabilities and reinsurance reserve, it shall not be permitted to do business. If the assets of a life company are insufficient to reinsure its outstanding risks and pay all its liabilities, it shall be prohibited from doing business. Life policies may be valued by any recognized standard.

AGENTS.

Every agent must obtain a certificate from the Secretary of State. But one agency certificate is requisite for a firm, but only the firm name can be used under such certificate. Certificates renewable annually in January.

Taxes.—A tax of two per cent is imposed on gross premiums, based upon the annual statement; a tax of two per cent for the benefit of firemen's relief associations whenever such exist. Each agent, where there is such a firemen's relief association, must make returns of premiums collected to the treasurer of such fund on the 1st of January and the 1st of July of

each year, and pay the tax within one month after the time of making said returns. The amount thus paid is deducted from the State tax for which the company is liable. Life companies must pay \$20 annually for each agent employed, in lieu of the tax on premiums. Industrial companies are exempt from this tax on agents. Other taxes in accordance with reciprocal legislation.

Fees.—For filing copy of charter, \$20; for filing annual statement, \$20; issuing certificates to agents, \$2; other fees governed by reciprocal legislation.

Penalties.—Any company neglecting to file its annual statement for thirty days after the time provided is subject to a penalty of \$500, and \$500 for each month the company continues doing business while in default. Every violation of the insurance laws subjects the offender to a penalty of \$500 for each offense.

NEW MEXICO.

SUPERVISING OFFICER—TRINIDAD ALARID, TERRITORIAL AUDITOR.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a copy of its charter and a statement, verified by the president, or vice-president and secretary, showing its financial condition. Also an instrument in writing designating some person resident at the county seat in each county where the company has an agency to accept service of legal process.

EXAMINATIONS.

The Auditor is empowered to make examinations, or he may appoint deputies to do so. When a company is found to be impaired, he is required to revoke its authority to do business, and publish notice of such revocation.

AGENTS.

Every agent must obtain from the Auditor a certificate entitling him to do business, which certificates must be renewed annually after the filing of annual statement.

LIFE COMPANIES.

The law relating to insurance which was approved February, 1882, makes no distinction between life and fire, fire and marine, accident or fidelity companies organized in other States or countries. Its various provisions use the term "any insurance company," from which it appears that life companies are treated the same as fire and marine companies.

FIRE AND MARINE COMPANIES.

Each company must possess a paid-up capital of not less than \$300,000, exclusive of any deposits made in other States or Territories for the benefit of policyholders in such States or Territories (excepting companies transacting and confining their business exclusively to the insurance of plate glass against breakage, and all accident insurance companies, either stock or mutual, which shall be possessed of \$100,000 of actual paid-up capital or available cash assets, inclusive of any assets of any such company as shall be deposited in any other States or Territories or foreign countries for the especial benefit or security of the insured therein. Annual statements to be made to the Auditor, on the first day of January of each year, or within thirty days thereafter. All advertisements must give the location of the company, and statements of assets must be limited to the actual amount of paid-up capital and cash assets available for the payment of fire losses. No company permitted to do business if impaired to the extent of twenty per cent of its capital. Companies are required to make annual reports of business done in the State. The Territorial Auditor shall withhold the certificate of authority from any such company neglecting or failing to comply with the provisions of this section.

FOREIGN COMPANIES.

Companies of other countries must have not less than \$100,000 deposited with the proper officer of some State or Territory for the protection of all its policyholders in the United States, and must conform to the conditions required of other State companies.

Taxes.—"Each and every insurance company transacting business in this Territory shall be taxed upon the excess of premiums received over losses and ordinary expenses incurred

within the Territory during the year previous to the year of listing in the county where the agent conducts the business, properly proportioned by the company at the same rate that all other personal property is taxed, and the agent shall render the list and be personally liable for the tax ; and if he refuses to render the list, or to make affidavit that the same is correct, to the best of his knowledge and belief, the amount may be assessed according to the best knowledge and discretion of the Assessor, and the county board of equalization may at their discretion add fifty per cent to the amount returned by the Assessor." Other taxes in accordance with reciprocal legislation,

Fees.—For filing and examination of the first application of any company and issuing the certificate of license thereon, \$25 ; for filing such annual statement herein required, \$5 ; for each certificate of authority, \$1 ; for every copy of paper filed, ten cents per folio, and twenty-five cents for certifying the same and affixing the seal of office thereto.

NEW YORK.

SUPERVISING OFFICER—ROBERT A. MAXWELL, SUPERINTENDENT OF INSURANCE, ALBANY.

GENERAL REQUIREMENTS.

Each company must file with the Superintendent a certified copy of its charter, a statement, verified by its president, vice-president or other chief officer and secretary, giving the name, location, capital, assets and liabilities of the company in detail ; also a copy of its last annual report, made in conformity to the laws of the State in which it was organized ; also a written instrument designating some person to accept service of legal process on behalf of the company. Each company must obtain from the Superintendent a certificate entitling it to do business in the State.

EXAMINATIONS

The Superintendent is authorized to examine into the affairs of any company doing business in the State, and if one be found in an unsound condition he shall revoke its authority to do business. The result of any examination may be published at his discretion. A fire insurance company whose capital is impaired twenty per cent shall be prohibited from doing business ; a stock life company shall be prohibited when its capital is impaired fifty per cent ; a mutual life company shall be prohibited when its assets are not equal to its liabilities ; including the premium reserve.

AGENTS.

Each agent must procure from the Superintendent a certificate setting forth that the company he represents has complied with the requirements of the laws of the State, and stating the name of the attorney appointed to accept service of legal process. A copy of such certificate, duly certified, must be filed in the office of the clerk of the county in which such agent does business. Agents of fire companies must also file with the clerk of the county a certified copy of the statement of the company filed with the Superintendent. He must also print the certificate of authority issued to him at least four times in the paper in which the State notices are required to be inserted, and within thirty days furnish to the Superintendent satisfactory evidence of such publication. Each agent of a marine company shall file in the office of the clerk of the county in which he resides a copy of the company's statement, and shall cause the same to be printed in a newspaper published in such county, at least six successive weeks after filing certificates, to be renewed annually and published as above,

LIFE COMPANIES.

Each life company must possess at least \$100,000 invested in United States securities, or in securities of the State in which it is located, or of New York State, or of any county or incorporated city of this State authorized to be issued by the legislature, such stocks or bonds not to be received by said Superintendent at a rate above their par value or above their current market value ; or bonds and mortgages on improved unincumbered real estate in the State of New York, worth fifty per cent more than amount loaned thereon, or in mortgages or improved unincumbered real estate in the State where it is located, worth seventy-five per cent more than the amount loaned thereon. Such securities, of the value of at least \$100,000, shall be deposited with the chief financial officer of the State from which the company derived its

charter, held for the benefit of all its policyholders; and a certificate under the hand and seal of such officer, that it is so held, must be filed with the Superintendent. Annual statements must be filed, on or before the first day of March, showing the condition of the company on the thirty-first day of December preceding. The Superintendent is required to make a valuation of all policies issued by each company, once in five years, and annually if he deems it necessary, on the basis of the Actuaries or Combined Experience Table of Mortality and four per cent interest. The Superintendent may accept the valuation made by any State insurance official who is authorized to accept the valuation made by the New York Department.

FIRE AND MARINE COMPANIES.

Each company must possess a capital of at least \$200,000 fully paid up, and must file an agreement that it will not transact any business that a fire insurance company is by law prohibited from doing. Annual statements must be filed, in January of each year, showing the condition of the company on the thirty-first day of December preceding. No company is allowed to write on a single risk to an amount exceeding ten per cent of its paid-up capital and net surplus. No credit of any kind shall be allowed or given, either as a reduction of taxes or liabilities, to any company transacting business in this State for reinsurances made in companies not authorized to issue policies herein. Policies must be canceled at the request of the insured, and the premium returned, less the short rate, for the time it has run. Advertisements purporting to show the financial condition of a company shall include the paid-up capital and surplus, and shall show the liabilities, including the reinsurance reserve, and such assets shall only be shown as are held for the benefit of holders of fire policies. All such advertisements must agree with the annual statement filed with the Superintendent. Each agent of a fire company in an incorporated city or village must execute a bond in the sum of \$500 (\$1000 in New York city), satisfactory as to sureties, to the treasurer of the fire department, conditioned that he will make a correct return of all premiums collected by him and pay the tax thereon imposed by law. Every agent of a marine company must execute a similar bond, satisfactory to the Comptroller, conditioned that he will make returns and pay taxes as required by law. No marine company is permitted to pay more than fifteen per cent commission for premiums on property *in transitu* on the State canals, nor shall any person in behalf of the company pay any commission in excess of fifteen per cent. Companies must make annual reports of business done in the State.

FOREIGN COMPANIES.

Each company must have a paid-up capital of at least \$500,000, invested in securities of the same general character as those in which the companies of this State are permitted to invest, and must file with the Superintendent an agreement that it will not transact in New York any business which companies of this State are prohibited from doing. Every company shall deposit with the Superintendent approved securities, the value of which shall not be less than \$200,000, for the benefit of all policyholders in the United States. The recognized capital of such company shall be the aggregate of the various sums held on deposit in different States, and such assets as may be held in trust by citizens of the United States for the benefit of all policyholders in the United States, less its liabilities, and a proper reinsurance reserve. The Superintendent shall certify annually to the amount of capital of each company, computed on the basis above given. Foreign life companies shall deposit with the Superintendent securities of the value of at least \$100,000. Foreign fire companies must file statements, in January of each year, showing the assets of the company in this country constituting its recognized capital, and the condition of its United States business on the thirty-first day of December preceding. Foreign companies are prohibited from advertising any assets except those held in this country for the benefit of policyholders in the United States.

Taxes.—Agents of marine companies must pay into the treasury, on the 1st of January of each year, two per cent on all premiums received in the State during the preceding year ending on the 31st of December, but the Superintendent shall deduct from the amount so paid any other taxes paid by such companies within the State. Agents of fire companies in incorporated cities and villages must make returns on the 1st of February each year to the treasurer of the fire department of all premiums collected during the year ending August 31, and pay taxes thereon to such treasurer at the rate of two per cent. Every fire or marine insurance company,

incorporated or organized under the laws of any foreign country, shall, annually, on or before the first day of August, pay to the Treasurer of the State, as a tax on its corporate franchise or business in this State, a sum equal to one-half of one per centum upon the gross amount of premiums received by such company during the year ending the preceding thirtieth day of June, on business done in this State by such company, whether the said premiums were in money or in the form of notes, credit or any other substitute for money. Every such insurance company shall annually, on or before the first day of August, make a return to the Comptroller of the State, signed and sworn to by its president and secretary or manager, giving the total amount of premiums received by such company during the year ending the preceding thirtieth day of June, on business done in this State by such company, whether the said premiums were in money or in the form of notes, credits or any other substitute for money. The lands and real estate of such insurance companies shall continue to be assessed and taxed where situated for State, city, town, county, village, school or other local purposes. Foreign life assurance companies shall annually pay to the Superintendent, on or before the first day of March of each year, a tax of two per cent upon all premiums received in this State for the year ending on the preceding thirty-first day of December. Reciprocal provision.

Fees.—Fire, marine and life companies for filing charter, \$30; filing annual statement, \$20; for each certificate of authority to agent and certified copy thereof, such sum, not exceeding \$5, as shall be fixed from time to time by the Superintendent; for copies of papers filed in the department, ten cents per folio; for certifying the same and affixing seal, \$1, for examinations, actual expenses incurred. For co-operative companies filing declaration of incorporation, \$10; filing annual statement, \$1 for each hundred members or fraction thereof, not exceeding the sum of \$25; from any corporation or society, for each certificate of authority and certified copy thereof, \$5; for copies of papers on file, ten cents per folio; for certifying same and affixing seal, \$1; for examination, actual expenses only, not to exceed \$50 for any organization in any year.

Penalties.—Any company neglecting to file annual statements as required, incurs a penalty of \$500, and \$500 additional for each month it continues to do business while in default. Any person violating the insurance laws incurs a penalty of \$500.

NORTH CAROLINA.

SUPERVISING OFFICER—W. L. SAUNDERS, SECRETARY OF STATE, RALEIGH.

GENERAL REQUIREMENTS.

Each company must file with the Secretary of State a certified copy of its charter and a statement, verified by the principal officer of the company or by its general agent in the State, showing its condition. It must also appoint a general agent, a resident of the State, to accept service of legal process on behalf of the company. Annual statements must be made, on or before the first day of March in each year, showing the condition of the company on the 31st of December preceding. The Secretary of State will cause an abstract of each statement to be certified to the clerk of the Superior Court in each county. He will also certify to such clerk, on the first of each month, a list of companies licensed, giving the names of all whose certificates have been revoked. Certification of statements and agents to be paid for by the company. Abstracts of annual statements to be published in one newspaper, to be designated by the general agent.

AGENTS.

Every general agent must file with the Secretary of State, before the first day of March, a statement showing the condition of the company on the 31st of December preceding, which statement must be sworn to by the principal officer of the company. An act passed in 1887 authorizes agents and brokers to place business in unauthorized companies on payment of two per cent of the gross premiums. Sheriffs are authorized to prosecute persons doing business with unauthorized companies, and to collect \$50 for each offense, such money to be retained by the sheriff. Business may be placed in unauthorized companies on payment of two per cent on gross premiums.

Taxes.—A tax of two per cent is imposed on gross premiums collected in the State, but

if a company invests in real estate in the State, or loans to citizens of the State, a sum equal to one-half such receipts, the tax shall be but one per cent on the gross premiums. The general agent must make returns, on or before the thirtieth day of January and July in each year, of the premiums collected in the State during each preceding six months, and shall pay tax thereon within fifteen days thereafter. A special license tax of \$50 per annum is imposed upon all companies. Licenses to be renewed on or before the first day of April of each year.

Fees.—A fee of \$50 must be paid for each license issued to a company.

Penalties.—Any person doing business without complying with the law is liable to a penalty of \$50 for each offense. Any agent refusing to perform any act required of him by law shall forfeit \$50 for each refusal. Any agent who shall unlawfully withhold or expend the funds of his company shall be deemed guilty of a felony, and punished accordingly.

NORTH DAKOTA.

SUPERVISING OFFICER—A. L. CAREY, COMMISSIONER OF INSURANCE, BISMARCK.

GENERAL REQUIREMENTS.

Each company must file with the Auditor [now Commissioner of Insurance] a copy of its charter and a statement showing its financial condition. Must also appoint in each judicial district an attorney to accept service of legal process. "Every insurance company doing business in this State must transmit to the Auditor [now Commissioner of Insurance] a statement of its condition and business for the year ending on the preceding 31st of December, which shall be rendered on the first day of January in each year, or within one month thereafter, except that foreign insurance companies shall transmit their statement of business, other than that done in the United States, prior to the following first day of May. Such statement must be published at least three times in some newspaper of general circulation, printed and published in each judicial district of this State in which such insurance company shall have an agency; and a duplicate thereof, upon which shall be endorsed the names of the attorneys on whom process of law can be served, as required by section 23 of this act, shall be filed in the office of the Register of Deeds of the county wherein an agency may be established. Statements for publication shall be made out on blanks furnished by the Commissioner of Insurance and his certificate of authority for the company to do business in this State shall be published in connection with the said statement of each company doing business in this State. "Proof of publication to-wit: The printer's affidavit of the fact shall be filed with the Commissioner of Insurance in all cases, which affidavit shall state that said insurance company has paid said newspaper one-half of the authorized rate for publishing legal notices, and that the full amount named inures to the sole benefit of the publisher or publishers thereof, and that no agreement or understanding for the division thereof has been made with any person and that no part thereof has been agreed to be paid to any person whomsoever, and that every affidavit of publication shall state in plain terms the full amount authorized herein has been charged and collected for such publication; Provided, the Commissioner of Insurance shall select three newspapers of general circulation published in each of the judicial districts from which said company shall select one in which said statement shall be published. In each district where there are one or more newspapers publishing daily and weekly editions, one of such daily and weekly newspapers shall be selected and said statement shall be published one time in the daily edition and two times in the weekly edition of the newspaper so selected and designated to publish said statement, and the charge for such publication shall be the same as if three continuous insertions of said statement had been made in either the daily or weekly edition only. The proof of publication herein required shall be filed with the Commissioner of Insurance within four months from the time of the filing of the annual statement." [The above amendment to the law was approved February 10, 1890.]

AGENTS.

Each agent must obtain from the Auditor [now Commissioner of Insurance] a certificate entitling him to do business. Certificates renewable annually.

Law.—"Every insurance company doing business in this State, except in joint stock

and mutual companies, organized under the laws of this State, shall, at the time of making the annual statement, as required by law, pay into the State treasury, as taxes, two and one-half per cent of the gross amount of premiums received in this State during the preceding year, taking duplicate receipts therefor, one of which shall be filed with the Auditor [now Commissioner of Insurance]; and upon filing said receipts—not until then—the said Auditor [now Commissioner of Insurance] shall issue the annual certificates as provided by law; and the said sum of two and one-half per cent shall be in full of all taxes, State and local."

Fees.—The fees of this department are as follows for companies organized outside the State: Filing incorporation papers, \$25; required only of companies upon first entering the State; filing annual statement, \$10; furnishing copies of same for publication, the sum of twenty cents per folio, and for fixing official seal to such copy and certifying the same, the sum of \$1; issuing certificates of authority to company, or certified copy of same, \$2; issuing certificates to agents, \$2 each. In case of firms, each individual member who has anything to do, directly or indirectly, with the business of the company in this State, must have a certificate of authority.)

Penalties.—"Any violation of any of the provisions of this act shall subject the party violating the same to a penalty of \$500 for each violation, and of the additional sum of \$100 for each month during which any such agent shall neglect to file such affidavits and statements as are herein required."

OHIO.

SUPERVISING OFFICER—SAMUEL E. KEMP, SUPERINTENDENT OF INSURANCE, COLUMBUS

GENERAL REQUIREMENTS.

Each company must file with the Superintendent a certified copy of its charter, a statement showing its condition, verified by the president, vice-president, or other chief officer, and the secretary. A written instrument, signed and sealed, must be executed stipulating that any agent of the company may accept service of legal process, and consenting that service of process upon any such agent shall be held valid, and that in case suit shall be brought against any company after it has retired from the State, and it has no agent in the county in which suit is brought upon whom service of process may be had, service of process may be made therein by the sheriff mailing a copy of the summons or other process to the principal office of the company at least thirty days prior to the date of taking judgment. No company is permitted to advertise any assets not admitted by the Superintendent, and in all advertisements stating the assets, the liabilities, including the reinsurance reserve, must be stated. If any company applies for the removal of any suit from a State court to a United States court its certificate of authority shall be revoked, and it will not be permitted to transact business in the State for three years. Every company must obtain from the Superintendent a certificate that it has complied in all respects with the laws of the State relating to insurance and containing a statement as furnished under the oath of the president or secretary, of the amount of paid-up capital, the aggregate amount of available assets and liabilities, income and expenditures for the year preceding the date thereof, which certificate must be published at least once every year in a newspaper of general circulation in every county wherein the company has an agent, and a copy of the certificate must be filed in the office of the recorder of each county. Certificates must be renewed and published annually.

EXAMINATIONS.

The Superintendent, when he has reason to suspect the correctness of any statement of any company, or that its affairs are in an unsound condition, is empowered to examine companies and may publish the result in his discretion. When a company shall be found to be unsound, its certificate of authority must be revoked, and notice of such revocation must be printed in a newspaper published in Columbus and in the county where the general agency of the company is located. When the capital of a fire and marine company, located in Ohio, is impaired forty per cent, after providing for all its liabilities and the reinsurance fund, it shall not be permitted to do business until the impairment is made good. A life company located

in Ohio will be similarly prohibited if its assets are not sufficient to reinsure its outstanding risks.

LIFE COMPANIES.

Each stock company must have at least \$100,000 actual capital paid up and invested as required by the laws of the State under which it is organized, and each mutual company, available assets of equal value. Every company must have a deposit of bonds of the United States or of Ohio, or some other State, of the par and actual value of \$100,000, with the Superintendent, or with the proper officer of the State wherein it was organized, for the benefit of all its policyholders. Where such deposit is held by an officer of another State, a certificate to that effect must be filed with the Superintendent, giving the items thereof, setting forth that he believes such securities are of the value of \$100,000. The Superintendent is authorized to value policies on the basis of the American Experience Table of Mortality and interest at four per cent, but may accept the valuation of the proper officer of any other State, provided such standard of valuation does not make the valuation of such policies less than by the Ohio standard. Annual statements must be filed on or before the first day of March, showing the condition of the company on the 31st of December preceding.

FIRE AND MARINE COMPANIES.

Each company must possess a fully paid-up capital of not less than \$100,000. Annual statements of fire companies must be filed on or before the first day of February, showing the condition of the company on the thirty-first day of December preceding. The reinsurance fund is computed at fifty per cent of the premiums on unexpired risks. Annual reports required of business transacted in the State. Removal of suits from State courts prohibited; also, all organizations for fixing or controlling rates.

FOREIGN COMPANIES.

Each foreign fire company must deposit with the Superintendent, \$100,000 in United States or Ohio bonds for the benefit of policyholders in the State, and life companies a similar amount for the benefit of policyholders in the United States. The aggregate value of all assets held in the United States, for the benefit of policyholders in this country, shall be recognized as the capital of the company. Annual statements showing the condition of the company must be filed, and supplemental statements showing the condition of its business in the United States on the thirty-first day of December preceding. Such supplemental statements must be verified by the chief managers in the United States.

Taxes.—Every agency of an insurance company located in any other State or country is required to return to the Auditor of the county in which the agency is located, or from which it collects premiums, in May annually the amount of gross premium receipts for the previous calendar year, which are entered upon the tax list, subject to the same rate of taxation that personal property is subject to, for the year in which such premiums are received. Such tax is payable on the twentieth day of November next ensuing. The Superintendent of Insurance collects from all such companies in December such a sum as, added to the sum payable to the county treasurer's, will produce an amount equal to two and one-half per cent on the gross premium receipts in the State; if by the laws of any other State, territory or nation a larger tax than two and one-half per cent is charged Ohio companies, then the Superintendent charges a like tax upon companies from such State, territory or nation doing business in Ohio. If any company refuses to pay said tax, or makes any false statement of its gross premium receipts, it is the duty of the Superintendent to revoke its license. If the Superintendent has reason to suspect the correctness of the return of gross premium receipts, he may, at the expense of the State, verify the return by an examination of the books of the company and of its agents.

Fees.—For filing charter, \$25; for filing annual statements, \$20 each; for issuing license to company, \$1; issuing certificates to agents, \$2 each; for each certificate of compliance for publication, \$1; a company paying \$250 for agent's certificates may appoint as many as it desires, without additional charge; for copies of papers on file, twenty cents per folio; for cer-

tifying same and fixing seal, \$1; for examining companies, actual expenses incurred; for valuing policies, one cent for each \$1000 of insurance. Other fees regulated by reciprocal legislation.

Penalties.—Any company violating the law relative to advertising shall, after a second notice from the Superintendent, be subject to a fine of \$1000; any agent doing business for a company that neglects or refuses to submit annual statements incurs a penalty of \$500, and \$500 for each month he continues to do business while the company is in default. For every violation of the insurance laws the offender is subject to a penalty not exceeding \$1000, nor less than \$100, or imprisonment not more than six months, or both.

OREGON.

SUPERVISING OFFICER—GEORGE W. MCBRIDE, SECRETARY OF STATE AND EX-OFFICIO INSURANCE COMMISSIONER, SALEM.

GENERAL REQUIREMENTS.

Each company must have a paid-up capital of not less than \$200,000, and fire insurance companies must deposit \$50,000 with the State Treasurer in the United States or State securities. Must also file with the Commissioner "a power of attorney which shall set forth that such company is a corporation, or duly organized insurer (naming the principal place of business of the company, and the principal place of business for the Pacific Coast), which power of attorney shall authorize a citizen and resident of this State to make and accept service in any proceeding in any of the courts of justice of this State or any of the United States courts herein." Each company must obtain from the Commissioner a license to do business, which license is renewable in January of each year, upon the Commissioner being satisfied that the company is a proper one to do business in this State.

The following was passed at the last session of the legislature, and was approved by the Governor February 25, 1889.

SECTION 1. That section 3567 be amended so as to read as follows :

Section 3567. Corporations may be formed under the general laws of this State for the transaction of insurance business, but no such corporation hereafter organized shall be permitted to assume any risk unless the same shall have at least five directors who shall be residents and propertyowners in this State, and stockholders in the corporation, nor until such corporation shall have a paid-up, unimpaired cash capital equal to one hundred thousand dollars in United States gold coin, which shall be invested in this State in State or United States bonds; bonds or notes secured by first mortgages upon first-class otherwise unincumbered real estate, the market value of which shall be at least double the amount invested in or loaned thereon; bonds of any city, county or school district in this State, the issuance of which has been duly authorized by law, provided that such bonds or securities shall at no time be estimated as assets of such corporation at more than their actual cash value and nothing in this act shall be construed to permit any investment in mining stock.

SEC. 2. That section 3568 of chapter 50 of the miscellaneous laws of Oregon, as compiled by W. Lair Hill, be amended so as to read as follows :

Section 3568. No loan shall be made to any stockholder by any insurance corporation formed under the laws of this State, nor shall any stockholder be interested in any way in any loan, pledge, security or property of any insurance company organized under the laws of the State, except as stockholder in said company, and any property claimed as belonging to such company standing in the name of any person or persons, shall not be admitted as an asset of such company. And every foreign corporation or company, before engaging in the business of express or the business of fire or marine insurance, or directly or indirectly assuming any such insurance risk within this State, shall deposit with the Treasurer of this State the sum of fifty thousand dollars (\$50,000), as hereinafter provided. Such deposit shall be made in interest-bearing bonds of the United States, or the bonds of the State of Oregon, or any municipal, school district or county bonds, issued by authority of law in the State of Oregon, the market value of which is at or above par, or bonds or notes secured by first mortgage upon unincumbered real estate within the State of Oregon, of double the amount loaned thereon, or money

of the United States, and shall be safely kept for the benefit and security of persons transacting business with such corporations or associations in this State for claims and demands arising out of said business, and shall be held and considered specially pledged for such security for such claims and demands—provided that any such corporation may change the character of its deposit at any time by depositing other securities of the kinds and descriptions in this section authorized to be deposited. All interest accruing from the United States, or otherwise, on such securities, shall be paid as the same may accrue to the corporation or association to whom they belong, and the State of Oregon shall be held responsible for the safety of all deposits made under the provisions of this act. It is provided, however, that in lieu of the deposit hereinbefore required, any such foreign corporation or company may make an investment in real estate within the State of Oregon of the value of not less than sixty-five thousand dollars (\$65,000), provided such investment shall be approved by the Insurance Commissioner. The title to such real estate shall be vested in the State Treasurer of this State as trustee for the corporation making such investment, and shall be held for the benefit and security of persons transacting business with such corporation in this State for claims and demands arising out of said business. The corporation shall pay taxes upon such real estate in the county where the same is situated, in the same manner and to the same extent as an individual, and the real estate shall be held liable therefor. The rents or receipts from said investment in real estate shall be paid as the same may accrue to the corporation or association owning such investment. The State Treasurer shall receive the same fees for his services as trustee of real estate as he would receive if the company investing in such real estate had made a deposit in bonds under this act. When any corporation or association having made such deposit or investment in real estate shall desire to cease business in this State and withdraw its capital, it may do so by first giving six months' public notice of such intention by continuous publication in three (3) weekly newspapers published in and of general circulation in the State, and if no claim shall be filed against such corporation or association within said six months the deposit may be withdrawn and the real property may be sold, provided the Insurance Commissioner shall be satisfied that the claims of policyholders have been sufficiently protected by reinsurance or otherwise. All or any part of any real estate held by the State Treasurer under the provisions of this act may be sold at the request of the corporation owning the investment therein, and the proceeds of such sale paid to such corporation, provided it shall substitute other real estate therefor of the value prescribed herein.

SEC. 3. That section 3580 of chapter 50 of the miscellaneous laws of Oregon, as compiled and annotated by W. Lair Hill, be amended to read as follows:

Section 3580, The Commissioner shall collect for filing each power of attorney, or issuing his certificate, as required by law, five dollars. For an annual license to each fire insurance company to transact business throughout this State, fifty dollars. For an annual license to each life insurance company, co-operative insurance association, or mutual benefit society to transact business throughout this State, one hundred dollars. For an annual license to each life and accident or an accident insurance company to transact business throughout this State, one hundred dollars—provided that all orders or secret societies, such as Masons, Odd Fellow, Druids, Knights of Pythias, Ancient Order of United Workmen, Grangers, Firemen and other benevolent, fraternal co-operative societies associated or incorporated for the sole purpose of mutual protection and relief of its members only, and for the payment of stipulated sums of money to the families of deceased members, or for property of its members only, destroyed by fire, and not for profit, are hereby declared not to be fire or life insurance companies in the sense and meaning of the insurance laws of the State, and they are exempt from the provisions of all insurance laws of this State. For examining the financial condition of any company or association organized in this State, the just and legitimate expense of such examination shall be paid by the said company, and the Commissioner shall revoke or refuse his certificate of authority to any company neglecting or refusing to pay such expense, or to furnish any information to said Commissioner authorized by this act. All fines and penalties recovered and taxes paid on premiums under the provisions of this act shall be paid into the State school fund and sixty per cent of all licenses collected by the Commissioner shall be paid into the general fund of the State, and the Commissioner shall be entitled to receive the fees and forty per cent of the licenses prescribed by law, as compensation for his services.

Every foreign fire and marine insurance company doing business in this State shall have one head or general office in the State of Oregon under the charge of an officer known as its general agent, to whom all other agents of the company in the State shall make report, not less frequent than once a week, of business transacted; and said officer shall, on or before the first day of March of each year, furnish the Insurance Commissioner of this State a sworn statement of the total business transacted by such company within the State of Oregon during the year ending December 31 prior thereto. Such statement shall show the total gross premiums received during the year, from which shall be deducted returned premiums, reinsurance, agents' commissions, office expenses and licenses and losses paid in the State; and every such foreign fire and marine insurance company shall, within thirty days from the date of such annual statement, pay to the Insurance Commissioner a tax of one per cent upon the total amount of net premiums received by it upon business done or risks assumed within this State, as shown by its annual statement, and shall pay the Commissioner a fee of five dollars for filing such statement.

SEC. 4. That said section 3564 be amended so as to read as follows:

Section 3564. The Insurance Commissioner may furnish copies of any certificate of license issued by him under the provisions of law, and attach the seal of the State thereto, and may perform other official services for insurance corporations or associations upon application therefor, and may receive for such services the compensation provided in this act, or such as is now provided by law for the Secretary of State for like services.

PENNSYLVANIA.

SUPERVISING OFFICER.—J. M. FORSTER, INSURANCE COMMISSIONER, HARRISBURG.
GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a statement of its financial condition, verified by the president, vice-president and secretary or actuary. Also a written instrument designating an agent to accept service of legal process, and stipulating that process served upon such agent or upon the Commissioner, or upon an agent designated by him, shall be recognized as valid service upon the company. So long as the company has any liability in the State, such stipulation cannot be revoked. Each company must obtain from the Commissioner a certificate of authority to do business, which certificate must be renewed annually. Companies must also furnish the Commissioner from time to time complete lists of agents appointed. Annual statements must be filed, on or before the first day of March in each year, showing the condition of the company on the 31st of December preceding.

EXAMINATIONS.

The Commissioner is authorized to examine any company doing business in the State, except such as are located in States having insurance departments subject to laws substantially the same as those governing the Pennsylvania department. Whenever he deems it necessary, he may publish the results of such examination, and revoke or modify its authority to do business in the State. A fire and marine company will be prohibited from doing business when its capital stock is impaired twenty per cent after providing for all its liabilities and the reinsurance reserve, unless the impairment is made good within sixty days after notice from the Commissioner. When the assets of a life company do not equal the net value of all policies in force, exclusive of capital, after providing for all liabilities and claims, the Commissioner must publish the fact that it is below the legal standard of safety, and require it to at once cease doing business in the State.

AGENTS.

Each agent must obtain from the Commissioner a certificate setting forth that the company has complied with all legal requirements and that he is authorized to do business. All certificates renewable annually. Anyone may obtain a license as an insurance broker by the payment of \$10. Commissioner is authorized to issue licenses to brokers permitting them to insure surplus lines in authorized companies on payment of \$5 and six per cent of premiums received for such business.

LIFE COMPANIES.

The Commissioner is empowered to value the policies of any company doing business in the State on the basis of the American Experience Table of Mortality and not less than four

and one-half per cent interest, nor more than six per cent. Each company must furnish to the Commissioner, on or before the first day of March in each year, a certificate signed by the proper officer of the State wherein it was organized, showing the value of all policies in force on the 31st of December preceding, and declaring that the assets of the company are equal to the net value of such policies. Failing in this, a detailed list of all policies and securities must be furnished for valuation by the Commissioner. Any policy that makes any part of an application or the constitution, by-laws or rules of the company a material part of the contract, must have attached thereto a copy of such application, constitution, by-laws or rules, otherwise the condition shall not be valid.

FIRE AND MARINE COMPANIES.

Each company must have a paid-up capital of not less than \$200,000, or, if less than \$200,000 and more than \$100,000, it must have a surplus over all liabilities sufficient to make up the difference between these sums. Where a policy refers to the application, constitution, by-laws or rules of the company for any material part of the contract, a copy of such application, constitution, by-law or rule must be attached to the policy, or the condition shall not be held to be valid or be accepted in evidence. The reinsurance fund is computed at fifty per cent of the premium on all unexpired fire risks having one year or less to run, and *pro rata* of all premiums on unexpired risks having a longer period to run, and the entire premium on unexpired marine and inland risks. Companies are required to make annual reports on business done in the State.

FOREIGN COMPANIES.

Annual statements relating to the business of the company other than that done in the United States must be filed, on or before the first day of July in each year, and annual statements of the United States business on or before the 1st of March in each year.

Taxes.—A tax is imposed on gross premiums collected within the State of three per cent, and companies are required to report to the Commissioner in January of each year the amount of such premiums. Other taxes governed by reciprocal provisions of law.

Fees.—For filing copy of charter, \$25; for filing annual statement of certificate presented in lieu thereof, \$20; for certificates to agents, \$2 each; for copies of papers on file, twenty cents per folio; for certifying same and affixing seal, \$1; for examinations of companies, actual expenses incurred; for valuing policies, three cents for each \$1000 of insurance. If the expenses of the department exceed the amount of fees collected, the Commissioner may assess the companies *pro rata* to make up the deficiency. Other fees based on reciprocal legislation.

Penalties.—A company failing to make the statements required incurs a penalty of \$100 for each day such default continues. Any company doing business without having complied with the requirements of law shall forfeit \$500 for each month it continues to do such unauthorized business. Any agent transacting business without having obtained a certificate of authority incurs a penalty of \$500. Placing business in unauthorized companies subjects the offender to a fine not exceeding \$1000.

RHODE ISLAND.

SUPERVISING OFFICER—WM. C. TOWNSEND, INSURANCE COMMISSIONER, NEW YORK.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a statement of its affairs, under oath of the president and secretary; a written instrument must also be executed appointing the Commissioner agent to accept service of legal process. In all policies and advertisements of whatever character, issued by the company or its agents, the name of the State under whose laws the company was incorporated must be conspicuously set forth. Co-operative and assessment insurance companies are not allowed to do business in the State.

EXAMINATIONS.

The Commissioner is authorized to make examinations of companies whenever he deems it necessary.

AGENTS.

Each agent must obtain from the Commissioner a certificate authorizing him to do business. An agent licensed to do business in one town is not permitted to establish a branch agency in any other town. All advertisements issued by agents and all policies written must give the location of the company and the name of the State from which it obtained its charter. A law passed in 1889 prohibits foreign companies from doing business except through licensed resident agents.

LIFE COMPANIES.

Each company must have on deposit with the proper officer of the State in which it was incorporated available securities worth not less than \$100,000, and certificates signed by such officer, showing that he holds such deposit for the benefit of all its policyholders, must be filed with the Treasurer of the State. Annual statements must be filed, on or before the first day of February of each year, showing the condition of the company on the thirty-first day of December preceding, and abstracts of such statements, to be approved by the Commissioner, must be published by the agent for three successive weeks in March, in some paper in the county in which the agent has his office; the expense to be borne by the companies.

FIRE AND MARINE COMPANIES.

Each company must have a paid-up capital, invested securely, of not less than \$100,000. Statements showing the condition and transactions of the company must be filed on or before February 1 of each year. Agents in one town not allowed to establish branch agencies in others. Companies must make annual reports of business done in the State.

Taxes.—A tax of two per cent is imposed on gross premiums. Every agent is required to report to the Treasurer, in the month of January of each year, the amount of insurance written by him and the amount of premiums received thereon, and at the same time shall pay to the Treasurer the tax of two per cent. Other taxes levied in accordance with reciprocal legislation.

Fees.—For filing copy of charter, \$30; filing annual statement, \$20; issuing agents' certificates, \$2 each.

Penalties.—An agent acting for a company that has not complied with the requirements of the law shall forfeit not less than \$300 nor more than \$1000. An agent doing business without having obtained a certificate shall be fined \$1000. Any agent refusing for thirty days to furnish information called for by the Commissioner shall be fined \$1000.

SOUTH CAROLINA.

SUPERVISING OFFICER—JOHN S. VERNOR, COMPTROLLER-GENERAL, COLUMBIA.

GENERAL REQUIREMENTS.

Each company before engaging in business, must file with the Comptroller-General a certified copy of its charter, and obtain from him a license which will authorize the company, or its agent to transact business in every county in the State, such license to expire on the thirty-first of March of each year. The Comptroller-General must be notified of the appointment of each agent. The general agent of the company must be appointed its attorney to accept service of legal process. A statement of the financial condition of the company must be filed with the charter. Annual statement must be filed prior to the first of March in each year. Notice of licenses issued to companies must be published in some newspaper having circulation in the county in which the general agent resides. An abstract of the annual statement must also be published. Agents of foreign companies must make, annually, between 1st May and 20th June, returns for taxation the gross receipts of their agencies (including notes, accounts, etc., received as compensation for insurance), and also the value of personal property of the company situate at said agency. The home company returns, in addition, its investments and assets of every kind.

LIFE COMPANIES.

All life insurance companies that shall receive the premiums on any policy for the space of two years, shall be deemed and taken to have waived any right they may have had to dispute the truth of the application for insurance, and the said application and representations shall be

deemed and taken to be true. Life insurance companies are authorized at any time within two years from date of policy to institute proceedings to vacate the same on the ground of falsity of representations contained in the application.

Taxes.—Under the law as it now stands the gross receipts and personal property of each company is subject to taxation on the same basis that applies to other property.

Fees.—For certificates issued to companies, \$50.

Penalties.—For transacting business for unlicensed company, or violating provisions of law a fine of \$100 for each offense and imprisonment not less than one nor more than twelve months. Every general agent who shall fail or refuse to perform any duty required of him by law shall forfeit and pay to the Comptroller-General \$50 for every such refusal, to be recovered before any justice of the peace at the suit of said Comptroller-General.

SOUTH DAKOTA.

SUPERVISING OFFICER—L. C. TAYLOR, AUDITOR OF STATE, PIERRE.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a copy of its charter and a statement showing its financial condition. Must also appoint in each judicial district an attorney to accept service of legal process. "Every insurance company doing business in this State must transmit to the Auditor a statement of its condition and business for the year ending on the preceding 31st of December, which shall be rendered on the first day of January in each year, or within one month thereafter, except that foreign insurance companies shall transmit their statement of business, other than that done in the United States, prior to the following first day of March. Such statement must be published at least three times in one of three newspapers, designated by the Auditor, of general circulation, printed and published in each judicial circuit of this State in which such insurance company shall have an agency, and within ninety days from time of filing statement; and a duplicate thereof, upon which shall be endorsed the names of the attorneys on whom process of law can be served, as required by section 23 of this act, shall be filed in the office of the Register of Deeds of the county wherein an agency may be established. Statements for publication shall be made out on blanks furnished by the Auditor, and the Auditor's certificate of authority for the company to do business in this State shall be published in connection with the said statement of each company doing business in this State. The following law passed March, 1887, makes the cost of publication a serious matter:

"In all cases where publication of legal notices of any kind are required or allowed by law, the person or officer desiring such publication shall be required to pay seventy-five cents per square of twelve lines of nonpareil type, or its equivalent, for the first insertion, and fifty cents per square for each subsequent insertion.

"That in all legal advertisements fractional parts of twelve lines shall be paid for at the rate of ten cents per line of nonpareil type or its equivalent.

"That the affidavit of publication of all notices required by law to be published, shall contain a statement that the full amount of the fee charged for publishing same inures to the benefit of the publisher or publishers thereof; that no agreement or understanding for a division thereof has been made with any other persons, and that no part thereof has been agreed to be paid to any person whomsoever, and that every affidavit of publication shall state in plain terms the fees charged thereon.

"That there shall be in case of all affidavits of publication of notices required by law, an affidavit subscribed and sworn to by the party, or one of the parties, or his or their authorized agents or attorneys, that they directed the publication of the annexed notice; that no agreement or understanding for any division of the fees therefor has been made with any person whomsoever; and that no part thereof has been refunded or rebated by the party or parties publishing such notice; that no affidavit or publication shall in any case be filed or recorded until such additional affidavits shall be annexed thereto."

AGENTS.

Each agent must obtain from the Auditor a certificate entitling him to do business. Such

certificate must issue as soon as possible after filing statement. Certificates renewable annually.

Taxes.—"Every insurance company doing business in this State, except in joint stock and mutual companies, organized under the laws of this State, shall, at the time of making the annual statement, as required by law, pay into the State treasury, as taxes, two and one-half per cent of the gross amount of premiums received in this State during the preceding year, taking duplicate receipts therefor, one of which shall be filed with the Auditor; and upon filing of said receipts—not until then—the said Auditor shall issue the annual certificates as provided by law; and the said sum of two and one-half per cent shall be in full of all taxes, State and local."

Fees.—"There shall be paid by every company, association, person or persons, or agent doing business in this State, to whom this act shall apply, the following fees: Upon filing declaration, or certified charter, \$25; upon filing annual statement, \$10; upon each certificate of authority and certified copy thereof, \$2; for every copy of any paper filed in the department, the sum of twenty cents per folio; and for affixing official seal to such copy and certifying the same, the sum of \$1; for official examinations of companies under this act, the actual expense incurred, not to exceed \$10 per diem."

Penalties.—"Any violation of any of the provisions of this act shall subject the party violating the same to a penalty of \$500 for each violation, and of the additional sum of \$100 for each month during which any such agent shall neglect to file such affidavits and statements as are herein required."

TENNESSEE.

SUPERVISING OFFICER—M. F. HOUSE, COMMISSIONER OF INSURANCE, NASHVILLE.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a sworn statement, signed by the president or chief officer and secretary of the company, showing its condition on the 31st of December preceding. Life companies must execute a written instrument authorizing the Secretary of State to accept service of legal process in its behalf; fire and marine companies execute a similar paper authorizing the Commissioner of Insurance to accept such service. Companies must obtain from the Commissioner a certificate authorizing them to do business, and each company must certify to the Commissioner the names of all agents appointed by it in the State. Certificates renewable annually in January.

EXAMINATIONS.

The Commissioner is authorized to make examinations of companies doing business in the State, and if any be found in an unsound condition he must revoke all certificates issued to it or its agents, and cause a notice of such revocation to be printed at least three times in some paper of general circulation. A fire and marine company will be prohibited from doing business when its capital is impaired twenty per cent after providing for all liabilities and the reinsurance fund. A life company will be prohibited when its assets do not equal its liabilities and all outstanding claims, together with the lawful insurance reserve.

AGENTS.

Each agent must procure a certificate from the Commissioner, entitling him to do business. Certificates renewable in January of each year. All agents except those of life companies must file with the clerk of the county in which his agency is located a copy of his certificate of authority. Commissioner may license agents to place business in unauthorized companies, and must pay two and one-half per cent of premium.

LIFE COMPANIES.

Each life company must have on deposit with the proper officer of the State wherein it was organized not less than \$100,000, properly invested, for the benefit of all its policyholders, and must furnish to the Commissioner the certificate of such officer, showing that he holds such securities and that they are of the required value. The Commissioner is authorized policies, but may accept the certificate valuation of the proper officer of the State and

law it was incorporated. The basis of valuation is the American Experience Table of Mortality and four and one-half per cent interest, except for non-participating policies, which may be valued at six per cent interest. Annual statements must be filed on December 31 or within thirty days thereafter, showing the condition of the company on the 31st day of December preceding.

FIRE AND MARINE COMPANIES.

Each company must have a paid-up cash capital of at least \$200,000, of which not less than \$100,000 must be invested in United States or State bonds, or other good securities, to be approved as such by the Commissioner of the State where the company is located. The reinsurance fund is computed at fifty per cent of the premiums received on all unexpired risks having one year or less to run, and *pro rata* of all premiums having a greater period to run. Annual statements must be filed on December 31 or within thirty days thereafter, showing the condition of the company on the thirty-first day of December preceding. Companies required to report semi-annually the premiums collected on amount of business done in the State.

FOREIGN COMPANIES.

Each company must have on deposit with the proper officer of some State of the United States at least \$200,000 properly invested, and furnish the Commissioner a duly authenticated certificate of such officer that holds such deposit for the benefit of all the United States policyholders of the company.

Taxes—Life companies must pay two and one-half per cent tax on gross premiums received in the State, and must make sworn returns in January and July of each year of the amount of premiums so collected. Fire and marine companies must pay a tax of two and one-half per cent on gross premiums collected in the State, and must make sworn returns of same in June and December of each year. Other taxes based on reciprocal legislation.

Fees—Life companies are required to pay to the Commissioner for examining statements, \$50 each; for issuing certificates, \$6 each. Fire and marine companies are required to pay for filing copy of charter, \$10; for filing annual statements, \$25; for filing supplemental statements, \$10 each; for issuing certificates, \$6 each; for copies of papers on file, twenty cents per folio; for certifying same and affixing seal, \$1; for making examinations, actual expenses incurred; for valuing life policies, not exceeding three cents for each \$1000 insurance. Other fees in accordance with reciprocal legislation.

Penalties—Any company failing to make returns and pay taxes as required incurs a penalty of \$500. Any agent doing business without having obtained a certificate of authority is liable to a fine of \$100 for each offense. The penalty for doing business for an unauthorized company is \$500 for each offense.

TEXAS.

SUPERVISING OFFICER—L. L. FOSTER, INSURANCE COMMISSIONER, AUSTIN.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a statement, sworn to by the president or vice-president and secretary, showing the condition of the company. Life companies must file a written instrument stipulating that service of legal process may be made upon any of its agents in the State; fire and marine companies must designate some resident of the State to accept service of legal process. Every company must obtain from the Commissioner a certificate authorizing it to do business, and such certificate must be published for three successive weeks in a paper of general circulation, and the first publication must be made within thirty days from the issuing of the certificate. Certificates renewable annually at the time of filing the annual statement. Certificates not to be renewed if the company has removed any suit from the State to the United States courts. Annual statements to be filed, on or before the first day of March of each year, showing the condition of the company on the 31st of December preceding. Valued policy law in force.

EXAMINATIONS.

The Commissioner is authorized to examine any company doing business in the State when he shall deem it expedient, and to revoke his certificate of authority to any that may be

found impaired, notice of such revocations to be published in one or two newspapers of general circulation. Any fire and marine company whose capital is impaired twenty per cent after providing for all its liabilities, including reinsurance reserve, shall be prohibited from doing business in the State. A life company shall be similarly prohibited when its assets are not equal to its liabilities and outstanding claims and the lawful premium reserve.

AGENTS.

Agents must procure a certificate of authority from the Commissioner before doing business, and such certificate must be renewed on or before the 1st of March of each year thereafter. Any person doing any act in reference to insurance is recognized as the agent of the company.

LIFE COMPANIES.

Each company must have assets properly invested of not less than \$100,000, and must furnish the Commissioner satisfactory evidence that a sum equal to \$100,000 is held by the proper officer of some State for the benefit of all its policyholders in the United States. If a company fails to pay a claim under its policy within the time specified therein, it shall pay interest not exceeding twelve per cent thereon, and a reasonable sum for the fees of the attorney prosecuting the claim. If execution on final judgment remains unsatisfied for thirty days, the company in default shall be prohibited from doing business in the State until such execution is satisfied.

FIRE AND MARINE COMPANIES.

Each company must possess a paid-up cash capital of at least \$100,000, exclusive of any sums it may have deposited in the different States and Territories for the special benefit of its policyholders in such localities. Annual statements must be filed, on or before the first day of March of each year, showing the condition of the company on the 31st of December preceding. The reinsurance fund is computed at fifty per cent of the premiums on unexpired fire risks having less than one year to run, and a *pro rata* amount on all risks having more than one year to run, and the full amount on unexpired marine and inland risks. If a company neglects for thirty days to pay an execution on final judgment obtained against it, the Commissioner will revoke its authority to do business until such execution is paid. Companies required to report business done in the State.

FOREIGN COMPANIES.

Any foreign life insurance company doing business in the State must have at least \$100,000 deposited, in lawful securities, with the proper officer of some State for the benefit of all its policyholders in the United States, and the certificate, duly authenticated, of such officer must be filed with the Commissioner.

Taxes.—Each life insurance company is required to pay a State tax of \$300, and \$10 in each county in which it does business. Fire and marine companies are required to pay a State tax of \$200 per annum, and a county tax of \$10 for each county in which it does business, Cities and towns are authorized to impose taxes on companies not exceeding fifty per cent of the State tax.

Fees.—For fire and marine companies for filing a copy of charter, \$25; for filing annual statements, \$20 each; for issuing certificates, \$1 each; for copies of papers on file, twenty cents per folio; for certifying same and affixing seal, \$1; for examining company, \$10 per day and actual expenses incurred, not exceeding \$250. Other fees in accordance with reciprocal provisions of the statutes.

Penalties.—For any violation of the insurance laws the offender incurs a penalty of not less than \$500 nor more than \$1000.

UTAH.

SUPERVISING OFFICER—ELIJAH SELLS, TERRITORIAL SECRETARY.

GENERAL REQUIREMENTS.

Fire insurance companies of other States must have a paid-up capital of \$200,000. Certificate of authority must be obtained from the Territorial Secretary, to obtain which a statement must be filed with him, showing the name and location of the company, amount of capital, assets, liabilities and surplus. An attorney to accept legal process must be appointed. Annual

statements must be filed in April of each year, and a copy certified by the Territorial Secretary must be published four times before the 30th of April in some newspaper of general circulation published within the Territory.

LIFE COMPANIES.

Life companies are required to have a paid-up capital of not less than \$100,000. Must file statements and obtain certificate of authority same as a fire company.

AGENTS.

Each agent must obtain a certificate from the Secretary of the Territory.

Fees.—For filing statement, \$5; for issuing certificate, \$5; copy of annual statement, \$1.50.

Penalties.—Soliciting business without having obtained a certificate constitutes a misdemeanor.

VERMONT.

SUPERVISING OFFICERS—CHARLES W. PORTER, SECRETARY OF STATE, MONTPELIER,
W. H. DUBOIS, TREASURER, WEST RANDOLPH.

[The Secretary of State and the Treasurer of State are Insurance Commissioners by virtue of their offices. Either may be addressed as Insurance Commissioner.]

GENERAL REQUIREMENTS.

Each company must file with the Secretary of State a certified copy of its charter and certified copy of its by-laws and a sworn statement, signed by the president and secretary, showing the condition of the company. Also a written statement stipulating that service of legal process may be made upon the Secretary of State, and will be recognized as service upon the company. Each company must obtain from the Commissioners a certificate entitling it to do business, which certificate is renewable on the 1st of April in each year. Any company failing to pay a final judgment for thirty days may, after notice to the Commissioners, be prohibited from doing business.

EXAMINATIONS.

The Commissioners are empowered to examine into the condition of any company doing or proposing to do business in this State, and if in their judgment it is unsound, they are required to revoke its authority and to publish a notice of such revocation. Any fire and marine company will be prohibited from doing business when its capital is impaired twenty per cent after providing for all liabilities and the lawful reinsurance fund. A life company will be similarly prohibited when its assets do not equal its liabilities and the lawful premium reserve.

AGENTS.

Each agent must file with the Commissioners a certificate of his appointment by the company or its general agent, and must obtain a certificate from the Commissioners entitling him to do business. Certificates renewable on the first day of April of each year. Resident agents only can be licensed. Agent or broker placing business in an unauthorized company liable to a fine of not less than \$100 nor more than \$1000, one-half to go to informant.

LIFE COMPANIES.

Each company must possess available assets of not less than \$100,000 properly invested and held for the protection of all the policyholders in the United States. Annual statements must be filed, sworn to and signed by the proper officers of the company, showing its condition on the 31st of December preceding. The Commissioners are authorized to value policies on the basis of the Actuaries Tables of Mortality and interest at four per cent, but may accept the valuation made by the proper officer of any other State.

FIRE AND MARINE COMPANIES.

Each company must have a capital of not less than \$100,000 fully paid up, not less than one-half of which must be invested in lawful securities or mortgages. Companies are responsible for the acts of agents, and unless made so by the acts of their incorporation the policy must expressly make such stipulation. The reinsurance fund is computed at forty per cent of the premiums on unexpired fire risks, and the full premium on marine risks. Annual statements must be filed with the Commissioners, on or before the first day of March of each year, showing

the condition of the company on the 31st day of December preceding. Companies must make annual reports of business done in the State.

Laws enacted November, 1888, prohibit rebates to the insured, and provide for reciprocal taxation, fees, penalties, etc.

Fees.—For filing annual statements, \$20 each; for issuing certificate to company, \$5; for certificates to agents, \$1 each.

Penalties.—Any violation of the insurance laws subjects the offender to a penalty not exceeding \$2000.

VIRGINIA.

SUPERVISING OFFICER—MORTON MARYE, AUDITOR OF PUBLIC ACCOUNTS, RICHMOND.

GENERAL REQUIREMENTS.

Each company, except those doing exclusively a marine or assessment business, must file with the Auditor a certified copy of its charter and a statement showing its condition, certified to by the proper officers of the company. Each company must also execute a power of attorney appointing some resident of the State to accept service of legal process in its behalf, and such agent on behalf of the company must file a bond with the Auditor, in a sum not less than \$1000 nor more than \$5000, with two or more sureties, conditioned that the returns shall be made and taxes paid as required by law. Each company is also required to deposit with the Treasury securities to the amount of five per cent of its capital stock, but not less than \$10,000 or exceeding \$50,000, for the benefit of policyholders within the State. Such securities may consist of United States bonds, bonds of the cities of Richmond, Petersburg, Lynchburg, Norfolk, Alexandria or Danville. The Treasurer will receipt for such deposit, and the Auditor will then issue a certificate authorizing the company to do business in the State. Annual statements, sworn to by the president and secretary, showing the condition of the company at the close of its fiscal year preceding, must be filed on or before the first day of April each year, and be published for six days in a Richmond paper. All conditions and restrictions contained in any policy must be printed in long primer type or written therein with pen and ink. Companies not required to report business done in the State.

AGENTS.

Every agent must obtain from the Auditor a certificate entitling him to do business.

LIFE COMPANIES.

The Auditor is authorized to value the policies of any life company doing business in the State, upon the basis of the American Experience Table of Mortality and interest at four and one-half per cent, but may accept the valuation made by the proper officer of any other State.

Taxes.—A tax of one per cent on gross premiums collected in the State is imposed, and each company must render sworn returns thereof to the Auditor on or before the fifteenth day of January each year, and pay the tax immediately. A special license tax of \$200 is also exacted annually; for a live stock company, \$100. Other taxes may be imposed in accordance with the provisions of reciprocal laws.

Penalties.—Any person acting as agent for a company that has not complied with the law incurs a penalty of not less than \$300 nor more than \$1000 for each offense. For neglect to pay taxes five per cent a month is added during the continuance of the default.

WASHINGTON.

SUPERVISING OFFICER—OLIVER C. WHITE, STATE TREASURER, OLYMPIA.

GENERAL REQUIREMENTS.

All regularly organized insurance companies doing business within the State are required to have an authorized agent with an office in the State. Ample power is given them to transact insurance business not inconsistent with the organic act of the State, and the right to enjoy all rights and to maintain and defend the same in courts as fully as though

they were domestic corporations. Power to sue and give suit, hold, purchase, acquire, sell and dispose of property, and to transact business in the same manner as though organized under the laws of the State.

Licenses.—Every agent must obtain from the County Auditor of the county in which he acts a license, which shall be for a period of not less than six nor more than twelve months, and shall pay therefor a license fee of \$13 for six months and \$30 for twelve months.

Taxes.—Every company doing business in the State must pay an annual tax of two per cent on the gross amount of premiums collected in the State during the preceding year. Statements of premiums collected must be filed with the State Auditor on or before the first day of January following, and the tax levied paid on or before said first day of January.

Penalties.—Neglect to pay the two per cent tax after notification renders the company liable to have its premiums due or to become due from any insured person garnished by any prosecuting attorney selected by the State Auditor. Any person presuming to act as agent before paying tax for doing business shall be adjudged guilty of misdemeanor, and subjected to a fine not exceeding \$200, or imprisonment in the county jail not exceeding six months, or both fine and imprisonment, at the discretion of the court.

WEST VIRGINIA.

SUPERVISING OFFICER—PATRICK F. DUFFY, STATE AUDITOR, CHARLESTON.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a certified copy of its charter and a statement, showing the condition of the company, sworn to by the president or secretary. It must also execute a power of attorney appointing some resident of the State to accept service of legal process in its behalf. Each company must have at least \$100,000 in available cash assets, and must obtain from the Auditor a certificate of authority to do business, and cause the same to be printed in a newspaper of general circulation published in the State; it must also file a copy of such publication in the office of the Circuit Court in each county wherein the company does business. Such certificates to be renewed, filed and published annually. Annual statements must be filed on or before the 1st of February each year, showing the condition of the company on the 31st of December preceding. Companies not required to report business done in the State.

EXAMINATIONS.

The auditor is empowered to make examinations of companies and to publish the results when he deems it expedient. If any company is found to be in an unsound condition, he is required to revoke its authority to do business, and to publish a notice of such revocation in a newspaper published at Charleston.

AGENTS.

All agents are required to obtain, file and publish certificate of authority issued by the Auditor in the same manner company certificates are obtained, filed and published. Certificates to be renewed annually.

Taxes.—A tax of two per cent on gross premiums collected within the State is imposed, to be paid into the State Treasury, when the annual statement is filed. Life companies that invest in the State the whole of their net premiums collected in the State, are required to pay but one-half of the above-named tax. Agents in the city of Wheeling must obtain a certificate from the city clerk entitling them to do business, and each must make returns, on or before the fifteenth day of July and January of each year, of the premiums received, upon which the city is authorized to levy a semi-annual tax of one and one-half per cent.

Fees.—For filing annual statements, \$10 each; for certificates to company and agents, \$5 each. Other fees charged in accordance with reciprocal legislation.

Penalties.—Any company or agent failing to make returns as required, or to pay the specified tax and fees, incurs a penalty of not less than \$100 nor more than \$1000. Any person transacting any business for a company that has not fully complied with the laws shall forfeit \$50 for each offense.

WISCONSIN.

SUPERVISING OFFICER—PHILIP CHEEK, JR., COMMISSIONER OF INSURANCE, MADISON.

GENERAL REQUIREMENTS.

Each company must file with the Commissioner a certified copy of its charter and a statement, sworn to by the president, vice-president or other chief officer, showing its condition. Each company must execute a written instrument appointing some resident of the State its attorney to accept service of legal process. Such instrument must also stipulate in the case of fire and marine companies that the company will not remove from a State to a United States court any suit brought against it by a resident of the State. Service of legal process may also be made upon any agent of the company. Each company must obtain from the Commissioner a certificate of authority to do business, which certificate must be renewed annually.

EXAMINATIONS.

The Commissioner is authorized to examine all companies doing business in the State, and if any one is found to be in an unsound condition to revoke its authority, and shall publish a notice of such revocation. He may publish the result of any examination if he deems it for the interest of the public to do so. A fire and marine company whose capital is impaired twenty per cent after providing for all its liabilities and the insurance reserve shall not be permitted to do business in the State. A life company will not be permitted to transact business if its assets over all liabilities are not equal to the premium reserve.

AGENTS.

Each agent must obtain from the Commissioner a certificate entitling him to do business. Certificates to agents of fire and marine companies are renewable on the 1st of February of each year, and those of life agents on the 1st of March. Each member of a firm requires a certificate.

LIFE COMPANIES.

Each company must possess assets of at least \$100,000 invested in securities approved by the Commissioner. The Commissioner is authorized to value all policies on the basis of the American Experience Table of Mortality and four and one-half per cent interest, unless such policies shall have been valued by the proper officer of some other State. Annual statements must be filed on or before the 1st day of March in each year, showing the condition of the company on the 31st of December preceding.

FIRE AND MARINE COMPANIES.

Each company doing business in the State must have a capital of not less than \$200,000 actually paid up and properly invested. Where a total loss occurs of any insured property, without any criminal fault on the part of the assured, the amount named in the policy shall be deemed to be the amount of loss sustained by the insured, and regarded as the measure of damage. All companies are limited in their advertisements to stating such assets as are held for the sole protection of holders of fire policies, and any advertisement intended to show the financial condition of the company may only state the actual capital paid in and the surplus over all liabilities, including such capital and the reinsurance reserve, and such advertisements must correspond with the annual statement filed with the Commissioner. The reinsurance reserve is computed at fifty per cent of the premiums on all unexpired fire risks and the full premiums on unexpired marine and inland risks. Annual statements must be filed, on or before the 1st of February in each year, showing the condition of the company on the 31st of December preceding, and shall be published for six successive days in the official State paper, and in one daily paper of general circulation published in the city of Milwaukee.

ACCIDENT COMPANIES.

Accident companies must possess a cash capital of not less than \$100,000 and must have \$100,000 or more on deposit with the proper officer of the State wherein it was organized, for the benefit of all its policyholders. Annual statements, taxes and fees required the same as of fire and marine companies. The reinsurance reserve must be maintained at fifty per cent of the premiums on all unexpired risks.

FOREIGN COMPANIES.

Each company must have at least \$200,000 on deposit with the proper officer of some State, or vested in trustees who are residents of the United States, for the benefit of all policy-

holders in the United States, and the fact that such deposit is so held must be properly certified to the Commissioner. In the absence of such certificate, the sum of \$50,000 must be deposited with the State Treasurer.

Taxes.—A tax of two per cent on gross premiums is imposed, and the amount of premiums collected in the State must be certified to the Commissioner at the time of filing the annual statement, and the tax paid thereon before its certificate of authority can be renewed. In all incorporated cities or villages having organized fire departments, a tax of two per cent on the gross premiums collected in such city or village must be paid for the benefit of such fire department. Every agent must give a satisfactory bond in the sum of \$1000, with approved sureties, to the treasurer of the fire department, conditioned that he will pay to such treasurer, on or before the 1st of February of each year, the taxes due on premiums collected during the year ending December 31st preceding. Life companies must pay an annual tax of \$300. Other taxes in accordance with reciprocal provisions of the statutes.

Fees.—For filing certified copy of charter, \$25; for filing annual statements, \$25 each; for issuing certificates to life agents, \$1 each; to fire and marine agents, \$2 each; for copies of papers on file, fifteen cents per folio; for certifying same and affixing seal, fifty cents; for examinations, actual expenses incurred; for valuing life policies, one cent for each \$1000 of insurance. Other fees dependent upon reciprocal legislation.

Penalties.—Any company or agent doing business without having obtained a certificate of authority is liable to a fine of not less than \$50 nor more than \$1000. Any person making a false statement incurs a penalty of not less than \$500 nor more than \$1000.

WYOMING TERRITORY.

SUPERVISING OFFICER—M. N. GRANT, INSURANCE COMMISSIONER, CHEYENNE.

GENERAL REQUIREMENTS.

Each company must file with the Auditor a certified copy of its charter and a statement, verified by the oath of the president, or vice-president and secretary showing its condition. It must also file a power of attorney designating one agent in each county wherein it does business, resident at the county seat, to accept service of legal process. Each company must have a capital of not less than \$300,000 fully paid up and properly invested.

AGENTS.

Fire, accident, regular life, and assessment life, agents must obtain from the Auditor a certificate authorizing them to do business. In all advertisements agents must state the location of the company, giving the name of the State under whose laws it was organized.

FIRE AND MARINE COMPANIES.

Each company must obtain a certificate from the Auditor that it has complied with the laws and must publish the same in two newspapers of general circulation, one of which is published at the Territorial Capital. The reinsurance fund is computed at fifty per cent of the premiums on the unexpired risks having one year or less to run, and *pro rata* on all having a greater period to run. Annual statements must be filed on or before the first day of February of each year, showing the condition of the company on the 31st of December preceding. Companies not required to report business done in the Territory.

Taxes.—The excess of premiums collected in the State over losses and ordinary expenses is liable to be taxed the same as other property, and each agent must make returns to the proper officer in the county where he is located and pay taxes thereon. Agents are held personally liable for all taxes.

Fees.—For entering Territory, \$50; for filing annual statement, \$25; for certificate to agents, \$1 each; for copies of papers on file, fifteen cents per folio; for certifying same and affixing seal, fifty cents; for examinations, actual expenses incurred.

DIGEST OF INSURANCE DECISIONS.

SUMMARY OF RECENT DECISIONS OF UNITED STATES AND STATE COURTS.

COMPILED EXPRESSLY FOR THE INSURANCE YEAR BOOK.

In the pages immediately following will be found a digest of a number of decisions relating to life, fire and accident insurance that were rendered during the past year. Most of them relate to important questions in insurance, and give judicial interpretations of many phases of the contract of insurance. While condensing the decisions to a great extent, we have endeavored to present the salient features of each case. The references are retained, so that anyone desiring the full text of any decision can obtain it.

DECISIONS RELATING TO LIFE INSURANCE.

GRANDCHILDREN HAVE NO INTEREST IN POLICY PAYABLE TO WIFE OR HER HEIRS.

The plaintiff alleges in the complaint that the defendant is a corporation created under the laws of New Jersey; that on the fourteenth day of May, 1845, the defendant issued a policy of insurance on the life of Archibald T. Finn in the amount of \$5000, for the sole use of his wife, Jane E. L. Finn, in which it agreed to pay to her, her executors, administrators, or assigns, after the death of Archibald T. Finn, the sum insured, and in case she should die before him that then the amount should after his death be payable to their children, or to their guardian, if under age; that Mrs. Finn died in 1864, leaving her surviving, her husband and three children, namely, Katherine A. Anthon, wife of George C. Anthon, and Myraette Miles, wife of Charles A. Miles, and Caroline C. Finn; that Katherine A. Anthon died in 1881, leaving three children her surviving, her only issue, namely, Christeane, Archibald F. and George C. Anthon; that Myraette Miles died in 1882, intestate and without issue, leaving her surviving, her husband; that letters of administration upon the estate of Mrs. Miles were thereafter issued by the surrogate of the city and county of New York; that in March, 1885, Archibald T. Finn died, leaving him surviving his daughter, Caroline C. Finn, and his grandchildren, Christeane, Archibald F. and George C. Anthon, his only issue; that thereafter on the sixth day of November, 1885, the defendant paid one-third of the amount due on the policy to Caroline C. Finn, one-third to Charles A. Miles, as administrator of his wife, one-ninth to Caroline C. Finn as guardian of Christeane Anthon, and two-ninths to Edward Anthon as guardian of Archibald F. and George Christian Anthon; that plaintiff has been appointed guardian of the estates of Archibald F. and George Christian Anthon; that there is due and owing from the defendant to the plaintiff as such guardian one-ninth of the whole amount insured by the policy in addition to two-thirds thereof already paid to the two children of Katherine A. Anthon, deceased, such one-ninth being equal to one-third of the amount wrongfully paid to Charles A. Miles as ad-

ministrator of his wife's estate; that the sum so due and owing to the plaintiff from the defendant is \$555.50 with interest from June 7, 1885, and plaintiff demands judgment for that sum.

To this complaint the defendant demurred, alleging that it appears upon the face of the complaint that the plaintiff has not legal capacity to sue, and that there is a defect of parties plaintiff in the omission of the administrator or other personal representative of Katherine Anthon, deceased.

The policy was issued in this State and was a valid policy, and the sole matter for our determination is the construction of the policy. The court below held that no portion of the policy was payable to Mrs. Miles, but that one-half thereof was payable to Caroline C. Finn, the surviving daughter of her and Mrs. Finn, and the other half to the three grandchildren.

We find no language in the policy insuring anyone but Mrs. Finn, and the children of Mr. and Mrs. Finn. If Mrs. Finn survived her husband the sum mentioned in the policy was payable to her. When she died before her husband the only persons interested in the policy were her children then living, and the whole policy as a chose in action belonged to them. They held vested interests therein as they could in any other chose in action payable at a future time: *Olmstead vs. Keyes*, 85 N. Y., 393; *Whitehead vs. N. Y. Life Ins. Co.*, 102 N. Y., 143.

It is true that it was the purpose of the act of 1840 to enable a husband to make a provision for his family, but how that provision should be made was to be determined by the parties to the policy. The insurance could be for the benefit of the wife alone, in which case the amount insured would, upon the death of the husband, be payable to her if she survived; but if she died before him it would then vest in and be payable to her personal representatives and not to her children. So, too, the insurance could be made payable to a child, in which case upon the death of the father it would be payable to the personal representative of the child. Here grandchildren are not named, and their names cannot be read into the policy. In the event that has happened the policy must be construed, and is payable precisely as if the children alone had been named therein.

Therefore, when Mrs. Miles died her interest in the policy passed to her administrator as her personal representative and as part of her personal estate; and upon the death of Mr. Finn one-third of the policy was payable to the surviving child, one-third to the administrator of Mrs. Miles, and one-third to the administrator of Mrs. Anthon. The children of Mrs. Anthon, as such, could have no standing to maintain an action to recover any sum due upon the policy. But even if they could, their full share has already been paid to them.

If, however, we assume that we are wrong in this construction of the policy, then upon the death of Mrs. Finn the policy was payable to her children as a class, and those of the class would take who were in being at the time when the policy became payable, and in no event could grandchildren be included in the class. In that case the whole policy would be payable to the only survivor of the class; to wit, Caroline C. Finn.

We are therefore of opinion that the judgments of the General and Special Terms should be reversed, and that the defendant should have judgment upon the demurrer with costs. All concur.

Court of Appeals of New York—*United States Trust Company as General Guardian vs. Mutual Benefit Life Insurance Company.*

PLEADINGS UNDER STATE STATUTES.

In an action upon a life policy the defense was a statutory plea to the effect that the policy was forfeited for non-payment of premiums, and that no proof or notice of death had been furnished. The answer thereto claimed lack of knowledge of the Massachusetts statute, and avowed that plaintiff would have given the defendant notice of the claim, and submitted proofs of death of assured had the existence of such statute been made known to them; that as soon as known they requested the necessary forms or papers that they might make such proof of death, and demand of payment within ninety days after the discovery of said statute, but such helps were denied by defendant. In the lower court there was a judgment for defendant and appeal taken.

HELD—Where, in a suit upon a policy of life insurance, the plaintiff relies upon the provisions of a statute (see chap. 186, an act to regulate the forfeiture of policies of life insurance, approved April 10, 1861) of the State of the company that issued it to avoid the effects of a forfeiture for non-payment of premiums, the facts bringing the case within such provisions

must be averred. The petition failing to do this does not state a cause of action. Judgment affirmed.

Ohio Supreme Court—*Schiefers et al. vs. Massachusetts Mutual Life Insurance Company.*

A FORGED SIGNATURE TO A SURRENDERED POLICY.

This was an action upon a life policy issued to plaintiff's husband, where she was named as beneficiary. The evidence showed that the policy had been surrendered by the husband on a forged signature of the wife alleged to have been acknowledged before a Commissioner of Deeds. The husband died, and the wife learned for the first time of the existence of the policy and its disposition soon after the husband's death. In answer, the company defended on the ground that the premium, due at the time of surrender, was not paid within the thirty days thereafter required by law.

HELD—That the surrender excused the default in payment of the premium, and notwithstanding the hardship for the company to pay the loss, its liability was fixed: and its only remedy was against the Commissioner, who falsely asserted that he knew the party appearing before him to be the person described in the authority to surrender.

New York Supreme Court—*Schneider vs. United States Life Insurance Company.*

ASSIGNMENT OF POLICY TO CREDITOR.

Jacob H. Lenig insured his life for \$1000, and immediately assigned the policy to defendant. Insured died and defendant received the money on the policy. Lenig's administrator sues for the money, on the ground that defendant had no insurable interest in the life of deceased. Defendant alleged that he was a creditor of assured, and took the assignment of the policy in good faith to secure the payment of his debt. Plaintiff proved that defendant was not a relative of deceased, but did not prove that he was not a creditor, and, on motion of defendant, a non-suit was granted. From this order plaintiff appealed.

HELD—The plaintiff contended that the burden was upon the defendant to show that he was a creditor of Lenig. We do not think so. The policy of insurance had been formally assigned to Eisenhart, and the company had paid him the money. He was, *prima facie*, entitled to retain it. What occasion had the defendant, with the money in his pocket, to prove anything until his right to retain it had been impeached by evidence? It must be remembered that this was not a suit against a company to recover upon a policy; but a suit by the administrator against one to whom the company had already paid the money, thus recognizing his right to receive it. Judgment affirmed.

Pennsylvania Supreme Court—*Lenig vs. Eisenhart.*

INTEREST ON PREMIUM NOTE DEDUCTED FROM FACE OF POLICY.

This was an action on a paid-up life policy taken out by the plaintiff in lieu of a former one in the defendant company. The policy provided that any indebtedness due the company, should on payment of the policy, be first deducted, and that any failure to pay a premium note, or interest thereon, should cause the policy to become null and void. The company held four overdue premium notes given by plaintiff on the former policy. The company represented the policy to be "non-forfeiting."

HELD—The failure to pay the interest on the premium notes would not cause a forfeiture of the paid-up policy, but the interest became an indebtedness to be deducted from the paid-up policy. As the insured shared in the profits of the company, to be applied on his indebtedness, it was the duty of the company to give the insured notice of the exact amount of interest due, after deducting the profits, before it could insist on forfeiture for non-payment. Judgment for plaintiff.

New Hampshire Supreme Court, May 15, 1889—*Eddy vs. Phoenix Mutual Life Insurance Company.*

STATEMENTS OF AGENT CANNOT CONTROL POLICY.

The policy provided that if the person insured "shall be engaged in switching or coupling or uncoupling cars, or be employed in any capacity on the trains of a railroad without in each of the foregoing cases having first obtained the written consent of the company, then in every such case this policy shall be null and void." The insured at the time the application was made

informed the company's agent that he was employed as brakeman on a railroad and that he was required to couple and uncouple cars. The agent then said: "Put it down laborer, that will cover all."

HELD—The parol agreement which is to be inferred from the statements made to and by the agent at the time of the application cannot control the terms of the policy; and that no implication arises from the fact that the company knew that the insured was so employed at the time he made the application, that the company consented that he might continue in such employment.

Kentucky Supreme Court—*Wright, Administrator vs. Northwestern Mutual Life Insurance Company*.

NOTICE OF PREMIUM DUE MUST CONFORM TO THE STATUTES.

This was an action upon a life policy. The defense was that of forfeiture by reason of non-payment of premium. Plaintiff had judgment, which was affirmed at general term, and defendant appealed.

HELD—A notice sent by a life insurance company to a policyholder, stating when his next quarter's premium falls due, and that members neglecting to pay when their premiums are due, "are carrying their own risk," does not comply with the State law, laws providing that a policy shall not be forfeited for the non-payment of the premium unless a notice shall be mailed and addressed to the holder at his last known post-office address, informing him among other things, that unless the premium shall be paid within thirty days from the mailing of the notice, "the policy and all payments thereon will become forfeited and void," because the phraseology is not so clear as the language of the statute. Evidence of the finding of such notice among the policyholder's effects after his death, forty-seven days after its date, and seventeen days after the premium was due, without proof as to when it was mailed, or to what address, while the address on the notice itself was not the last known post-office address of the policyholder, is not sufficient to establish the fact that such notice was in fact mailed and addressed in compliance with the statute.

New York Court of Appeals—*Phelan, Administratrix vs. Northwestern Mutual Life Insurance Company*.

CO-OPERATIVE CERTIFICATES RECOGNIZED AS "OTHER INSURANCE."

The policy provided that if any of the statements in the application were untrue it should be void. The application provided that no statement made to or by the person soliciting the application should be binding on the company unless such statement was contained in the application when the same was received at the home office of the company. In the application the question was propounded as to whether the applicant had any other insurance on his life, to which the agent wrote "No other," after being informed by the applicant that he held certificates of membership in certain co-operative societies, which the agent told him was not considered insurance.

HELD—The act of the agent in making such an answer was the act of the company, which was thereby estopped to say that insurance in co-operative societies was the kind of insurance to which the question referred. Evidence as to what kind of insurance was intended by the term in such question is not excluded by the provision that none of the terms of the contract can be modified, nor any forfeiture under it waived except by an agreement in writing signed by the president or secretary of the company.

United States Supreme Court—*Continental Life Insurance Company vs. Chamberlain*.

MISSTATEMENT AS TO OTHER INSURANCE.

This action was brought upon ten policies of \$5000 each, issued by the defendant to William S. McCollum, December 22, 1885, payable to his personal representatives. Within two months after the issuing of the policies, the defendant sought to rescind the contract of insurance, and offered to return to the insured the premium which he had paid upon each policy, upon the ground that said policies were secured by fraud. Insured refused to accept the premium and surrender of policies; and at the time of the death of insured, June 25, 1886, which was caused by a pistol shot, the several policies remained unrescinded. Defendant after the death of the assured refused to pay his representatives, on the ground that there was no con-

tract of insurance outstanding. The company claimed a breach of warranty in the application, the insured having represented that he had no other insurance on his life. The plaintiff claimed that the defendant's attempted rescission of contract and refusal to pay upon the ground of said rescission precluded the setting up of the defense of breach of warranty. The insured answered "no" to the question of other insurance, and it was shown that at this time he had insurance on his life for \$3000 in the Buffalo Life and Reserve Association, and for \$2500 in the Rochester Mutual Aid and Accident Association. Plaintiff claimed that this insurance was not in the regular and authorized insurance companies, and therefore there was no breach of warranty. He also claimed that defendant's agent advised the insured to answer "no," because said question did not refer to such associations. On the back of each policy was the following: "Powers of Agents. No agent has power to bind the company, by receiving any representations or information not contained in the application for this policy."

HELD—The defendant was not precluded from setting up any defense it might have on breach of warranty. The fact that the deceased was insured in the societies named constituted a breach of the warranty. By chapter 175, Laws of New York, 1883, section 5, such companies are life insurance companies. They have been so treated uniformly by the courts. The agent's expression of opinion did not justify the false answer.

New York Supreme Court, General Term—*Mary E. McCollum, Administratrix, vs. The Mutual Life Insurance Company of New York.*

TO WIND UP A DEFUNCT COMPANY.

A life company had practically done no new business for a period of ten years, simply maintaining its corporate existence for the purpose of winding up its business in the interest of the stockholders; its policies and receipts having diminished until the latter did not pay the running expenses.

HELD—The company being solvent, no adequate remedy at law looking to a receivership in behalf of the policyholders existed. But where the company was technically solvent, and its condition being such that a continued enforcement of the contract would work peril and inequity to the remaining policyholders, equity will intervene and declare the contracts at an end and compel the company to pay an equitable surrender value.

Missouri Supreme Court—*Ingersoll vs. Missouri Valley Life Insurance Company.*

CORONER'S INQUEST COMPETENT EVIDENCE TO SHOW CAUSE OF DEATH.

Suit was brought by the wife and administratrix of the insured under a policy of life insurance issued by defendant. The defendant denied its liability pleading the general issue, and submitting further special pleas, setting up that the policy sued on contained a provision that if within three years from the date of the policy the insured should die by any act of self-destruction whatever, the policy should become null and void. The company alleged that the insured took his own life by shooting himself with a pistol. It was shown in evidence that a coroner's inquest was held on the body of the deceased in Chicago, and a jury, and in making proofs of death a certified copy of the record of the coroner's inquest consisting of the inquisition and the deposition of three witnesses was submitted to the insurance company. The inquisition showed that the deceased came to his death by a pistol shot fired by his own hand while laboring under a fit of temporary insanity. This evidence was not admitted in the trial court, and the original papers were also ruled out. Judgment was given to plaintiff for the full amount of the policy. The defendant appealed.

HELD—The coroner's inquisition upon the body of the insured was evidence as to the cause of his death. The Illinois statutes requiring the inquest to be returned to the clerk of the Circuit Court of the county, and filed, make it a public record. Judgment reversed.

Illinois Supreme Court—*United States Life Insurance Company vs. Killgast, Administratrix.*

INSURANCE ON LIFE OF DEBTOR.

This was a suit in equity brought to reinstate on original contract and enforce the payment of a life policy in the sum of \$6000. The facts as appear in the evidence are that the plaintiff's husband was a creditor of one "L." and took out a policy of \$6000 on his life. Plaintiff's husband died, and she was made administratrix of his estate, and she continued to pay the premiums

on the policy until April, 1889. "L" had left the State, and his whereabouts were unknown for thirteen years. The repeated payment of these premiums became burdensome to plaintiff, and it being uncertain whether "L" was living or dead, plaintiff and the defendant company entered into an agreement whereby she surrendered the original policy for \$6000, and accepted in lieu thereof a paid-up policy for \$2500. It was subsequently discovered that "L" had died in Virginia ten days before the agreement was made and when the original policy was in full force.

HELD—That such a contract is not induced by any peculiar mistake of fact and equity will not give the desired relief; the new contract was not founded upon any mistaken fact regarding the condition of "L," but was based upon doubts entertained by both parties. The plaintiff had no belief about the insured's condition or whereabouts, and believed it to be advantageous to stop future premiums and take a paid-up policy for a less sum; the company had no more knowledge than plaintiff regarding "L's" whereabouts, and both shared the chances which the doubts presented. Such a contract made in view of doubtful facts, and because of the doubtful facts, will be enforced.

Philadelphia Common Pleas Court—*Riegel, Administratrix vs. American Life Insurance Company.*

ACCEPTANCE OF PREMIUM AFTER DUE WAIVER FORFEITURE OF POLICY FOR NON-PAYMENT.

Defendant issued a policy of life insurance on the life of plaintiff's husband, dated April 1, 1884. The premium was payable semi-annually, on April and October 1st. in each year. The policy contained a clause of forfeiture if the premiums were not paid on the day they fell due, and in case of forfeiture the company stipulated for a release from all liability except such as was imposed on it by the laws of Massachusetts. By the laws of that State, if the assured ceased paying premiums at any time after the payments of two full annual premiums, the policy became a paid-up policy for its net value at the time payments ceased. The assured died April 8, 1888. Of the seven semi-annual premiums that fell due after April 1, 1884, and prior to April 1, 1888, four were paid by the assured and accepted by the company from seven to thirty days after they fell due. Three payments only were made at maturity. The final premium, due April 1, 1888, was tendered to the company on April 9, 1888, and was accepted by it in ignorance of the death of the assured on the day previous. On discovering that the assured was dead, the company offered to return that premium, but the plaintiff would not accept it. Defendant claimed that the policy was forfeited by the non-payment at maturity of the premium that fell due April 1, 1888, and that it is only liable for the net value of the policy on March 31, 1888, computed according to the Massachusetts statute, which amount (\$1789) it tendered plaintiff.

HELD—The company was liable for the full amount of policy. Any course of action on the part of an insurance company which leads a party insured honestly to believe that by conforming thereto a forfeiture will not be incurred, followed by due conformity on his part, will estop the company from insisting on a forfeiture. The conduct of the company in the present case was such as fairly warranted the assured in believing and acting on the belief that a literal compliance with the provisions of the policy concerning the payment of premiums will not be required. More than one-half of all the premiums that fell due while the policy was in existence were paid by the assured and accepted by the company from one to four weeks after they matured, and without a word of warning that the company could or might in future insist on a forfeiture. It would be inequitable, and a violation of good faith and fair dealing, to allow the defendant to take advantage of the non-payment of the premium on the day nominated in the policy, after having given the assured so much occasion by its previous course of dealing to suppose that such a forfeiture would not be insisted on. The law does not favor forfeitures under any circumstances, and there is ample grounds in the present case for holding that the defendant has waived the forfeiture, or, to be more accurate, is estopped from asserting it.

Missouri Circuit Court, E. D.—*Spoari vs. Massachusetts Mutual Life Insurance Company.*

FAILURE TO PAY INTEREST ON PREMIUM NOTE VOIDS THE POLICY.

This action was upon a paid-up policy, and was defended upon the ground that a default had occurred in the payment, by assured, of the annual interest due upon the note given for the balance of premiums due when the paid-up policy was issued. The judgment was for

plaintiff, and appeal by defendant. The court say: We are unable to find any ground upon which to sustain the judgment in this action. The interest upon the note was not tendered to the defendant until the day following that upon which, by the terms of the policy, it was made payable, and by the express condition of the contract the policy was forfeited. A long line of authorities has settled the law to be that when it is expressly provided that the premium on a life insurance policy shall be paid on or before a certain day, and in default thereof the policy shall be void, the non-payment of the premium works a forfeiture. The policy in suit was issued after three premium payments on the original policy. The assured had, however, not paid all the premiums in cash, but was indebted to the company in the sum of \$431.24. If this debt had been paid, the assured would have been entitled to an unconditional paid-up policy for \$1500, and no further payments would have been necessary. But for some reason he chose not to pay the debt; and, as the original policy provided that any indebtedness to the company was to be deducted from the insurance money when paid, it was proper, with the assured's consent, to make a like provision in the paid-up policy and to provide that the non-payment of the interest on that debt should render the policy void. The claim that such a provision in a paid-up policy is unconscionable and oppressive, and presents a case which a court of equity should relieve from the forfeiture incurred by omission to make prompt payment of premium, is not a new one. It has frequently been presented to the courts, and has recently received very full consideration in this court in *Attorney-General vs. North American Life Insurance Company*. It was decided in these cases that provisions in paid-up policies issued in lieu of other policies, on which notes have been given for premiums, that they should be void in case the interest on such notes was not paid, are not unconscionable, oppressive or usurious. Judgment reversed and new trial granted.

Court of Appeals, New York—*Fowler vs. Metropolitan Life Insurance Company*.

CREDITORS CANNOT ATTACK POLICY OF A DECEASED WIFE.

The statutes of Alabama authorize married women to insure the lives of their husbands free from the claims of creditors, and provide that the policy shall be payable to the wife in case she survives her husband, but in case of her death before the husband the insurance may be made payable to her children, and, if under age, to their guardian. The complainants filed a bill in equity as creditors of a deceased husband, to have the proceeds of an insurance on his life applied in payment of debts contracted by him partly before taking out the policy, and partly during the time he was paying the premium thereon. The policy was payable to his wife, her heirs, executors or assigns, and contained no provision for payment to her children in case she died before her husband. The wife died first.

Held—That the interest of the wife was contingent on the death of her husband first, and that the proceeds could not be paid to the children without an express provision in the policy to that effect.

Alabama Supreme Court—*Tompkins vs. Levy et al.*

WIFE HAD NO ASSIGNABLE INTEREST DURING THE LIFE OF HER HUSBAND.

Jonathan P. Milhous secured a policy of insurance from the Mutual Life of New York, through its agent in Ohio. The loss and premiums were made payable by the terms of the policy at the company's office in New York. The policy contained this provision respecting the payment of loss: "And the said company do hereby promise and agree to pay the amount of said insurance at their office in the city of New York to the assured, for her sole benefit, if living, in conformity with the statute, and, if not living, to her children or their guardian." Subsequently, Mr. and Mrs. Milhous executed their joint note for \$1500, to defendant Seborn, expressly stating that the separate estate of Mrs. Milhous was charged thereby, and to secure the judgment of this note, the policy was assigned to Seborn. Prior to the death of Milhous his wife also executed three notes for \$300 each, which are unpaid and have come to defendant Johnson by assignment, and she has commenced an action upon them, and secured an attachment against Mrs. Milhous, which was served upon the company. The company, upon being sued by plaintiff, paid the money into court, and Johnson and Seborn were substituted as defendants. In the lower court there was a verdict for plaintiff and appeal taken.

Held—The contract of insurance is to be governed by the laws of the State of New York, and not by the laws of Ohio. In the first place the policy was executed here and delivered

here. And it further appears upon the face of the policy that it was contracted for and issued with a view to the provisions of the statutes of New York. It is clear, therefore, that as far as the defendant Seborn is concerned, by reason of the assignment of the policy to him no rights in and to said policy were acquired, because such assignment was not executed according to the laws of New York, in that it did not appear to have been made by Hannah Milhous by and with the written consent of her husband. The claim of defendant Johnson stands upon a different basis. It is urged that, under the laws of Ohio, by the making of the notes above referred to, the plaintiff charged her separate estate with the payment thereof. This seems to be the law of Ohio. But at the time of making these notes it does not appear that Hannah Milhous had any separate estate upon which these notes could be a charge; and it is only in case a married woman has a separate estate that she is empowered by the laws of Ohio to make notes as surety for her husband or another. It is urged that her interest in the policy of insurance constituted a separate estate. We think that the principles laid down in the cases by the courts of this State show conclusively that this policy could have constituted no separate estate of Hannah Milhous, because at no time prior to the death of her husband did she have any interest in this policy which a creditor could seize. If she had no interest in this policy within the reach of a creditor, then she had no separate estate, which was the subject of a charge. Judgment for plaintiff.

New York Supreme Court—*Milhous vs. Johnson et al.*

MUTUAL MISTAKE IN FILLING APPLICATION.

This was an action brought upon a note given for the first year's premium of a policy of life insurance. The payment thereof was resisted on the ground that the agent employed to obtain the insurance wrote a different answer from that which the applicant had made to one of the questions in the application, and that by reason of the false answer the insurance company was not bound to the policy, and therefore he had a right to avoid the note.

HELD—Where a mutual mistake had been made in writing one of the answers to a question contained in the application, but more than a year and a half had been allowed to elapse before the assured had discovered such mistake or taken any steps to rescind the policy on account thereof, he cannot resist liability on the premium note on the ground of the voidability of the policy.

Massachusetts Supreme Judicial Court—*Plympton et al vs. Dunn.*

WARRANTY IN APPLICATION FOR INSURANCE.

In this case the application warranted that all answers made by the applicant to the medical examiner should be true. The answers were written down by the medical examiner. The applicant was asked if he had ever applied to any other insurance company for a policy of insurance on his life. Evidence was offered to show that he told the agent that he had made application to the Knights of Honor, and that the agent told him that such organizations were not regarded as insurance companies, and were not included in the question. The defendant contended that the policy was void because the plaintiff had no insurable interest in the life of the insured. The insured was indebted to the plaintiff in the sum of \$1200. The policy was for \$15,000.

HELD—Evidence to the effect that the applicant told the agent that he had made application to the Knights of Honor and that the agent told him that such organization was not regarded as insurance, was properly admitted. The plaintiff had an insurable interest in the life of the insured, and the fact that the amount of the insurance was greatly in excess of the amount of the debt is not a reason for declaring the policy a wager one, as the policy was applied for by the insured himself, and the surplus, after paying the debt and charges, will go to the insured or his representatives.

Texas Supreme Court—*Equitable Life Assurance Society vs. Haslewood.*

REVISION OF CONTRACT.

In this case the plaintiff, general agent of a life insurance company, represented to the defendant, with whom he was negotiating for insurance, that certain estimates as to surplus were those of the company, which was untrue. The defendant took insurance in the company

and gave the agent his note in payment of the premium. The defendant on learning of the misrepresentation returned the policies to the agent, and in a suit by him on the note pleaded the fraud. Plaintiff, to show that the defendant sought to surrender his policies for other reasons inconsistent with such defense, offered to show that defendant was taking out policies in other companies. The policies were issued on June 20; the defendant learned of the misrepresentations on the 11th, and on the 12th wrote to the company and not hearing from it returned the policies to the agent on the 20th.

HELD—The evidence sought to be introduced to show that the defendant's reason for surrendering his policies was inconsistent, was properly excluded. It was for the jury to determine whether the defendant acted with due diligence in rescinding the contract. It was unnecessary for the defendant, before he could rescind, to put the plaintiff in the condition he was before he paid the money, or to pay for the insurance pending the contract and before the rescission.

Vermont Supreme Court—*Norton vs. Gleason*.

A LIFE INSURANCE POLICY AS COLLATERAL SECURITY.

A man who held a policy of insurance upon his life made a contract with one of his creditors in which it was recited that the latter had taken out a policy of insurance upon the life of the former to secure the payment of the debt and the expenses of the insurance, and in consideration thereof the creditor agreed on payment of the debt and all expenses to assign to the debtor or his legal representatives all his interest in said insurance "which I have, together with all my right, title and interest in and to said policy." The creditor collected the proceeds of the policy, and the administrator of the debtor brought this suit in equity to recover the amount collected in excess of the debt and the expense of carrying the insurance.

HELD—The action can be maintained, and as the relation between the creditor and debtor was such as to render an accounting necessary, the suit was properly brought in equity.

Massachusetts Supreme Judicial Court—*Tatum vs. Ross*.

MISSTATEMENT AS TO AGE VOIDS POLICY.

This was an action brought by the wife of the deceased assurant claiming under policy. The defense was based on the untruthful warranty of the age of the insured, as made in his application. The applicant had stated that he was born on the 14th of June, 1856. The defendant alleged the fact to be that he was born on the 10th of June, 1853.

HELD—The fact appeared by the statement of the plaintiff herself, which was verified on the 24th of August, 1886, and made a part of the proofs of death, that the insured was born on the 10th of June, 1853, and no denial or explanation avoiding the effect of this admission was made upon the trial. That established the fact to be that the statement concerning the time of the birth of this person was untruthfully given, and this had the effect of voiding the policy. The policy which was issued upon this application contained a condition or agreement in these words: "In case of any untrue statement or suppressions of fact in the application for this policy, this company shall only be liable for the amount of paid-up insurance to which the owner of this policy would at the date of the death of the insured be entitled according to the provisions hereinafter set forth." By those succeeding provisions in this manner referred to, neither the person whose life was insured nor the plaintiff was entitled to a paid-up policy at the time of his death, and the effect of warranting the age of the insured as that was in this manner done, to be three years less than his actual age, was, under these clauses, to render the policy inoperative. The application for the policy was taken by a person who was in the employment of defendant's insurance agency, and evidence was offered from which, if it had been received, the fact might have been found that the untruthful statement concerning the age of the person whose life was insured arose out of the mistake or misstatement of this agent. But the court at the trial excluded this evidence under the paragraph of the application wherein "it is also agreed and warranted that this application has been made, prepared and written by the applicant, or by his own proper agent, and that the insurer is not to be taken to be responsible for its preparation, or for anything contained therein or omitted therefrom, and that in case of any untrue answers or statements herein, or a suppression of any fact, the company shall be liable only for the amount of the paid-up insurance to which the policy by its terms

may be entitled." The force and effect of this claim was to render the acts of the agent in filling out the application those of the applicant for the policy of insurance, and the defendant was not responsible for the misconduct or misrepresentation of the agent. The judgment appears to be supported by the law. Judgment affirmed.

New York Supreme Court—*Kabok vs. Phoenix Mutual Life Insurance Company.*

GRANDDAUGHTER HAS NO INSURABLE INTEREST IN THE LIFE OF A GRANDFATHER.

The complainant in this case alleged that the policy was issued to the grandfather for her benefit when she was six years of age. The complaint recites the payment of the advance premiums by the plaintiff, and her promise to pay further premiums as a consideration of the insurance of the policy.

HELD—The plaintiff will not be permitted to prove an existing state of facts, outside of the writings, to show its legal effect. The granddaughter has no insurance interest in the life of her grandfather.

Indiana Supreme Court—*Burton vs. Connecticut Mutual Life Insurance Company.*

ASSURED ASSUMES RESPONSIBILITY FOR ACTS OF AGENT.

This was an action by Peter Wilkins against the Mutual Reserve Fund Life Association. The action was dismissed in the trial court, and Wilkins appealed. The facts are stated in the opinion.

Daniels, J. The plaintiff brought this action as assignee of a certificate of life insurance issued by the defendant upon the life of Daniel S. Sanford. By the terms of the certificate there became payable to him from the death fund of the association the sum of \$10,000 from and after the period of his decease. The certificate was assigned to the plaintiff and another person, the latter having also added a farther assignment, including his own interest. The insured died on or about the 7th of February, 1886, and the ordinary notice and proofs of the fact were supplied to the defendant. The association resisted the right of the plaintiff to payment of the amount mentioned in the certificate on the ground that false representations had been made by the assured in the application for the certificate, rendering the certificate itself invalid and inoperative. These representations consisted in the answer of the assured, to the question requiring a statement of his occupation, that he was a carpenter; and, in answer to a further question, whether he had consulted any physician regarding his health within the preceding five years, and if so, what physician, and when, and for what disease. To this he answered, "No." The further inquiry was made whether he had ever had any illness or injury not enumerated in preceding questions, or had been an inmate of any hospital, and to that he answered in the negative.

By the proof the fact was established that he had at one time served as cook or steward on sailing vessels, and within five years preceding the date of the application he did consult a physician regarding his health and for disease, and that the answer made to the inquiry concerning that subject was untruthful. It was also proved that from October 3, 1882, to the 25th of the same month, he had been an inmate of a hospital, and also that he was an inmate of a hospital within three years prior to the time of his application for the certificate, and that his answer that he had not been was untruthful. And these answers, under the authorities, were held at the trial to avoid the certificate.

By the stipulations and provisions of the application the assured warranted the truth of the representations which had been made by him; and as they turned out to be untruthful as to the fact of his consulting a physician, and having on two occasions been an inmate of a hospital, that relieved the defendant from liability for the payment of the money mentioned in the certificate. It was, however, proposed to be proved that the insured, at the time when he made the application for the insurance, informed the agent of the defendant as to the facts being otherwise. This offer of proof was rejected by the court, and certain authorities cited to sustain the incorrectness of the ruling of the court. But they are not entitled to that effect in this case, for the reason that the assured, by the application, took upon himself the entire risk of the truth of the representations made by him, and on the correctness of which the certificate was made to depend. Where the insured in this manner accepts and binds himself for the truth of the statements contained in the application, he cannot be relieved from that result

by proof of the fact afterward made that the agent improperly, as well as untruthfully, filled out the application. Where, on the contrary, he expressly assumes the acts of the agent as his own acts, and binds himself for the truth of the statement made, then neither he nor his representatives can be relieved from the effect by proof that the agent had acted faithlessly. This results from the voluntary agreement of the insured himself, over which a court of justice has no authority by way of relief. * * * There is a probability that this agent, in reducing the answers of the insured to writing, was faithful to the obligations of his employment, for he stated in his evidence (and that was not contradicted) that he filled out the blank from information obtained from Mr. Sanford, and that it was all in conformity with what he had stated to the agent.

The plaintiff, upon the trial, proposed to give evidence, from which the position has been taken, that the company had placed itself in a condition in which it could not take advantage of the untruthful nature of these answers. For this purpose it was proposed to prove, before the assignment was taken of the certificate, that the parties repaired to the office of an agent of the company, and there consulted him as to the regularity and validity of the policy, and that he substantially represented the policy to be a valid security. This evidence was rejected upon the trial, upon the ground that the agent, even though he might have been a director in the company, had no authority to change the certificate, or to prevent the company from taking advantage of these untruthful answers. It was not proposed to be shown that any information of the fact of the answers being untruthful had been brought to the attention of the defendant, or either of its officers, or to the attention of this agent; and without information to that effect, the agent would naturally assume that the certificate had been obtained by truthful representations made on behalf of the insured; and in that state of the case there could be no reason for assuming or supposing that it was intended to surrender or waive any advantage that the company might be entitled to claim from the fact being otherwise. The insurance that the certificate was a safe investment, or might be relied upon as having been legally or correctly issued, would, in this state of the facts, include no more than that the conduct of the company had been such as to bind it, so far as its own proceedings went, legally and effectually for the payment of this money. It would not surrender or prejudice its right to avail itself of the objection that there had been such misconduct on the part of the insured himself, which at the time was unknown to the company or its agent, as rendered the certificate invalid, and relieved the company from this obligation.

As much as this was in fact provided for in the certificate itself, declaring that no agent of the association has authority to make, alter or discharge contracts, waive forfeitures, extend credit, or grant permits, and no alteration of the terms of this contract shall be valid, and no forfeiture thereunder shall be waived, unless such alteration or waiver shall be in writing, and signed by the president and one other officer of the association, and of the extent of which the plaintiff, as assignee, is chargeable with notice. That precluded the agent, even though he might have been a director of the company (*Bridge Co. vs. Bachman*, 66 N. Y., 261), from the exercise of such authority over this certificate as would exclude the right of the company to make the defense which proved successful upon the trial, for it was there provided that no forfeiture should be waived unless the waiver was in writing, signed by the president and one other officer of the association. It was not proposed to be proved that any waiver of this description had taken place, and without it the evidence which was rejected would have been entirely useless. As the case was made to appear, the plaintiff was not entitled to recover, and the judgment should be affirmed.

New York Supreme Court, General Term—*Wilkins vs. Mutual Reserve Fund Life Association*.

A CRIME TO ATTEMPT SUICIDE AND FAIL.

Suit was brought to recover under a contract issued by defendant, and at the trial court there was a verdict for plaintiff, from which appeal was taken. The facts are recited in the finding of the higher court.

HELD—By the contract it is provided that whenever the death fund is insufficient to meet the existing claims by death, "a call shall be made upon this entire class of membership in force," in the manner provided, "for a mortuary payment as per mortuary rates" referred to, "but not more than one call shall be made to meet one death;" and that eighty per cent of the

net amount received from the call shall be deposited in a bank to be used for payment of death claims only, and the remaining twenty per cent shall be set apart as a reserve fund to meet any contingency that may arise by reason of extra mortality; and that such reserve fund, so accumulated, shall, at the time and in the manner mentioned, be apportioned and the surviving members credited with it.

The members pay an admission fee and annual dues, which produce a fund for expenses; but the death fund is supplied by assessment calls upon the members, and they are required to pay within thirty days from the date of the notice or call for payment. Thus the association is enabled to make collection, after the death of a member, in time to meet the engagement assumed by the contract, by which it may take sixty days to pay the beneficiary.

It is contended by the counsel for the defendant that its liability, in an action at law upon its contract is dependent upon money being in the death fund applicable to the payment of the claim, and that the extent of such liability, within the stipulated sum, is measured by the amount in that fund so applicable at the time of the death of the member on account of whose death the beneficiary seeks to recover. It is further argued that if the association fail to make the call, by way of assessment of the members, to supply the death fund to meet the demand upon it, the remedy of the beneficiary is in equity to require the defendant to proceed to make the assessment.

While the promise to pay was to do so from the death fund at the time of the death of the member, the defendant also, by the same contract, undertook to make the call upon the members, if that fund then was insufficient to meet the claim. The reasonable construction of these provisions, in view of the apparent purpose of the contract, is that the association should pay the amount to which the beneficiary might be entitled, and that it be paid from the death fund, if that is sufficient at the time of death, and if not, the amount should be produced through the means provided for assessment of the members for the purpose.

This is the duty of the defendant when the beneficiary is entitled to payment, and it arises upon the proper information of the death of the member. This duty is the contract undertaking of the defendant supported by the power, without any order or direction of the court, to enable it to perform its promise to pay. Its purpose is to supply the means to do so. And there is no well founded reason to support the claim that the sole remedy of a beneficiary, entitled to payment, is in a court of equity to compel the society to make the call upon the members. The only method by which the defendant can supply itself with the means of performing its engagements to pay death claims is by assessment. And it is within the contemplation of the parties as represented by the provisions of the contract, that the instrumentalities furnished will be employed by the association to enable it to do so. And it cannot rely upon its failure to perform its plain duty in that respect to defeat a recovery. In this case, for reasons which will be referred to, the defendant did not intend to pay the claim in question or any portion of it, and therefore, as is evident, purposely omitted to exercise the means provided to raise the money to pay the plaintiff. What has already been said tends to some extent to meet the contention that a death claim is payable out of a particular fund, designated as a death fund, and that upon it depends the amount of recovery. The principle sought to be applied in support of that proposition is not applicable to the extent essential to its availability as a defense. The plaintiff in the complaint alleges that "the defendant has a sum sufficient in its death fund to pay the said sum so due to the plaintiff, or, if it has not, has members enough liable to call for assessment to pay the same to the plaintiff in full." And it clearly appeared by the evidence that a single assessment of the members liable to call, at the time of death of Darrow, on account of his claim, at the mortuary rates prescribed, would have produced a sum in excess of the amount which the defendant undertook by the policy to pay the plaintiff. And it must be assumed in this case, as nothing appears to the contrary, that the collection, through the means provided, of the requisite amount was dependent on no contingency, and, therefore, the funds were and are at the command of the defendant to make the payment.

The assertion of the defendant that it has not sufficient funds applicable to that purpose in hand to do so, is founded upon its failure to perform the duty imposed upon it by the contract, and which it undertook to perform, provided the plaintiff's alleged claim, resulting from the death of the member, was valid. It was alleged as a defense, and the defendant offered to prove on the trial that the member, Darrow, died from the effects of poison taken by him, and which was administered by himself, with intent to take his own life. The evidence was ex-

cluded, and exceptions taken. The fact that he committed suicide was no defense, unless it came within some condition of contract of insurance relieving the defendant from liability in such case.

The provision relied upon to support the defense so alleged, is the provision in the contract that it should "be void if the member herein shall die in consequence of a duel, or by the hands of justice, or in violation of, or attempt to violate, any criminal law of the United States, or of any State or country in which the member herein named may be." The death of Darrow was in this State. At common law suicide was a crime, and the consequence was the forfeiture of the chattles, real and personal, of the *felo de se*. It is not a crime in this State. The attempt to commit suicide is made a crime by the statute, which provides that, "A person who, with intent to take his own life, commits upon himself any act dangerous to human life, or which, if committed upon another person followed by death as a consequence, would render the perpetrator chargeable with homicide, is guilty of attempting suicide, and is guilty of a felony punishable by imprisonment, etc." While the attempt to commit suicide is a crime, the accomplishment of the purpose to do so is not. It is with much force urged on the part of the defendant that the criminally unlawful attempt precedes the death, and that it was no less a violation of the law because such was the result or consequence of it; that, whether successful or unsuccessful, there was an attempt within the statute. Although that may be so in some sense, in common parlance an attempt to commit crime imports a purpose not fully accomplished to commit it. It is the attempt to commit suicide that is the crime, while the taking one's own life is no violation of the criminal law.

It must, for the purpose of question here, be assumed that Darrow had the purpose of taking his own life; and that he fully accomplished such purpose. The result of his act, influenced by such intent, then was his death. By the act of taking his own life he violated no criminal law, unless the attempt to do it may be distinguished from the act accomplished. An act is characterized by the purpose, when ascertained, of the party doing it, or by its result. If the act fail to accomplish its purpose, it constitutes an attempt; but, if the result of it is the consummation of the purpose, the act is not commonly designated as an attempt. The common acceptance of terms used, and which do not necessarily have a technical meaning, is entitled to some consideration in the construction of contracts where the intention of the parties is sought for, as it must be, in the language employed.

And it is only where no other is permissible by the language used, that a construction which works a forfeiture will be given to such an instrument.

The reason assigned for such rule of construction is that the insurer is supposed to have chosen the language to express the terms of the contract, and it has become a rule of law that if it be left in doubt whether words of the contract "were used in an enlarged or a restricted sense, other things being equal, the construction will be adopted which is most beneficial to the promisee." There is nothing in the language of the policy to indicate that the defendant had reason to suppose that the promisee understood that suicide of the member came within its terms. And words may easily have been employed to embrace it within a condition, if it had been in the contemplation of the defendant as an act of forfeiture to the claim of the beneficiary upon the contract. Inasmuch as suicide is not a violation of the criminal law, the words do not necessarily or clearly import that the act which produces it is within the provision in question, or that it was within the intention of the defendant. And that is a sufficient reason why they should not be extended or their meaning refined by interpretation, with a view to treat the act causing death as within the invalidating condition of the policy.

Thus far the question has not been considered whether the mere consequence or result of an act of the member in violation of criminal law would come within such provision. If literally construed it might not. The contract is rendered void if the member "die in violation of or attempt to violate any criminal law." It is not death in consequence of the violation of law, but death in or during the act of violation of law that is expressed by the words used.

In *Bradley vs. Mutual Benefit Life Insurance Company*, 45 N. Y., 422, the conclusion was warranted that at the time of his death the insured was engaged in the violation of law. And such was the case in *Cluff vs. Mutual Benefit Insurance Company*, 13 Allen, 308, where a policy on the same life and containing the same provision was the subject of action, and the defense was the same.

In *Murray vs. New York Life Insurance Company*, 96 N. Y., 614, "the provision of the

policy was that the violation of the laws," etc., the policy would be void. It may be if the moral injury is received while the assured is engaged in the criminal act, that the death following as a consequence comes within the import of the provision. But the view taken renders it unnecessary to consider that question, and no opinion is expressed upon it.

The conclusion is that the death of the member by suicide did not, within the meaning of any provision of the policy, render it for that reason void, and therefore the exclusion of the evidence upon that subject was not error. No other question requires the expression of consideration. The judgment should be affirmed.

New York Court of Appeals—*Mary F. Darrow vs. The Family Fund Society.*

AGENT'S RESPONSIBILITY FOR MISSTATEMENTS IN APPLICATION.

This was an action by the administrator of Peter O'Brien, deceased, to recover upon policy of insurance for \$2000 issued to deceased by The Home Benefit Society of New York. The society claimed that O'Brien in his application made false and fraudulent answers. The application was taken from O'Brien by defendant's agent. O'Brien was unable to read or write. The signature to the application was by his mark. It contained the usual questions relative to diseases, the applicant denying, among other things, that he had ever had rheumatism. The answers were made warranties. O'Brien died from rheumatism, which disease he had had for some years prior to his application, and he had been attended therefor by physicians; and the answers given to above questions were untrue. Proofs of the death of O'Brien were forwarded to defendant, who refused to make an assessment for the payment of the claim, alleging that it had been defrauded by the untrue answers given by O'Brien as to his health and the medical attendance upon him. A verdict was rendered in the trial court in favor of the administrator, and the society appealed.

HELD—The application for membership taken by the defendant's agent from O'Brien was signed by his mark. He did not read, and was not able to read it, and it was not read to him, and there was evidence upon the trial that he gave correct answers to all the questions contained in the application, but that his answers were incorrectly written therein by the agent, without his knowledge or consent. There was also evidence given on the part of the defendant that the answers of O'Brien to the questions put to him were correctly written just as he gave them, and the trial judge submitted to the jury his evidence on both sides. He charged them that if O'Brien did not truly answer the questions, the plaintiff could not recover; but if he answered them truly and the agent of the defendant did not write them in the application as they were given, the defendant was responsible for the mistake or fraud of its agent, and that in that event the untrue answers would furnish no defense to the action. The jury having found a verdict for the plaintiff, we must assume that upon sufficient evidence they found that O'Brien gave true and honest answers to the questions put to him, and that the untrue answers contained in the application were therein inserted by the agent of the defendant by fraud or mistake. That upon such facts the defendant has failed to sustain its defense of breach of warranty and fraud, is abundantly established by the authorities in this State. The authorities hold that where the insured gives true answers to the questions put to him as the basis of insurance, and an authorized agent of the insurance company inserts in the application false answers, the company and not the insured is responsible for the falsity, and that their falsity is no defense to an action upon the policy. There is no doubt that the complaint in this action sets forth an action at law to recover a money demand. The defendant contends that if the plaintiff is entitled to maintain any action, it is only an action in equity to compel it to make and collect an assessment for the payment of plaintiff's claim, and that therefore the complaint should have been dismissed. By its certificate, and the conditions annexed thereto, and under its by-laws, the defendant agreed to do something, and that was to make an assessment upon its members for a death-claim, and to pay the proceeds, not exceeding the stipulated amount. It is undoubtedly true that a suit in equity could have been maintained upon the facts of this case to compel the defendant to make and collect an assessment and to pay to the plaintiff the proceeds thereof. Such a suit, however, would have required complicated and tedious proceedings, and the plaintiff was not obliged to resort to it. When the defendant refused to make an assessment, it violated its contract, and became liable to the plaintiff for the damages caused by such violation; and such damages, like all damages for breaches of con-

tracts, can be recovered by an action at law. The plaintiff was therefore entitled to recover something, and what was the measure of his damages? Just what he lost by the defendant's breach of its contract. He was entitled to have an assessment made and collected, and the proceeds thereof paid to him. What was the contract worth to him, and what would the assessment have produced for him? It was incumbent upon the plaintiff to give evidence which would enable the jury to answer these questions. As the assessment was not made, it was impossible for the plaintiff to show accurately or precisely what such an assessment would have produced. He was bound to give such evidence as the nature of the case permitted, bearing upon the matter of damages, and legitimately tending to prove the amount. We have carefully read the evidence, and we think there was sufficient to justify the verdict of the jury. Judgment affirmed, with costs.

New York Court of Appeals—*Thomas F. O'Brien vs. The Home Benefit Society.*

ALLEGED FRAUD IN ASSIGNMENT.

This was an action to cancel an assignment of an insurance policy executed by the plaintiff to the defendant, on the ground of fraud. She averred that the defendant represented to her that the instrument was a receipt for money paid by him to her, and that she signed and acknowledged it under that belief, and did not know that there was any insurance policy on her deceased husband's life. No reason was given for her failure to read the assignment, which was endorsed on the policy, nor did the complaint allege that she did not know that an acknowledgment to a receipt for money was unusual.

HELD—That the complainant showed no cause of action as the deception was not the result of defendant's artifice, but of plaintiff's own negligence.

Indiana Supreme Court—*William H. Miller vs. Anna A. Powers.*

SUICIDE AND PROOFS OF LOSS.

This was an action brought by the husband of the deceased, who was insured in the defendant company, and was found dead in a hotel in New York. The payment of the policy was refused and contested on the ground of suicide. At the trial court there was a judgment for the plaintiff and appeal taken by the defendant.

HELD—There is no doubt that the suicide of the deceased would be a defense. The difficulty is that it was a question for the jury whether or not she committed suicide. There is evidence which would support a verdict in defendant's favor if the jury had so found. But they have found for the plaintiff, and the evidence is not such that we can set aside their verdict as against the weight. It is true, as defendants claim, that the conditions of the policy required the presentation of proofs at the office of the company. But this is a condition for the benefit of the company and they may waive it. Anything which can be reasonably understood by the claimant as a waiver of this condition may excuse his non-compliance. In this case it appears that the proofs were prepared in the office of the superintendent of the company and forwarded to the principal office. But the defendant's objection appears to be that in these proofs the present plaintiff stated that he claimed as a husband, while he now sues as administrator. The object of proof is to give information of the facts of death and the circumstances under which it occurred. This information is obtained, whoever gives it. We need not say that an utter stranger can make valid proofs. That case is not before us. Here the present plaintiff made them. He may adopt those which he made as husband. Judgment of the lower court is affirmed.

New York Supreme Court—*Delamater vs. Prudential Insurance Company.*

PROBLEMATICAL ESTIMATES DO NOT AMOUNT TO A MISREPRESENTATION.

This was an action brought to have a policy of insurance reformed in certain respects, and as reformed to recover thereupon against the defendant a certain sum of money. The complaint alleged that the plaintiff was solicited to insure his life on the tontine savings fund plan; that a policy was contracted to be delivered insuring the life of the plaintiff's husband in the sum of \$10,000; that sum was to be paid if death occurred within fifteen years, but if the husband survived the plaintiff might elect to withdraw in cash at the end of that period \$7170. The defendant gave plaintiff certain memorandum stating the options which would be available

to her. The complaint further set forth that just before the expiration of the fifteen years the defendant notified the plaintiff's husband that he could receive in cash the sum of \$5,076.80; that upon the expiration of the fifteen years' period the husband surrendered the policy and declared an option to have the sum \$7170 as promised, and demanded payment of that amount, which defendant refused to pay. Plaintiff thereupon received the \$5076.80 tendered by defendant, only on account, still claiming the difference between the two sums. Plaintiff asks for a reformation of the policy in that portion wherein the options to the holder are expressed, so that it shall read as the first option, that "the amount to be withdrawn in cash is \$7170."

Held—The memorandum which the complaint incorporates, and in fact, rests upon mainly, as embodying preliminary agreements of the parties, is headed "Tontine Savings Fund Policy," and then follows over the body of the instrument the words "estimated results." Those results, upon data covering the case at hand, among other items of estimates, mention as the total cash value the sum of \$7170. The policy contained the following clause: "This policy is issued and accepted by the assured upon the following special agreements and conditions relative to tontine savings fund policies: First, that this policy is issued under the tontine savings fund plan." The fourth of the conditions mentioned states that "all surplus or profits from such policies on the tontine savings fund insurance plan as shall cease to be in force upon the completion of their respective dividend tontine periods, shall be apportioned equitably among such policies as shall complete their period." The fifth paragraph of the special agreements is the one sought to be reformed, and it provides "that upon the completion of the tontine dividend period of the 30th of December, 1887, the legal holders shall have the option; first, to withdraw in cash this policy's entire share of the assets, whether in the reserve fund proper or in the accumulated surplus." The question before us is whether these facts give to the plaintiff a cause of action against the defendant for the reformation of the policy. The defendant is deemed to concede everything in the plaintiff's favor as to the facts, but not her construction of the instrument or her inferences and conclusions from the facts. In actions to reform written instruments the rules are familiar and well established by repeated decisions of the courts. At the foundation lies the general principle that where equitable relief is sought the case must disclose facts which constitute an effective appeal to the conscience of the court, and move it to interfere and mitigate the rigorous rules of the law. Now, the design and purpose of equity being to reconstitute an agreement between parties, where some positive proof shows that it is not, in material respects, in truth, such as was intended by them, does the plaintiff make out an equitable case for the interference of the court? I am unable to say that she does. She does not pretend that any fraud or any imposition was practiced upon her by which she was induced to accept the policy. Nor that there was any fraudulent suppression or omission of any part of their agreement. She does not show that there was any mistake in the contract of insurance which was mutual or which resulted in mutual error. Her whole subject of complaint is that the defendant's misrepresentation as to the sum payable in a certain contingency was not contained as an agreement of the policy. But is that a well-founded basis of complaint on her part? What her husband agreed to and did accept was a peculiar form of policy, differing from the plain and ordinary contract of life insurance under which the defendant would become liable for a certain sum, and only upon the death of the insured. If the insured survived the stated period of fifteen years the sum he might elect to receive in cash was, in its nature, uncertain, and in the nature of things incapable of being exactly computed in advance. This appears in the language of the policy itself, which describes it as issued under the tontine savings fund plan, and indicates its speculative possibilities in declaring it entitled to an equitable apportionment, with other like policies, of the surplus or profits derived from such policies in the class as shall cease before the completion of their respective tontine dividend periods. The plaintiff expressly alleges that such was agreed upon as the policy and memorandum, which she rests upon as representing what was to be the defendant's agreement of insurance, describes the proposed policy as of that nature. When the insured accepted the policy he was chargeable with the knowledge of its terms and provisions. Ignorance is not pleaded, and ignorance of the legal effect of the contract would not be an excuse. His position here is at war with his position as defined by the complaint. He now argues as though there had been a mutual intent that a certain sum should be paid, while the complaint on its face makes out a case of a contract of insurance, the outcome of which, in the respect discussed, was essentially contingent upon events not possible of forecasting. We may assume that the

defendant's officers made these estimates as liberal as it was possible, and that they represented the chances in as favorable a light as they could. That is quite possible and probable, but that assumption would not affect the question. The results of such a plan of insurance are matters of opinion, and they are not considered as important in equity. The avenues of inquiry were equally open to the parties, and probably the experience of the officers was of more use to them than to the general public. If the views I have expressed are correct, it follows that the defendant's demurrer should have been sustained, and that the judgment appealed from should be reversed and a judgment ordered to be entered in favor of the defendant upon the demurrer, with leave to plaintiff to amend upon payment of the costs of the action in all the courts.

New York Court of Appeals—*Jane S. Avery vs. Equitable Life Assurance Society of the United States.*

FALSE REPRESENTATIONS AS TO HEALTH VOIDS POLICY.

The policy issued by the defendant provided that a false representation made by the insured should void the policy. He was asked regarding his health, and stated it was then and usually good. He explained that a pimple on his tongue was not serious. Only a cursory medical examination was made, and no indication of disease was discovered. Evidence showed that for several years there had been indications of cancer, and that the insured had consulted two physicians before applying for the policy. Shortly after the issuance of the policy he procured medical treatment, sustained an operation, and died. In the suit against the association to recover the amount of the policy, it was

Held—The evidence so fully established a breach of warranty that a nonsuit should be directed.

New York Supreme Court—*Storey vs. United Life and Accident Insurance Company.*

ASSIGNEE OF LIFE POLICY ENTITLED TO PROCEEDS TO THE EXTENT OF INSURABLE INTEREST.

The facts in this case are about as follows: A policy was taken out by Moore with Lupton Bros., general agents of the company at Harrisonburg. Not having the money to pay the premium he gave his note to Lupton Bros., for \$63.50,—the premium, \$62.50, and \$1 fee. This note Lupton Bros. carried to Roller and sold at twenty per cent discount, and handed the policy, made out in the name of Moore, to Roller, as a further security for the debt of Moore for \$63.50. This policy and note of Moore were carried to Roller because Lupton knew that Roller had business transactions with Moore. This transaction in its origin was simply the purchase by Roller of the note of Moore at twenty per cent discount and the holding of the policy as collateral security. Moore failing to pay the note, Roller began to press him for the money, and then to insist upon an assignment of the policy, drawing up a paper to that effect and authorizing Roller to collect the policy with the proviso: "Provided, That in the meantime this assignment and power be not canceled and annulled." Moore held, but did not execute this paper, which was dated March 31, 1884. On the 10th of June following Roller wrote to Moore a letter urging the matter and referring to the paper of March 31, 1884. The second quarterly premium was due on the 10th of June. Lupton, the agent, not hearing from Moore about it, collected it of Roller, and Moore, not noticing the agent, paid the premium directly to the company in New York, and Lupton received the company's receipt for it. In the meantime Moore, on the 12th of May, had applied for a second policy of insurance of \$5000 in the same company, and Lupton applied the receipt for the premium paid by Moore on the first policy to the first premium on this second policy, and had it issued, he having received payment of Roller of the second premium on the first policy as stated. After this Roller wrote to Moore demanding an assignment of the policy. On the 20th of September following Roller obtained the assignment of the policy which is absolute in its terms. Roller paid the fourth premium, and on the 12th of February following Moore died. On the 25th of May Roller collected the policy and claimed it as his own. The Circuit Court held that the assignment was not a new contract on the 20th of September, between the parties and an absolute assignment, but that it bore the impress of the original transactions, and stood merely as a security for the advances made by Roller. And also, as this policy made Moore's estate solvent, Roller was

allowed to retain another debt which Moore's estate owed him, all the debts of Moore being amply provided for. From this decree Roller appealed.

HELD—The case of *Page vs. Burnstein*, relied on by the Circuit Court and followed in its decision, is very similar to this case. From the opinion in that case we find that the transactions between Page and Burnstein had their origin in a loan of money by Burnstein to Page. To secure that loan an assignment was made of Page's interest in the policy to the extent of the sum borrowed. Each subsequent assignment showed upon its face a similar arrangement until that of January 7th, 1873, was executed. The latter assignment by itself imputed an absolute transfer to Burnstein of all the right, title and interest of the assured in the policy, and to the payments made therefor, and all benefits and advantages to be derived therefrom. But the opinion goes on to say that the circumstances disclosed in the record indicate with reasonable certainty that the real and only object of the execution of the assignment was to invest Burnstein with the entire control of the policy, to the end that thereafter the company might deal directly with him, and, upon the death of the assured, that he might be invested with full authority to receive the proceeds of the policy and apply them in repayment of such sum or sums as he had loaned Page upon the security of the policy. In other words, the last assignment may be construed as simply appointing Burnstein, upon the death of the insured, to receive from the company such sum as would then be due on the policy, and, after reimbursing himself to the extent of his loan to Page, to pay the balance to the persons entitled thereto. It is certainly true in this case, if not conceded, that the original assignment prepared by Roller was an absolute assignment, and authorizes Roller to collect the policy with due proviso: "provided that in the meantime this assignment and power be not canceled and annulled." This was all that Roller asked at first. If the assignment was absolute, as it appeared upon its face to be, and was so intended to operate between the parties, we must consider whether Roller held such an insurable interest in the life of Moore as would render such an assignment valid. The policy as taken out by Moore was a valid contract, and as such was assignable by the assured to Roller as security for any sums lent to him or advanced for the premium and assessments upon it. But was it assignable to Roller for any other purpose? The assignment of a policy to a party not having an insurable interest is as objectionable as the taking out of a policy in his name. To the extent in which the assignee stipulates for the proceeds of the policy beyond the sums advanced by him, he stands in the position of one holding a wager policy. The decision of the Circuit Court, is, we think, without error. The transactions between the parties were rightly considered as a whole, each supporting the other; but, if the assignment is absolute in the first place, the decree is still right, because Roller had no greater insurable interest in the life of the assured than is decreed to him. The decree of the Circuit Court appealed from here must, therefore, be affirmed.

Virginia Supreme Court of Appeals—*Roller vs. Moore's administrator*.

TO DETERMINE THE RIGHTS OF BENEFICIARIES.

In the year 1867 J. T. Freeman obtained from the Aetna Life Insurance Company a policy of insurance upon his life in the sum of \$5000, to be paid at his death to his wife and children, the premiums on which were to be paid annually, one-half in money and the other half secured by his note. At the time of the issue of the policy he had a wife, then living, and two children, their offspring, John H. and E. Hooker, who intermarried with John F. Hooker. After the death of said Leora, sometime in 1873, under an arrangement between the company and J. T. Freeman, the policy was surrendered to the company and a paid-up policy for the sum of \$320 issued in its place, and in consideration of the premiums theretofore paid, which sum was in like manner made payable to his wife and children, without, as in the previous one, designating any one by name. At the same time a second life policy was taken out for the same sum, and essentially in the same terms, payable, without naming them, to his wife and children, differing from the former in requiring the annual premiums all to be paid in cash, the company having made this change as to the payment of premiums in the form of their life policies. The son, John H., died during the lifetime of his father, leaving a will in which he disposed of his whole estate, and the defendant, John Sugg, had taken out letters of administration, with the will annexed, on the testator's estate. The female plaintiff and her brother paid the premiums on the last policy up to the death of her brother, and herself alone the pre-

minums thereafter to her father's death, in the sum of \$297. And it was agreed that she should be reimbursed out of the funds derived from the policy. J. T. Freeman died in 1888 intestate, and letters of administration on his estate, as well as on his wife's, have also issued to the defendant Sugg. The company paid both the sums agreed upon in the paid-up policy and the entire amount due on the last policy to the defendant, to be held subject to the rights of the parties therein. J. T. Freeman died, largely indebted and insolvent, but there are no debts outstanding against the estate of his deceased wife, Leora. The foregoing facts were submitted to the judge for his decision of the conflicting claims asserted in the pleadings to the fund, and it is agreed that, if he shall sustain the plaintiff's contention, he shall enter judgment for one-half of the \$5000, after deducting \$297 due for premiums paid by her, which shall be added to the female plaintiff's moiety of the residue; if he shall rule in favor of the defendant, he shall enter judgment for the plaintiff for one-third of the \$5000 reduced by the amount of the premium so paid by the female plaintiff. Judgment was given for the plaintiff, from which the defendant appeals.

HOLD—The premiums having been paid in equal parts by the daughter and son up to his death, and by her alone since, in the several sums and at the several dates set out in the complaint, for which she is to be reimbursed, those several sums, and not the half of each, as ruled by the judge under a misapprehension of the terms of the concession, with interest on separate portions, which make the aggregate of \$297, must be allowed the female plaintiff, and deducted from the full amount of the insurance. With this correction, there is no error in that part of the ruling.

The question as to the distribution of the sum paid upon the surrendered policy is not submitted to the judge, and we suppose is not a subject of controversy, and consequently the ruling is confined to the disposition of the other fund. If the contention be sustained that will entitle the wife to a share of it, as she would be if living at the time when that insurance was effected, it would go to her administrator; and, the defendant being both her and her husband's representative, there being no debts of hers to be provided for, it would be held by the defendant in his latter capacity, and become liable to his debts. The provision in the constitution (article 10, § 7) which authorizes such an insurance for the benefit of the wife and children, not as yet regulated by statute, clearly looks to a provision for them, so that they may not be left destitute by the death of an insolvent husband and father, and is personal to them when they survive.

The defendant's counsel maintain the proposition that the substituted policy takes the place of the other, and inures to the advantage of the same beneficiaries, as would the first have done if it had been kept up according to its terms, the effect of which would be to subject the wife's share, as suggested, to her husband's debt—a result which it was his intention to guard against; and yet this would have followed but for the renewal. The terms of the policy constitute a contract of the company to pay the specified amount to the beneficiaries designated, and create direct legal relations between them. How could this be in regard to the wife, no longer living? and how can it be supposed that he intended to provide for her? The new policy supersedes, but does not continue in force, that whose place it takes, and must be construed in accordance with the then existing conditions. Inadvertently, perhaps, but, if inserted intentionally, the insertion of the wife as a beneficiary is a nullity, so far as it may have reference to the deceased, and could only have operation as a reference to one whom he might afterwards marry, and thus bring within the terms of the policy. It is unnecessary to consider the possible effect of a future marriage upon the interests of the children, since the event did not take place. There are but two aspects presented in the case before us—in the one of which the one-third lapses and returns to the husband as undisposed of, and in the other the entire sum belongs to the children; and we concur with the court in the ruling in their favor.

In *Conigland vs. Smith* (79 N. C., 303) the relations of a parent who insures his own life for the benefit of his children are deemed analogous to those assumed when providing for them by a testamentary disposition of his property, both being posthumous benefits secured, and hence the rules for interpreting the will of a testator may guide, as far as they are applicable, in ascertaining the legal effect of this clause in the policy. The difference in the cases consists in the fact that the interest vests under the policy at once upon its execution, while it does not under the will until the death of its maker; and hence we do not concur in the

opinion delivered by Rodman, J., so far as it concedes a power of revocation to reside in the party insuring. The contract may be annulled by the company in case of the failure of the other party to fulfil his contract stipulations, but the disposal of the fund, while the policy remains in force, is not under his control: *Bliss, Ins. (2d Ed.)*, 517; *Fortescue vs. Barnett*, 30 Mylne & K., 36; *Otis vs. Beckwith*, 49 Ill., 121, and cases cited.

As the attempted securing a share to the deceased wife is nugatory and unavailing, there seems to be no alternative but to give the entire fund to the living daughter and the administrator of the deceased son, for it is evident the entire sum was intended for none others, and, being void as to one, the provision inures wholly to the others. In case a legacy is given to a class of persons, as to tenants in common or to children, in case of the death of one before the vesting it inures to the survivors of the class: 2 Williams, Ex'rs, 882; Toll., Ex'rs, 303. So, if "children" be designated in a life policy as beneficiaries, the interest vesting at once is in such as then meet the description, and is not divested in favor of survivors by a death afterwards. We have not been able to find an adjudged case shedding light upon the construction of the like or similar words found in defining the parties for whose benefit a life policy has been taken out, but other conclusions seem to be a fair and reasonable interpretation of the clause before us, as it certainly subserves the ends that the father had in view in securing this fund to his family, constituted, in this case, of his son and daughter.

Subject to the correction which makes the advances of the daughter to be paid in full and not a moiety only, the judgment is affirmed.

Supreme Court of North Carolina—*Hooker et ux. vs. Sugg*.

FACTS AS TO REINSURANCE OF RISKS.

In an action against an insurance company for loss by fire, plaintiff alleged that the company insuring the property had re-insured it with defendant. To prove such reinsurance, the court admitted a letter written by the manager of defendant, who had charge of adjustment and payments of losses in the territory in which plaintiff's loss occurred, written to plaintiff in answer to a demand for a payment of the loss, admitting the reinsurance, but denying liability, on the ground of a breach of a condition in the policy against incumbrances. Conversations of the manager, making similar admissions, were also proved.

HELD—That, though the declarations related to past transactions, they were made by an agent acting within his authority, and were therefore competent.

Such admissions being uncontradicted, and sufficient to establish the alleged contract of reinsurance, the admission of another letter from said manager, written prior to the loss, offered to prove the same fact, if error, is harmless.

Supreme Court of Iowa—*Bartlett Fireman's Fund Insurance Company*.

BENEFICIARIES' REMEDY AGAINST EXECUTORS.

A summary of this case is set forth in the decision of the court, wherein it was

HELD—Asa May, the father and husband, having a life insurance policy payable to his wife and children, died testate. In his will he gave directions concerning the collection of the policy and the application of its proceeds. In so far as he could do so he conferred authority upon his executors to collect the money, and apply the same in conformity to his testamentary scheme. The executors having made the collection from the insurance company, the children filed a bill against them, claiming the fruits of the collection. That bill was prosecuted to a final decree, and resulted in an adjudication establishing the right of the children to the money which the executors had realized on the policy. While the bill was pending, and before final decree thereon, May, the present defendant in error, one of the beneficiaries, commenced a suit against the insurance company upon the policy. This action was defended in part upon the doctrine of ratification, and by plea duly filed before final judgment, the recovery of the decree in the equity cause was set up in bar. The court held it to be no bar, inasmuch as satisfaction thereof had not been obtained. The controlling question for our decision, therefore, is whether, upon the facts of the case, a decree in behalf of the son against the father's executors, charging them with the money realized upon the policy, will defeat the son's action, founded on the policy itself, against the insurance company.

The son, though a minor when the equity case was commenced, was of full age, and had been so for some years when the decree was rendered. The facts are stated at large in the

official report. Certainly the money which the executors derived from the insurance company in satisfaction of the policy could not become the property of the owners of the policy except by ratification on their part of the act of collection. Otherwise that money would have belonged to the insurance company after its payment to the executors as fully as it did before. The owners of the policy could not have title to it but by election to treat it as their money in the hands of the executors. This they did, and their doing so was essential to obtaining the decree which was rendered in their favor against the executors. The father, by his will, assumed to confer such authority as he could upon his executors to make the collection. In so doing he might be supposed to have acted in behalf of his children as well as for the general interests of his estate. No doubt the children had the right, had they chosen to exercise it, to repudiate his act; but instead of doing so they chose to adopt it and to claim the fruits of the authority to collect which that act endeavored to create. By the decree the money was adjudged to belong to the children, and that necessarily excludes any title to it in the insurance company. If it belongs to the company it is still liable on the policy, but if it does not belong to it, as the decree has adjudicated, the policy is extinguished. A plaintiff may pursue any number of concurrent remedies against different individuals until he obtains satisfaction from some of them. But this rule does not hold touching inconsistent remedies, and remedies are inconsistent when the right to any of them necessarily yields or concedes the right to another; and such is the case here. To found any remedy whatever against the executors for the proceeds of the policy on the theory of contract, it was requisite to treat the policy as extinguished by reason of the payment made by the company to the executors. As the defendant in error continued to prosecute his bill against the executors after he arrived at majority, and as that voluntary act on his part resulted in the obtainment of a final decree against them before his action against the company on the policy terminated, we think he is estopped by his election, and that the court below erred in rendering a judgment in his favor. This is the obvious justice of the matter, since, by lapse of time, the company would not be barred by the statute of limitations, were it to bring an action against the executors for the recovery of the money as having been paid to them without due authority. Judgment reversed.

Supreme Court of Georgia.—*Equitable Life Insurance Society vs. May.*

SUMMARY OF THE LAWS RELATING TO WIFE'S POLICY.

James C. Sellers, Esq., of Philadelphia, in the *American Law Register* for July, reviewed at length the legislative enactments of the various States and the legal decisions bearing upon the wife's policy. We give the most important provisions of the statutes of several of the States, omitting his references to cases and decisions.

In England the right of a wife to the proceeds of policies issued in her favor upon her husband's life, although the premiums may have been paid by him, is now protected by statute against the claims of his creditors; Act of 1882, 45 and 46 Vict., Ch. 75, Sec. 11, provides that "a policy of assurance effected by any man on his own life, and expressed to be for the benefit of his wife, or of his children, or of his wife and children, or any of them, shall create a trust in favor of the objects therein named, and the moneys payable under any such policy shall not, so long as any object of the trust remains unperformed, form part of the estate of the assured, or be subject to his debts; *provided*, that if it shall be proved that the policy was effected and the premiums paid with intent to defraud the creditors of the insured, they shall be entitled to receive, out of the moneys payable under the policy, a sum equal to the premiums so paid." A similar provision is made as to policies taken out upon the life of the wife in favor of husband or children, and the appointment of a trustee to receive the insurance money is authorized.

In almost all the States of this country the same protection has been given by legislative enactment, and in one by constitutional provision. The constitution of North Carolina provides: "The husband may insure his own life for the sole use and benefit of his wife and children, and in case of the death of the husband the amount thus insured shall be paid over to the wife and children, * * * free from all the claims of the representatives of the husband, or any of his creditors." The provision does not apply to an assignment by a husband to his wife of a policy originally issued to him, such assignment being void as against his creditors.

The Code of Alabama provides: "The wife, in her own name, or in the name of a trustee,

may insure the life of her husband for the benefit of herself, or for the benefit of herself and any child or children of the marriage. Or the husband or father may insure his life for the benefit of his wife, or for the benefit of his wife and children, or for the benefit of his minor child or children, and such insurance is exempt from liability for his debts or engagements, or for his torts, or any penalty or damages recoverable of him, if the annual premiums do not exceed \$500; or if such premiums exceed \$500, then to the extent of the insurance which an annual premium of \$500 would purchase."

Under this statute, the proceeds of an insurance policy in excess of the amount which could be purchased by an annual premium of \$500 constitute a fund for the payment of the insured's debts. The statute is in the nature of an exemption law, and must be construed liberally.

Arkansas gives the wife, with her husband's assent, the right to insure, or cause to be insured, his life, the proceeds to go to her; in the event of her not surviving her husband, to her children, free from the claims of creditors, but provides that "such exemption shall not apply where the amount of premium annually paid out of the funds or property of the household shall exceed the sum of \$300."

In California, "all moneys, benefits, privileges or immunities accruing, or in any manner growing, out of any life insurance on the life of the debtor, if the annual premiums do not exceed \$500, are exempted from liability for the debts of the insured," and insurance upon the life of an assignee shall not pass by an assignment for the benefit of creditors, unless specially mentioned in the deed.

In Delaware a married woman is given the right to insure her husband's life, free from the claims of creditors, except when the annual premium exceeds \$750.

The Florida statute is most sweeping in its terms, providing that "whenever any person shall die in this State, leaving insurance upon his or her life, the said insurance shall inure exclusively to the benefit of his or her child or children, husband or wife, in equal portions, or to any other person or persons for whose use or benefit said insurance is declared in the policy, and the proceeds thereof shall in no case be liable to * * * creditors of the person whose life was so insured, unless said policy declares that said insurance was effected for the benefit of such creditor or creditors."

The Illinois statute is as follows: "It shall be lawful for any married woman, by herself and in her own name, or in the name of any third person, with his assent as her trustee, to cause to be insured, for her sole use, the life of her husband, for any definite period, or for the term of his natural life; and in case of her surviving such period or term, the sum or net amount of the insurance becoming due and payable by the terms of the insurance shall be payable to her, to and for her own use, free from the claims of the representatives of her husband, or any of his creditors; *provided*, however, that if the premium of such policy is paid to any person with intent to defraud his creditors, an amount equal to the premium so paid, with interest thereon, shall inure to the benefit of said creditors, subject, however, to the statute of limitations." It has been held by the Supreme Court of Illinois that, under this statute, an assignment by an insolvent debtor to his wife of a policy issued in his own favor is valid as against his creditors.

Iowa exempts from liability for the debts of the insured not only the "avails of any life insurance," but also endowment policies "payable to the assured on attaining a certain age."

Kansas exempts all policies "for the benefit of any woman, whether married or unmarried, or for the benefit of minor children, or for the benefit of any invalid, aged or infirm person," with the limitation that "such policy of insurance, reserve or present value thereof, thus exempt, shall not exceed in amount a sum that may be purchased at the age of thirty years on the continuous payment life-rate American mortality, interest four and one-half per cent, net premium, \$500."

Kentucky exempts policies "assigned, transferred or made payable to" the wife, for her benefit, or for that of any third person, subject to the same proviso that is contained in the Illinois statute.

The Maine statute provides that "life and accident policies, and the money due thereon, are exempt from attachment and from all claims of creditors, when the annual cash premium does not exceed \$150; but when it exceeds that sum, and the premium was paid by the debtor, his creditors have a lien on the policies for sum over \$150 a year as the debtor has paid for two years, subject to any pledge or assignment thereof made in good faith."

The original Maryland statute was adopted in 1862, and was almost identical in terms with that of Illinois, with the proviso omitted. Afterwards, by the act of 1878, it was provided that "all policies of life insurance upon the life of any person * * * * * taken out for the benefit of, or *bona fide* assigned to, the wife or children, or any relative dependent on such person, or any creditor, shall be vested in such wife and children, or other relative or creditor, free and clear from all claims of the creditors of such insured person." The latter act is an enabling, not a restraining act, and does not take away any rights given by the former. Under the act of 1878, the voluntary assignment of a life policy by a father to his sons is valid as against creditors. It has been held that a married woman might make a valid assignment of a policy on the life of a husband to secure the latter's debt, but that such assignment would be void if executed in consequence of duress on the part of the husband.

Massachusetts exempts not only all policies either issued or assigned to a married woman, but also policies "effected by any person on his own life or on the life of another, expressed to be for the benefit of such other or his representatives or a third person." Provision is made for the appointment of a trustee, as in the English statute, and the proviso as to payments with intent to defraud creditors is identical with that of Illinois. Subsequent to the adoption of the statute it was held that the assignee of a policy, payable to the assured, his executors and assigns, for the use of his wife and children, but assigned by him in his lifetime for a valuable consideration, might maintain an action against the insurer. But such a policy cannot be affected by the will of the assured, and his executors must account to the widow and children for its proceeds. Nor will the assignment of the wife, when she does not survive her husband, affect the children's interest. And where the policy itself stipulated that no assignment should be made, "except for the benefit of the wife or children of the assured," an assignee of the insured takes no interest, but is entitled to be repaid the premiums paid after the assignment. But a policy payable to the "heirs or representatives" of the assured is not for the benefit of a third person within the meaning of the statute, and its proceeds are assets for the payment of creditors.

The original Michigan statute restricted the exemption to policies where the annual premium did not exceed \$300. But the latter act contains no such restriction, and the exemption extends to all insurance for the benefit of the wife or children of the insured, and to the insurance by a married woman of the life "of any other person."

Minnesota has no statute, except in reference to beneficiary societies and co-operative associations incorporated under a special act. But it has been held in that State that a husband has no power to surrender a policy issued in favor of his wife or children, or assign to a creditor such a policy, even though his wife join in the assignment.

Mississippi provides that "the amount of any life assurance policy not exceeding \$10,000 upon any one life, shall inure to the party or parties named as the beneficiaries thereof, freed from all liability for the debts of the person paying the premiums thereon."

The original Missouri statute is in the exact words of that of Illinois, the proviso limiting the annual premiums allowed to be paid out of the funds of the husband to \$500. By the revision of 1879 this limit was increased from \$300, which it had previously been. But the later act contains no proviso, and also authorizes the appointment of a trustee, as in Massachusetts. Sec. 5980 of the Revised Statutes confers upon an unmarried woman the same right to insure the life of her father or brother as a married woman possesses in regard to her husband's life.

In New Hampshire there is a general exemption of all policies for the benefit of married women, as well as policies "effected by any person on his life or the life of another, expressed to be for the benefit of a third person," unless "procured with intent and to the effect to defraud creditors," in which case the creditors are entitled to the amount of the premiums only.

New Jersey, by act of February 19, 1851, exempts generally all insurance for the benefit of a married woman upon the life of her husband. Under this act it has been held that where a married woman assured her husband's life for the benefit of her children, and afterwards assigned the policy to a creditor of the husband, who paid the subsequent premiums, the children were entitled to only the value of the policy at the time of its assignment. And where a policy in favor of wife and children was assigned by the husband and wife together to secure a debt of the former, the assignment was held to vest in the assignee the right to the proceeds,

upon the husband's death in the lifetime of his wife. By a subsequent statute a married woman is given the same power to assign life policies as if she were single.

The New York statute is identical with that of Illinois, except the proviso, which is as follows: "But when the premium paid in any year out of the property or funds of the husband shall exceed \$500, such exemptions from such claims shall not apply to so much of said premium so paid as shall be in excess of \$500, but such excess, with the interest thereon, shall inure to the benefit of his creditors." By the later act of 1870 a married woman may surrender her interest in a policy "in the same manner as required by law to pass her dower right in lands of her husband," or, upon dying without issue, may dispose of the same by will. And by the act of 1879 a married woman and her representatives, with the written consent of her husband, are given power to assign such a policy. Prior to this act an assignment of a policy by a married woman was invalid.

Ohio exempts insurance on life effected by any person for the benefit of his widow and children, or of either, as well as insurance effected by any married woman on the life of her husband. In the former case the statute contains a provision that "the amount of premium annually paid on such policy shall not exceed the sum of \$150, and in case of such excess, there shall be paid to the beneficiaries named in the policy such portion of the insurance as the sum of \$150 will bear to the whole annual premium, and the residue to the representatives of the deceased;" and where the insurance is effected by the wife, it is provided that "if a policy be procured by any person with intent to defraud his creditors, an amount equal to the premiums paid thereon with interest, shall inure to the benefit of his creditors, subject, however, to the statute of limitations." The statute also gives to a married woman, to whom a policy is payable solely for her own use, the power to sell, assign or surrender the same, the party whose life is insured concurring in and becoming a party to the transfer. By this statute a policy taken out in the name of a married woman on the life of her husband becomes her separate property, and she is to be treated, in regard to such policy, as a *femme sole*. And the statute applies as well to a policy issued by a company organized and conducted outside the limits of Ohio as to one issued by a company of that State.

In Pennsylvania the act of April 15, 1868, provides that "all policies of life insurance or annuities upon the life of any person which may hereafter mature, or which have been or shall be taken out for the benefit of, or *bona fide* assigned to, the wife or children of any relative dependent upon such person, shall be vested in such wife or children or other relative, free and clear from all claims of the creditors of such person." The act of May 1, 1876, sec. 25, also provides that the policies issued by companies under that act for the benefit of any married woman "shall inure to her separate use and benefit, and that of her children, independently of her husband or his creditors, or the person effecting the same or his creditors. If the premium is paid by any person with intent to defraud his creditors, an amount equal to the premiums so paid, with interest, shall inure to their benefit." In the case of *Trough's Estate* (1871), 8 *Phila. (Pa.)*, 214, the question whether an assignment to the children of the insured of a life policy for \$3,000, issued and paid for prior to 1868, constituted a fraud on creditors was considered by the Court of Common Pleas in an opinion by Allison, P. J., who said: "There is nothing to call in question the honesty and good faith of the transactions, nor is the provision which, by the assignment, was made for certain of the children of the assignor unreasonable, nor was it made in contemplation of the insolvency, or with an intent to defraud creditors. That a provision for children under such circumstances is valid, ought not, under a certain law, to be questioned. So far from the law condemning such deeds as void, postnuptial settlements even are supported in equity without the intervention of a trustee. When they are fairly made, and the provision is reasonable, the husband not being in debt at the time, and they are free from any badge of fraudulent intent, they will be upheld; and what a husband may do for his wife, a father may certainly do for his children. * * * The only possible claim the creditors could sustain in the premises would be for the amount of premiums paid by Trough to keep the policy alive after he became insolvent. Whatever sum of money was appropriated by him to secure this end, which was of right the money of his creditors, ought to be taken from the fund in dispute, and returned to them now; but this does not give the creditors any just claim to the remaining part of the \$3,000." This case was reversed in the Supreme Court, but upon an entirely different point. In a recent case it has been held that,

where a policy was payable to a wife and, in case of her death before her husband, to her children, an assignment by husband and wife does not affect the children's interest.

Rhode Island exempts insurance "which shall not exceed in the aggregate the sum of \$10,000" on the life of any person for the benefit of a married woman, and authorizes the appointment of a trustee to hold and manage such policy or its proceeds. Under this statute, the fact the wife has filed a petition for divorce, which is pending and undetermined at the maturity of a policy on her husband's life, payable to her, will not estop her from demanding the proceeds of such policy. An assignment of a policy, payable to the wife and children of the insured, which is made by the insured and his wife to secure a debt of the former passes only the interest of the wife, and does not affect that of the children, each of whom is entitled to receive an equal share with the assignee of the proceeds of the insurance.

The original Vermont statute of 1849 was in the same words as that of Illinois, with a clause restricting the exemption to cases where the annual premium did not exceed \$300. By the same act an unmarried woman was given the right to cause to be insured the life of her father or brother, "as provided in case of married women." The act of 1856 contains no restriction, and broadly exempts all policies effected by one person on the life of another and expressed to be for the benefit of the latter. This act also authorizes the appointment of a trustee to hold and manage the interest of a married woman in her policy or its proceeds. By the act of 1880 a wife is given the power to assign or surrender a policy in her favor on her husband's life, with the written consent of the latter.

The Wisconsin statute exempts all insurance for the benefit of a married woman; providing, however, that "if the annual premium on any such policy shall exceed the sum of \$150, and is paid by any person with intent to defraud his creditors, an amount equal to the premiums so paid in excess of said sum, with interest thereon, shall inure to the benefit of such creditors, subject, however, to the statute of limitations." It has been held in Wisconsin that one who procures insurance on his own life and pays the premiums may dispose of such insurance by will, assignment or otherwise, to the exclusion of the beneficiary. But the case is different with a certificate in a mutual benefit society, whose object is "to establish a widows' and orphans' fund." A married woman may assign a policy upon her husband's life in her favor.

From the foregoing review of the statutes and decisions in the various States, it will be seen that the tendency has been steadily in the direction of extending the exemption of life insurance policies issued or assigned to the wife or children of insured from the claims of creditors. Both legislatures and courts are inclined to view such policies, in the language of Judge Howk, as "a necessary provision for (the insured's) own household," "to be fostered and encouraged by law." In the Hume case the Supreme Court of the United States falls in with this tendency, putting its decision upon the express ground of "public policy," and in so doing it is clearly in accord with the weight of authority. But the opinion of the court also recognizes that the right of a debtor to thus make a reasonable provision for those dependent on him after his death must not be abused. As soon as that provision becomes tainted with a fraudulent intent, it is no longer entitled to protection. What will constitute fraud, when not defined by statutes, must be determined by the facts of each particular case, as tested by the conscience of a chancellor or the verdict of a jury.

There is a conflict of authority as to the proper rule, in the absence of statutory regulation, to be observed, when creditors are permitted to come in upon the fund. It has been more often held that they were entitled only to the amount of the premiums paid by the insolvent, with accrued interest.

DECISIONS RELATING TO FIRE INSURANCE.

DESCRIPTION OF PROPERTY.

The policy sued under in this case was made to cover property in an elevator. The building was constructed in several parts, but was so connected as to be operated as one structure, and designated by one common name or letter, and in order to distinguish the main or principal building from the addition, which was connected with it by covered passageways through

which the machinery was operated, it was called the "Main Elevator Building," and the addition was known as "Annex A." The loss occurred in Annex A.

HELD—Grain in the annex was included in a policy describing it as being in the elevator under the general description or name applied to the entire structure, and where the several parts were similarly constructed and covered, language used describing the elevator as a "frame, iron-clad, metal roof building, occupied for the storage and handling of grain," was equally applicable to the whole or either division of the elevator known by the general description, and if there was doubt or uncertainty as to the meaning of the policy, it must be resolved in favor of the insured. The agent of an insurance company taking a risk under such circumstances is presumed to be familiar with the construction of the building and its divisions, manner of use and description, and it was his duty to limit the amount of insurance taken on grain therein, as he might deem necessary after due inquiry. Where the elevator had been in operation but a short time, the insured was not bound by any particular custom or rule of insurance companies in respect to risks upon grain therein, unless the evidence showed that notice thereof has been brought home to them. The judgment of the lower court is affirmed.

Minnesota Supreme Court—*Pettit et al. vs. State Insurance Company.*

WAIVER AS TO PROOFS OF LOSS.

In his complaint the plaintiff alleged that proofs of loss were sent to the defendant at its office in Chicago. At the trial the plaintiff was permitted, over the objection of the defendant, to show that other proofs were made out and sent to the home office of the defendant in Providence. The policy contained a provision that in case of loss the assured should, as soon as possible thereafter, render proofs of loss to the company; and also a further provision limiting the time within which an action could be maintained on the policy to 12 months next after the loss by fire. The plaintiff contended that both of these provisions had been waived.

HELD—Without proper amendment of the complaint, alleging that proofs had been sent to Providence, evidence of such fact was inadmissible. Evidence that the plaintiff had called on the agents of defendant and enquired after payment of the loss; that a clerk in the office of the agents had told plaintiff, who was mortgagee of the assured, that his claim would be paid on account of the relation between the agents and plaintiff, but that the company did not acknowledge any liability on account of the policy; that plaintiff had several interviews with the agents, who at each of them promised to pay the plaintiff's mortgage, or get some one to do so, but who, at all times, denied all liability on account of the policy, is not sufficient to show a waiver of the limitation as to proof or action. Evidence tending to prove that the assured set fire to the premises, where both plaintiff and the assured were fully notified of such defense, is admissible, though defendant's manager, before suit, did not state it as one of the reasons for refusing to pay the loss, the assured having been notified that the insurance company did not propose to pay or adjust his loss because they believed him to have set fire to the premises, he was thereby excused from making any proofs of loss.

Michigan Supreme Court—*Corydon vs. Providence-Washington Insurance Company.*

RESPONSIBILITY OF INSURANCE COMMISSIONER FOR INSOLVENT COMPANY.

A propertyowner having taken a policy in an insurance company of another State, that had been licensed by the Commissioner of Insurance, brought suit against the Commissioner, seeking to hold him responsible for the loss. The complaint alleged that the Commissioner had knowingly admitted the company to do business in the State in violation of law.

HELD—That no liability on the part of the Commissioner could attach unless his actions were corrupt, and no corruption on his part being alleged in the complaint, it was properly dismissed.

Tennessee Supreme Court—*State to use of Davis et al. vs. Thomas et al.*

MUTUAL MEMBER MUST ABIDE BY HIS CONTRACT.

The insured had taken a five year policy giving therefor two premium notes on which default was made. The policy contained a provision that, in case of default to pay any note, the insurance should be suspended and the premium considered as earned, but that, on subsequent full payment, the policy should be revived and in force as to losses happening there-

after. The insured contended that under the contract it was optional with him as to whether he should continue in the company or not.

HELD—The contract was an absolute one for insurance for five years, and on default the company might sue on and recover the amount of the premium notes.

Minnesota Supreme Court—*Minnesota Farmers Mutual Fire Insurance Company vs. Olson*.

THE CONTRACT CANNOT BE DIVIDED.

A policy of fire insurance was issued upon a dwelling house and a house to let, which stood close together. It provided that "if the above premises shall become vacant or unoccupied, the policy shall cease." The insurance was for separate sums, but the consideration paid was a gross sum. The buildings were destroyed when the dwelling house alone was occupied.

HELD—The contract was indivisible, and the premises were not vacant, within the meaning of the policy, so as to relieve the company from liability for loss of the other house.

Arkansas Supreme Court—*McQueeney vs. Phoenix Insurance Company*.

"PAYABLE TO EXECUTORS OR ADMINISTRATORS."

The Hamburg-Bremen Fire Insurance Company to J. F. Bartlett, payable to his "executors or administrators." Bartlett died, and soon after the loss occurred. The heirs at law and the administrator claimed the proceeds of the policy, and the company, with consent, paid the money to a trustee, subject to order of court. The orphans' court adjudged the fund to the heirs at law, from which decree appeal was taken by a creditor of Bartlett, he having died insolvent.

HELD—The question presented is whether, the estate being clearly insolvent, the creditors have any claim upon the insurance money. We think they have. The contract under which the money became due and payable to the personal representatives of the intestate, is one of indemnity against a possible loss which actually happened after his decease, but during the life of the policy. If his estate, exclusive of the property insured, had been solvent, his children, who succeeded to his interest in said property, would undoubtedly have been entitled to the insurance money; but, inasmuch as his estate, including the realty and the sum realized from the insurance policy, is admittedly insolvent, their right is subordinate to that of the creditors. While, strictly speaking, the insurance money in question is not the proceeds of real estate, bound by the lien of decedent's debts, it really represents, to that extent, the realty that was insured and destroyed by fire. If the insurance company had elected to restore the lost building, instead of paying the amount in cash, the property would immediately have been subject to sale for payment of the debts. Reversed and remitted.

Supreme Court of Pennsylvania—*Appeal of Nichols*.

UNCONDITIONAL AND SOLE OWNERSHIP.

The policy under which suit was brought provided that it should be void "if the interest of the insured be other than the unconditional and sole ownership, or if the subject of the insurance be a building on ground not owned by the insured in fee simple." The plaintiff held the premises insured under a land contract of purchase, by which he was to pay \$100 annually until the purchase price of \$500 was paid, \$100 being paid down at the time of the purchase. The plaintiff went into actual possession at the time of the execution of the contract. Upon the payment of \$100 additional the contract provided for the execution of a deed to the plaintiff.

HELD—The plaintiff was the equitable owner in fee, and, in respect to the insurance, he may be said to be the entire, unconditional and sole owner.

Michigan Supreme Court—*Dupreau vs. Hibernia Insurance Company*.

TIME LIMITATION IN BRINGING SUIT.

A policy of fire insurance provided that action on the policy should be commenced within twelve months next after the occurrence of the fire; and, should any action be commenced after the expiration of the twelve months, "the lapse of time shall be taken and deemed conclusive evidence against the validity of such claim, any statute of limitation to the c"

notwithstanding." A former action on the policy was brought within sixty days of furnishing proofs of loss, and was held by the Supreme Court to be premature.

Held—The limitation relative to bringing a second action within a year after reversal of the first did not apply. The fact that the issue on which the former action was finally decided was not raised in the pleading so as to afford plaintiff an opportunity to discontinue, and bring a new suit after the sixty days and within the stipulated twelve months, but was held back by defendant until trial, after the twelve months had elapsed, did not waive the stipulated limitation in favor of a second action brought after the twelve months. The fact that the second action was brought within twelve months after the decision of the Supreme Court establishing the proofs of loss did not bring it within the stipulation by the equity of construction which dates the commencement of the period of limitation from the time a right of action could first accrue, notwithstanding the stipulation named the date of the fire as the starting point.

Pennsylvania Supreme Court—*Howard Insurance Company vs. Hocking*.

CANCELLATION AND SURRENDER OF POLICIES.

The plaintiff was insured in certain companies, but cancellation had been ordered. The policies were surrendered, but immediately after, the premises being burned, plaintiff again obtained possession of the policies, the agent not knowing of the fire. Suit was brought to recover, the defense being that the policies having been cancelled there was no liability. There was a judgment for plaintiff and an appeal taken.

Held—The plaintiff had effectually surrendered the *Ætna* policy on its receipt by Page, who had authority to cancel. Hence no subsequent re-delivery after the fire, and with knowledge of the fire could make the policy valid. Such re-delivery was a wrongful and fraudulent act towards the defendant. The facts as to the other companies are similar. They were on their way in regular transmission by plaintiff's order. The surrender was absolute. That act was plaintiff's surrender of the policies, because it was the decisive act which put the policies intentionally out of plaintiff's possession, and, even though they did not reach Little until after the fire, the surrender had taken effect before. (*Ins. Co. vs. Goodall*, 35 N. H., 328.) Clearly the return of these policies by Little could not give them vitality. A fraud was practised on Little, and on the companies through him, by asking the return of the policies and concealing the fact of the fire. Judgment reversed.

New York Supreme Court—*Crown Point Iron Company vs. Ætna Insurance Company; Boatmans Fire and Marine, Lancashire, Pennsylvania, Peoples, and Hamburg-Bremen Insurance Company in separate actions*.

FALSE SWEARING THAT DOES NOT AFFECT THE RISK.

Suit to recover was sought under a policy insuring a stock of goods, and permitting other insurance not to exceed \$7000. The evidence went to show that the amount of goods destroyed exceeded \$7000, and that there was no fraud by the insured in any matter affecting the risk prior to the loss. After making his proofs of loss, the insured increased his claim about \$1700 in excess of the actual loss, and changed the bills of purchase made for some time before the loss to conform to the proof thereof. In the lower court there was a judgment for plaintiff and appeal was taken.

Held—As the rights of the parties were fixed by the contract, a provision in the policy that "all fraud or attempt at fraud, by false swearing or otherwise, shall forfeit all claim on the company, and shall be complete bar to any recovery for loss under this policy," as the assumed false swearing did not affect the risk, it was not cause for declaring the policy void.

Nebraska Supreme Court—*Springfield Fire and Marine Insurance Company vs. Winn*.

INSURING INTERESTS OF BUYER AND SELLER.

An action was brought to reform an insurance policy which provided that if the property should be sold, transferred or incumbered, or if any change take place in the title, use, occupation or possession, the policy should be void. The plaintiffs sold the property, taking a mortgage greatly in excess of the sum insured, and assigned the policy to the vendee, indorsing thereon, with the consent of the vendee and the agent of the company, that the loss, if any, was payable to them, the plaintiffs. Plaintiffs accepted the terms of the indorsement as written, acquiesced in them for many months, until after the insured property was burned. The uncor-

robored testimony was that they requested the agent to put the policy in a shape which would protect them, which he agreed to do; that after the indorsement he stated to the plaintiffs that he had insured them, and not the vendee, and that in case of fire they would get their money on informing the agent at his office. It also appeared that the vendee had promised the plaintiffs that on payment of the mortgage the policy should be canceled, and the unearned premium returned to them, and that the vendee said that he would have nothing to do with the policy; that it belonged to plaintiffs; and that he would obtain other, cheaper insurance. Plaintiffs did not expressly tell the agent that they desired an independent insurance on their mortgage interest, and the testimony was insufficient to show that agent had any idea that they desired to make, or supposed they had made, such a contract. The agent testified that he only said that the vendee could not get the insurance in case of loss, but the same would be paid to plaintiffs.

HELD—That the proof was not sufficiently clear and convincing that the contract was one for the insurance of the plaintiffs' interest, separate from and independent of the vendee's interest, to warrant a reformation of the policy to that effect, even though the agent had authority to make it.

Wisconsin Supreme Court—*Meiswinkle et al. vs. St. Paul Fire and Marine Insurance Company*.

QUALIFIED WARRANTY IN APPLICATION.

The policy sued on in this case stipulated that the application should be treated as part of the policy, and as a warranty by the assured, and that any false representations or omission of material facts should render the policy void. In answer to a question as to whether the stove-pipes in the house all passed into good brick chimneys, the assured said he would build chimneys in the Spring, and covenanted that all the statements made in the application were true so far as "known to the applicant, or material to the risk."

HELD—The warranty in the contract was qualified by the words in the application, "material to the risk," and that unless the promise to build a chimney was material to the risk, a breach of it would not avoid the policy. While the natural effect of the promise to build the chimney would be to induce the insurance company to regard the hazard as less, and to write the policy at a lower premium than it would otherwise have done, if it appears from the application itself that the agent personally examined the property and the pipes and chimneys, and pronounced them safe, and recommended the risk, it would not be presumed that the assured's promise procured insurance at a lower rate than he must have otherwise paid. If such promise were material, the inspection of the risk by the agent, and his recommendation of it, would estop the company from asserting the materiality of the promise.

Dakota Supreme Court—*Waterbury vs. Dakota Fire and Marine Insurance Company*.

SURRENDER OF POLICY NOT NECESSARY TO CANCELLATION.

This was an action upon a policy of insurance issued to plaintiff upon furniture, fixtures and stage property of a theatre known as a variety theatre. The policy contained a provision that it might be terminated at any time on notice to assured, and refunding or tendering a ratable proportion of the premium for the unexpired term. The evidence showed that the company's local agent, acting under instructions, notified assured that the policy was canceled; that assured carried the policy to their office to surrender it, but, as defendant's agents did not call for it, it was not delivered, and that assured began negotiations for other insurance.

HELD—The evidence was sufficient to justify a finding that the policy had been canceled. The assured having acquiesced in the cancellation, though no repayment of the premium or tender was made, he is estopped to set up the non-payment of the unearned premiums, after having recognized the policy as canceled without such payment.

Iowa Supreme Court—*Hopkins et al. vs. The Phoenix Insurance Company*.

PROOFS OF LOSS NECESSARY TO RECOVERY.

Action was brought to recover on a policy of insurance. Defense set up the non-fulfillment of the conditions of the policy in that plaintiff had not forwarded sworn proof of loss, nor a particular account of the fire and the origin thereof; what other insurance he has, his interest in the property, its value, by whom and for what purpose it was occupied; and that he had

not furnished a certificate from the nearest magistrate regarding the circumstances of the loss, origin of fire and the amount of the loss. The answer claimed a waiver of such proof and certificate by defendant, after having been given notice of the loss, defendant made no complaint of the insufficiency of the proof, and that with all his dealings with the agent of, and defendant itself, no objection was ever made as to plaintiff's failure to give such proof and certificate. The defendant demurred to the answer, which was overruled and judgment entered in favor of plaintiff. Defendant appealed.

HELD—The condition in a policy of insurance that the insured must render sworn proof of loss as soon as possible after giving notice of loss is a material part of the contract, and a compliance therewith is a prerequisite to the right of recovery by the assured, unless such proof is waived by the company. The mere silence of the insurer, or failure to make objection on the ground of insufficiency of proof after receiving notice of loss, cannot be construed as a waiver of the presentation of such proof. Judgment reversed.

Alabama Supreme Court—*Central City Fire Insurance Company vs. Oates*.

FORECLOSURE DOES NOT CHANGE INTEREST OF MORTGAGEE.

This action was brought to recover upon a policy of insurance for a loss alleged to have been sustained under it. The plaintiff's petition was dismissed by the trial court and from this action this appeal is prosecuted.

HELD—When a person has made sworn proofs of loss, and brought an action at law upon an insurance policy, and a demurrer to the complaint has been sustained on the ground that the policy did not insure his interest, he is not thereby estopped from amending his complaint, and changing his action to an equitable one, seeking to reform the policy. The amendment "does not change substantially the claim," as is forbidden by the Code of Iowa. When a mortgagee has stated the nature of his interest to an insurance agent, has requested a policy insuring that interest, and has accepted a policy drawn up by the agent in favor of the mortgagor, with the belief that it is sufficient, it may be reformed so as to protect the interest of the mortgagee. An insurance company cannot say that its rules forbid the issuing of policies to mortgagees, when the agent who issued the policy to a mortgagee had general power to insure, and received and paid over to the company the premium which it still retains. When a mortgagee, whose interest has been insured, forecloses and acquires complete title to the property, his interest has not diminished, and the policy is not avoided by a provision that when all interest on the part of the assured has ceased the policy shall terminate.

Iowa Supreme Court—*Esch et al. vs. Home Insurance Company*.

HUSBAND HAS NO PRESENT RIGHT IN HIS WIFE'S ESTATE.

This was an action upon a policy of fire insurance wherein the company questioned the right of action on the ground of the want of an insurable interest, etc. There was judgment for plaintiff and appeal taken.

HELD—Where a policy of fire insurance is issued to a husband, a complaint on such policy by the husband and wife, there being nothing to show a right in her to maintain the action jointly with her husband, is bad on the ground that it fails to state facts sufficient to constitute a cause of action. A husband has no present right of enjoyment and no interest in the rents and profits of his wife's real estate; he has a mere right in expectancy, and has no insurable interest in her separate property. Having no insurable interest, a policy of insurance issued to him cannot be enforced. Judgment reversed.

Indiana Supreme Court—*Traders Insurance Company vs. James Newman et al.*

COMPANY RESPONSIBLE WHERE AGENT FILLS APPLICATION.

This was a suit upon a fire policy. The defendant relied upon the untruthfulness of the applicant's answers to the interrogatories, questionable ownership, and the want of consideration. The trial court ruled adversely to defendant, and hence this appeal.

HELD—That in an action at law, a general allegation in a complaint upon a policy of fire insurance that the plaintiff was the owner of the property insured, is sufficient upon the question of ownership, in the absence of a motion to make the complaint more specific. It is not necessary to file a copy of the application with the complaint. The complaint alleging that

the plaintiff gave his note for the premium, a consideration for the policy is shown. Where an agent is authorized to solicit and take applications for insurance, he is acting within the scope of his authority in preparing such applications, and if in doing so he fraudulently inserts false answers to interrogatories without the knowledge or fault of the applicant, the company must suffer and not the insured.

Indiana Supreme Court—*The Phoenix Insurance Company vs. Stark.*

DEATH OF INSURED AVOIDS POLICY.

An action to recover was brought upon a policy of insurance upon a building destroyed by fire some two years after the death of the insured named therein. The company in defense pleaded an avoidance of the policy on the ground of change of title, and that the parties who seek recovery are not the parties with whom it contracted for indemnity.

HELD—By the terms of the contract sued on, the company's liability ended with the death of the assured. A contract of insurance is, ordinarily, personal in character. A risk on property may be greater in the care and possession of one person than another, and under such a contract the insurer cannot be held liable for a loss to a person other than the one who alone by the contract was to be indemnified. Where parties plainly agree that a change in the title or possession shall avoid the contract, and upon admitted proof of such change and possession—notwithstanding in this particular case there was no greater risk incurred; the change was in the course of nature, what might have been expected, and that the company had accepted the premium for the designated time, courts cannot make for parties a contract which they neglected to make for themselves. Where a change of title itself renders a policy void, there is no necessity for cancellation; and where the company has no notice of the insured's death a waiver of its right to insist upon a forfeiture cannot be enforced.

Kentucky Supreme Court—*Richardson vs. Insurance Company.*

FALSE DESCRIPTION OF INSURED PREMISES MADE BY AGENT.

In an action to recover for a loss covered by defendant's policy it was

HELD—Where an agent authorized to issue policies employs another to solicit applications, furnishes him with blanks to be filled and forwarded, and empowers him to receive and deliver policies and collect premiums; and where such solicitor examines a building and knows that it is not only occupied by the applicant as a dwelling, but also as a store by others, and charges and receives an increased rate of insurance by reason of the fact that part of the building was occupied as a store, yet described as a dwelling only, the insured, in the absence of proof that he made no concealment nor any false statements, cannot be deprived of the same rights as if the solicitor had correctly described it as both dwelling and store. Neither can he be affected by the fact that gunpowder was kept in the store, providing he would not have been affected thereby under a policy correctly describing the use of the property.

Kentucky Supreme Court—*Insurance Company vs. Dorous.*

A SUFFICIENT COMPLIANCE WITH CONDITIONS OF POLICY.

Suit was brought to recover from the defendant under a policy issued by it to the plaintiff August 8, 1884. There was other insurance upon the property, but it expired previous to the loss, which occurred August 20, 1887. In the court below there was a judgment for the plaintiff and defendant appealed.

HELD—By the terms of the policy, in the event of loss by fire the party insured is required "to produce the certificate under seal of the magistrate or notary public living nearest the place of fire, and not concerned in the loss, nor related to the assured, stating that he has examined the circumstances attending the loss, knows the character and circumstances of the assured, and verily believes that he has, without fraud, sustained loss on the property insured to the amount claimed by him." The certificate of Henry Galt, a justice of the peace living nearest to the property, was first produced. He certified that he was not concerned in the loss, nor related to insured; that he had visited the premises the day after the fire and had found the barn and crops totally destroyed, except the foundation of the barn; that he saw the iron of the machinery, vehicles and implements with everything burned from them that would burn; but that he was not competent to appraise the crop as he had not been on the place sufficiently to estimate it. This certificate was objected to, and the appellee then produced a certificate

from Aloysius F. Orndorff, a magistrate who did not live quite so near as Mr. Galt, but whose office or place of business was nearer than that of said Galt. This justice certified to all that Mr. Galt had certified to, and further said: "I am well acquainted with the character and circumstances of insured, and do verily believe that the insured has, by misfortune, and without fraud or evil practice, sustained loss and injury on the property insured to the amount of \$2100 as claimed." To the admission of this certificate appellant objected, and excepts to the ruling thereof by the court below. A question precisely similar to the one presented by the first bill of exceptions in this case was decided in *Turley vs. Insurance Company*, 25 Wend., 374. In that case the court said: "We are asked to go into a nice calculation of distances and settle the point on the law of *mensurationa*. The spirit of the condition required no such mathematical precision from insured. Its object is completely secured by the proximity of the certifying magistrate." In the case now being considered, Galt, the justice who lived nearest, stated that it was impossible to give the required certificate because he was ignorant of important and material facts. The certificate of Orndorff sufficiently complied with the requirements of the policy. Judgment affirmed.

Maryland Court of Appeals—*Agricultural Insurance Company vs. Bemiller*.

OTHER INSURANCE WITHOUT CONSENT.

The defendant insured plaintiff's house by a policy containing a stipulation that it should be void if there were or should be taken any other insurance thereon, without defendant's consent written thereon. Another clause limited the power of changing the contract, or of granting additional privileges to the defendant's managers. Plaintiff had insurance at the time of taking out said policy, of which the local agent was aware, and, without consulting the latter or the managers, took additional insurance, after which her agent informed the local agent of that fact, and asked him which one of them should inform defendant. The agent then promised to notify his company. The loss occurred without any consent by the managers to the additional insurance and before any more premiums were paid to defendants. There was a verdict for defendant and appeal taken.

Held—The court properly directed a verdict for the defendant, there being no evidence of any valid consent to the additional insurance.

Iowa Supreme Court—*Zimmerman vs. Home*.

ANSWERS WRITTEN IN APPLICATION BY AGENT BIND THE COMPANY.

Action was brought to recover under policy issued by defendant. R. P. Strominger, agent for defendant, took the plaintiff's action for \$1000 insurance on a public hall, the application being filled out by Strominger. To the interrogatory "Have you ever suffered loss of property by fire? If so, were you insured, and in what company?" Kister answered that he had had three fires, specifying them, and giving the insurance. Strominger wrote the answer: "Yes; small loss; Farmers, of York; the Dover; the Leb. Mut. of Jonestown." To the interrogatory as to incumbrances, Kister answered that there were liens on all his property of over \$4000, but that there was some paid on them; just how much he did not know. The agent wrote in the application "None." Kister did not read his answers, and was not aware when he signed the application that the agent of the company had not put down the answers as he had given them, and did not discover these errors of the agent until his attention was called to them by the company's affidavit of defense, which was that these warranties were false. In rebuttal the plaintiff offered to prove the foregoing facts, which offer was rejected, and a verdict directed for defendant. Plaintiff appeals.

Held—That Strominger was the agent of the company in effecting this insurance is too plain to admit of discussion, and must be so regarded. A copy of the application accompanied the policy, and it is argued that Kister could and ought to have read it; and if he had done so he would have seen that the answers were untrue. We cannot say that the law, in anticipation of a fraud upon the part of a company, imposed any absolute duty upon Kister to read his policy when he received it, although it would certainly have been an act of prudence on his part to do so. The company cannot repudiate the fraud of its agent, and thus escape the obligations of a contract consummated thereby, merely because Kister accepted in good faith the act of the agent without examination. We are of opinion also, that if the amount of the incum-

branches was not increased during the continuance of the policy, and before the date of the fire, there was no breach of the condition against incumbrances within the spirit and meaning of the policy. This covenant or condition against future incumbrances does not stand upon the footing of a warranty. The warranty covers the representations contained in the application, while the condition referred to is a provision of the policy only, and is not within the terms of the warranty. Indemnity is the real object and purpose of all insurance, and this is to be kept constantly in view, and favored in the construction of policies of insurance. Such contracts are to be construed liberally, and it is presumably the intention of the insurer that the insured shall understand that in case of loss he is to be protected to the full extent which any fair interpretation will give. Forfeitures are odious in law, and are enforced only where there is clear evidence that that was what was meant by the stipulations of the parties. There must be no cast of management or trickery to entrap the party into a forfeiture. Judgment reversed, and a *venire facias de novo* awarded.

Pennsylvania Supreme Court—*Kister vs. Lebanon Mutual Insurance Company of Jones-town.*

VIOLATION OF CONDITION AS TO AGGREGATE INSURANCE.

Action was brought to recover under a policy issued by the defendant. For answer it was alleged that there had been a breach of the condition regarding the aggregate amount of insurance allowable. Upon the evidence adduced the trial court ordered a non-suit and plaintiff appealed.

HELD—Where the examination of a record and the evidence in an action on an insurance policy shows that a condition in the policy, providing that the aggregate amount of insurance in *all* companies, on the property shall not exceed two-thirds of its value has been violated, it is not error to enter a compulsory non-suit.

Pennsylvania Supreme Court—*Bahner vs. Stone Valley Mutual Insurance Company.*

INSURABLE INTEREST IN MORTGAGED PROPERTY.

The plaintiff brought suit to recover against the defendant company. On appeal it was

HELD—The owner of mortgaged land still has an insurable interest therein after the rendition of a decree of strict foreclosure, and before the period of redemption has elapsed; and a policy of insurance obtained by him upon the buildings thereon, and their contents, is not void though he omitted to disclose the existence of such a decree, no actual fraud or misrepresentation being shown. The insurable interest is ended by failure to redeem within the specified period, and the mortgagee, to whom the mortgagor assigns the policy, cannot recover for a loss occurring after the expiration of the time for redemption, especially when the policy stipulates that it shall be void in case of a sale of the premises without the insurer's consent. A verbal promise by the mortgagee to sell the land to the mortgagor, made after the expiration of the period for redemption without consideration of any kind, will not so continue the mortgagor's interest as to keep the policy in force. A recovery cannot be had for a loss of the personality in the buildings, though the policy not only mentioned a gross sum for which the buildings and contents were insured, but also specified separately the sum included therein, on account of each, as such a policy is based on a single consideration, and imports only an agreement to insure a building, and its contents, belonging to one person. Judgment for defendant advised.

Connecticut Supreme Court of Errors—*Essex Savings Bank vs. Meridian Fire Insurance Company.*

AMBIGUITY IN TERMS OF CONTRACT.

An insurance policy on goods carried by a commercial traveler declared the persons "indorsed hereon to be insured upon all kinds of lawful goods, wares and merchandise laden on board the good vessel or vessels, boat or boats, railroad or carriage, lost or not lost, at and from ports and places to ports and places on a regular and lawful route, for the several amounts and at the rates as hereon indorsed." It also declared the risks taken to be "of the lakes, rivers, canals, railroads, fires, jettisons, and all other perils and misfortunes to the hurt, detriment, or damage of said property." The written indorsement on the policy was: "To the amount of \$1000, to cover on clothing and merchandise against any and all risks and perils of fire and inland navigation and transportation while on vessels, steamboats or railroads, or in

hotels, stores or depots, in the United States, and while in custody of the insured or traveling salesman." The salesman had the goods in a carriage, and in attempting to ford a stream at the usual place of crossing they were damaged by water.

HELD—That the goods were covered, though transportation by carriage was not specified in the written indorsement on the policy. Where there are two provisions in a contract, one printed and one written, the latter is presumed to express the latest intention of the parties, and will control the interpretations, unless the two can be reconciled so as to give effect to both. Where an insurance contract is so drawn as to be ambiguous, the doubt should be resolved against the company, as it prepared and executed the policy, and is responsible for the uncertainty of its language.

New York Court of Appeals—*Kratzenstein vs. Western Assurance.*

MORTGAGEE ENTITLED TO PROCEEDS OF PROPERTY.

A policy was issued to the owner of property, the loss, if any, to be paid to the mortgagee, as its interest should appear. Afterwards the owner gave the mortgagee a warranty deed of the insured property, and the mortgagee executed a contract to reconvey on repayment of the mortgage debt. The owner then gave a quit-claim deed of the insured property to his wife, and, with the consent of the insurance company, assigned the policy to the mortgagee.

HELD—The mortgagee was entitled to the entire amount of insurance. Where no objection is made to the notice and proof of loss at the time they are given, all objections are presumed to be waived.

Maine Supreme Judicial Court—*Biddeford Savings Bank vs. Dwelling House.*

SOLE OWNERSHIP A CONDITION PRECEDENT TO THE RISK.

Plaintiff procured insurance on property mortgaged to him, and the policy purported to insure "the estate of R.," the mortgagor, who was dead, but the insurance was payable to plaintiff as his interest might appear. One of the conditions of the policy was that it should be void if the interest of the insured was other than "entire, unconditional and sole ownership," and that fact was not represented to the company and expressed in the written part of the policy. R. had conveyed the property in trust to pay debts to one S., of which transaction defendant, the insurance company, had no knowledge.

HELD—The sole ownership was a condition precedent to the risk assumed by defendant, and as "the estate of R." had no title, the condition was broken on delivery of the policy.

New York Court of Appeals—*Weed vs. London and Lancashire.*

ASSIGNMENT WITH CONSENT CONSTITUTES A NEW CONTRACT.

The defendant company delivered to B a policy of fire insurance by which it insured his dwelling-house, contents, etc., his barn, out-houses, granaries, etc., and their contents severally, for a period of five years, for a gross premium of \$37. The farm, at the time the policy was issued, upon which the several buildings were situate, was owned by the applicant B. The policy contained a stipulation as follows: "If the applicant shall mortgage or otherwise incur the property hereby insured, without notice or consent of the company indorsed hereon, this policy shall become null and void." B, without notice to the company, and without its knowledge or consent, mortgaged the farm upon which the insured buildings were situate to secure a loan of \$5,000. Four months thereafter he sold and conveyed the land, with the buildings thereon, to plaintiff for a consideration of \$12,000, and without any new consideration transferred the policy of insurance to the purchaser, who, in turn, presented it to the company's superintendent, who indorsed its consent thereon that the policy might be assigned to the purchaser, *subject to all the terms and conditions mentioned or referred to therein.* The company had no knowledge of the existence of the mortgage at the time it gave its consent to the transfer of the policy. After the destruction of the property the company learned of the mortgage executed by B, and thereupon refused payment, on the ground that placing the incumbrance above mentioned on the property was a violation of the condition of the policy which rendered it null and void.

HELD—Upon the sale of insured property and an assignment of the policy to the purchaser, duly assented to by the company, a new contract of insurance arises between the

company and the assignee, which is not affected by a default of the assignor before the assignment amounting to a forfeiture of the policy.

Indiana Supreme Court—*Continental Fire Ins. Co. vs. Munn.*

INDIVIDUALS PERFORMING CORPORATE ACTS.

In an action by *quo warranto* proceedings against an insurance association it is

HELD—That when several persons associate themselves together as insurers against loss by fire, and by their articles of association limit or provide for limiting their liabilities to the sums contributed by them, and accumulated premiums, and assume to give perpetuity to the business of such insurance, by making membership certificates transferable by the assignment of the member in his personal representative, without becoming incorporated, such persons will be guilty of acting as a corporation without legal authority so to do, and an information in the nature of *quo warranto* will lie against them.

Further, if it be conceded that individuals may insure property against loss by fire, they cannot limit their liability to any given amount of capital they may choose to set apart for that purpose; nor can they perpetuate the business, without change of capital beyond their own lives indefinitely. These things can only be done by a corporation.

Illinois Supreme Court—*Green et al. vs. State, ex rel.; Auditor Pavey.*

WHEN RETALIATORY LAWS BECOME OPERATIVE.

This was an action in *assumpsit* to recover a license or tax paid by the plaintiff company under protest. The Revised Statute of Illinois provides that whenever the existing of future laws of any State shall require of insurance companies, incorporated under the laws of Illinois, and having agencies in such other State, any deposit, or the payment of any tax, license fee, etc., greater than the amount required for such purposes from similar companies by the then existing laws of Illinois, then all companies of such State, establishing or having an established agency in Illinois, shall be required to pay to the auditor for taxes, license fees, etc., an amount equal to the amount required by the laws of such other State. The plaintiff claimed that the State of Illinois had no companies doing business in its mother State, and that the latter had received no such fee or tax from any Illinois company.

HELD—This section of the law becomes operative upon the enactment by the other State of the law with the additional requirements, and it is immaterial that there are no Illinois companies doing business in such State, nor similar tax exacted from an Illinois company by such State.

Illinois Supreme Court, April 15, 1889—*Germania Insurance Company vs. Swigart, Auditor.*

WAIVER OF ARBITRATION CLAUSE BY INSURED.

Action was brought by plaintiffs against the defendant and a number of other companies to recover upon policies issued upon a stock of drugs. Plaintiffs demanded a settlement based upon the selling price for a large quantity of patent medicines made by them; also, added the expense for opening and distributing goods through a six-story building, together with an arbitrary per cent to the inventory for freight charges, cost of labels, cartoons and advertising materials. The defendants denied liability for cartoons and advertising matter, alleging that the policies covered the stock only; denying privileges assumed under the policies to compound or manufacture medicines, and offered to settle at and tendered the cost price rather than the selling price of the goods destroyed. The particular policy on which suit was brought contained a clause requiring the submission of all disputed differences to arbitration, and the estimates so made and signed by a majority of the appraisers, while conclusive as to the amount of the loss or damage, shall not determine the legal liability of the company thereunder. The plaintiff objected to an arbitration except under stipulations as to its finality. Defendant refused to arbitrate upon such terms, alleging that a suit was inevitable no matter what the result might be. Upon the evidence and facts the court

HELD—The company cannot now rely upon the arbitration clause as a defense, waiver being a matter of intention, but having neither waived or intended to waive these clauses, but insisting on them in such a way that their conduct of insistence has been such that they have rather forfeited than waived them. A refusal to arbitrate because the parties cannot agree on its terms, the fault being with the company's representative, forfeits the right of arbitration as

completely as if they had refused to arbitrate at all. In order to fix values and ascertain primary costs, freight and cost of distribution, etc., the sum they would be required to pay to replace the goods in the same condition of similar quality and character, or the fair market cash value at the time of the fire, is a proper basis of computation, allowing for goods sold, depreciation and reduction on the one side, and appreciation and profit on the other. Where cartoons, labels and advertising matter are reasonably kept as a part of the essential belongings of medicine when compounded for sale, they would be included and would be for sale as a part of the merchandise, and covered by the policy, all of which facts are to be determined by the jury from the evidence. Where adjusters assemble upon the ground, call for the inventories, invoices, books and other evidences, receive them, listen to the plaintiffs' statement concerning the loss, and then fix a sum they are willing to pay, without any demand for formal and preliminary proofs, constitute a waiver of such condition, and no such defense as an afterthought can prevail. Verdict and judgment in the sum of \$86,000. [Motion for new trial overruled, judgment final.]

United States Circuit Court, Tennessee—*Mansfield Drug Company vs. Fire Association of Philadelphia et al.*

CONSTRUCTION OF POLICY CONDITION.

Suit was brought to recover under a policy insuring carriages "while contained in" a livery stable as described in the policy. Three of the carriages were burned while in a repair shop. In the court below there was judgment for plaintiff and defendant appealed:

HELD—"The general, and indeed the only question presented for decision, is whether the property destroyed was covered by the policy at the time of the burning. It is not denied that this property came within the protection of the policy as often as it was returned to the stable, but it is argued that it was the purpose of the company to indemnify the insured for any loss by fire in that building and not elsewhere. Now, is this so? No rule is better settled than that contracts of this character must receive a fair and reasonable interpretation. Where merchandise kept in stock, or carriages kept in a carriage-maker's establishment for sale are insured, there is nothing in the nature of the property to indicate that it will be removed before it is sold. But where the property is of such a kind that it must be kept in constant use, and therefore, of necessity be often in need of repairs, no room for such an inference can exist; and in such a case we are constrained by every principle applicable to a contract of this kind to hold that the words 'contained in' were used to designate the usual place of deposit for the property when not in use, or while being prepared for use." Judgment affirmed.

Virginia Supreme Court of Appeals—*Niagara Fire Insurance Company vs. Elliott et al.*

ACT OF AGENT IN EXCESS OF AUTHORITY DOES NOT BIND THE COMPANY.

In this case the agent of the defendant assumed to renew a policy by issuing to plaintiff a renewal receipt. It was shown in evidence that such was not the practice of the company; that the agent was not authorized to renew policies except by issuing new ones, and that in this particular case the renewal receipt had never been forwarded to the company. At the trial court there was a judgment for plaintiff and appeal by defendant.

HELD—It is contended by the plaintiff that the agent, not being authorized to issue renewal certificates, and the fact being that the company did not so renew its policies, the acts of this agent would not bind the company. Where it is shown, as in this case, that the agent is a general agent, and is so held out to the community in which he does business, and third parties transact business with him as such agent, in good faith, without knowledge of his limited authority, the acts of such an agent must bind the principal; and where the agent is shown to have authority to renew a policy in any manner, and he does renew a policy in a manner not authorized by his company, but that fact is not known to the insured, the agent's renewal must bind the company. Judgment affirmed.

Kansas Supreme Court—*Western Home Ins. Co. vs. Hogue.*

WHERE VACANCY EXISTS THE COMPANY IS NOT LIABLE.

Suit was brought to recover under a policy insuring a dwelling house, which contained the provision that "no liability shall exist under this policy for loss on any vacant or unoccupied house unless consent for such vacancy or unoccupancy be endorsed hereon." Plaintiff

sold the house and induced the tenant to move out. No other tenant took his place, and the house was burned while vacant. Defendant relied for defense upon the condition of the policy above quoted. The trial court directed a verdict to be entered for defendant, from which plaintiff appealed.

Held—Plaintiff sold the house, and at his solicitation his tenant moved to another, leaving behind him but a few scattered articles and having no intention of returning there to live. The night succeeding his removal the house was burned. Defendant set up the clause above quoted as a defense, and the court directed a verdict against plaintiff, who appeals. The court say: "The one fatal defect in plaintiff's case is that the continuity of the occupancy was completely broken. It was not the case of one family moving out and another moving in, as in *Eddy vs. Ins. Co.*, 70 Ia., 472, 30 N. W. Rep., 808. The tenant had ceased to have any dominion over the property, and no person had taken possession in view of occupancy. The case is more like *Dennison vs. Ins. Co.*, 52 Ia., 457, 3 N. W. Rep., 500; *Fehse vs. Ins. Co.*, 39 N. W. Rep., 87, and other cases determined by this court. In the case at bar the house was not only vacant, but was undergoing extensive repairs, which conclusively shows that it was unfit for occupancy. It is claimed by counsel for appellant that, under the vacancy clause in this policy, there is no liability of the insurer upon buildings which are vacant and unoccupied at the date of the policy, but that the liability may exist if they become vacant or unoccupied after the policy is issued. We do not think the clause under consideration ought to be so construed. The only fair construction is that there shall be no liability if the loss occurs at a time when the building is vacant or unoccupied." Affirmed.

Iowa Supreme Court—*Snyder vs. Firemans Fund Ins. Co.*

TAXATION OF SURPLUS OF COMPANY.

Action was brought by the plaintiff against the Tax Commissioners of the city of New York to compel a corrected assessment of its capital stock to be made. There was a judgment for the insurance company, from which the Tax Commissioners appealed.

Held—We think the question which the appellants seek to have determined, viz., whether in estimating the property of an insurance company for the purpose of taxation, any deduction is to be made on account of unearned premiums, and whether they are to be considered to any extent as debts or liabilities of the company, does not arise and cannot be decided upon this record. It appears from the return of the commissioners of taxes that they fixed the valuation of the capital stock and net surplus of the relator at \$321,219, according to the report of the insurance department of the State, to which they refer. Reference to the report shows that this sum was arrived at by valuing the capital stock of the relator at \$300,000, its par value, and its net surplus at \$21,219. The net surplus was ascertained by deducting from the sum of \$45,885.21, the gross surplus, liabilities for unearned premiums amounting to \$24,666.16. This left the net value of its assets, as estimated, \$321,219. From this aggregate the commissioners deducted United States bonds held by the company to the amount of \$304,577, leaving a balance of \$16,644, which latter sum was fixed by the commissioners as that for which the relator was liable to taxation. This sum represented part of the surplus of \$21,219, and as by chapter 426 of the laws of 1857 only that part of the surplus exceeding ten per cent of its capital was subject to taxation, the assessment was clearly erroneous. Judgment affirmed.

New York Court of Appeals—*Commonwealth Ins. Co. vs. Coleman et al.*

DEFAULT IN PAYMENT OF PREMIUM NOTE VOIDS POLICY.

Plaintiff in this case had given his promissory note in payment of the premium on his policy. The note contained the following stipulation: "If this note is not paid at maturity said policy shall then cease and determine, and be null and void, and so remain until the same shall be fully paid and revived by said company. In case of loss under said policy this note shall immediately become due and payable, and shall be deducted from the amount of said loss." The policy contained the following clause: "In case assured shall fail or refuse to pay the premium note or notes, or order or orders above described, when due, this policy shall then and thenceforward be and remain null and void, and the same cannot be revived without the written consent of the company; but this shall not prevent this company collecting, by suit or otherwise, the premium note or notes, or order or orders above described, nor shall sr"

attempt or suit be construed to revive this policy; but the same shall be and remain null and void during such default, and until said assured shall pay such premium note, interest and fees and costs, and until this company shall receive the same, and return said promissory note to said assured, and in such case such policy shall be revived." The note was not paid at maturity, but on July 5, 1885, a payment of \$100 on account was accepted by defendants. At the time of the loss under the policy, April 25, 1887, a balance remained unpaid on said note. The court below gave judgment for plaintiff and defendant appealed.

HELD—There can be no controversy as to the effect of the provisions in the note and policy. The failure on the part of the assured to pay the amount due did not work a forfeiture of his rights under the policy, but suspended the same until payment was made. In the meantime the company had the right to collect the balance due by suit or otherwise. Upon the collection of the whole amount due, the policy would have revived, but this could not be the effect of the collection of a part of the amount only. In order to obtain the benefit of the insurance the assured was bound to pay the whole amount due by the express terms of his contract. As the company had the right to collect the money notwithstanding the suspension of the policy, the fact that it received a part of the amount could not amount to a waiver. It simply showed an intention to carry out the terms of the policy by collecting the premium, and thereby reviving the same upon full payment being made. This case differs widely from one in which the failure to pay at maturity works an absolute forfeiture of the policy. There the acceptance of the premium after forfeiture is inconsistent with the terms of the policy, and therefore it is properly held that such acceptance is a waiver of the forfeiture. For these reasons we think the court below should have granted the defendant a new trial." Judgment reversed.

California Supreme Court—*Curtin vs. Phenix Ins. Co.*

PROCEEDS OF INSURANCE ON HOMESTEAD NOT EXEMPT FROM EXECUTION.

Action was brought to determine whether insurance money due on a house occupied as a homestead, which had been destroyed by fire, was exempt from execution under the homestead exemption law, the court

HELD—A homestead is exempt, and the house is a part of it, but the money due on a policy of insurance on the house is neither the house nor the representative of it. Such money is the result of a personal contract of indemnity against the loss of the house, which contract was founded on an independent consideration in the premium paid by the insured. While it is true that the house was the subject of the contract, yet the indemnity was purchased by its price, the premium paid. The law exempts the homestead, and not what may grow out of it or arise from it as the result of some contract made by the exemptionist—simply the homestead, and not the proceeds of it in another form, is exempt. Hence, even if the proceeds of the homestead were exempt the money due by the policy of insurance would not be, for it is not the proceeds of the house, but of the policy—an independent personal contract. That the house was not insured, but the owner was insured by the contract to pay him a sum of money as indemnity against loss.

Mississippi Supreme Court—*Smith vs. Ratchiff.*

BREACH OF WARRANTY AND TESTIMONY AS TO OVER VALUATION.

This was an action to collect money due on a fire insurance policy, the clauses of which provided that "any fraud or attempt at fraud, or any false swearing on the part of the assured, shall cause a forfeiture of all claim under the policy." At the trial court there was a judgment for plaintiff and defendant appealed.

HELD—If the insured was guilty of willful fraud or false swearing, the warranty was broken, and no recovery could be had. It was necessary for defendant to show that the fraud, or attempted fraud, or false swearing was willful, and not the result of inadvertence or mistake; but it was error to charge that before the plaintiff's right to recover was forfeited, it must appear that not only his own testimony, but also that of "other witnesses produced by him was false and corrupt." The policy contained a clause requiring the insured to produce account books and vouchers in case of loss by fire, which condition is not avoided by failure or refusal to produce them, unless the policy provides in express terms for such forfeiture; but the failure or refusal may be proven, and is a proper subject of comment before the jury as

to the extent of the loss. The extent of actual loss or injury to the property is the measure of damages recoverable under the policy; and that it was error to exclude testimony as to the excessive valuation placed on the goods insured, because the testimony was that of a witness who was an employee of the company's agent, as that fact, if it could affect the witness at all could only do so as to his credibility. But the opinion of a witness, as to whether the plaintiff's demand was based on a fair valuation of the property, was properly excluded. Judgment reversed on errors.

Texas Supreme Court—*Lion Fire Insurance Company vs. Frank Starr.*

ADDITIONAL INSURANCE WITHOUT CONSENT AVOIDS THE POLICY.

A policy of insurance provided that either party might require an arbitration "touching any loss or damage," and that the award "shall be binding as to the amount of such loss or damage, but shall not decide the liability of the company under this policy." It also provided that it should be void in case of other insurance "without notice and consent of this company." It also authorized the company to terminate the contract at any time, at its option, by giving notice and refunding a ratable proportion of the premium.

HELD—An arbitration and award, merely as to the amount of the loss, at the instance of the insurer, did not forbid the subsequent denial of legal liability upon the ground that the policy was void for reasons known to the insured when the arbitration was instituted. Additional insurance, unless consented to, or unless a waiver was shown, *ipso facto* avoided the contract, and the fact that the company had not, after notice of such insurance, cancelled the policy, did not justify the legal conclusion that it had elected to allow it to continue in force.

Minnesota Supreme Court—*Johnson vs. American Fire Insurance Company.*

KNOWLEDGE OF MORTGAGE NULLIFIES CONDITION AS TO FORECLOSURE PROCEEDINGS.

A policy of fire insurance on plaintiff's property, dated September 18, 1886, for three years, provided that it should be void "if proceedings to foreclose any lien shall be commenced in any way, or notice thereof shall be given." It appeared that defendant's agent was, at the time of making the contract, fully informed of a mortgage on the premises, and that he made the insurance payable to the mortgagee, as his interest might appear, but that such clause was accidentally omitted from the policy. The mortgage was then overdue, and a suit to foreclose was begun August 25, 1887, and a decree rendered in September, 1887, for a sale after September, 1, 1888. The loss occurred April 4, 1888. At the trial there was a judgment for plaintiff and defendant appealed.

HELD—The mortgage was known to be overdue and liable to foreclosure at any time, while the mortgagor could not be deprived of any of his possessory rights or rights of redemption until the sale, which could not be earlier than the fall of 1888. There could be no change affecting title or possession till that time, and there could be very little object in procuring and paying for insurance that might be avoided within twenty-four hours if the defense is available. It is unfortunate that the record does not show more fully the documents relied on. It is left in doubt by the return whether the defendant was not notified in writing of the whole title, and of the purpose to protect the mortgage interest. But we have enough to show that the existence of the mortgage was not, by itself, of any effect in impairing the policy, and the destruction of it by the beginning of foreclosure would be a consequence not reasonable, and not to be inferred without convincing provisions, which we do not discover, as changing the former decision of this court. Judgment affirmed.

Michigan Supreme Court—*Butz vs. Ohio Farmers Mutual Insurance Company.*

AUTHORITY OF AGENT.

This was an action on contract of insurance where the evidence showed that plaintiff's agent made a written application for insurance, specific in all its details, with satisfactory arrangement as to the payment of premium, and defendant's agent stated that he would "bind the risk" from that date if the company was not already on the risk, and that it was understood that the policy was binding from that time. Defendant's agents, at the time of making the contract with plaintiff, which was a "special" risk, had not received their commission of authority, but they had a letter written by the general agent, V., saying, "If your appointment is confirmed, your jurisdiction will be the city of Brooklyn, outside the shore line, but w

shall expect you to write no large risks for us until you know for certain that we are not in, through our New York office. As we are now on all Brooklyn specials of any size that we will write, please do not undertake to write any specials for us at present." Later they received a letter from the company saying, "We take very great pleasure in forwarding to your address by mail to-day a commission of authority as agents of this company in the City of Brooklyn. We deem it unnecessary to enter into any detailed instructions as to the conduct of our business at your agency, as our Mr. V. has written you upon that subject." This last letter only was shown to plaintiff's agent.

HELD—The jury were authorized from this evidence to find that a valid contract of insurance was made. The letter of appointment indicated a general agency, and the reference to V.'s letter was not sufficient to give plaintiff notice of any limitation of the agents' authority as to writing special risks.

New York Court of Appeals—*Ruggles vs. American Central*.

ACTS OF AGENT BINDING ON COMPANY.

This was an action on a policy of fire insurance, which forbade an assignment of the policy without consent of defendant. The plaintiffs alleged that with defendant's consent the policy was assigned to the firm of L. & Co. The policy offered in evidence showed that the assignment was to L. individually, and not to L. & Co. The company also alleged neglect to furnish proofs of loss.

HELD—The court erred in admitting the policy in evidence, the variance being material. The court properly permitted plaintiffs to show that when L., to whom the policy was assigned, purchased an interest in the insured property in his own name, and by a written contract, he in fact purchased it as agent, and for the benefit of his partner, and that the firm of L. & Co. thereafter owned the insured property, as alleged in the petition. Such evidence did not change the written contract. Where an act done by an agent of the company in relation to the insurance is within the scope of his authority, and is not promptly repudiated by the company, the act will be binding upon it, notwithstanding it does not conform to restrictions contained in the policy concerning the powers of agents, and the matter of their exercise.

PROOFS—A company having informed the insured after the loss that by reason of unauthorized transfers of the policy or property the policy was avoided, and that the loss would not be paid, the insured was released from the obligation to furnish proofs of loss.

Texas Supreme Court—*Niagara vs. Lee et al.*

PAYMENT OF PREMIUM NOTE A CONDITION OF THE CONTRACT.

An insurance policy insured defendant's property against fire for a period of five years, in consideration of \$41.50 cash and a note for an additional sum, of even date with the policy, and due ten months after date; the note, by the terms of the policy, being taken as payment until its maturity or default, but, if not paid at maturity, the policy should be null and void, "and so remain until the same shall be fully paid." Action was brought to recover on the note. There was a judgment for defendant and appeal taken.

HELD—Defendant could not claim that the cash payment was the consideration for the insurance during the ten months before the note matured, and that as on its default the policy became null and void the consideration for the note had failed. The contract being an entirety, the note is as much the consideration therefor as the cash payment, and, having had the benefit of the contract for ten months, defendant cannot avoid paying the entire consideration.

Arkansas Supreme Court—*Robinson vs. German*.

MERGER OF VERBAL AGREEMENT IN THE POLICY.

The plaintiff in this case agreed with the agent of the defendant for insurance upon his property, the agent promising to deliver the policy in accordance with the agreement. At different times the agent assured plaintiff that the policy was made out and was in his safe. The property was burned, after which the agent denied that it was insured in the defendant company, but claimed that it was insured in another company of which he was agent. Later, he gave to the attorney of plaintiff a policy in the defendant company, which was dated so that it expired two weeks before the loss occurred. The attorney took this policy to the secretary of the company, who kept possession of it. Suit was brought to recover for breach of parol

contract ; the defense claimed that the parol contract was merged in the written contract which expired before the loss ; also that proof of loss had not been furnished as required by the written contract. At the trial court there was a judgment for plaintiff, and defendant appealed.

HELD—The point that the parol contract to insure was merged in the written policy delivered, is raised principally upon the ground that the proof of loss made by the defendant in error some six months after the loss, sets up this policy. The proposition of law stated by the plaintiff in error, to which counsel cites authorities, that a verbal contract reduced to writing, which covers all branches and elements of the contract, is merged therein, is conceded. If the written policy had contained or fairly covered all branches and elements of the verbal contract, the verbal contract would have been merged and absorbed and no action for a breach of it would have been maintainable. But, in order to avail itself of this point, the plaintiff in error would have to admit the written contract as binding upon it. This it does not do, but has constantly repudiated it. Even this is scarcely necessary, as, on its face, it was executed and delivered, not only long after the time which it assumed to cover had expired, but upon its face, and by its terms, it was made to expire before the happening of the loss by fire, which is the event of this controversy, and which made it an object of interest to the parties. It was, therefore, at the moment of its execution, utterly null and void for any and all purposes. Being so, its recital in the proofs of loss, by the plaintiff, was merely encumbering that paper with an extraneous fiction without any legal significance whatever. Again, it is contended by the plaintiff in error that the proofs of loss was made and presented long after the time required by the usages of the insurance company for a proof of loss under its policy to be made, and hence was inoperative and insufficient as proof. Here arises the question whether, in an action upon a parol contract to insure, it is necessary, as a condition precedent to his right of action, for the plaintiff to prove the making of proof of loss. The plaintiff in error contends that it is, and to that point cites the case of *McCann vs. Aetna Fire Insurance Company*, 3 Neb. 198. We concede the authority to its full extent. Were it not for that precedent, we would be inclined to hold with the Supreme Court of the United States in *Taylor vs. Merchants Fire Insurance Company*, 9 How. 390 ; the Supreme Court Commissioners of California in *Gold vs. San Fire Office*, 73 Cal. 216, 14 Pac. Rep. 786, and the Supreme Court of Missouri in *Baile vs. St. Joe Fire and Marine Insurance Company*, 73 Mo. 371—to the effect that when an insurance company enters into a parol contract to issue a policy, and fails to issue such policy, it waives its right to demand proof of loss arising under such contract of insurance. It would seem to be claimed that where a company enters into a parol contract of insurance, or a contract to make and deliver a policy, that it is a condition precedent to the maintaining of an action by the assured, for a loss arising thereunder to make and present proof of such loss within the time which would have been limited for the same by the terms of such policy, had it been executed and delivered. The rule in *McCann's* case, cited, falls far short of that requirement, while it does hold that proof of loss shall be made and served on the company, as a condition precedent to the bringing of an action. The only ground of contention against the proof of loss is that it was not made and presented in limited, specified time ; whereas, under the rule in *McCann's* case, we have not been able to sustain that opinion. Judgment affirmed.

Supreme Court of Nebraska—*Nebraska and Iowa Insurance Company of Omaha vs. Seviere*.

VOID BY REASON OF OTHER INSURANCE.

This was an action to recover upon a policy of fire insurance the defendant company interposed three separate defenses, viz. : Other insurance in violation of the conditions of the contract ; vacancy of the house insured and that appellee burned the building. From a judgment for plaintiff rendered in the trial court the defendant appealed.

HELD—Where a policy of fire insurance contains a clause making it void in case of other insurance on the same property, and there is a prior policy on the property which expires before the second policy, such second policy attaches and becomes operative upon the expiration of the prior policy. The fact that an insured house has become vacant, and that the policy of insurance contains a clause making it void in event of such vacancy is not sufficient in a suit upon a subsequent policy to show that the first policy has become void without proof that the company had elected to hold the policy void. The fact that the insured attempted to collect the prior policy, and that he stated that he did so at the request of the insurer, are sufficient evidences of waiver of the forfeiture to justify submitting the question of waiver to the

jury. Where two concurrent policies on the same property, issued at different dates, both contain a clause making them void in case other insurance is taken out on the property, the first policy makes the second void, but is not affected by it. A policy that is issued on a vacant building, the receipt of the premium by the insurance agent with knowledge of the vacancy, and without objection on that ground, is a waiver of a clause making the policy void in case of vacancy. The company having alleged that the plaintiff set fire to the building himself, it must prove such plea beyond a reasonable doubt. But where such plea is joined with other plans, that do not charge a criminal offense, it is error to instruct the jury that defendant must establish its other defenses by more than a preponderance of the evidence. Reversed on errors and remanded.

Illinois Supreme Court—*Germania Fire Insurance Company vs. Klewer*.

MECHANICS WORKING WITHOUT PERMISSION VOIDS THE POLICY.

Action was brought to recover on an insurance policy issued upon a certain dwelling-house unfinished at the time of issuing the policy. The description of the property in the policy contained the following words: "To be occupied as a residence when completed," and, also, the further provision: "In consideration of three dollars extra premium paid, permission is hereby granted to mechanics to work in and around the building for ninety days from date." The ninety days expired on September 25, 1881, and the building was not completed. Its destruction by fire occurred May 13, 1882. The evidence showed that the insured was a carpenter; that he worked in the building finishing the kitchen, placing crocks for stove-pipes to go through, and put drawers in closets, etc., all without consent of the insurer. The last work done was a few days before the fire. The trial court ruled that the insured, though a mechanic, had a right to work upon his own building, and directed a verdict for plaintiff. Defendant appealed.

HELD—Where an insurance policy on an unfinished house contained the words, "to be occupied as a residence when completed," and gave permission to mechanics to work in and about the house for a period of ninety days, that, while insured was to have the right to complete the building, this was to be done within ninety days, and that work done in the construction of the house after the expiration of that time was a violation of the clause in the policy prohibiting carpenters or other mechanics from working on the house without written permission, even though done by the insured himself. Judgment reversed.

New York Supreme Court—*Smith vs. German American Insurance Company*.

A REFERENCE NOT NECESSARY TO ASCERTAIN AMOUNT OF LOSS.

In an action to recover for total loss of a stock of drugs, the defendant moved for a reference, which motion was denied, and an appeal taken.

HELD—Though the examination of numerous items of damage may be involved, they do not constitute an account, technically and properly speaking. An account implies dealings and transactions between the parties, and where the action is based upon such an account, which has to be examined and investigated, a reference can be made. It is where the action is based upon the account itself, that a compulsory reference can be made. But it does not follow, because a variety of items has to be examined to ascertain the amount of damage recoverable, that the same rule obtains. There the examination of the account is merely an incidental matter, and not the main issue in the cause. We therefore hold that the inquiry as to the list of articles or items destroyed by the fire, though it may be necessary and proper to determine the account of loss or the damage recoverable on the policy, still, in a legal sense, does not require the examination of a long account, as where the action is upon the account itself, which is the real subject of investigation. Order affirmed.

Wisconsin Supreme Court—*Andrus vs. Home Insurance Company*.

INCUMBRANCE ON PROPERTY WITH AGENT'S KNOWLEDGE.

Action was brought to recover upon a policy containing the usual forfeiture clauses. The company refused payment on the ground that the application signed by plaintiff and wife warranted the property in question to be unincumbered, when in truth it was not unincumbered at the time, and that a further incumbrance had been placed upon it without consent or notice to defendant. The evidence showed that plaintiffs, at the time of making the application for

the policy, and prior to the time of receiving the policy, told the agent of defendant that there was a mortgage of \$300 on the premises, and that they expected to secure \$100 more in the same manner. To this the agent assented, and said "the incumbrance was not sufficient to make the risk hazardous." Still doubting plaintiffs insisted that the facts be endorsed on the application, which the agent agreed to have done. The agent denied having made such an agreement. The application was never produced, and the trial court gave plaintiffs judgment. Defendant appealed.

HELD—Where a fire insurance policy has a forfeiture clause for incumbrance on the property, by the agent of the insurer, who has power to make and deliver policies, has notice of an existing incumbrance, and an intent to further incumber, and agrees to note these facts on the application, and the assured rests under the belief that it is so noted, the company is estopped from setting up the fact to defeat a recovery upon the policy, though it is not actually indorsed thereon. Parol evidence is competent to show such an agreement.

Michigan Supreme Court—*Copeland and Wife vs. Dwelling House Insurance Company*.

COMPANY RESPONSIBLE WHERE AGENT FILLS OUT APPLICATION.

The policy in this case was issued to cover a steam elevator. The defense alleged misrepresentation in the application and also as to the title to the land on which the elevator stood. In reply, the plaintiff alleged that the agent of the company, who was familiar with all the facts in the case, filled out the application for the policy and was responsible for any misrepresentation. The lower court so instructed the jury, and there was a verdict for plaintiff from which an appeal was taken.

HELD—The pivotal question, under this state of facts, is whether or not the insurance company is not estopped from denying the truth of the statement contained in the application, concerning the title to the property. The leading case in this State, upon this question, is that of *Insurance Co. vs. McLanathane*, 11 Kan. 533, and in this particular feature is very similar to the one we are now considering. The case cited holds "that an agent of an insurance company, authorized to issue policies, and consummate the contract, binds his principal by any act, agreement, representation or waiver within the ordinary scope and limit of insurance business, which is not known by the insured to be outside the authority granted to the agent. There is no reversible error, and the judgment for plaintiff will be affirmed."

Kansas Supreme Court—*National Mutual Fire Insurance Company vs. Barnes et al.*

FILING PROOFS OF LOSS NECESSARY TO RECOVERY.

Plaintiff brought suit to recover under a policy which contained the usual stipulation relative to furnishing proofs of loss. Defendant moved for non-suit on the ground of failure to comply with this condition. Non-suit was granted, and plaintiff appealed.

HELD—The policy contained the usual condition as to the making of preliminary proofs of loss, and provided that the amount to be paid under the policy should be paid "sixty days after the proofs shall have been made by the assured and received at their office, and the loss shall have been ascertained and proved in accordance with the terms and conditions of the policy." Where such preliminary proof is required by the policy the assured must allege and prove that the proof has been made, or that the requirement has been waived. *Doyle vs. Insurance Company*, 44 Cal. 264; *May, Ins. sec. 465*. There was no evidence that the necessary proof of loss had been given, nor was it shown that such proof had been waived. The non-suit was therefore properly granted. Judgment affirmed.

California Supreme Court—*McCormack vs. North British Insurance Company*.

WAIVER OF POLICY CONDITIONS.

Suit was brought by the assignee of the insured to recover under a policy issued by the defendant. The claim was resisted on the ground that suit was not commenced within the period of limitation, and further that the transfer by the insured to the assignee was in fraud of the assignor's creditors. Plaintiff maintained that the limitation clause had been waived when the defendant accepted proofs of loss and admitted the validity of the policy. At the trial court there was a judgment for the defendant and plaintiff appealed.

HELD—The repeated recognition by appellee of its liability on the policy, the fact that no further adjustments on the proofs of loss were required, together with the refusal to pay up

the distinct and only ground that a certain suit had not terminated in a judgment, and the promise to pay upon the happening of that contingency, were, in themselves, sufficient to constitute a waiver of the condition precedent contained in the insurance contracts, requiring suit to be brought upon the policy within twelve months next after the loss. It is also assigned as error that the court erred in its general charge, in instructing the jury to find for defendant if the insured transferred the policy in question to plaintiff for the purpose of hindering, delaying or defrauding his creditors, and plaintiff knew, or ought by ordinary prudence and diligence, to have known of such purpose. The record in this case shows simply a judgment against appellee as garnishee. But there is nothing which shows that a judgment was obtained against insured, or to what extent, if any, he was indebted, or that he was so indebted when the policy was transferred to appellant. Such being the case, appellee was not in a position to attack the assignment of the policy for fraud. Judgment reversed and case sent back for new trial.

Texas Supreme Court—*Horst vs. City of London Fire Insurance Company.*

EXISTENCE OF MORTGAGE VOIDS THE POLICY.

Suit was brought to recover under a policy which contained the condition that it should be void unless continued by consent endorsed on the policy. "If the assured is not the sole and unconditional owner of the property, or if the interest of the assured in the property, whether as owner, trustee, consignee, factor, agent, mortgagee, lessee or otherwise is not truly stated in this policy." In the warranty of the assured he stated that he had not "omitted to state to this company any information material to the risk." There was a judgment for plaintiff in the court below and appeal taken.

HELD—The existence of a mortgage or other incumbrance may be a material fact for the underwriters in fixing the premium, or even in taking the risk. The interest of the assured in property mortgaged to many times its value could hardly be supposed by a cautious underwriter to be equal to that of an absolute owner, without any incumbrance whatever. We think therefore, the failure to disclose the mortgage upon the property, by a fair construction of the terms of this policy, renders the insurance void as to such mortgaged property." Judgment reversed.

Maryland Court of Appeals—*Westchester Fire Insurance Company of New York vs. Weaver.*

FALL OF BUILDING AS THE RESULT OF FIRE.

This action was based upon a policy issued by defendant upon a lot of drygoods stored in a warehouse. The policy provided that the company should not be liable under such contract for loss and damage, if the building described in the policy, or any part thereof, in which the goods were stored, should fall except as the result of fire. The company admitted, in answer, the value placed upon the goods by insured, and their destruction by fire, but alleged in defense of its refusal to pay the loss, that the warehouse fell not as the result of the fire that consumed the goods; therefore its obligation on the policy was canceled. The evidence was conflicting, but the jury found for plaintiff, and a new trial being denied, the company appealed. The appellant company asked the court to instruct the trial jury that "they must find for the defendant, unless they believe that the building fell from fire existing previous to the fall, and sufficient to cause the fall, and which did cause the fall;" which instruction was refused, and in lieu thereof the court instructed "that the defendant would not be liable for the loss or damage of the goods if the building fell, except the fall was the result of fire." Further, "that the burden is upon the company to show by the evidence that the building did not fall as the result of fire, and unless the jury believe from the evidence that the building or such part thereof as fell did not fall as the result of fire, they should find for the plaintiff; but, on the other hand, if they believed it did not fall as the result of fire, they should find for the company."

HELD—The word "result," as used in the court's instruction, means precisely what the company would have it mean in the instruction tendered by it. The learned know that the word means that which springs or rebounds back from some pre-existing thing; and the unlearned know from its daily practical application that it means the same thing; as the floods in the rivers are the result of rain or snow; the parched earth the result of heat and drought; a life lost as the result of a fall; the building in question fell as the result of fire. The

evidence that the building fell as the result of fire was sufficient to authorize the verdict. Judgment affirmed.

Kentucky Court of Appeals—*Transatlantic Fire Insurance Company of Germany vs. Bamberger, Bloom & Co.*

THE RISK INCREASED WITHOUT CONSENT.

This was an action upon a policy of insurance on a stock of goods, wherein it was provided that "if the risk be increased by the erection or occupation of neighboring buildings, without the consent of the insurer endorsed thereon, the policy shall be void." After the policy was issued one of the insured, who was the owner of the store-house in which the goods were insured, purchased a small frame building near by and moved it up to and connected it with his store building, making an "L" of it and a passage way into the storehouse. The insurer had no knowledge of the addition until after the fire. The fire which destroyed the building and the goods insured therein originated in this addition.

HELD—The risk was increased, and the policy upon the goods rendered void by reason of the increased risk to the house, also increased the risk to the goods.

Kentucky Supreme Court—*Northwestern National Insurance Company vs. Davis et al.*

STATUTORY LIMITATIONS TAKE PRECEDENCE OF POLICY CONDITIONS.

This was an action on a policy of insurance. There was a judgment for defendant and plaintiff appealed.

HELD—The statutes of Iowa require that actions upon policies of insurance to be commenced not sooner than ninety days after notice of loss is given, is in the nature of a statutory limitation of such actions, and is not eliminated from a policy by a provision therein that the contract of insurance is wholly embraced in the policy and application of the assured. The receiving of proofs of loss, and claiming that the policy is void, is not a waiver of the statute prescribing the time within which actions shall be brought. Defendant is not estopped from claiming the benefit of said statute by the fact that the time for bringing the action as limited by the policy has expired, so that a new action cannot be brought. Affirmed.

Iowa Supreme Court—*Vore vs. Hawkeye Insurance Company.*

THE ARBITRATION CONDITION OF POLICY VOID.

This was an action upon an insurance policy for loss sustained by fire where it was stipulated in the policy that upon the written request of either party the loss shall be appraised and determined by disinterested and competent persons, one to be selected by the company, one by the insured, and in case of their failure to agree, by some third party selected by the appraisers, the award of any two of the three as to the damages to be conclusive as to the amount of loss.

HELD—It was not necessary that the petition should allege that an arbitration had been had on an award made in order to the maintenance of the action. In such case an action can be maintained without reference to the agreement to arbitrate, unless such arbitration had been actually had, and that would constitute matter to be pleaded as defense. A provision in a policy that no suit or action against the insurer "shall be sustained in any court of law or chancery until after an award shall have been obtained" by arbitration, "fixing the amount," due after loss, is void; the effect of such a provision would be to oust the courts of their legitimate jurisdiction. Judgment affirmed.

Nebraska Supreme Court—*German American Insurance Company vs. Etherton.*

FAILURE TO PAY PREMIUM NOTES VOIDS THE POLICY.

This was an action on a fire insurance policy for five years, commencing April 22, 1883. The premium was \$6.50 per year—the first \$6.50 being paid at the issuance of the policy; the remainder secured by the note of the insured, payable in installments of \$6.50 each, on the first day of May, in the years 1884, 1885, 1886 and 1887. The policy, and also the note, contained a condition to the effect that if default should be made in the payment of any of such installments, the liability of the company on the policy should cease, and remain suspended during the continuance of such default; and on payment of the installment as to which there should have been a default the liability should re-attach, and be in force only from the time of such

payment. The installments for 1884 and 1885 were paid. Those for 1886 and 1887 were not paid, nor did the insured offer to pay them until after the fire, which took place February 7, 1888. The lower court dismissed the case and plaintiff appealed.

HELD—The defendant relies on the default as a defense. To void its effect plaintiff claims that at the time of making the application for the policy he was informed by the agents of the company that he should have notice from it when each installment should become due, and that, relying on that and receiving no notice, he did not pay the installments, and he made default for no other reason, and on the trial he gave evidence in support of that claim. But, without determining whether this matter would in any event excuse the default, he in his testimony admitted that in November, 1887, he received notice of the default in the last two installments. He does not seem to have taken any steps in regard to this notice, except to deny to the company that he owed it anything. He gave no adequate reason for disregarding the notice. He could not expect the company to do more than call his attention to the fact, and it was then his business to ascertain if it was the fact. He also claims that after the fire the company waived the breach of condition, but the evidence in support of this claim was entirely insufficient. His evidence was that after the fire he went to one Dresbach, who appears to have been a local agent of the company, and told him of the fire, and Dresbach advised him to pay the installments, saying that he (Dresbach) thought he (plaintiff) would be all right with the company. Plaintiff thereupon sent an agent of his to one Anderson, an agent of the company, who had the note to collect for it, and his agent paid the note to Anderson. But the plaintiff's agent, being asked by Anderson, at the time of making the payment, if there had been any loss said not that he knew of. The money was remitted to the company, and by it returned to plaintiff. In this there was nothing to prove a waiver. Dresbach did not assume to determine that the company would or would not insist on the breach of condition, and Anderson received the money, not merely under a suppression of the truth, but under what was equivalent to an affirmative misrepresentation of the fact. And there was nothing in it that would serve as a basis to estop the company, whatever plaintiff might afterwards do in the way of preparing formal proofs of loss. No one can base an estoppel upon an act of the opposite party induced by his own fraud. The court below was right in dismissing the action. Order affirmed.

Minnesota Supreme Court—*McMartin vs. Continental Insurance Company of New York.*

LIABILITY OF SURETY ON AGENT'S BOND.

This was an action upon a bond given by the defendant as agent and his securities to secure the proper performance of his duties and obligations as an agent of plaintiff. The agent took a county warrant for a premium which the company refused to accept, as it was not bound to do so, and the agent pledged it. Afterward the company redeemed the warrant, collected it, and credited the agent with the balance realized; the policy meanwhile remaining in force.

HELD—The securities upon the bond of an insurance agent, given to secure the payment of moneys received by him, may be charged with liabilities and defaults of the agent on account of business done prior to the execution of the bond, in the same month, where the custom is not to consider premiums for policies issued in any one month as due until the first day of the following month. The sureties were liable for the amount paid to redeem the warrant.

Iowa Supreme Court—*British American Assurance Company vs. Niel et al.*

ONE WHO RECEIVES AND DELIVERS POLICIES IS AGENT OF THE COMPANY.

This action was based on a policy containing stipulations that the company should not be liable on the policy, or on any renewal thereof, until the premium was actually paid and the deposit made; that if the premium was paid to any person other than the duly authorized agent of the company, such payment should be at the sole risk of the insured, and that nothing less than a specific agreement, clearly expressed and endorsed on the policy, should be construed as a waiver of "any printed or written condition or restriction therein." The by-laws declared that agents should be appointed by the secretary, and furnished a certificate under seal, setting forth their powers; that without said certificate no person shall be authorized to act as agent for the company; that no insurance shall be considered binding until the cash premium shall have been actually paid to a duly authorized and commissioned agent. It appeared from the evidence that a local agent under verbal authority procured the policy, received

the premium and failed to make proper return to the company. A loss occurred and the company denied its liability on the ground that the agent was wholly without authority and that no condition of the specific contract had been waived.

HELD—That where the company had placed the policy in the hand of some person expressly for delivery, with instruction to receive the premiums, and the policy was delivered and the premium received accordingly, it cannot avail the company any defense, in case of loss because the premiums were not paid to a "duly authorized and commissioned agent." Notwithstanding the by-laws, the company actually authorized the agent to act for them in delivering the policy, in receiving payments thereon, and adopted a course of dealing with him wholly inconsistent with its provisions, they cannot now be set up to prevent a recovery upon the policy.

Pennsylvania Supreme Court—*Susquehanna Mutual Fire Insurance Company vs. Wilkin.*

CONVEYANCE WITHOUT CONSENT VOIDS THE POLICY.

The policy sued on in this case provided that the interests of the mortgagee should not be invalidated by any act or neglect of the mortgagor, and that in case of a transfer of the property without the written consent of the company endorsed on the policy, it should become void; also, that on payment of the loss to the mortgagee the company should be subrogated to the latter's rights to all securities held as collateral to the mortgage debt. The property was conveyed to the plaintiff, no written consent of the company being endorsed on the policy, and on a fire occurring, the plaintiff collected insurance on other policies held by the mortgagee, which he paid to the latter, and it was agreed that thereafter the mortgage should be held on the land only, and the policy was assigned to plaintiff.

HELD—By the conveyance without the consent of the company, the policy was avoided. The mortgagee, by agreeing to accept the land as security for the mortgage debt, lost his insurable interest in the insured property, and therefore the plaintiff took nothing by the assignment. Under the subrogation clause in the policy, whatever sum the company might pay the plaintiff it would be entitled to reimburse itself for out of the property of the plaintiff, and, to avoid circuity of actions, the law will hold this right of reimbursement, or subrogation, to be a defense against the enforcement of the policy itself.

New York Supreme Court—*Lett vs. Guardian Fire Insurance Company.*

EFFECT ON POLICY OF FORECLOSURE OF MORTGAGE.

Plaintiff was insured by defendant for \$2000 on her dwelling and \$500 on furniture for three years, from January 20, 1887. The house was destroyed in July following. In the trial court there was judgment for plaintiff and defendant appealed.

HELD—The question presented is whether there was a breach of any of the conditions of the policy on the observance of which by the plaintiff the liability of the defendant was dependent. It provided that "the passing or entry of a decree of foreclosure; or sale under deed of trust; or the taking into possession or custody of the property herein described, or any part thereof by virtue of legal process or judicial decree, or a dispute as to the title of the property, in any proceeding in law or equity, or the acquiring by a third party of an insurable interest in the property or any part thereof by virtue of a mortgage or deed of trust executed by the insured subsequent to date hereof; or a voluntary assignment of the property for the benefit of creditors; or proceedings under any bankrupt or insolvent law divesting the insured of the absolute right of controlling and disposing of the property, or any change whatever in title or right of possession—shall, each and all, cause the immediate termination of this policy, unless otherwise provided by special agreement, clearly expressed in the body of the policy." In April, 1881, the plaintiff made to James Wood a mortgage on the premises, to secure the payment of \$500 and interest in three years; and on December 1, 1886, a decree of foreclosure of this mortgage was entered. The contention on the part of the defense is that the entry of such decree came within the condition of the policy, and terminated it. This would have been the effect of the entry of such a decree after the date of the policy. But it was entered before that time, and the apparent import and fair construction of the provision of the policy in that respect are such as to embrace within it the entry of a decree subsequently and not prior to the making of the contract of insurance; and therefore the decree in question did not come within the terms of the condition. In April, 1886, William Hamilton recovered judgment

against plaintiff, and by virtue of an execution issued upon it, the premises were in October, 1886, sold, bid in by him, and a sheriff's certificate of sale to him made and filed. The sale was before the policy was issued, and at the time of the fire the period of redemption by the plaintiff had not expired. The plaintiff's title was not divested by the sale, at least so long as her right of redemption continued, and she had an insurable interest in the property when the policy was made, and at the time of the loss. Judgment affirmed.

New York Supreme Court—*Chamberlain vs. Insurance Company of North America.*

REFORMATION OF POLICY.

Action was brought for the reformation of an insurance policy, and plaintiff testified that it was agreed that the policy should be issued for one year, and that by a mistake the agent drew it up for sixty days instead. The premium paid by plaintiff was the amount usually paid for one year on the class of property insured and for the amount issued. The agent, however, testified that the agreement was identical with the written contract, though when the question was first raised he was not positive that a mistake had not been made, and explained that it might have occurred from the fact that at the time of writing the plaintiff's policy he was writing other policies for sixty days. Evidence was offered and objected to on certain grounds, but other grounds were presented for the first time in the appellate court. A witness, who has had two years' experience in the insurance business, was permitted to testify to the usual rate of insurance on property, such as covered by the plaintiff's policy.

HELD—The policy should be reformed in accordance with the agreement as testified to by plaintiff. It will not be permitted that an objection made for one cause in the trial court shall be changed and another one substituted in the appellate court. It was proper that the expert witness should be permitted to testify, although he had not seen the property insured.

New York Supreme Court—*Devereux et al. vs. Sun Fire Office.*

WHAT CONSTITUTES VACANCY.

In this case the policy under which suit was brought described the property as a dwelling house, when completed to be occupied as a private dwelling, and provided that if it should become vacant or unoccupied without written permission endorsed on the policy, the policy should be void and all insurance thereunder immediately cease. At the time of the negotiation the building was being erected. It was intended that the house should be leased on completion, and the company's agents were so informed. It was so leased two months after the policy was issued, but afterwards became vacant and unoccupied, remaining so fourteen days, during which time it was burned. The owner had knowledge of the vacancy, but did not procure permission from the company for it to remain so.

HELD—Under the conditions of the policy it became forfeited immediately when the vacancy occurred.

Alabama Supreme Court—*Royal Insurance Company vs. Lubelsky.*

PAYMENT TO ASSIGNEE.

In this case the insured B obtained policies upon certain property which he conveyed to his wife, and the policies were subsequently transferred to a creditor of B as collateral security for the amount due him. Afterward B became insolvent and joined with his wife in the execution of a deed of his property to his assignee in insolvency. The insurance company claimed that the policy was rendered invalid by such transfer of the property insured, but on a loss occurring paid to the creditor the amount of the policies, and took an assignment of the claim held by the latter against B and closed the account as to the policies on its books. It then assigned such claim to V, who filed the same against the estate of B and the claim was allowed by the assignee.

HELD—The transaction must be regarded as a payment of the policies, and of the claim to the extent thereof, and not merely as a purchase of the claim against B.

Connecticut Supreme Court—*Appeal of Brown.*

PROPORTIONATE LIABILITY OF COMPANY.

Suit was brought under a policy issued by the defendant insuring the plaintiff in the amount of \$2500. The policy contained a provision that the company would not be liable for

a greater proportion of any loss upon the property described in the policy than the sum insured bore to the whole sum thereon. Attached to the policy was a statement of the amount of insurance on the property, being the sum of \$90,000. At the time of the loss the amount was \$60,000, including the insurance in defendant company. The defendant claimed that the statement of the amount of insurance in the policy amounted to a covenant or warranty that that amount would be maintained, and that it was liable only in the proportion that \$2500 was to \$90,000.

HELD—A statement by a propertyholder to a company about to insure him, that he then had or intended to procure a given amount of insurance on the property to be covered by the policy, does not amount to a covenant that he would always maintain that amount of insurance. The defendant is liable for the proportion his policy bears to the amount of insurance in force at the time of loss.

United States Circuit Court—*Hoffman vs. Manufacturers Mutual Fire Insurance Company of Indianapolis.*

A MUTUAL MISTAKE ENTITLES TO REFORMATION OF THE POLICY.

The plaintiff was engaged in the elevator business and issued grain tickets to persons storing grain with him, agreeing to keep the grain insured and to include the cost of insurance with his charges. The policy was issued to the plaintiff on wheat stored in Union Elevator. The agent of the defendant was fully informed of all the facts. The policy provided that goods held on storage must be separately and specifically insured. Plaintiff paid the premium but never examined the policy, which was kept in a safe in the office of the agent.

HELD—On the case presented, the plaintiff was entitled to a reformation of the policy and when so reformed judgment should be entered thereon for plaintiff as prayed for in his complaint.

Minnesota Supreme Court—*Spurr et al. vs. Home Insurance Company; Same vs. Commercial Union Assurance Company.*

RAILROADS MAY INSURE PROPERTY HELD IN TRUST FOR TRANSPORTATION.

This was an action brought in the Circuit Court of the United States for the Eastern District of Arkansas by this Union Compress Company against the California Insurance Company to recover on a \$10,000 policy of insurance issued on cotton in bales in company's sheds at Little Rock, Ark. It appears from the company's answer in the original suit that the conditions of the policy had not been complied with, in that among other things, the greater portion of the cotton alleged to have been lost had been received after the issuing of the policy; that the cotton burned was first delivered by its owners to the plaintiff who gave receipts for it providing that the company should not be liable for its loss by fire; that the ownership of the cotton was changed without due notice to the company; that the policy did not apply to or cover cotton which was at the time of the loss covered in whole or in part by marine policies, and that, at the time of the fire 2172 bales of cotton, to the value of \$101,973, were covered by marine policies; that after the railroad had issued their bills of lading it was kept in a most negligent manner in a dangerous public place, without being covered or sprinkled, and but a few feet from a railroad track where locomotives of the Missouri Pacific and the St. Louis, Iron Mountain and Southern railroads, emitting sparks, were constantly passing, by which sparks the fire was kindled. This case was tried by jury and a verdict for \$9491 rendered plaintiff. The case was then brought to the United States Supreme Court on a writ of error by the insurance company.

HELD—The railroad companies had an insurable interest in the cotton, and to that extent were owners of the cotton, which was held in trust for them by the plaintiff. The policy covered all the cotton which was placed in the hands of the plaintiff by those companies. It was lawful for the plaintiff to insure in its own name goods held in trust by it, and it can recover for their entire value, holding the excess over its own interest in them for the benefit of those entrusting the funds to it. The exception of loss by fire contained in the receipts given by the plaintiff, and in the bills of lading given by the railroad companies did not force them from responsibilities of damages occasioned by their own negligence or of that of their employees. We are not disposed to review our decision that common carriers can insure themselves against loss proceeding from negligence of their own servants. The railroad company by acquiring the receipts of the plaintiff and issuing bills of lading for the cotton took

constructive possession of it; and the plaintiff retaining actual and physical possession of it did not lose any element of possession necessary to give it the right to effect insurance for its own benefit and as agent for the protection of the railroad companies. No reason can exist for a distinction between the construction of a provision avoiding a policy in case of marine insurance, and in case of further or additional fire insurance. In the latter case the provision is always construed as relating only to additional insurance on the same interest and effected by the same person, or in his interest. The contention of the defendant is that its policy is avoided by the taking out of a marine policy by the owner of the cotton without the knowledge or participation of the plaintiff or of the railroad companies, whether the marine insurance was effected before or after the fire insurance in favor of the railway company, and although the fire insurance was taken to protect the independent interests of the railroad companies we cannot admit the soundness of this view. The cases cited where a policy is avoided by the carrying on of a prohibited business, or of a prohibited article without the knowledge or consent of the insured owner of a building, are placed upon the ground that the possession of the tenant is the possession of its owner, and that the contract which he makes as to the use of the insured premises are in the nature of warranties and relate to matters over which he has legitimate control. It cannot be contended successfully that the condition in question here was intended by the plaintiff to subject the policy to forfeiture if any person who had a remote and independent insurable interest should take out a policy of marine insurance to protect that interest. As a bailer, under a policy taken out to cover property his own, or held by him in trust or on commission, may enforce the contract of insurance to the full value of the property destroyed, holding the proceeds primarily for his own benefit, and the balance for that of his bailer, the right of action accrued on the occurring of the loss.

United States Supreme Court—*California Insurance Company, plaintiff in error vs. The Union Compress Company.*

TAXATION OF UNITED STATES BONDS.

The plaintiff in error, the Home Insurance Company of New York, is a corporation created under the laws of that State. Its capital stock during the year 1881 was three millions of dollars divided into thirty thousand shares of the par value of one hundred dollars each, all fully paid. In the months of January and July of that year a dividend of \$150,000 was declared by the company, making together ten per cent upon the par value of its capital stock. A portion of that capital stock was invested in bonds of the United States, amounting when the dividend was declared in July, 1881, and also on the first of November of that year to \$1,940,000.

By an act of the Legislature of New York, passed May 26, 1881 (chap. 361), amending a previous act providing for the taxation of certain corporations, joint-stock companies and associations, it was declared that every corporation, joint-stock company or association, then or thereafter incorporated under any law of the State, or of any other State or country, and doing business in the State, with certain designated exceptions not material in this case, should be subject to a tax upon "its corporate franchise or business," to be computed as follows: If its dividend or dividends made or declared during the year ending the first day of November amount to six per cent or more upon the par value of its capital stock, then the tax to be at the rate of one-quarter mill upon the capital stock for each one per cent of the dividends. A less rate is provided where there is no dividend or a dividend less than six per cent, and also where the corporation, company or association has more than one kind of capital stock—as, for instance, common and preferred stock—and upon one of them there is a dividend amounting to six or more per cent and upon the other there is no dividend or a dividend of less than six per cent. The purpose of the act is to fix the amount of the tax each year upon the franchise or business of the corporation by the extent of dividends upon its capital stock, or, where there are no dividends, according to the actual value of the capital stock during the year. We are concerned in this case, however, only with the tax where the amount is computed by the extent of the dividends.

The tax payable by the Home Insurance Company, estimated according to its dividends under the above law of the State, aggregated \$7,500. The company resisted its payment, assuming that the tax was in fact levied upon the capital stock of the company and contending that there should be deducted from it a sum bearing the same ratio thereto that the amount

invested in bonds of the United States bears to its capital stock, and that the law requiring a tax without such reduction is unconstitutional and void. An agreed case was accordingly made up embodying a statement of the facts between the company and the Attorney-General of New York, representing the State, and submitted to the Supreme Court of the State. That court gave judgment in favor of the State against the company, which on appeal to the Court of Appeals of the State was affirmed. (92 N. Y., 328.) The judgment of the latter court having been remitted to the Supreme Court and entered there the case is brought to this court for review on writ of error.

Mr. Justice Field, after stating the case, delivered the opinion of the court.

The contention of the plaintiff in error is that the tax in question was levied upon its capital stock and therefore invalid, so far as the bonds of the United States constitute a part of that stock. If that contention were well founded there would be no question as to the invalidity of the tax. That the bonds or obligations of the United States for the payment of money cannot be subject of taxation by a State is familiar law settled by numerous adjudications of this court. It is a tax upon the exercise of the power of Congress to borrow money; a tax which if permitted could be limited in amount only by the discretion of the State, and might therefore be carried to an extent impairing if not destructive of the efficiency of the power to the serious detriment of the general government. As held in *McCulloch vs. Maryland* (4 Wheaton, 436), the States have no power by taxation to impede, burden or in any manner control the operation of the constitution and laws enacted by Congress to carry into execution the powers vested in the general government, a doctrine which applied in *Weston vs. City Council of Charleston* (2 Peters, 449) annulled a tax levied by the authority of a law of South Carolina on stock issued for loans to the United States.

Nor can this inhibition upon the States be evaded by any change in the mode or form of the taxation provided the same result is effected—that is, an impediment is thereby interposed to the exercise of a power of the United States. That which cannot be accomplished directly cannot be accomplished indirectly. Through all such attempts the court will look to the end sought to be reached, and if that would trench upon a power of the government the law creating it will be set aside or its enforcement restrained. Thus in *Henderson vs. Mayor of New York* (92 U. S., 259, 268), a statute of New York provided that the master or owner of any vessel bringing passengers from foreign ports into the port of New York should give a bond in the sum of \$300 for each passenger landed against his becoming a public charge for four years thereafter, or pay within twenty-four hours thereafter \$150 for each passenger, and that if neither bond was given nor payment made a penalty of \$500 for such failure would be incurred, which should be a lien upon the vessel. It was contended that the object of the requirement was not taxation, but protection against pauperism, and therefore valid as within the police power. But the court said that in whatever language the statute may be framed its purpose must be determined by its reasonable and natural effect, and judged by that criterion the tax was either on the owners of the vessel for the right of landing passengers or upon the passengers themselves, and that therefore the statute was a regulation of commerce and void.

To the same purport is the familiar case of *Brown vs. Maryland* (12 Whea., 419), so often cited in this court, where it was contended that a license tax required of an importer to sell his goods while held in bulk as imported was a tax only upon his occupation. But the court observed that this was only changing the form without varying the substance of the tax, adding that "it is treating a prohibition which is general as if it were confined to a particular mode of doing the forbidden thing. All must perceive that a tax on the sale of an article imported only for sale is a tax on the article itself."

Looking now at the tax in this case upon the plaintiff in error we are unable to perceive that it falls within the doctrines of any of the cases cited, to which we fully assent, not doubting their correctness in any particular. It is not a tax in terms upon the capital stock of the company nor upon any bonds of the United States composing a part of that stock. The statute designates it a tax upon the "corporate franchise or business" of the company, and reference is only made to its capital stock and dividends for the purpose of determining the amount of the tax to be exacted each year.

By the term "corporate franchise or business," as here used, we understand is meant (not referring to corporations sole, which are not usually created for commercial business) the right or privilege given by the State to two or more persons of being a corporation, that is, of

doing business in a corporate capacity and not the privilege or franchise which, when incorporated, the company may exercise. The right or privilege to be a corporation, or to do business as such body, is one generally deemed of value to the corporators, or it would not be sought in such numbers as at present. It is a right or privilege by which several individuals may unite themselves under a common name and act as a single person with a succession of members without dissolution or suspension of business and with a limited individual liability. The granting of such right or privilege rests entirely in the discretion of the State, and, of course, when granted, may be accompanied with such conditions as its legislature may judge most befitting to its interests and policy. It may require as a condition of the grant of the franchise, and also of its continued exercise, that the corporation pay a specific sum to the State each year or month, or a specific portion of its gross receipts, or of the profits of its business, or a sum to be ascertained in any convenient mode which it may prescribe. The validity of the tax can in no way be dependent upon the mode which the State may deem fit to adopt in fixing the amount for any year which it will exact for the franchise. No constitutional objection lies in the way of a legislative body prescribing any mode of measurement to determine the amount it will charge for the privileges it bestows. It may well seek in this way to increase its revenue to the extent to which it has been cut off by exemption of other property from taxation. As its revenues to meet its expenses are lessened in one direction it may look to any other property as sources of revenue which is not exempted from taxation. Its action in this matter is not the subject of judicial inquiry in a federal tribunal. As was said in Delaware Railroad Tax Case (18 Wallace, 206, 231): "The State may impose taxes upon the corporation as an entity existing under its laws as well as upon the capital stock of the corporation or its separate corporate property. And the manner in which its value shall be assessed and the rate of taxation, however arbitrary or capricious, are mere matters of legislative discretion. It is not for us to suggest in any case that a more equitable mode of assessment or rate of taxation might be adopted than the one prescribed by the legislature of the State; our only concern is with the validity of the tax; all else lies beyond the domain of our jurisdiction." It is true, as said by this court in *California vs. Pacific Railroad Company* (127 U. S., 41), that the taxation of a corporate franchise has no limitation but the discretion of the taxing power, and its value is not measured like that of property, but may be fixed at any sum that the legislature may choose; it may be arbitrarily laid without any valuation put upon the franchise. If any hardship or oppression is created by the amount exacted the remedy must be sought by appeal to the legislature of the State; it cannot be furnished by the federal tribunals.

The tax in the present case would not be affected if the nature of the property in which the whole capital stock is invested were changed and put into real property or bonds of New York or of other States. From the very nature of the tax, being laid upon a franchise given by the State, and revocable at pleasure, it cannot be affected in any way by the character of the property in which its capital stock is invested. The power of the State over the corporate franchise and the conditions upon which it shall be exercised is as ample and plenary in the one case as in the other.

In some States the franchise and privileges of a corporation are declared to be personal property. Such was the case in New York with reference to the privileges and franchises of savings banks. They were so declared by a law passed in 1866, and made liable to taxation to an amount not exceeding the gross sum of the surplus earned and in possession of the banks. The law was sustained by the Court of Appeals of the State in *Monroe Savings Bank v. City of Rochester* (37 N. Y., 365, 367), although the bank had a portion of its property invested in United States bonds. In its opinion the court observed that in declaring the privileges and franchises of a bank to be personal property the legislature adopted no novel principle of taxation that the powers and privileges which constitute the franchises of a corporation were in a just sense property, quite distinct and separate from the property which, by the use of such franchises, the corporation might acquire; that they might be subject to taxation if the legislature saw fit so to enact; that such taxation being within the power of the legislature, it might prescribe a rule or test of their value; that all franchises were not of equal value, their value depending, in some instances, upon the nature of the business authorized, and the extent to which permission was given to multiply capital for its prosecution; and that the tax being upon the franchises and privileges, it was unimportant in what manner the property of the corporation was invested. And the court added: "It is true that where a State tax is laid upon the

property of an individual or corporation, so much of their property as is invested in United States bonds is to be treated, for the purposes of assessment, as if it did not exist. But this rule can have no application to an assessment upon a franchise, where a reference to the property is made only to ascertain the value of the thing assessed." And again: "It must be regarded as a sound doctrine that the State, in granting a franchise to a corporation, may limit the powers to be exercised under it and annex conditions to its enjoyment, and make it contribute to the revenues of the State. If the grantee accepts the boon it must bear the burden."

This doctrine of the taxability of the franchises of a corporation without reference to the character of the property in which its capital stock or its deposits are invested is sustained by the judgments in *Society for Savings vs. Coite*, and *Provident Institution vs. Massachusetts*, which were before this court at the December term, 1867. (6 Wallace, 594, 611.) In the first of these cases it appeared that a law of Connecticut of 1863, provided that savings banks in that State should make an annual return to the controller of public accounts "of the total amounts of all deposits in them, respectively on the first day of July in each successive year," and should pay to the treasurer of the State a sum equal to three-fourths of one per cent on the total amount of deposits in such banks on those days, and that the tax should be in lieu of all other taxes upon the banks or their deposits. On the first day of July, 1863, the Society for Savings, one of the banks, had invested over \$500,000 of its deposits in securities of the United States which were declared by Congress to be exempted from taxation by State authority, whether held by individuals, corporations or associations. (12 statute, 346.) Upon the amount of its deposits thus invested the society refused to pay the sum equal to the prescribed percentage. In a suit brought by the treasurer of the State to recover the tax, the payment of which was thus refused, the Supreme Court of Connecticut held that the tax was not on property but on the corporation as such. The case being brought here, the judgment was affirmed, this court holding that the tax was on the franchise of the corporation and not upon its property, and the fact that a part of the deposits was invested in securities of the United States did not exempt the society from the tax. Said the court: "Nothing can be more certain in legal decision than that the privileges and franchises of a private corporation, and all trades and avocations by which the citizens acquire a livelihood may be taxed by a State for the support of the State government. Authority to that effect resides in the State independent of the federal government, and is wholly unaffected by the fact that the corporation or individual has or has not made investment in federal securities."

It was contended in that case that the deposits in the bank were subjected to taxation from the fact that the extent of the tax was determined by their amount. But the court said: "Reference is evidently made to the total amount of deposits on the day named, not as the subject-matter for assessment, but as the basis for computing the tax required to be paid by the corporation defendants. They enjoy important privileges, and it is just that they should contribute to the public burdens. The views of the defendants are, that the sums required to be paid to the Treasury of the State is a tax on the assets of the institution, but there is not a word in the provision which gives any satisfactory support to that proposition. Different modes of taxation are adopted in different States, and even in the same State at different periods of their history. Fixed sums are in some instances required to be annually paid into the Treasury of the State, and in others a prescribed percentage is levied on the stock, assets or property owned or held by the corporation, while in others the sum required to be paid is left indefinite, to be ascertained in some mode by the amount of business which the corporation shall transact within a defined period. Experience shows that the latter mode is better calculated to effect justice among the corporations required to contribute to the public burdens than any other which has been devised, as its tendency is to graduate the required contribution to the value of the privileges granted and to the extent of their exercise. Existence of the power is beyond doubt, and it rests in the discretion of the legislature whether they will levy a fixed sum, or if not, to determine in what manner the amount shall be ascertained" (p. 608).

In the second case mentioned, *Provident Institution vs. Massachusetts*, it appeared that the statute of Massachusetts, passed in 1862, levying taxes on certain insurance companies and depositors in saving banks, provided that every institution for savings incorporated under its laws should pay to the commonwealth a tax of one-half of one per cent per annum on the amount of its deposits, to be assessed one-half of said annual tax on the average amount of its deposits for the six months preceding the first day of May, and the other half on the average

amount of its deposits for the six months preceding the first day of November. The Provident Institution for Savings in that State was authorized to invest its deposits in securities of the United States. Its average amount of deposits for the six months preceding the first day of May, 1865, was over eight millions, of which over one million was invested in such securities. It paid all the taxes demanded except on the portion which was thus invested. Upon that it declined to pay the tax. In a suit brought by the commonwealth to recover the same, the supreme judicial court of the State held that the tax was one on the franchise of the company and not on property, and therefore gave judgment for the commonwealth. The case being brought here, the judgment was affirmed. In deciding the case, the court said, referring to a section of the statute under which the tax was levied: "Deposits, as the word is employed in that section, are the sums received by the institution from depositors, without regard to the nature of the funds. They are not capital stock in any sense, nor are they even investments, as the word is there used, which simply means the sums received wholly irrespective of the disposition made of the same or their market value." And speaking of the difference existing between taxes upon franchise and taxes upon property, it said: "Franchise taxes are levied directly by an act of the legislature, and the corporations are required to pay the amount into the State Treasury. They differ from property taxes as levied for State and municipal purpose in the basis prescribed for computing the amount in the manner of assessment and in the mode of collection;" and again, "Comparative valuation in assessing property taxes is the basis of computation in ascertaining the amount to be contributed by an individual, but the amount of a franchise tax depends upon the business transacted by the corporation and the extent to which they have exercised the privileges granted in their charter." (pp. 631, 632.)

The court also referred to a decision made by the Supreme Court of the State to the effect that the assessment imposed was to be regarded as an excise or duty on the privilege or franchise of the corporation, not as a tax on the moneys in its hands belonging to the depositors. It was the corporation, it said, that was to make the payment, and if it failed to do so it was liable not only to an action for the amount of the tax, but might also be enjoined from the future exercise of its franchise until all taxes should be fully paid. *Commonwealth vs. Savings Bank*, 5 Allen, 431.

And the court held that the valuation of the property had nothing to do with determining the amount of the tax, but that the amount depended on the average amount of deposits for the six months preceding the respective days named, and that there was no necessary relation between the average amount of the deposits and the amount of property owned by the institution, and not being a property tax it was to be considered as a franchise tax laid upon the corporation for the privileges conferred by its charter, which by all the authorities it was competent for the State to tax irrespective of what disposition the institution had made of its funds or in what manner they had been invested.

In *Hamilton County vs. Massachusetts* (6 Wall, 632), a statute of Massachusetts which required corporations having a capital stock divided into shares to pay a tax of a certain percentage upon the excess of the market value of such stock over the value of its real estate and machinery, was sustained as a statute, imposing a franchise tax, notwithstanding a portion of the property which went to make the excess of the market value consisted of securities of the United States, this court, however, placing its decision upon the fact that under the provisions of the State constitution and the practice under it the tax had been so considered by the highest tribunal of the State. This decision goes much further than is necessary to sustain the judgment of the Court of Appeals of New York in the present case.

In this case we hold, as well upon general principles as upon the authority of the first two cases cited from 6th Wallace, that the tax for which the suit is brought is not a tax on the capital stock or property of the company but upon its corporate franchise, and is not therefore subject to the objection stated by counsel, because a portion of its capital stock is invested in securities of the United States.

Nor is the objection tenable that the statute, in imposing such tax, conflicts with the last clause of the first section of the fourteenth amendment of the constitution of the United States, declaring that no State shall deprive any person within its jurisdiction of the equal protection of the laws. It is conceded that corporations are persons within the meaning of this amendment. It has been so decided by this court. (*Pembina Cons. Silver Co. vs. Pennsylvania*, 125 U. S. 181.) But the amendment does not prevent the classification of property for taxa-

tion—subjecting one kind of property to one rate of taxation and another kind of property to a different rate—distinguishing between franchises, licenses and privileges, and visible and tangible property and between real and personal property. Nor does the amendment prohibit special legislation. Indeed the greater part of all legislation is special, either in the extent to which it operates or the objects sought to be obtained by it. And when such legislation applies to artificial bodies, it is not open to objection if all such bodies are treated alike under similar circumstances and conditions in respect to the privileges conferred upon them and the liabilities to which they are subjected. Under the statute of New York all corporations, joint stock companies and associations of the same kind are subjected to the same tax. There is the same rule applicable to all under the same conditions in determining the rate of taxation. There is no discrimination in favor of one against another of the same class. (See *Barbier vs. Conolly*, 113 U. S. 32; *Soon Hing vs. Crowley*, 1b. 709; *Missouri Pacific R. R. Co. vs. Hume*, 115 U. S. 523; *Missouri R. R. Co. vs. Mackey*, 127 U. S. 209; *Minneapolis R. R. Co. vs. Beckwith*, 129 U. S. 32.) Judgment affirmed.

Mr. Justice Miller: Mr. Justice Harlan and myself dissent from the judgment in this case because we think that notwithstanding the peculiar language of the statute of New York the tax in controversy is in effect a tax upon bonds of the United States held by the insurance company.

United States Supreme Court, April 7, 1890—*The Home Insurance Company, plaintiff in error vs. The People of the State of New York*.

CAPITAL IN A BUSINESS MAN.

Every business man possesses a capital in himself. His monied value may be estimated by hundreds or thousands of dollars per annum, according to his business tact or ability. All that he earns, over and above the interest upon the sum employed in his business, is interest derived from his *capitalised self*. If he be worth \$10,000 in money, and makes that much a year, as many do, his BUSINESS TALENTS yield him \$9400 of the \$10,000, and his cash capital yields the remaining \$600. The MAN then, is, in a business point of view, worth nearly sixteen times as much as his MONEY, and it is all-important that a portion, at least, of this actual cash value of himself be secured from loss, the constant risk of which is involved in the uncertainty of life. It is for him, as a business man, to decide whether it be for his interest to continue to carry this risk himself, or transfer it to those willing to assume it.

Few allow their property to remain unprotected by a policy of insurance against fire, yet many, for want of due reflection upon the subject, are without policies on their lives.

Professional men are, with but few exceptions, supported by their profession, and are, therefore, especially interested in life insurance. Their capital is their professional talent, which of course dies with them, but the benefits of which may be perpetuated to their families by insurance.

A successful business man may say that he is so prosperous in his business that he does not need an insurance on his life. The more prosperous he is, the better able is he to insure, and the more advisable is it that he should do so.

Persons of moderate means, though unable to insure for a large sum now, can take out policies for a small amount, and add to it when able to do so. This company offers them peculiar advantages, in as much as they can *each year* use their dividends and *thus reduce their premiums*. It is the best savings fund or bank in which they can place their money, especially as they may pay their premiums half yearly or quarterly.

Feeble health may at any moment unfit a man for business; but he can guard against this contingency by an endowment policy PAYABLE TO HIMSELF at a specified time, and which, should he not live so long, will be paid to his family.

INSURANCE IN CANADA.

WHAT IS REQUIRED OF COMPANIES DOING BUSINESS IN THE DOMINION.

THE several acts passed by the Canadian Parliament, relating to insurance in the Dominion, were amended and consolidated by a general statute, passed during the session of 1886, which contains all the existing provisions of the regulation and supervision of insurance companies carrying on business in Canada. Under this act no company can do business in the Dominion without obtaining a license from the Minister of Finance, or being registered in the office of the Superintendent of Insurance. In order to obtain such a license, every company must deposit with the Receiver General as follows:

Canadian Fire and Inland Marine Companies.....	\$50,000	Canadian Inland Marine Companies.....	\$50,000
Foreign Fire and Inland Marine Companies.....	100,000	Foreign Inland Marine Companies.....	100,000
Canadian Fire Companies.....	50,000	Life Insurance Companies, both Canadian and Foreign.....	50,000
Foreign Fire Companies.....	100,000		

It is provided, however, that in case of any such company incorporated elsewhere than within Canada, when its liabilities to policyholders in Canada, including the full reserve or reinsurance value of all its Canadian policies, exceed its assets in Canada, then the company will be required to make good the deficit by adding to its deposits with the Receiver General, or by creating a special trust in the hands of two or more persons resident in Canada.

Any company incorporated in Canada, and transacting business of life assurance upon the co-operative or assessment plan, may, at the discretion of the Minister of Finance, be exempted from making a deposit with the Receiver General. Such company must register its corporate name in the office of the Superintendent of Insurance and conform to other requirements of the act.

Companies doing ocean marine business exclusively, are not subject to the act.

Companies other than life, fire or marine, in order to do business in Canada are required to obtain a license or permission from the Minister of Finance, and the Treasury Board must in each case decide what shall be the amount of deposit.

Every company is required to file in the office of the Minister of Finance, annually, at the beginning of each year, a sworn statement of its condition and affairs.

The policy liabilities of life assurance companies doing business in Canada are to be valued according to the Table of Mortality of the Institute of Actuaries, H. M., at $4\frac{1}{2}$ per cent interest.

Toward defraying the expenses of the office of the Superintendent of Insurance, a sum, which from fire and marine companies must not exceed eight thousand dollars, shall be annually contributed by the companies, which sum shall be assessed *pro rata* upon the gross premiums received by each during the preceding year, such sum to be paid upon the issue of the annual license.

CANADIAN FIRE INSURANCE BUSINESS IN 21 YEARS.

The following is a summary of premiums received and losses paid for fire insurance in Canada by all companies, from January 1, 1869, to January 1, 1890:

NAME OF COMPANY.	Premiums Received.	Losses Paid.
CANADIAN COMPANIES:		
British America.....	\$3,522,817	\$2,121,870
Canada Agricultural.....	454,896	290,101
Canada Fire and Marine.....	881,333	698,133
Citizens.....	2,441,924	1,923,747
Dominion.....	190,242	148,255
Eastern.....	27,938	200
London Mutual Fire.....	2,017,480	1,477,622
National.....	284,026	287,732
Ottawa Agricultural.....	194,861	108,164
Provincial.....	1,434,350	957,146
Quebec.....	1,550,791	1,495,544
Royal Canadian.....	3,175,099	2,715,195
Sovereign.....	1,055,404	736,216
Stadacona.....	490,488	773,695
Western.....	5,839,903	3,369,156
BRITISH COMPANIES:		
Atlas.....	135,282	75,532
Caledonian.....	663,136	420,474
City of London.....	1,246,416	782,701
Commercial Union.....	4,145,589	3,045,082
Employers Liability.....	148,503	71,297

* These companies have ceased doing new business in Canada.

Licensed to do business in Canada upon the assessment plan, July, 1985.

CHANGING COMPANIES.

Many persons allow their policies to lapse because they are told they can do better in some other company. An agent comes along and finds them insured. He takes from his pocket some tables of statistics, showing that the company which he represents is far better than the one which the policyholder has chosen. There may be one or two particulars in which his statement is true ; but his company may contain defects which more than counterbalance these advantages. All his solicitation is directed to make the policyholder abandon his chosen company for another. In too many cases this practice succeeds. The habit which some agents have of persuading persons to let their policies lapse, for the purpose of getting them to insure in another company, is one of the greatest evils of life insurance at the present day ; it is the cause of more hard feeling and distrust than anything else. A man who cannot build up a business of his own without tearing to pieces the foundation which another agent has laid is not fit to be trusted. In a policyholder allows himself to be transferred from one company to another, at the will of unscrupulous agents, he very soon acquires a general

disgust for life insurance, and, in all probability, will die without having a single policy in force. Every change he makes costs him money. He cannot be insured a second time so cheaply as he was at first. Avoid such agents. Remember that "three moves are as bad as a fire." If you are insured in a *good* company, stick to it. If you are insured in *any* company, do not leave it till you are perfectly convinced that it is unsound, or that it is unworthy of confidence, and, in making your decision, do not rely implicitly upon the representations of the agent of a rival company. When an agent comes to you and asks you what company you are insured in, and, having ascertained its name, immediately begins to stigmatize your company as unworthy of confidence and unsound, and offers to insure you in another, where, he says, you will obtain much greater benefits provided you will let your policy lapse, don't listen to him for one moment; set him down as an insurance vampire. But if you are compelled to hear him through, write to your company, or its general agency for your State, and inquire as to the truth of his statements. Hear both sides and do not allow yourself to be transferred from one company to another.

COMPANIES REGISTERED UNDER THE INSURANCE ACT.

The following companies are registered under the Insurance act, and are permitted to transact the business of life insurance in Canada upon the assessment plan :

NAME OF COMPANY.	CHIEF AGENT TO RECEIVE PROCESS.	NAME OF COMPANY.	CHIEF AGENT TO RECEIVE PROCESS.
Canadian Mutual Aid Association.....	W. Pemberton Page, Secretary Toronto.	Mutual Relief Society of Nova Scotia.....	Thomas B. Crosby, Chief Agent, Yarmouth, N. S.
Commercial Travelers Mutual Benefit Society.....	N. G. H. Lowe, Chief Agent, Toronto.	Provincial Provident Institution.....	E. S. Miller, Secretary, St. Thomas, Ont.

STATISTICS OF FOREIGN COMPANIES.

The greater portion of the following statistics relative to foreign insurance companies, showing their location, insurance transactions, financial standing and business managers, we compile from that very valuable English publication, the Post-Magazine Almanack. Persons desiring information regarding any English company more in detail than is here given, more especially as to the personnel of the companies, are referred to that publication. The Table of Life Insurance in Great Britain we condense from The Review.

DIRECTORY OF BRITISH INSURANCE COMPANIES.

The life assurance offices marked F. S. in the list are constituted as friendly societies, and therefore not under the operation of the life assurance companies' act, 1870 to 1872.

We give you good advice when we say to you: "Having once assured in a sound company let no one induce you to drop your policy." Abide by this advice and you will have no reason to regret it; and we would further recommend you to view with marked suspicion any person who seeks to induce you to act contrary to this injunction. Do not disregard or lightly esteem the vast interest you acquire in a life assurance policy the moment you have paid good money for it; an interest that neither you nor your family can ignore; an interest superior to any and every form of surrender value.—*Ingleside.*

Trustee, Assets & Investments	Fid., Invest. and Gen.	Nov. 23	£1,000,000 in £10 shares.

COMPANIES OF UNCERTAIN ADDRESS OR OF DOUBTFUL EXISTENCE.

With respect to the companies mentioned in the following list the usual inquiries have been made, but no further information respecting them is forthcoming than that given below. The particulars contained in the last two columns have, in most instances, been obtained by search at the companies' registration office. The law requires that every company shall, once a year, make a return to the Registrar of Joint Stock Companies of the shareholders, with a summary of the capital and shares. It will be observed that several of the companies in the list are considerably in arrear in this respect, and they are, consequently, liable to penalties for non-compliance with the law. It is well known that negligence to comply with legal requirements generally goes hand in hand with want of capital, reckless and fraudulent trading, and extravagance in management. It will be well, therefore, for persons invited to transact business with any of the following offices, before paying a premium, to make inquiry, and to satisfy themselves that such offices are worthy of confidence. — *Post-Magazine Almanack.*

Date of Organization.	NAME OF COMPANY.	Character of Business.	Capital Stated to be Paid up.	Remarks.

ACTUARIAL SOCIETIES OF GREAT BRITAIN.

INSTITUTE OF ACTUARIES.

STAPLE INN HALL, HOLBORN, W. C.

President, William Sutton, M. A.; vice-presidents, Marcus Nathan Adler, M. A.; Alexander John Finlaison, C. B.; Augustus Hendriks, Thomas Emley Young, B. A.; treasurer, George Humphreys, M. A.; honorary secretaries, Thos. Gillespie, C. Browne, George S. Crisford; auditors, Arthur B. Woods, Wm. G. Turpin and James P. Longstaff; assistant secretary, J. Clifford Hopkinson, B. A. Note—Persons intending to study should apply to the assistant secretary. Honorary members, Professor Sylvester, M. A., F. R. S., and W. S. B. Woolhouse, F. R. A. S., F. S. S.

FACULTY OF ACTUARIES IN SCOTLAND.

Constituted 1856. Incorporated by Royal Charter 1868. President, J. M. McCandlish; vice-president, Andrew H. Turnbull; council, James Meikle, T. B. Sprague, D. J. Surenne, Spencer C. Thomson,

Hugh Blair, W. R. Macdonald, J. J. M'Lauchlan, Archibald Hewat, G. M. Low, Thomas Marr, James Sorley, William Evans; also *ex-officio*, the president, vice-president, honorary secretary and honorary treasurer; honorary secretary, David Deuchar; honorary treasurer, J. Turnbull Smith; secretary, James Chatham, 26 St. Andrew Square, Edinburgh; librarian, George Cameron.

THE ACTUARIES' CLUB.

Established November 4, 1848. Meetings, first Monday of each month, at the offices of the members of the club, in rotation. The chairman at each meeting is the actuary of the company in whose office the meeting is held. The club is limited to twenty members, exclusive of those re-elected on their retirement from the active duties of their profession. Treasurer, J. G. Priestley, 63 Threadneedle street, E. C.

THE LIFE OFFICES' ASSOCIATION.

Established March 18, 1889. Object—The advancement of the business and the protection of the interests of life assurance, so far as can be secured by consultation and combined action upon questions appertaining to the interests common to life assurance companies. The association is open to companies having their head offices in Great Britain or Ireland, and making returns under the life assurance companies' acts. The association has regular fixed dates for meetings throughout the year, and is in practical working order. Chairman, Benjamin Newbatt; honorary secretary, T. E. Young.

ROYAL STATISTICAL SOCIETY.

9 Adelphi Terrace, Strand, W. C., London. Honorary president, His Royal Highness the Prince of Wales, K. G. Council and officers, 1889-90—Honorary vice-presidents (having filled the office of president), the Right Hon. the Earl of Derby, K. G., D. C. L.; James Heywood, Esq., M. A., F. R. S., D. L., J. P., etc.; the Right Hon. George Shaw-Lefevre, M. P.; the Right Hon. Lord Brassey, K. C. B.; Sir James Caird, K. C. B., F. R. S.; Robert Giffen, Esq., LL.D.; Sir Rawson W. Rawson, K. C. M. G., C. B.; the Right Hon. G. J. Goschen, M. P.; president, T. Graham Balfour, Esq., M. D., F. R. S., F. R. C. P.; vice-presidents, Charles Booth, Esq., Frederick Hendriks, Esq., F. I. A.; Sir John Lubbock, Bart., M. P., F. R. S.; Frederick John Mouat, Esq., M. D., LL.D.; trustees, James Heywood, Esq., F. R. S.; Sir John Lubbock, Bart., M. P., F. R. S.; Sir James Caird, K. C. B., F. R. S.; treasurer, Richard Biddulph Martin, Esq., M. A.; secretaries, John Biddulph Martin, M. A.; Alfred Edmund Bateman, Major, P. G. Craigie; foreign secretary, John Biddulph Martin, M. A.; assistant secretary and librarian, Joseph Whittall; bankers, Messrs. Drummond & Co., Charing Cross, S. W., London.

ACTUARIAL SOCIETY OF EDINBURGH.

Honorable president, J. Turnbull Smith; vice-presidents, H. R. Cockburn, W. G. Walton; committee of management, J. A. Forbes, Robert Murrie, J. J. M'Lauchlan, James Wilkie, Jun., W. Smith Nichol; treasurer, John Nicoll; secretary, George C. Stenhouse.

INSURANCE AND ACTUARIAL SOCIETY OF GLASGOW.

Objects—(1.) The promotion of the study of the principles of fire and life assurance, and of assurance against other contingencies. (2.) The consideration of all subjects to which the doctrine of probabilities may be applied, as well as the best methods of collecting and applying statistics. (3.) The consideration of questions bearing on social science or political economy; and (4.) The formation of a library of professional works for the use of the members. President, Thomas Marr, manager; vice-presidents, F. F. Elderton, manager; W. W. W. Reid; T. Wilkinson Watson, manager; treasurer, Thomas Watson, 114 West George street; secretary, Wm. Coutts Fyfe, 24 St. Vincent place.

INSURANCE INSTITUTE OF BIRMINGHAM.

Objects—(1.) The reading of papers and delivering of lectures by members or experts who are not members upon subjects connected with insurance business generally. (2.) The discussion of all questions relating to such business. (3.) The promotion of social intercourse amongst members of the profession in Birmingham and district. Ordinary general meetings are held on the last Friday in each month, from October to March, both inclusive. The annual general meeting is held at the beginning of each session. President, S. P. Colman; vice-president, G. J. Lloyd; treasurer, R. Dolphin Paul; honorable secretary, J. H. Boocock.

INSURANCE INSTITUTE OF MANCHESTER.

100 King street, Manchester. President, G. J. Johnson; vice-presidents, R. A. Kennedy, J. B. Northcott, and C. Stevenson; honorary secretary and treasurer, Thomas A. Bentley.

JUNIOR INSURANCE INSTITUTE OF MANCHESTER.

98 King street, Manchester. Objects—To encourage the delivery of essays and lectures upon subjects connected with insurance, and discussion thereon; of organizing visits of inspection, and of promoting social intercourse amongst those connected with insurance companies. President, C. F. Brennan; vice-presidents, T. A. Bentley, M. Irving, Sydney Jewsbury, J. B. Northcott, Henry Plummer, C. Povah; honorable treasurer, Thomas Brown; honorable secretary, J. H. Wilson.

INSURANCE INSTITUTE OF YORKSHIRE.

Leeds. President, J. A. Cunninghame, York; vice-presidents, J. F. Mackillop, H. Pocklington, T. S. Riley; honorable treasurer, J. Watson; honorable secretary, D. R. Blair.

INSURANCE INSTITUTE OF IRELAND.

17 St. Andrews street, Dublin. Objects—(1.) The promotion of the study of principles of fire and life assurance, and of assurance against other contingencies. (2.) The consideration of all subjects to which the doctrine of probabilities may be applied, as well as the best methods of collecting and applying statistics. (3.) An organization for any purpose necessary for the requirements of the profession. (4.) The promotion of a good understanding amongst the members of the insurance profession in Ireland. President, Joseph E. Purser, J. P.; vice-presidents, John Antonio, E. Tenison Collins, Harold Engelbach, F. I. A.; T. Goodwillie, A. D. Kennedy, J. S. Kincaid, Bernard H. O'Reilly, S. G. Robinson; honorary secretary and treasurer, Trevor N. Smith.

* Includes losses. † Includes losses.

When a business man has closed an honorable career, meeting all his obligations with scrupulous exactness; and when age or infirmity has forced him to give up the struggle, and he finds that notwithstanding his efforts there is nothing left for those dependent upon him for the care and support which it is his duty to accord them but the Endowment Policy, which he was induced against his will to secure many years earlier—*It pays!*

When the terrible railway collision snaps the thread of existence as if it were a silken cord, and the "unfinished business" of life is passed in review in the mind of the dying man; when the senses are almost extinguished and the terrible agony of the last struggle is upon him, and the only thought is for his little ones and their mother, and he realizes that the only bulwark between them and abject poverty is his life insurance—*It pays!*

TERM INSURANCE.

The following tables are taken from the annual report of President D. A. Heald to the National Board of Underwriters at the meeting held in New York May 8, 1890, being a continuation of the tables of previous years:

WHAT IS YOUR POLICY WORTH?—This is a question to which no answer that is certainly correct can be given at this moment. Nobody knows what your policy is worth. It is easy to fix a price for it according to the insurance tables. At all times it is worth at least the full value of the reserve. But it may be worth much more. If the insured is going to die next week his policy is worth its face value. If he is going to die next year it is worth the same, less the discount for one year. But as no one knows the day of his death, no one can know the exact value of his policy. It is like a life-boat on an ocean steamer. If the vessel is to make its voyage in perfect safety the life-boat will render no service. It might as well have been on shore, except for the sense of security to the passengers. In this respect the illustration does not hold, for a life insurance policy is always worth all that it costs. But if the vessel strikes an iceberg and is about to sink, or takes fire and it cannot be extinguished, then the life-boat is worth more than the steamer with all its cargo. It is a very foolish captain who leaves his boats on shore or lets them rot. And he is not a wise man who permits his policy to lapse when it is possible to maintain it.—*Union Central Advocate.*

INSIDIOUSNESS OF DISEASE.—There are forms of disease which are so insidious in their approach that they are with difficulty detected before they have become firmly established. In the hurry and drive of life we are apt not to stop to "take an account of stock" of our bodies, or note warning symptoms unless they are quite marked. Too many people do not understand hygienic and preventive measures, and when they finally seek advice and treatment the damage has already been irreparably done. Many a patient, who consults his physician for the first time in his life, is found to be already "past mending." All of us know that eventually the time will come when we shall be physically beyond repair. When it comes, the hour will at last have struck when a sound body will seem to us immeasurably to outweigh a ponderous pocket or a life of indulgence. As we see money, pleasure, family, friends, all we cherish, slipping from us, we shall feel with vain remorse that all might have been different if we had but halted in time, instead of blindly driving on, until wrecked and past mending.—*Journal of Health.*

BOOK VALUE OF FIRE INSURANCE COMPANIES' STOCKS.

The following comparative table shows the book value of stock for five years past of the 130 American joint stock fire insurance companies reporting to the New York Insurance Department :

NAME AND LOCATION OF COMPANY.	NET BOOK VALUE OF STOCK PER \$100.				
	January 1, 1890.	January 1, 1889.	January 1, 1888.	January 1, 1887.	January 1, 1886.

Arizona	Jan., 1891	Biennial	60 days
Idaho	Dec., 1892	Biennial	60 days
New Mexico	Dec., 1890	Biennial	60 days
Utah	Jan., 1890	Biennial	60 days
Wyoming	Jan., 1890	Biennial	60 days

In several States where biennial sessions are held, the legislatures hold adjourned sessions, by which means the law is evaded and annual sessions held. The Rhode Island legislature meets annually at Newport on the last Tuesday in May, and an adjourned session is required to be held at Providence each year. It is also permitted in several States to prolong the sessions beyond the term named by law.

DO UNDERWRITERS ENCOURAGE POOR METHODS OF CONSTRUCTION?

BY HENRY A. GOETZ.

In other words, do the existing tariffs directly or indirectly cause builders to put up the cheapest class of buildings, or do they discourage such a practice?

The fundamental principle of underwriting is to charge for a risk as it is found; the theory upon which tariffs are based is "that every risk shall bear its proper burden of rate," and that the province of a "board" is to properly and fairly adjust the rate. As a matter of fact, underwriters are not interested in building construction, in fire protection or prevention, to any greater extent than any other propertyowners. It is their business to insure property as they find it and at rates proportionate to the hazard to which it is exposed. The insurance is, in fact, an arrangement for mutual profit in which the underwriters collect a number of dollars from the masses and pay them back, less expense of management, as indemnity to the individual.

The average citizen, or even the average merchant, knows nothing of the theory and practice of underwriting; he knows nothing of compacts, boards, commissions, committees, surveyors, specials, inspectors and adjusters, except to antagonize them on general principles; he knows not why he pays 1 per cent or 2 per cent, and when he objects to the rate it is not because he knows it is too high or incorrect, but merely because the sum total of premium is large. On the other hand, the citizen who tries to keep informed upon insurance matters knows that the rule that "a risk should be charged for as it is found" is eminently correct. He hears a great deal about faulty construction; he intends to build a warehouse soon, and with a view of doing it well and safe he, by diligent inquiry and correspondence, gets into his hands some pamphlets on "Safe Construction," "Prevention of Fires," "Mutual Insurance," "Proper Methods of Construction," "Special Reports," "Plans," "Inspection Blanks," etc., all issued by Mutuels. With these data before him, although somewhat bewildered by many conflicting ideas, he begins to make his plans. After a study of the suggestions, so as to fully determine what to do, he finally selects upon using the very best, and exultingly proceeds to interview the local rate committee or the secretary of the board. These parties are not as enthusiastic about improvements as he expected them to be, and when the subject of rates is broached discover that the rates are fixed, that the tariff has no flexibility, and that the iron-bound rules of the association or compact or board prevents any change or reduction in rate for improvements in construction. He discovers that the rate is the same no matter if the dividing walls are the weakest party walls, or the strongest fire walls. He finds that the tariff cares not whether the joists are anchored, so they can fall without damage to the wall, or if they are anchored so as to break the wall down during a fire. He sees that the tariff cares not if the joists meet end to end in the party walls, or if they enter a smoke flue, or if they rest on the wall next to a crack in the flue. The citizen with good intentions is disappointed, and after a conference with his architect concludes to put up his building on the cheapest plan possible, leaving out all the heavy and substantial parts that would add to the cost. The interior finish and ornamentalions, both lavish and expensive, will be done to please the eye and attract the tenant, but the heavy parts must be correspondingly slighted up to the limit of toleration. The sole aim is to get the largest and finest building at the least cost. Such a building will be insured at the same rate as a stronger one, he argues, and if the premium is paid regularly the company will pay for the building some day anyway.

The better class of architects closely watch all points in construction that affect the rate, and, under existing tariffs, will advise their clients to put up a building as cheaply as possible, just so it will come within the requirements of an admittedly defective building ordinance. Many business blocks can be found in every city, and are even now in course of erection that

merely support each other, and while they may stand for years propped up as they are by such support, are only waiting for the spark that will, under favorable circumstances, develop into a death calamity or a conflagration.

Underwriters, by not fixing or allowing a lower rate for the strongest buildings and improved methods of construction, force the architect and builder to construct the cheapest class of buildings. If they would adhere rigidly to the old underwriters' maxim the property-owners would very soon discover that bad methods of construction, no fire protection and neglected prevention would be costly in the way of higher premiums. A substantial difference in rates in favor of best methods would have the force of law in any community; it would, in fact, excel the ordinances, because it strikes the economical citizen's pocketbook.

The great competition existing between the companies, both stock and mutual, has forced the average rate below a paying basis. Some of the larger companies have made a profit, it is true, but the average business done has been at a loss. It is impracticable to raise the rates, and therefore it becomes necessary to reduce the fire loss if the business is to be conducted at a profit.

Those who keep informed on the trend of modern insurance practice believe that the future duty of the underwriter will be: First, to advise and suggest proper methods of construction; second, to insist on practical measures of prevention; third, to enforce systematic inspection. Construction, though somewhat neglected by the underwriter, is the most important subject to be considered in the prevention of fire. John S. Damrell, inspector of buildings and former fire chief of Boston, after the conflagration of 1872 in that city, said: "The subject of prevention supersedes that of extinguishment, and we must build so as to confine the fire in the place where it starts. If you wish to avert conflagrations, separate the risks by fire walls and have compartments in your large buildings, so that fires can be confined; prevent the erection of a building which, when a fire starts in it, will not only destroy itself, but lay waste the property of its neighbors."

The fire commissioners of the same city expressed the opinion that it was not additions to the fire department or improved apparatus that were wanted so much as better buildings that were able to resist fire either from exterior or interior causes. These opinions, by experts who have gone through more experience with conflagrations than any other officials, should have an overwhelming force and be final and conclusive.

It is not expected that the underwriter should be informed of the thousand and one items of detail in construction with which an architect only is familiar, but should be familiar with general plans that are applicable everywhere.

The objective points to be considered in a general plan are as follows, and will be classified as rules A, B, C, D, E, F, G:

Rule A.—The enclosing walls of a building should not only serve as an enclosure and support, but should, above all, remain erect during a fire.

Nothing can resist or prevent the spread of fire so well as a standing brick wall. Could the walls of the building in which the fire originated have remained standing at any of the late conflagrations, the loss would have been a few thousand dollars instead of millions. Eleven fires in 1890 alone caused a loss of \$30,000,000, or nearly \$3,000,000 each. Over 600 persons are killed yearly at fires, many being firemen, and these mainly find their death under falling walls. Forty per cent of all risks burned were fired by exposure. The annual fire loss now exceeds one hundred millions yearly, and is steadily growing, falling walls being a prime factor. A conflagration would be an impossibility with walls that remained standing.

Rule B.—The adoption of a standard method of anchoring joists and beams to the wall.

The object to be attained should be, that any falling joist or beam would free its anchorage and leave the wall standing. Any method of anchoring joist that has a tendency to damage, break or pull down the sustaining walls should be condemned. Underwriters are not aware that all methods of anchoring joist (with but few exceptions) now being used by architects and builders have a tendency to and will pull the walls down if the joist have occasion to fall, as during a fire.

Rule C.—The timber frame of all buildings should be constructed in such manner that the frame will stand firmly by itself as to every part until each section is successively destroyed or wholly burned.

The New England Factory Mutuals, in a report to their members, say: "In all cases of serious fire, when one part of the building gives way, the effect is very destructive, and a very large portion or the whole of the structure comes down and is destroyed, even though the fire itself may not have greatly injured it prior to its falling. The reason for this is that columns and girders are fastened together in a thoughtless manner, so that if one part falls it must pull other parts down, and these in turn bring others, until all have fallen. This result can only be overcome by—

Rule D.—The adoption of a timber cap so constructed that any of the posts or any of the beams may be broken or burned and may fall out of their respective positions without bringing down adjacent parts as yet uninjured by the fire.

The ideal of a perfect method of construction is that it should be of such character that the entire interior frame work may be destroyed without substantial injury to the outside or enclosing walls.

Rule E.—Iron columns in combination with wood beams should be condemned; wood for this purpose is much better.

Firemen can form a pretty fair judgment of the length of time a burning beam or post will stand, and may move about in its vicinity directing the streams of water, but an iron column will give way without warning. The fearful accident at Indianapolis was a direct result of an iron column first giving way in the basement, thereby causing the collapse of the whole building, burying under its ruins many unfortunate firemen, twelve being killed at once.

It is a sad commentary on our methods of building to know that the failure of a single post or column should cause the destruction of so much life and property. Examine any of the large structures and you can select some column that if destroyed will cause the whole building to fall. Underwriters may say that they are not concerned, but the facts are that they are actually paying a loss on poor construction, and have only taken the premium on a guarantee of indemnity against loss by fire. This is manifestly unfair and the only way to guard against losses by the faulty construction hazard is to watch the many methods of building and charge extra rates for those not approved by expert inspectors. It is sheer folly to construct a building of iron if it is to be filled with inflammable material, the danger of a sudden collapse is much greater in such a building with iron I beams and tiling than in one constructed entirely of wood.

The slow burning system originated by Mr. E. F. Atkinson, consisting of heavy joist usually 10x12 inches laid with 3-inch flooring with no lath underneath or concealed space between floor and ceiling is the safest and best, the advantage being that on account of its solidity and thickness a fire could make but little headway before the arrival of a fairly good fire department.

Rule F.—Any joists or beams resting upon a wall in close proximity to smoke or heat flues should have their ends protected with a sheet or cast-iron cover.

This must be done to prevent ignition of the same from any crack in the flue. The total property loss to brick buildings caused by defective flues was three and three-quarter millions of dollars during 1889. This rule is an important one, because a fire between ceiling and floor is difficult to find and hard to get at, and usually gains so much headway before discovered that the loss is generally large.

Rule G.—Trimmers and headers should be lined with tin or sheet iron on the side next to the flue.

Many ordinances require the space between header, trimmer and flue to be filled with mortar, but this will not do, for any settling of the brick will crack the mortar as well as the flue. It is impossible to construct a flue that will not eventually crack, but it is possible to cover the wood adjacent to the flue with tin or sheet iron, so that the wood cannot become ignited. Even if the crack should become opened enough to pass fire it would, under this rule, be discovered by the presence of smoke before any damage or ignition takes place.

Second Prevention.—Under this head comes every kind of protective apparatus, such as the fire department, water service, watchmen, sprinklers, buckets, stand-pipes, time clocks, alarms, hose, etc. These are usually placed in two classes, the public and private.

Of the public fire service much can be said in commendation, many of the larger cities looking with envious eyes whenever another makes improvements that it has not yet obtained,

and with commendable promptness adopting whatever is new and practical. Many of the smaller places have very poor fire service, which is usually left in this condition until a conflagration calls citizens to their senses, and illustrates to them that foresight is better by a great many dollars than hindsight.

The private service is only found in large establishments, either placed there because of inadequate public service or else to meet the requirements for a low rate of insurance. The effectiveness of all protective appliances are dependent upon human attention and action, and may come to naught in the hour of need. Instances can be given without number where those regularly employed about mill property burned did not even attempt to make use of the private apparatus, probably forgetting entirely its existence at the very time when it should have been in use, or else by taking hold of the wrong parts rendered the same useless or inoperative. The importance of practical drills, so that the men about such mills will each know and understand what to do in an emergency, cannot be too highly estimated. It is well known that much of this private apparatus is put in for show, to satisfy the demands of the underwriters, and very often is of little or no use. All mechanical devices, however perfect in themselves, are at best liable to become out of order.

Third inspection is now conceded to be a necessary adjunct to the prevention of loss by fire, and has become a special calling. Inspection will best reveal the probable causes of fires, and each fire teaches something new and important. The practiced eye of an inspector will see many dangers that an average person will not notice or deem of any consequence, and only by the systematic inspection and frequent visits of an expert can order and cleanliness be enforced. Ignorance, a prime cause for many fires, is exceeded only by carelessness, and these human failings must be regulated and held in check by frequent inspections, and the effectiveness of the private apparatus, including sprinklers, buckets, pumps, alarms, etc., can only be maintained by such inspection.

In conclusion, is it best to improve the risk or to put up your money on a bet that bad risks will not burn?

Is it best to take chances on bad construction, inadequate protection and careless prevention, or to improve the risk by exercising a proper supervision?

Is it best to allow the business to run itself or to make the prevention of loss the chief duty of the underwriter?

Is it best to encourage bad methods of building, as the tariffs are now doing, or to make the difference in rates between good and bad so great that it will compel the use of good methods only?

LIFE ASSURANCE MAXIMS.

"It is no more the moral duty of a man to provide the daily bread for his family while he lives, than it is to provide against their being left penniless, in the event of his death."—*Edinburgh Journal*.

"A good man leaveth an inheritance."—*Proverbs* xiii. 22.

"Life assurance is not only a humane, but I might almost say, a Christian institution. If it is a man's duty in life to provide for his own household, it is hardly a violation of duty, but a prudent and wise foresight to provide for them after death, when he can protect them no longer."—*Bishop Potter of Penn.*

"What many men count an objection to life assurance, I count its first advantage. It compels thrift; it necessitates saving; it puts the assured under bonds to lay up a few dollars every year to provide for the future."—*Lyman Abbott*.

"Money secured to your family by life assurance will go to them without fail or interruption, provided you have used due discretion in the selection of a sound and honorable assurance company."—*Becker*.

"A policy of life assurance is the last hope of the poor man and the only unalterable investment of the rich man. The rescuer of thousands from destitution and crime in every civilized country."—*Talmage*.

"The relief from anxiety afforded by life assurance very frequently contributes to prolong the life of the assured, at the same time that it materially augments the comfort and well-being of those dependent on him."—*J. R. McCulloch*.

LIFE INSURANCE FOR WOMEN.

It is a sign of the times in England and of the progress toward the equalization of the sexes that the life assurance offices are paying more attention to the insurance of female lives, and that this branch of their business is increasing. The Married Women's Property act, which secures them in the enjoyment of their own property, and under which they can dispose of the sums payable at death as they please, has done a good deal to develop the insurance of female lives, and the increase in the number of women who earn their own living and have gone in for an independent career without regard to matrimony, has also helped the movement.

The latter class specially favor endowment policies payable either at death or at a certain age. Women who have undertaken the laborious profession of nursing, for instance, look forward to a time when they will be set aside, and when a few hundred pounds may be very acceptable, and so they arrange for the payment to fall due at fifty or fifty-five years of age. Actuaries of the old school do not relish these new-fangled notions, as they regard them, being a clear departure from the principle of insurance against death; but insurance against life in the years of decay is in actual experience quite as great a necessity. Endowment policies are a need of the age and life offices do well to supply it. Certainly women who are their own breadwinners appreciate the system.

If the extension of insurance among ladies indicates progress toward equality, the difference in the premiums charged proves the continued existence of inequality. It is not to be supposed that insurance offices are influenced by sentiment in making a distinction, but are led to do so by the cold calculations of their actuaries. They hold that a woman's life is less certain in the married state than the man's, and this conclusion is reflected in their table of premiums. The practice of the office varies, but some charge women five shillings additional per annum for every £100 assured until they attain fifty years of age. No rebate is made for the unmarried, the assumption being that almost every healthy girl will enter the wedded state. If the number of women who go in for an independent vocation, however, increases materially, it will only be fair to modify the rule, as the risks represented by the extra premium are not then run by the insured. The fact that the additional levy of 10 per cent or so is not made after fifty is an admission that the sexes are under the same conditions when on equal terms. Indeed, the female life is really held to be the best, apart from the period of special risk.

Taking the annuity table of the Scottish Widows' Fund as an illustration, we find that the

† Mutual until 1871. ‡ No dividend declared.

rate of annuity per cent is slightly greater on the female life up to thirty-four, and then falls below the male life, the assumption being that having passed that period the woman's life is the longer, and more annual payments will have to be made by the office. A few comparative figures bring this out very clearly:

Age.	Male Life Annuity per cent.			Female Life. Annuity per cent.

70	11	14	7	11	4	6
75	15	0	5	14	7	2

Years ago one office quoted lower rates of premium for women than men, in the belief that all through the female life was the best, but their experience was against their theory and they gave it up. The special risks being passed, the woman's life is, however, admitted to be the best. One circumstance which weighs with the offices in the distinctions they draw is this, that the medical advisers can speak with more certainty, from various causes, as to what is or is not a good life in the case of men than of woman, and this no doubt is taken into consideration in that levelling system of averages which actuaries delight to work out.—*Pall Mall Gazette*.

Viewed in a purely commercial light, the assurance of life is sound finance. As a business arrangement, it is judicious to expend a certain annual sum for the sake of securing a much larger sum at death. In the first principle of sound finance—*safety*—it stands unexcelled. The money involved is absolutely secure. There is no appreciable risk, adventure or doubt about it. The next consideration is profitability. Only in very rare instances an insurer pays the amount of his policy, in all other cases he pays less; in many the premiums are an infinitesimal proportion of the amount receivable.

The difference is made up of compound interest. But this could not be realized by individuals, as it would be impossible to invest and re-invest trifling sums.

FIRE LOSSES IN THE UNITED STATES.

A CLERGYMAN'S VIEWS OF LIFE INSURANCE.

"Life insurance," says the Rev. Howard Duffield of Detroit, "is simply another name for help. Men come into the world to fight. They run every possible risk that can come from disaster and accident, sickness or the touch of death. Advancing education helps a man to guard his poverty. Advancing education enlightens a man as to the dangers that threaten him. It equips him with ability to resist—may I state, join hands with him in helping perfect his life and property?—but even in the most enlightened age and in the best government there is a constant menace of disaster that makes it desirable that men should have help. Men can fight well enough in life if they have to fight alone, but you remember how in the olden time when the Gauls went into battle, on the neighboring hill tops stood their wives and children that they might armor those unclad warriors to front the brazen breastplates of the legions of Rome by a sight of the necessity to which they were exposed; and it was so not only in the olden times with the Gauls, but you remember on the deck of the Mayflower there were women and little children. We talk a great deal about the Pilgrim Fathers. A word should be spoken for the Pilgrim Mothers, and it might be that we never should have heard of Plymouth Rock, it might be that that advance guard that led the charge in the progress of our nation might have been broken before the fierceness of the sea and the cruelty of the savage and the bitterness of that New England forest, if women's feet had not pressed Plymouth Rock too. And it was so, you remember, when, just before the siege of Sebastopol, that the soldiers sat in the trenches at night, and their song was not a battle hymn, but 'Annie Laurie.' And in the knapsacks of our boys in the late war that were piled up in the hospitals there were found with their uniforms and equipments pictures of their loved folks at home, so that scarcely a knapsack but had a picture that was a talisman which fired the bravery of those soldiers that were at the front. It is those behind us for whom we fight that makes us go into life's battle under the fear that we may be stricken by the way. And just here comes in life insurance, and with a safety that can be guaranteed by no other moneyed institution. It puts the shield of its protection over the man. It saves his self-respect. It gives to him a business contract by which he shall pay a small portion of his earnings year by year and by which it shall return to him in the time of his need. It is a security that goes beyond even that of the savings bank, for a man cannot tell how many years he is going to live. He cannot tell how great his earnings ought to be in savings annually in order that he may leave a certain amount to his heirs. He cannot be sure that while savings are under his own control he will not yield to an impulse to draw them out. But the life insurance company guarantees to him the results of an average length of life even if he is cut down before that term of years expires. It prevents any diminution of his capital, because it takes it out from under his control. It stimulates his economy, because it makes a forfeiture of his earnings if he fails to pay in his premium, and for this self-sacrifice it returns a rich and ample reward when the shadows of infirmity are gathering about him or when the finger of death has put a stop to all his labor."

DIRECTORS OF COMPANIES.

Following are the names of the directors of prominent fire, life and miscellaneous insurance companies:

DIRECTORS OF FIRE AND MARINE COMPANIES.

ETNA, Hartford, Conn.—Roland Mather, Gustavus F. Davis, Drayton Hilyer, William F. Tuttle, Francis B. Cooley, William R. Cone, Henry E. Russell, Nathaniel Shipman, Austin C. Dunham, James A. Smith, Morgan G. Bulkeley, J. Pierpont Morgan, Thomas O. Enders, Atwood Collins, J. Goodnow, William B. Clark, Francis Goodwin.

AGRICULTURAL, Watertown, N. Y.—W. Ives, A. E. Dewey, J. R. Stebbins, H. M. Stevens, E. F. Carter, H. A. House, F. H. Munson, A. H. Sawyer, O. R. Earl, S. Cooper, J. O. Wheeler, R. S. Whitman, G. B. Phelps, Titus Sheard.

ALAMO, San Antonio, Tex.—George Dulling, G. A. Duerler, Carl Groos, Sam Maverick, A. Staacke, Ed. Steves, Sr., Henry Elmendorf, Dr. F. Herff, Anton Oppenheimer, W. W. King, Geo. H. Kattner, B. F. Yoakum, S. D. Scudder.

ALBANY, Albany, N. Y.—John H. Van Antwerp, Charles B. Lansing, J. Howard King, Ernest J. Miller, Jacob H. Ten Eyck, Theodore Townsend, John J. Olcott, William Kidd, Rufus H. King, Erastus Corning, James B. Jermain, Grange Sard, Jr., J. W. Tillinghast.

ALEXANDRIA, Alexandria, Va.—Benoni Wheat, M. B. Harlow, Geo. S. French, Arthur Herbert, E. S. Leadbeater, French Smoot, Geo. A. Mushbach.

The company operates throughout the State of Virginia.

ALLEGHENY, Pittsburgh, Pa.—Charles Hays, James S. McCord, C. G. Hussey, John Irwin, Jr., George W. Cochran, J. B. Oliver, Joseph T. Speer, James W. Porter, J. H. Niemann, W. H. Everson, Thomas H. Lane, Hon. J. F. Slagle.

The company's operations are confined to Pennsylvania.

ALLEMANNA, Pittsburgh, Pa.—W. E. Schmertz, Charles F. Wells, William J. Lewis, Christ Siebert, Peter Keil, John Daub, William Steinmeyer, Joseph Abel, M. Lappe, W. A. Heyl, P. W. Siebert, Josiah Cohen.

ALLIANCE, New York.—F. H. Parsons, H. Moseenthal, John H. Rieger, Albert Wilcox, James W. Barbour, Aaron Josephie, James Yereance, Edward H. Betts, J. G. Alden, Charles R. Price, Cornelius DuBois, George H. Smith, R. H. Gordon, John T. Baker, Robert P. Lethbridge, George H. Leonard, Robert C. Rathbone, William E. Lowe, E. R. Craft, J. Q. A. Williamson, M. Tanenbaum.

The company operates in Massachusetts, New York, New Jersey, Pennsylvania, District of Columbia, Ohio, Illinois and Wisconsin.

ALTA, Stockton, Cal.—James M. Welsh, G. C. Hyatt, J. L. Beecher, J. D. McDougald, Joseph Fyfe, J. D. Peters, Sigmund Schwabacher, Henry Fisk, A. M. Noble, R. Gnekow, H. H. Hewlett.

AMAZON, Cincinnati, O.—Sylvester W. Bard, Thos. J. Emery, Lowe Emerson, W. A. Goodman, Gazzam Gano, George Hafer, Louis Kroon, L. R. Keck, H. A. Langhorst, Chas. Robson, Jabez M. Waters, Geo. F. Otte, Jos. H. Rogers, G. W. Burrows.

AMERICAN, Baltimore, Md.—William Buehler, Chas. W. Slagle, Ernest Knabe, Francis Burns, Joseph A. Edmondson, William S. Young, William Schloss, E. Levering, W. H. Baldwin, Jr., L. Sinsheimer, Joseph Fink, Bernhard Clark, Jas. A. Gary, G. W. Hildebrand, Christian Devries, John Q. A. Holloway, J. J. Rodgers, Woodward Abrahams, D. D. Mallory, Nicholas M. Smith, Henry C. Matthews, A. Roszel Cathcart, J. M. Lithig, George A. Getty.

AMERICAN, Boston, Mass.—George B. Chase, Charles J. Morrill, John F. Anderson, J. Murray Forbes, Richard D. Rogers, William M. Whitney, Jacob C. Rogers, George Z. Silsbee, Francis Peabody, E. Rollins Morse.

AMERICAN, Newark, N. J.—Frederick H. Harris, Lewis C. Grover, David Campbell, Charles A. Lightie, Jeremiah Baker, Elias O. Doremus, Henry C. Howell, Wm. Clark, Benjamin F. Crane, George W. Ketcham, John H. Ballantine, James A. Banister.

AMERICAN, New York.—David Adece, Le Grand B. Cannon, Robert W. Rodman, Thomas S. Young, James R. Taylor, Allan Hay, James H. Frothingham, Henry G. Marquand, Isaac H. Reed, John T. Terry, Henry Day, Frederick W. Downer, J. Hugh Peters, John F. Praeger, Alexander E. Orr, A. A. Low, Franklin Woodruff, Chas. A. Davidson, J. D. Vermilye, Osgood Welsh, John Sinclair.

AMERICAN, Philadelphia, Pa.—Thos. H. Montgomery, John T. Lewis, Israel Morris, P. S. Hutchinson, Alexander Biddle, Charles P. Perot, Joseph E. Gillingham, Samuel Welsh, Jr., Chas. S. Whelen.

AMERICAN CENTRAL, St. Louis, Mo.—Geo. T. Cram, S. M. Dodd, W. H. Pulsifer, Geo. A. Madill, Charles Christensen, G. W. Chadbourne, W. H. Thompson, Geo. O. Carpenter, Wm. M. Senter, Peter Nicholson, John Wahl, John Whittaker, Chas. F. Gauss.

ANGLO-NEVADA ASSURANCE CORPORATION, San Francisco, Cal.—J. W. McKay, Louis Sloss, J. B. Haggin, J. F. Bigelow, W. F. Whittier, E. E. Eyre, W. H. Dimond, M. H. Hecht, Wm. Macdonald, W. S. Hobart, J. L. Flood.

ARKANSAS, Little Rock, Ark.—John G. Fletcher, John D. Adams, Logan H. Roots, Charles F. Penzel, W. H. Wright, Isaac Wolf, C. J. Lincoln, James R. Miller, Eben W. Kimball.

The company operates in Arkansas only.

ARLINGTON, Washington, D. C.—Walter S. Cox, William King, Wm. R. Riley, Chas. Edmon-

ston, Wm. Galt, S. Thos. Brown, Dr. J. W. H. Lovejoy, Dr. W. W. Johnston, F. L. Moore.

The company's operations are confined to the District of Columbia.

ARMENIA, Pittsburgh, Pa.—Edward O'Neill, Frank E. Heath, W. S. McKinney, I. N. Patterson, W. D. McGill, W. W. Speer, F. Gwinner, Jr., Henry Lenz, Jos. P. McIntire, John H. Stotz, P. H. Ittel, S. S. D. Thompson, John D. Scully, A. S. M. Morgan, J. C. Lewis, John Heath, Wm. T. Dunn, Jas. S. McCord, Andrew Miller, M. G. Clark, J. F. Diefenbacher.

ARMSTRONG, New York.—P. B. Armstrong, Oscar R. Meyer, Joseph Fox, J. Spence Turner, Emil Calman, John Dickson, Otto Von Hein, J. W. Mack, David Calman, Samson Lachman, Aaron Carter, C. S. Braisted, A. F. Troesch.

ARTISANS, Pittsburgh, Pa.—A. J. Borr, John Dunlap, A. Garrison, Jos. H. Borland, E. A. Myers, Sullivan Johnson, J. B. D. Meeds, D. McKee, E. Z. Smith, H. H. Smith, J. J. Donnell, A. L. Bailey.

The company operates in Pennsylvania and Michigan.

ASSOCIATED FIREMENS, Baltimore, Md.—Jas. C. Wheeden, Jas. W. Flack, S. H. Caughy, Edward Connolly, Frank Frick, Wm. F. Buras, Clinton P. Paine, Michael Jenkins, John Cushing, Benj. F. Bennett, James Young, Isaac S. George, Wm. J. Hooper, Jos. H. Rieman, Alonzo Lilly, Jr., Wm. Baker, Jr., Sol. Grinsfelder, A. I. Dalrymple, G. W. S. Williams, Charles Hilgenberg.

ATLANTA HOME, Atlanta, Ga.—S. M. Inman, M. C. Kiser, R. J. Lowery, Geo. Winship, T. G. Healey, Henry Jackson, T. L. Langston, J. H. Porter, Joel Hurt.

AURORA FIRE AND MARINE, Cincinnati, O.—C. J. Krehbiel, Jacob Rothweiler, Charles Frank, R. A. W. Bruehl, J. W. Lauterbach, Henry Duis, G. A. A. Voige, P. C. Fisher, Werner Kolbe, P. F. Schneider, Jacob Haeussler, Louis Schneek, John Crable, Henry Dornbusch, Henry Bushing.

BEN FRANKLIN, Allegheny, Pa.—J. S. Slagle, James McCutcheon, C. F. Inglesham, C. P. Campbell, John A. Herman, Albert Pitcairn, F. D. Eshelman, Alfred Bungey, Fred. Laog, Henry Buhl, Jr., John Ogden, J. W. Hall, Hay Walker, Joseph W. Craig, George D. Riddle.

The company operates principally in Pennsylvania.

BIRMINGHAM, Pittsburgh, Pa.—John P. Schneider, Nic. Toerge, Jacob Roth, Joseph Ploeger, Chas. Melling, Chas. Jutte, Adam Diehl, Barthele Erbe, John B. Lutz, Leonhard Kaufman, Fred. Schutte, Wm. Ruske.

The company does business in Pennsylvania, New York, New Jersey, Massachusetts, Ohio and Maryland.

BLUFF CITY, Memphis, Tenn.—J. C. Neely, W. A. Gage, J. F. Frank, H. M. James, J. W. Falls, M. Gavin, D. P. Hadden.

The company's operations are local.

BOATMANS FIRE AND MARINE, Pittsburgh, Pa.—O. P. Scaife, Edward Gregg, R. Monroe, J. G. Holmes, E. A. Myers, H. McK. Lloyd, T. P. Day, H. L. Mason, J. A. Caughy, A. D. Smith, D. Z. Brickell, W. R. Sewell.

The company operates only in Pennsylvania.

BOSTON MARINE, Boston, Mass.—William H. Hill, Ransom B. Fuller, H. J. Boardman, F. H. Odiorne, Frank B. Dole, M. F. Pickering, James Littlefield, George Hinman, Thomas H. Lord, Charles F. Perry, Charles O. Foster, Wm. H. Lincoln, Enos C. Soule, Wm. C. Haskins, John S. Emery, Wm. H. Beasee, Samuel Watts, Otis Hinman.

The company operates in Maine, Massachusetts, New York, Maryland, California, Virginia, Missouri and Louisiana.

BOYLSTON, Boston, Mass.—Joseph W. Balch, Nathan Crowell, Ebon Bacon, Wm. T. Glidden, S. Endicott Peabody, Otis E. Weld, Augustus P. Perkins, Israel G. Whitney, Charles F. Atkinson, Francis Peabody, Jr., Francis V. Balch, Francis A. Peters.

BRITISH AMERICA, Toronto, Ont.—John Morrison, governor; John Leys, deputy-governor; John Y. Reid, A. Myers, G. M. Kinghorn, Geo. H. Smith, Thos. Long, Dr. H. Robertson.

BROADWAY, New York.—Bernard Smyth, Wilson G. Hunt, Alexander Masterton, James L. Stewart, James E. Hedges, George Forrester, William H. Stiles, William H. Albrow, Henry Hannah, Crowell Hadden, Stephen H. Thayer, Harvey P. Farrington, Amos C. Sherwood, Alfred W. White, Jesse G. Keys, John M. Crane, Theodore F. Vail, John W. Aitken, Harvey Farrington, Eugene B. Magnus, George H. Dayton, George H. Southard, Charles T. Van Santvoord, Stephen Valentine, Jr., Charles R. Dusenberry, Albert T. Albrow, Henry Demarest, Joseph S. Stout, Edgar B. Van Winkle, Theodore Magnus.

BUFFALO GERMAN, Buffalo, N. Y.—L. P. Adolff, P. Becker, C. Boller, A. Cornelius, J. P. Diehl, J. Dold, E. B. Eggers, M. Hansauer, F. A. George, G. Goetz, E. G. Grey, J. Hauenstein, J. Hiemenz, M. Mesmer, H. C. Persch, J. F. Schoelkopf, H. Breitweiser, W. Hellriegel, P. Houck, A. Ziegele, Jr.

BURLINGTON, Burlington, Ia.—John G. Miller, Jacob Alter, N. Lease, M. H. Rogers, H. C. Seymour.

CALIFORNIA, San Francisco, Cal.—L. L. Bromwell, John Bermingham, Hy. Wadsworth, Samuel Merriett, Daniel Meyer, A. W. Scholle, S. C. Bigelow, W. J. Bryan, E. J. Le Breton.

CAMDEN FIRE INSURANCE ASSOCIATION, Camden, N. J.—Henry B. Wilson, Jonathan Burr, Edmund E. Read, Sr., William P. Tatem, Christopher J. Mines, William W. Bozarth, William S. Scull, John Burr, Frank J. Burr, Rudolph W. Birdsell, Edmund E. Read, Jr., George W. Gilbert, John Campbell, Jr.

The association operates in New Jersey only.

CAPITAL CITY, Montgomery, Ala.—S. C. Marks, J. R. Warren, E. B. Joseph, Joseph Goetter, M. Kahn, W. D. Brown, J. Greil, B. L. Holt, Fred. Lillenthal.

The company operates only in Alabama.

CAPITAL, Concord, N. H.—A. B. Thompson, Henry McFarland, W. B. Durgin, J. H. Chase, W. P. Fiske, James Minot, J. Frank Hoyt, J. E. Fernald, D. E. Willard, Luther S. Morrill, Ben. C. White, Lyman Jackman, J. B. Tennant, E. J. Copp, Edson J. Hill, John F. Jones, F. K. Jones, Frank Coffin, Thos. M. Lang, H. J. Crippen, D. F. Brown, J. H. Cutler, Everett Fletcher, Edward G. Leach, J. W. Patterson, W. L. Melcher, Plummer Fox, H. A. Tuttle, Alonzo Messer, E. A. Crawford, C. O. Eastman, Milton S. Jackson, William N. Johnson, George H. Tilden, Fred. S. Hall, N. A. Frost, S. W. Rollins.

The company operates only in New Hampshire.

CAPITAL, Des Moines, Ia.—W. W. Lyons, J. K. Gilcrest, F. T. Campbell, W. H. Gilcrest, J. A. T. Hull, William D. Lucas, W. F. Conrad, C. L. Gilcrest, W. L. Read, George Lendrum, C. E. Campbell.

CAROLINA, Wilmington, N. C.—G. W. Williams, D. L. Gore, Donald MacRae, D. G. Worth, Clayton Giles, S. Solomon, L. Vollers.

CASCADE FIRE AND MARINE, Seattle, Wash.—A. Mackintosh, W. R. Ballard, J. A. Gould, Eben Smith, George Donworth, F. H. Whitworth, F. J. Grant.

CASE, Pittsburgh, Pa.—Robert H. King, Alexander King, E. McKnight, James M. Bailey, Adam M. Brown, James H. Willock, Alex. Bradley, Jas. R. Smith, James B. D. Meeds, Lewis Irwin, Wm. D. King, Frank E. Moore.

The company's business is confined to home State and the city of Chicago.

Montreal; P. S. Ross, J. P. Fish, G. H.
Dumesnil, Montreal, Assignees.

INSURANCE LAWS ENACTED IN 1890.

The following is the full text of the several insurance bills that have become laws :

In relation to life and casualty insurance companies, associations and societies organized under the laws of this State :

SECTION 1. No order, judgment or decree providing for an accounting, enjoining, restraining or interfering with the prosecution of the business of any life or casualty insurance company, association or society of this State, or appointing a temporary or permanent receiver thereof, shall be made or granted otherwise than upon the application of the attorney-general, on his motion, or after his approval of a request in writing of the superintendent of the insurance department, except in an action by a judgment creditor, or in proceedings supplementary to execution.

To amend chapter 282 of the laws of 1889, entitled " An act relating to life insurance companies and their agents doing business in this State."

SECTION 1. Life insurance companies doing business in this State shall not make any discrimination in favor of individuals of the same class and of the same expectation of life, either in the amount of premium charged or any return of premium, dividends or other advantages, and no agent of any such insurance company shall make any contract for insurance or agreement as to such contract of insurance other than that which is plainly expressed in the policy issued, nor shall any such company or agent pay or allow, or offer to pay or allow, as inducement to any person to insure any rebates of premium or any special favor or advantage whatever in the dividends to accrue thereon, or any inducement whatever not specified in the policy. Whenever it shall appear to the satisfaction of the superintendent of the insurance department, after a hearing held by him upon due notice, that any company is issuing policies or making contracts that are either directly or indirectly a violation of this act, he shall thereupon, with the approval of the attorney-general, in writing, require said company and its officers and agents to refrain within twenty days from making or delivering any such policy or contract, and the making or delivery of any such policy or contract thereafter shall render such company or person guilty of a misdemeanor, punishable as provided in the third section of the act hereby amended. It is further made the duty of said superintendent, in case of the failure of any company or its officers or agents to comply with said requirements within the twenty days, to publish a notice of the fact in the State newspaper once a week for four weeks.

SEC. 2. Section 2 of said act is hereby amended so as to read as follows :

SEC. 2. No person shall act as agent, sub-agent or broker in the solicitation or procurement of applications for, or policy of insurance, for any company or corporation referred to in this act, without first procuring a certificate of authority from the superintendent of the insurance department. Said certificate of authority must be renewed annually, on the first day of January, or within sixty days thereafter, and a duplicate thereof shall be filed in the office of the said superintendent, provided, however, that nothing herein contained shall relate to agents operating solely on the weekly payment plan of insurance.

STATE OFFICIALS HAVING AUTHORITY IN INSURANCE MATTERS.

(Corrected to June 5, 1890.)

STATE.	OFFICERS.	ADDRESS.	TITLE.
Alabama.....	Cyrus D. Hogue...	Montgomery.....	Auditor of State.

Dominion of Canada.....	Wm. Fitzgerald.....	Ottawa.....	Superintendent of Ins.
Province of Ontario.....	Dr. J. H. Hunter...	Toronto.....	Inspector of Insurance.

FIRE INSURANCE BY STATES.

TRANSACTIONS OF THE FIRE AND MARINE INSURANCE COMPANIES.

The following tables show the transactions of the various fire insurance companies in the different States and Territories in 1889. Premium receipts and losses incurred, with the ratio of one to the other, are the material points regarding fire insurance in the business are most anxious to compare. The tables present these features in the most condensed form possible. Following the tables of individual States is presented a recapitulation of the entire business of the United States and Canada in 1889, in comparison with transactions of the previous four years, giving the totals for five years and the average ratio for the five years. The returns were, in a majority of instances, furnished us directly from the offices of the State officers having charge of insurance matters, and are believed to be as nearly correct as it is possible to make them. Under the head "Supplemental Report," in a few States, will be found reports received after the remainder had been electrolyped.

INSURE WHILE YOUNG.

If young men were always to remain young; if they possessed immunity from accident and disease; if they were never to assume the responsibilities of true manhood as involved in the married state; if, in short, they were to be vigorous, lusty, selfish animals from their birth till a sudden death put an end to their useless existence, they would have no need for life insurance. Passing through life without responsibilities and devoting themselves entirely to selfish enjoyment, they might come and go, like the insects, uncaring for others and uncared for. But such is not the destiny of man. He was created for better things, and, as every young man is ambitious to make his mark, in some way, upon the times in which he lives, he should prepare himself in his youth to assert his independence and his manhood, and to assume all the responsibilities of that condition. His first and chiefest duty is to those who are dependent upon him. If these be a wife and children, it is a duty he owes to them, to himself, and the community, to make such provision for their maintenance that, in the event of his sudden taking off, they will not become a charge upon the State or left to the precarious charity of a selfish world. No man has the right to create a family or dependents of any degree without making such provision for their temporal welfare as ordinary foresight and prudence dictate. The majority of men depend upon their earnings for the support of those they are under obligations to maintain; if death steps in and calls away the bread-winner, suffering, as well as sorrow, results. Sorrow there must be, but physical suffering can be averted if prudence and forethought controlled the head of our leading clergymen and thoughtful teachers, when we say that no man who depends upon his labor for his support has the right to take to himself a wife and rear a family of children without making for them that provision that a life insurance policy secures. Thousands of instances of families that held good positions being plunged into the depths of poverty and suffering, by the sudden and unexpected death of the husband and father, have abundantly demonstrated the truth of this statement.

RECAPITULATION OF FIRE PREMIUMS AND LOSSES BY STATES.

The following tabulation is a comprehensive exhibit of the premiums and losses of the different fire and fire-marine insurance companies operating in the various States and Territories of the United States and the Dominion of Canada. The comparison of the loss experience in the various parts of America in 1885, 1886, 1887, 1888 and 1889 will be studied with interest by fire underwriters:

UNDERWRITERS' ORGANIZATIONS.

FIRE ASSOCIATIONS.

We give a list herewith of National and State organizations of fire underwriters, and the names of their officers; also the names of the officers of the local boards in a few of the more important cities. To give the list of all local boards in the country would require more space than we have at our disposal. The following list has been corrected to June 1, 1890, especially for THE INSURANCE YEAR BOOK:

NATIONAL BOARD OF FIRE UNDERWRITERS.

President, D. A. Heald; vice-president, D. W. C. Skilton; secretary, Robert B. Beath; treasurer, Fred. W. Arnold.

Executive Committee—J. Goodnow, chairman; M. A. Stone, vice-chairman; S. P. Blagden, Chas. B. Whiting, Geo. P. Sheldon, John L. Thomson, David Adee, J. N. Dunham, G. A. Van Allen, Fred. W. Arnold and John C. Paige. Semi-annual meeting in the autumn.

NEW ENGLAND INSURANCE EXCHANGE.

President, Frank A. Colley; first vice-president, A. K. Simpson; second vice-president, George W. Hinckley; third vice-president, Charles G. Smith.

Executive Committee—J. H. Burger, chairman; W. G. Fitch, R. Jas. Tatman, F. A. Wetherbee and A. A. Clarke.

UNDERWRITERS ASSOCIATION OF THE MIDDLE DEPARTMENT.

President, J. B. Kremer; first vice-president, E. O. Weeks; second vice-president, Wm. N. Kremer; secretary and treasurer, E. R. Clemence.

Executive Committee—A. N. Stewart, chairman; Wm. Muir, R. H. Wilson, T. Kirk White, J. S. Catanach, Edward Cluff, H. O. Kline.

SOUTHEASTERN TARIFF ASSOCIATION.

President, Livingston Mims; secretary, C. C. Fleming.

Executive Committee—Resident, J. D. Yonge, J. W. Pearce, James C. Hunter, A. J. McIlwain and R. A. Hancock. Associate members of Executive Committee—G. J. Dewey, for North Carolina; S. Y. Tupper, for South Carolina; W. C. Coart, for Georgia; W. A. Burk, for Alabama; J. H. Norton, for Florida; H. M. Street, for Mississippi.

THE UNION.

President, John H. Washburn; vice-president, Robert J. Smith; secretary, E. A. Simonds.

FIRE UNDERWRITERS ASSOCIATION OF THE NORTHWEST.

President, E. A. Simonds; vice-president, E. V. Munn; secretary and treasurer, J. C. Griffiths.

VERMONT ASSOCIATION.

In process of organization.

Life Premiums are not drafts on capital. Yet it is argued at times, "I cannot spare the money from my business. The premiums are ordinarily met from income; the money is *saved* which would otherwise be spent in another way. Thus, Assurance is rather the creation of capital than a charge on it.

Numbers of business men derive their entire income from a profession or an appointment. To them Life Assurance is essential, if they have, or expect to have, any besides themselves to provide for. No provision they can make is complete without it. By the sacrifice of a small portion of their emoluments they become *instant* capitalists to the extent of being able to control money at death.

LIFE INSURANCE STATISTICS.

EXHIBIT OF TRANSACTIONS OF AMERICAN LIFE COMPANIES FOR TEN YEARS.

The following tables show the transactions for the past ten years of all the regularly organized life insurance companies in the United States, exhibiting also their assets at the end of each year:

NAME AND DATE OF ORGANIZATION OF COMPANY AND NAMES OF OFFICERS.	Year ending December 31.	Total Premium Receipts.	Total Interest and other Receipts.	Total Income.	Total Payments to Policy- holders.	Actual Expenses of Man- agement (exclud'g Taxes).	Total Expend- itures.	NEW POLICIES ISSUED & REVIVED (INCLUDING AD- DITIONS).		POLICIES IN FORCE AT END OF YEAR.		Admitted Assets.

* All industrial business, capital \$20,000.

* Exclusive of interest from securities in which capital stock is invested. Includes in management expenses.

* Includes industrial insurance.

* Taxes

When the stately home is invaded by the destroyer, in the form of paralysis, the result of the desperate struggle to ward off danger from the loved ones; when the family physician stands with his hand on the sickening pulse; when the family are standing around the bedside, waiting for the final scene; when the patient looks about him into the faces of those he must leave so soon, and realizes that everything is gone but his life insurance policy—*It pays!*

Life insurance stimulates industry and economy by supplying the highest and most powerful motives of the former—by setting before men, otherwise hopeless of advancement for their children, the means of protecting, educating and elevating them by the use of that margin of their earnings which, otherwise too small to effect the desired result, would, in the majority of cases, be expended in dissipation and recklessness.

AGGREGATES OF LIFE INSURANCE COMPANIES FOR TEN YEARS.

YEAR.	Total Premium Receipts.	Total Interest and Other Receipts.	Total Income.	Total Payments to Policy-holders.	Actual Expenses of Management (Including Taxes).	Total Expenditures.	NEW POLICIES ISSUED AND REVIVED (INCLUDING ADDITIONS).		POLICIES IN FORCE AT END OF YEAR.		Admitted Assets.

U. S. LIVE STOCK INSURANCE CO., Fergus Falls, Minn.....1890.	1890	\$500,000										

* Authorized capital \$25,000, of which \$2,500 has been paid up. † Subscribed capital. ‡ Authorized capital \$100,000, of which \$25,000 has been paid up.

^e Began business Jan. 1, 1890.

POLITIC POINTS FOR LIFE AGENTS.—I. In conversation, beware of thrusting yourselves forward. If you are in earnest about people effecting policies, it is a mistake to talk too much. A few simple, convincing, logical words are generally all that is needed.

2. Don't appear at any time over-anxious about getting the proposal. A quiet, courteous, self-reliant man is always best.

3. If your client is at dinner, don't worry him, but call again. He is more likely to listen to your persuasions after, than before dinner.

4. Don't always argue the subject of life assurance as a matter of duty, but, with some, appeal to their instinct of self-interest.

5. With young men especially, put forward the endowment tables, and advise that policies be effected to mature at an early age.

6. Cultivate politeness and a respectful attitude to your hoped-for mem-

bers. "A polite man is one who listens with interest to things he knows all about, even if they are told by persons who know nothing about them."

7. Be punctual, methodical and systematic in all your transactions, whether with the head office or your policyholders.

8. Introduce your subject discreetly and adroitly. Always first ask your customer how he finds business before mentioning insurance.

9. Take your leave directly you have received your answer, whether you secure a proposal or not. If a hesitating negative be given, wish your friend good-day, and say you will call again at a more convenient season.

10. Be businesslike with all your business friends. Say what you have to say in the fewest words. "The drop of one word may show more than the stream of a whole oration."

ANALYSIS OF THE ASSETS OF LIFE INSURANCE COMPANIES.

The following is a summary analysis and classification of the various items comprising the admitted assets of life insurance companies reporting to the Insurance Department of New York State for the year ending December 31, 1889.

NAME OF COMPANY.	Real Estate.	Bonds and Mortgages.	U. S. Stocks and Securities.	Other Stocks and Bonds.	Collateral Loans.	Premium Notes and Loans.	Cash in Office and in Bank.	Deferred and Unpaid Premiums.	All Other Assets.	Total Admitted Assets.

* Estimated. † Figures for 1862 not included. ‡ Figures from 1854 to 1880, inclusive. § Figures from 1869 system of distributing surplus was adopted. ¶ During the past seventeen years the bulk of this company's business to assist in maturing them as endowments. † Includes industrial insurance. / Life department only. ‡ Most of company were confined to Iowa; hence the small showing of business. † Computed on ¼ per cent basis.

THE NORTH AMERICAN LIFE ASSURANCE COMPANY.

This company, from the first year of its existence, bounded into a prominent position; in subsequent years it has not only sustained the prominent place it took in its early days, but is now ranked among the leading insurance and financial institutions of the Dominion. This prosperity has increased year by year. The increase of every department tending to progress and prosperity was greater in the year ending December 31, 1889, than in any year in its history. This company claims to be the pioneer in introducing the method of paying death claims immediately on completion and approval of proofs which has been a great boon to insurers and has helped to popularize this well known and successful institution. It was the first Canadian company to introduce the investment forms of policy in the shape of the semi-Tontine investment plan, and although many of the prominent companies condemned this plan of insurance, nearly the whole of the Canadian companies, including the Canada Life, are now working and pushing this plan of insurance under the name of Tontine distribution or deferred dividend plans. The assets at the close of the last financial year exceeded \$1,000,000. Its large surplus is not only making it a desirable company for intending insurers but also a satisfactory one for those holding its investment policies. The large amount of new business secured by this company is evidence that it has the confidence of the Canadian people.

The President, the Hon. Alexander Mackenzie, M. P., is not only one of the best known men in the Dominion, but probably no man stands higher in the estimation of the Canadian people. The company has in its employ a staff of well trained officials. The Managing Director, Mr. McCabe, is a fellow of the Institute of Actuaries, and also one of the first members of the Actuarial Society of America.

THE LIFE INSURANCE AGENT.

He is born, not made. Like every man with a specialty it has to be "in him" at the outset, though time and experience add to his powers. He is a development of the last half century and has really come to full perfection in the past decade. He is as worthy to be sought after as clergyman or physician, but if you do not seek him that'll be all right, he will look you up. He may be the newest "solicitor," who just drops around at his local headquarters to report progress, or a tried and trusty "general manager," with a handsome offer of generous area and lots of sub-agents, but he is always the same in the one grand essential of desiring to know if you are insured, and if so, if you do not want a little more. And the merit of his perennial inquiry is that it is a just one, of as much if not more interest to you than to him.

Ninety-five per cent of the astounding aggregate of life insurance now in force of which you read and hear in a half-understanding way, was obtained solely through the energy and determination of agents. It was of vital benefit to the insured, has proved of inestimable worth to their families, and has a future of good beyond all computation, and yet but for the agent it would have had no extensive existence. He it was that was always ready to present its advantages, to whom all seasons were summer so far as letting you see the necessity of making prudential hay while the sun of your strength was shining was concerned. His patience, suavity, earnestness and personal force alone have overcome that paradox of modern economic propositions, viz:—That life insurance, the thing a man and his family needs most of all and is happy when it is obtained, is something which nine times out of ten he doesn't take until he is asked to do so.—*Detroit Free Press.*

LIFE ASSURANCE MORTALITY EXPERIENCE.

Table showing the years of life exposed to risk, deaths and death rates of each year of assurance according to seven different enumerations of assured lives, arranged with regard to the amount of exposure in late years of assurance. Prepared for THE SPECTATOR by Walter C. Wright to assist the comparative study of tables of mortality.

NEW FRENCH MORTALITY TABLES.

At the French Exposition Universelle of 1889, a committee of four life companies—Assurances Générales, Union, Nationale and Phenix—united in exhibiting a series of interesting tables relating to mortality as derived from their experience. We reproduce those which are of interest to life underwriters in this country.

TABLE OF MORTALITY OF LIFE ANNUITY POLICYHOLDERS DEDUCED FROM THE OBSERVATIONS OF THE COMPANIES OF THE COMMITTEE.

Comparison of the rates of mortality with those of the table of Deparcieux and those of the table of the Caisse des Retraites:

AGES.	Table RF of the Committee.	Table of Deparcieux.	Table CR of the Caisse des Retraites.	AGES.	Table RF of the Committee.	Table of Deparcieux.	Table CR of the Caisse des Retraites.

TABLE OF MORTALITY

OF
POLICYHOLDERS ASSURED AT DEATH.

DEDUCED FROM THE OBSERVATIONS OF THE
COMPANIES OF THE COMMITTEE.

(Assurances Générales, Union, Nationale
and Phenix.)

LIFE INSURANCE BY STATES.

The following tables show the business transacted in 1896 in the States named by the various life insurance companies. While not attempting to analyze the business in individual States, the tables exhibit the number and amount of policies written, and the premiums and losses of each company. It is simply an exhibit of the volume of business in the States and Territories named, and conveys an approximate idea of the total business.

RICH WITHOUT MONEY.—Many a man is rich without money. Thousands of men with nothing in their pockets, and thousands without even a pocket, are rich. A man born with a good, sound constitution, a good stomach, a good heart, and good limbs and a pretty good headpiece, is rich. Good bones are better than gold; tough muscles than silver; and nerves that flash fire and carry energy to every function are better than houses and land. It is better than a landed estate to have the right kind of a father and mother. Good breeds and hard breeds exist among men as really as among herds and horses. Education

may do much to check evil tendencies or to develop good ones; but it is a great thing to inherit the right proportion of faculties to start with. The man is rich who has a good disposition, who is naturally kind, patient, cheerful, hopeful, and who has a flavor of wit and fun in his composition.

The hardest thing to get on with in this life is a man's own self. A cross, selfish fellow, a desponding and complaining fellow, a timid and care-burdened man—these are all born deformed on the inside. They do not limp, but their thoughts sometimes do.—*Clay Manufacturers' Engineer.*

MORTALITY FROM LA GRIPPE.

The following report upon La Grippe was submitted to The Actuarial Society at its meeting in April 1890:

ACTUARIAL SOCIETY OF AMERICA. }
New York, April 28, 1890.

This society is indebted to Oscar B. Ireland for the suggestion to obtain, as far as practicable, the mortality experience of the life insurance companies from "La Grippe" for the first quarter of 1890. The members made returns for their respective companies at the annual meeting of the society on the 24th inst. at the Astor House. There was not time to tabulate the data then; moreover, some of the details asked for had been inadvertently left out. For this latter reason the number of policies and lives terminated by death are omitted from the table given below. For similar con-

siderations the experience on industrial business is not included. The society appointed a committee consisting of Messrs. Oscar B. Ireland, Rufus W. Weeks and the recording secretary to obtain the statistics more in detail and for a longer period than for the first three months, and to report to the next meeting, which will probably be held in October.

The epidemic appears to have been most fatal among the older policy-holders and those who would have succumbed to some other disease. It may reasonably be expected that the losses for the last nine months of the year by other diseases will be less numerous than is usual, and the total losses for the year will be about normal in amount. The table comprises the returns from twenty-nine companies. Yours truly, ISRAEL C. PIERSON,

Recording Secretary,

THE "CONTRIBUTION FORMULA."

[From The Weekly Statement.]

The "Contribution Formula" has, as Mr. Fackler put it last year, "been used to divide three hundred millions of surplus." The number of separate calculations already made for individual policies must be counted in millions. Whatever simplifies the work is therefore of high importance to those practically concerned.

I expect to describe and illustrate such a simplification at the next (October) meeting of the Actuarial Society. Some actuaries might make use of it now, however, for whom a delay till October would prevent such use this year. I have therefore concluded to make this brief preliminary publication.

Besides the item derived from "excess of loading," the "contribution" consists of a percentage of the "initial reserve," plus a percentage of the "cost of insurance." The computation of the latter item usually gives as much trouble, one way or another, as the rest of the work together. If we denote the item from loading by m , the normal rate of interest (usually four per cent) by i , the actual rate by $i + e$, the percentage of the "cost" by s , the cost itself by C , the "contribution" by D , the initial reserve by I , and the terminal reserve by V , the usual "contribution formula" takes this form:

$$D = m + eI + sC.$$

It is well known, however, that $I(i + e) - C = V$,
whence $C = I(i + e) - V$.

It is but a small step to substitute this in the "Contribution Formula," yet I cannot learn that it has ever before been taken. It gives

$$D = m + eI + sI(i + e) - sV.$$

If we denote $e + s(i + e)$ by t , this gives the new formula,

$$D = m + tI - sV. \quad (1)$$

If possessed of a table of initial and terminal reserves, we can thus avoid wholly the computation of the "cost of insurance," the letters t and s representing percentages which are the same for all classes issued at all dates and at all ages. I will not dwell on the convenience of this method, which must commend itself to every actuary.

Frequently the tables employed give terminal reserves only, or initial reserves only, as the case may be. For use with such tables the following modifications are necessary. Let us denote the net premium by π , the terminal reserve of the preceding year by U , and the initial reserve of the following year by J , so that these relations subsist: $I = U + \pi$, $J = V + \pi$.

When the tables at hand contain terminal reserves only, take $l = m + t\pi$. Our formula (1) becomes in this case

$$D = m + t(U + \pi) - sV, \quad (2)$$

and from this, by substitution, $D = l + tU - sV$. Companies employing terminal reserve tables will find it expedient to use this formula. It provides for a different calculation of the "loading" element, the usual "gain" m being increased by a percentage of the net premium, $t\pi$. The item l , once calculated for any given description of policy and age, remains, like m , the same for policies of different dates.

Again, if the tables comprise initial reserves only, take $k = m + s\pi$. Then, in formula (1), sV becomes $s(J - \pi)$ and we have

$$D = m + tI - sJ + s\pi, \quad (3)$$

whence $D = k + tI - sJ$. As an illustration, suppose that the excess of interest above the normal rate ($e = 0.04$) is one per cent, so that $e = 0.01$; and that the percentage of saving on the cost of insurance is fifteen, so that $s = 0.15$. Then $t = e + s(i + e) = 0.01 + 0.15(1.04) = 0.166$; also, $l = m + 0.166\pi$, $k = m + 0.15\pi$. For tables giving both initial and terminal values, we have from (1)

$$D = m + 0.166I - 0.15V;$$

for tables giving terminal values only,

$$D = l + 0.166U - 0.15V;$$

and for tables giving initial values only,

$$D = k + 0.166I - 0.15J.$$

The following additional suggestion may be of use where companies compute the "gain from loading" by deducting from the loading a percentage of the gross premium for expenses, and crediting a year's interest on the balance. In such cases, if p represents the gross premium, and a the percentage for expense,

$$m = p(1 - a)(1 + i) - \pi(1 + i),$$

It would then follow that

$$l = p(1 - a)(1 + i) - \pi(1 + i - i),$$

$$k = p(1 - a)(1 + i) - \pi(1 + i - s).$$

If a , for example, is 10 per cent, the foregoing illustration would (for companies employing the rule just referred to) be continued thus:

$$l = 0.936p - 0.874\pi$$

$$k = 0.936p - 0.89\pi.$$

Mathematicians will perceive readily that the simplification now introduced may assist in commending the contribution plan to companies—of which there are a number in England and elsewhere—which make their dividend computations once in a given number of years. The paper now preparing for the Actuarial Society will contain consolidated formulæ for such cases. These formulæ attain extreme simplicity when the assumption is made that the policy values increase throughout the period in arithmetical ratio an assumption so close to the truth as to be entirely justifiable for practical uses.

EMORY MCCLINTOCK.

FIRE AND MARINE INSURANCE COMPANIES.

COMPARATIVE EXHIBIT OF TRANSACTIONS FOR FIVE YEARS.

The following tables show the transactions for the past five years of all joint-stock fire and marine insurance companies in the United States, and of mutual companies having more than \$15,000 cash assets, exhibiting all their assets and surplus at the end of each year:

TOTAL FIRE INSURANCE TRANSACTIONS IN THE UNITED STATES.

RECAPITULATION SHOWING AGGREGATES OF CAPITAL, ASSETS, SURPLUS, INCOME AND DISBURSEMENTS OF ALL JOINT STOCK AND MUTUAL FIRE AND MARINE INSURANCE COMPANIES GIVEN IN THE PRECEDING TABLES.

In some of the States enumerated in the following recapitulation a falling off in capital and assets is shown. This arises chiefly from the fact that many of the companies will not report their transactions or financial standing. Most of those that neglect to do so are mutuals, although some stock companies are delinquent in this respect. The apparent loss of capital and assets in these States may not be a loss in fact.

AUTOMATIC SPRINKLERS.

The following is a list of automatic sprinkler systems, with the names and addresses of their manufacturers :

BARNES—Charles Barnes, Cincinnati, O.

BUELL—Charles E. Buell, Springfield, Mass.

CLAPP—Clapp Automatic Fire Extinguisher Company, Chicago, Ill.

DRAPER—George Draper & Sons, Hopedale, Mass.

FOWLER—Thomas Fowler, Lawrence, Mass.

GRAY—Insurers' Automatic Fire Extinguisher Company, New York.

GRINNELL—Providence Steam and Gas Pipe Company, Providence, R. I., manufacturers ; agents,
Automatic Fire Alarm and Extinguisher Company (Limited), 413 Broadway, New York ; 111
Milk street, Boston ; 49 South Fourth street, Philadelphia ; 64 Fifth avenue, Pittsburgh.

GUNN—John Gunn, Webster, Mass.

HARKNESS—Harkness Fire Extinguisher Company, New York.

HILL—John Hill, Columbus, Ga.

HOPEDALE—James R. Gray, Ayer, Mass.

KANE—Kane Automatic Fire Extinguisher Company, Philadelphia, Pa.

KERSTETER—C. W. Kersteter, Chicago, Ill.

MACKEY—Manufacturers' Automatic Sprinkler Company, Syracuse, N. Y.

NAGLE—A. F. Nagle, Chicago, Ill.

NERACHER—Neracher Automatic Sprinkler and Piping Company, Cleveland, O.

NEW YORK AND NEW HAVEN—New York and New Haven Automatic Sprinkler Company, New
York.

SHAFFER—Shaffer Automatic Sprinkler and Fire Alarm Company, Milwaukee, Wis.

SOLLY—Bancroft & Bro. (Agents), Philadelphia, Pa.

SWEET—W. H. D. Sweet, Albany, N. Y.

TURNER—Thomas J. Turner, New York.

WALWORTH—Walworth Manufacturing Company, Boston, Mass.

ANXIETY REMOVED.

"The great man," says Emerson, "is he who in the midst of the crowd keeps with perfect sweetness the serenity of solitude." "How many of the troubles of life," asks Sir John Lubbock, "are insignificant in themselves and easily avoidable?" One of the troubles, or, rather, one of the burdens of life would be removed by means of life assurance. Business life imparts so many difficulties and requires so much concentration of mind, that a man should lock up all his domestic troubles when he leaves home for the counting-house or the workshop. He cannot afford to carry them about with him from door to door, from street to street. His duty to himself, to his family, to his business, to the world, demands entire consecration to the work in hand. The burden upon his back and the load upon his mind concerning his wife and family could be removed by means of a life assurance policy. Why not throw the burden overboard to-day?

LIFE INSURANCE RATIOS.

BEING A SERIES OF

COMPARATIVE EXHIBITS

FOR

LIFE POLICYHOLDERS

SHOWING THE BUSINESS AND FINANCIAL STANDING

OF THE

LIFE INSURANCE COMPANIES

OF THE UNITED STATES.

COMPILED FROM OFFICIAL REPORTS.

INTRODUCTION.

THE reports of the insurance departments are so numerous, and the information contained therein so diversified, that it is a difficult task to pick out the facts in detail regarding every individual company doing business in this country. The active competition in the life insurance business has resulted in the flooding of the country with leaflets issued by individual companies and agents, in which particular claims are urged and invidious comparisons made, often at the expense of the truth. It is the purpose of the following series of exhibits to show every material point given in the sworn reports of the life companies to the various insurance departments, to deduce certain accepted ratios therefrom, and to show the rank of every company relative to each of the several features given.

The New York Insurance Department report is the standard used, although in the case of those companies that do not report to that department, the reports have been obtained from their respective home States. The figures of every company are official, the ratios, however, being prepared especially for this publication. Every company is shown squarely upon its merits upon the authority of their sworn statements.

The success which this publication met with last year is an evidence that policyholders and agents generally are glad to avail themselves of an opportunity to obtain a clear and unbiased analysis of the standing of the life insurance companies in which they are interested, coming from an entirely impartial source. The work has been much extended and improved; the friendly criticisms made of last year's work have been duly weighed, and several new exhibits added, which cannot fail to greatly increase its value in the eyes of the insuring public.

The Exhibits are self-explanatory, being merely a synoptical reproduction in convenient form of the official reports of the companies, with deductions therefrom. In order, however, to bring out more clearly certain points which might, perhaps, be unintelligible to the ordinary policyholder or insurance applicant, a few concise notes have been added, which will doubtless prove of value to those who seek to get at the whole truth.

It is to be remembered that one set of ratios does not indicate the comparative standing of any particular company. It is only by an examination of all that a comparison can be made, and even then perhaps only by a comparison with previous years. For this reason we have presented in each exhibit a comparison with the figures and ratios of the preceding year.

As may easily be imagined, the labor involved in compiling these exhibits has been one of great magnitude and largely, it must be confessed, a labor of love. We trust that this fact will be appreciated by life insurance agents, policyholders and intending insurers, for whose benefit the work is specially designed.

NOTES.

EXHIBIT I. Since the beginning of the current year the American of Philadelphia, Pa., has been placed in the hands of a receiver; the Commercial Union has associated with itself the National Alliance, an assessment company; has had its name changed to Commercial Alliance, and has increased its capital to \$250,000; its secretary is now A. C. Hunt; three new companies are reported as having either commenced business, or being in process of organization; they are the Bankers and Merchants of New York, formerly an assessment company; the Home Life of Salt Lake City, Utah; and the Provident Life of Wheeling, W. Va. This last is an industrial company.

EXHIBIT III. The item of Assets Not Admitted consists of assets whose value cannot be readily ascertained by the insurance company commissioners and are therefore disqualified, although they may be perfectly good investments. Agents' balances, bills receivable, furniture fixtures and safes, advances to agents and commuted commissions are included in this item. The departments also deduct an average loading of twenty per cent of the deferred and unpaid premiums. These amounts are also included in this column.

EXHIBIT IX. Many companies take notes in part payment of premiums, upon which interest is paid, and others loan a part of the policy reserve to their policyholders. The amounts of such notes and loans are, of course, deducted in the final settlement of the policies. The following shows the total of such notes and loans for the year 1888:

Mutual Benefit.....	\$4,984,841	Connecticut Mutual.....	\$1,953,501
Ætna Life.....	1,747,978	Phoenix Mutual.....	968,659
Penn Mutual.....	937,406	New England.....	910,925
Manhattan.....	906,383	Massachusetts.....	810,041
Northwestern.....	789,802	Union Central.....	751,938
Home Life.....	619,097	Union Mutual.....	496,250
New York Life.....	378,874	State Mutual.....	340,395
Provident Life and Trust.....	310,279	National of Vermont.....	240,669
Germania.....	187,638	John Hancock.....	174,951
Travelers.....	164,255	Michigan Mutual.....	164,066
United States.....	154,036	Brooklyn.....	147,822
Berkshire.....	142,720	American.....	135,892
Metropolitan.....	132,939	Mutual of Kentucky.....	88,909
Connecticut General.....	85,729	Life Insurance Company of Virginia....	83,967
Pacific Mutual.....	77,744	Covenant Mutual.....	63,602
Equitable of Iowa.....	45,696	Maryland.....	29,656
Mutual of Baltimore.....	20,106	Provident Savings.....	3,500
Vermont.....	2,259	German Mutual.....	1,800
Presbyterian Ministers.....	1,300	Bankers.....	361

The above makes a total of \$19,055,986, consisting of \$15,603,178 in Premium Notes and \$3,452,808 in Loans to Policyholders.

EXHIBIT XII. The item of All Other Assets is made up chiefly of interest and rents due and accrued.

EXHIBIT XVI. Many companies now transact a large part of their business on plans which involve the deferment of dividends for periods of ten, fifteen or twenty years. This is generally known as the tontine principle, and the departments require companies transacting this class of business to report the surplus specially reserved for it. All the companies marked *d* in this exhibit issue policies, though under varying titles, which embody the tontine principle.

EXHIBIT XVII. The heavy decrease in the assets and surplus of the Phoenix Mutual was caused largely by the retirement of its capital, which was purchased by the policyholders of the company.

EXHIBIT XVIII. The Net Assets are obtained by deducting from the admitted assets all indebtedness outside the amount set apart as the reinsurance reserve.

EXHIBIT XIX. The heavy Ratio of Assets to Liabilities of the first eight companies is caused partly by the fact that the companies are young and possessing \$100,000 or over, the assets are large, while the liabilities are relatively small. Three of the companies transact a term business almost exclusively; under which plan the reserve required is comparatively small.

EXHIBIT XX. The following amounts paid for reinsurance have been deducted from the new premiums of the companies named: Aetna, \$708; Berkshire, \$18,422; Brooklyn, \$2254; Connecticut General, \$2602; Equitable, N. Y., \$762; Imperial, \$137; John Hancock, \$731; Manhattan, \$344; Maryland, \$10,675; Massachusetts, \$45,684; Metropolitan, \$78; Michigan, \$7468; Mutual of Baltimore, \$337; Mutual of Kentucky, \$252; New York Life, \$84,330; Pacific Mutual, \$829; Penn Mutual, \$4628; Phoenix Mutual, \$2078; Provident Savings, \$11,412; Prudential, \$1982; State Mutual, \$1662; Travelers, \$12,841; Union Mutual, \$1625; United States, \$2923; Vermont, \$613.

EXHIBIT XXI. The column of Other Receipts is made up of such items as Discount on Claims paid in advance, Policy Fees and Sundries.

EXHIBIT XXIV. The following amounts were paid out in Annuities by the respective companies in 1889:

New York Life.....	\$1,160,733	Equitable, New York.....	\$208,880
Mutual, New York.....	82,865	Mutual Benefit.....	24,140
Provident Life and Trust.....	21,970	Germania.....	16,590
Mutual, Baltimore.....	13,583	Washington.....	8,759
Manhattan.....	3,257	Presbyterian Ministers.....	5,840
Home Life.....	2,450	Pacific Mutual.....	2,850
Travelers.....	950	Union Central.....	1,012
United States.....	710	American.....	560
Royal Union.....	314	Union Mutual.....	233
John Hancock.....	135	Maryland.....	102
Provident Savings.....	100	Penn Mutual.....	90

This gives a total of \$1,556,043, which makes the footing of the column "Matured Endowments and Annuities" read Matured Endowments, \$9,075,922; Annuities, \$1,556,043.

EXHIBIT XXXVI. The amount of Interest Earnings given here do not include the items of profit and loss, but only the actual interest and rental receipts.

EXHIBITS XXXVII.—XL. There is much uncertainty as to what is the really true basis for comparing expenses. Some companies claim that one ratio is the best, because it suits them, while others prefer a different ratio entirely. In these exhibits some of the chief methods are given. Exhibits XXXVII. and XXXVIII. consider the effect of the total expenditures other than payments to policyholders, while Exhibits XXXIX. and XL. show the ratio of expense after deducting such items as are not under the immediate control of the company, for instance, dividends to stockholders, taxes, expense on real estate and profit and loss.

EXHIBIT XLI. In considering this table, it must be remembered that the greater part of the business now transacted is on plans embodying the Tontine principle, under which dividends are not distributed until the end of periods, varying from ten to twenty years. As only two companies are paying matured policies of this class, and a very small number at that, it follows that the amount paid out in dividends by the majority of the companies is comparatively small. Then, again, there are large numbers of policies issued at lower rates of premium on the non-participating plan. The industrial companies do not pay any dividends on their business. A study of this exhibit, in connection with the increase in surplus in Exhibit XVII., will give a clear idea of the dividend earnings of the several companies.

EXHIBIT XLII. The Not Admitted items of assets added to the Admitted Assets and Surplus give the Gross Assets and Surplus of this table.

EXHIBIT XLI.II. In the case of young companies having capital stock, the Ratio of Total Benefits to Premium Receipts naturally is rather high. The date of commencing business and the amount of capital stock should be considered in this connection. The industrial companies being of necessity conducted at a high rate of expense show a comparatively low ratio.

EXHIBIT I.—LIST OF COMPANIES.

Giving the Names of all United States Life Insurance Companies, together with the Location of the Head Office, the Names of the President and Secretary, the Capital Stock, the Year when Business was Commenced; also showing the Rank of the various companies at January 1, 1890, as to Age:

No.	NAME OF COMPANY AND HEAD OFFICE.	Commenced Business.	Capital Stock.	Name of President.	Name of Secretary.	Rank as to Age.
1	Aetna, Hartford, Conn.....	1850	\$1,250,000	M. G. Bulkley.....	J. L. English.....	12.
